(2) Fail, when collecting a social security number from an individual, to segregate that number on a separate page from the rest of the record, or as otherwise appropriate, in order that the social security number can be more easily redacted pursuant to a valid public records request.

(3) Fail, when collecting a social security number from an individual, to provide, at the time of or prior to the actual collection of the social security number by that agency, that individual, upon request, with a statement of the purpose or purposes for which the social security number is being collected and used.

(4) Use the social security number for any purpose other than the purpose stated.

(5) **(For applicability date — See Editor's note)** Intentionally communicate or otherwise make available to the general public a person's social security number or other identifying information. "Identifying information", as used in this subdivision, shall have the same meaning as in G.S. 14-113.20(b), except it shall not include electronic identification numbers, electronic mail names or addresses, Internet account numbers, Internet identification names, parent's legal surname prior to marriage, or drivers license numbers appearing on law enforcement records. Identifying information shall be confidential and not be a public record under this Chapter. A record, with identifying information removed or redacted, is a public record if it would otherwise be a public record under this Chapter but for the identifying information. The presence of identifying information in a public record does not change the nature of the public record. If all other public records requirements are met under this Chapter, the agency of the State or its political subdivisions shall respond to a public records request, even if the records contain identifying information, as promptly as possible, by providing the public record with the identifying information removed or redacted.

(6) Intentionally print or imbed an individual's social security number on any card required for the individual to access government services.

(7) Require an individual to transmit the individual's social security number over the Internet, unless the connection is secure or the social security number is encrypted.

(8) Require an individual to use the individual's social security number to access an Internet Web site, unless a password or unique personal identification number or other authentication device is also required to access the Internet Web site.

(9) Print an individual's social security number on any materials that are mailed to the individual, unless state or federal law required that the

social security number be on the document to be mailed. A social security number that is permitted to be mailed under this subdivision may not be printed, in whole or in part, on a postcard or other mailer not requiring an envelope, or visible on the envelope or without the envelope having been opened.

(c) Subsection (b) of this section does not apply in the following circumstances:

(1) To social security numbers or other identifying information disclosed to another governmental entity or its agents, employees, or contractors if disclosure is necessary for the receiving entity to perform its duties and responsibilities. The receiving governmental entity and its agents, employees, and contractors shall maintain the confidential and exempt status of such numbers.

(2) To social security numbers or other identifying information disclosed pursuant to a court order, warrant, or subpoena.

(3) To social security numbers or other identifying information disclosed for public health purposes pursuant to and in compliance with Chapter 130A of the General Statutes.

(4) To social security numbers or other identifying information that have been redacted.

(5) To certified copies of vital records issued by the State Registrar and other authorized officials pursuant to G.S. 130A-93(c). The State Registrar may disclose any identifying information other than social security numbers on any uncertified vital record.

(6) To any recorded document in the official records of the register of deeds of the county.

(7) To any document filed in the official records of the courts.

(c1) If an agency of the State or its political subdivisions, or any agent or employee of a government agency, experiences a security breach, as defined in Article 2A of Chapter 75 of the General Statutes, the agency shall comply with the requirements of G.S. 75-65.

(d) No person preparing or filing a document to be recorded or filed in the official records of the register of deeds, the Department of the Secretary of State, or of the courts may include any person's social security, employer taxpayer identification, drivers license, state identification, passport, checking account, savings account, credit card, or debit card number, or personal identification (PIN) code or passwords in that document, unless otherwise expressly required by law or court order, adopted by the State Registrar on records of vital events, or redacted. Any loan closing instruction that requires the inclusion of a person's social security number on a document to be recorded shall be void. Any person who violates this subsection shall be guilty of an infraction, punishable by a fine not to exceed five hundred dollars ($500.00) for each violation.

(e) The validity of an instrument as between the parties to the instrument is not affected by the inclusion of personal information on a document recorded or filed with the official records of the register of deeds or the Department of the Secretary of State. The register of deeds or the Department of the Secretary of State may not reject an instrument presented for recording because the instrument contains an individual's personal information.

(f) Any person has the right to request that a register of deeds or clerk of court remove, from an image or copy of an official record placed on a register of deeds' or court's Internet Website available to the general public or an Internet Web site available to the general public used by a register of deeds or court to display public records by the register of deeds or clerk of court, the person's social security, employer taxpayer identification, drivers license, state identification, passport, checking account, savings account, credit card, or debit card number, or personal identification (PIN) code or passwords contained in that official record. The request must be made in writing, legibly signed by the requester, and delivered by mail, facsimile, or electronic transmission, or delivered in person to the register of deeds or clerk of court. The request must specify the personal information to be redacted, information that identifies the document that contains the personal information and unique information that identifies the location within the document that contains the social security, employer taxpayer identification, drivers license, state identification, passport, checking account, savings account, credit card, or debit card number, or personal identification (PIN) code or passwords to be redacted. The request for redaction shall be considered a public record with access restricted to the register of deeds, the clerk of court, their staff, or upon order of the court. The register of deeds or clerk of court shall have no duty to inquire beyond the written request to verify the identity of a person requesting redaction and shall have no duty to remove redaction for any reason upon subsequent request by an individual or by order of the court, if impossible to do so. No fee will be charged for the redaction pursuant to such request. Any person who requests a redaction without proper authority to do so shall be guilty of an infraction, punishable by a fine not to exceed five hundred dollars ($500.00) for each violation.

(f1) Without a request made pursuant to subsection (f) of this section, a register of deeds or clerk of court may remove from an image or copy of an official record placed on a register of deeds' or clerk of court's Internet Web site available to the general public, or placed on an Internet Web site available to the general public used by a register of deeds or clerk of court to display public records, a person's social security or drivers license number contained in that official record. Registers of deeds and clerks of court may apply optical character recognition technology or other reasonably available technology to official records placed on Internet Web sites available to the general public in order to, in good faith, identify and redact social security and drivers license numbers.

(g) A register of deeds or clerk of court shall immediately and conspicuously post signs throughout his or her offices for public viewing and shall immediately and conspicuously post a notice on any Internet Web site available to the general public used by a register of deeds or clerk of court a notice stating, in substantially similar form, the following:

(1) Any person preparing or filing a document for recordation or filing in the official records may not include a social security, employer taxpayer identification, drivers license, state identification, passport, checking account, savings account, credit card, or debit card number, or personal identification (PIN) code or passwords in the document, unless expressly required by law or court order, adopted by the State Registrar on records of vital events, or redacted so that no more than the last four digits of the identification number is included.

(2) Any person has a right to request a register of deeds or clerk of court to remove, from an image or copy of an official record placed on a register of deeds' or clerk of court's Internet Web site available to the general public or on an Internet Web site available to the general public used by a register of deeds or clerk of court to display public records, any social security, employer taxpayer identification, drivers license, state identification, passport, checking account, savings account, credit card, or debit card number, or personal identification (PIN) code or passwords contained in an official record. The request must be made in writing and delivered by mail, facsimile, or electronic transmission, or delivered in person, to the register of deeds or clerk of court. The request must specify the personal information to be

redacted, information that identifies the document that contains the personal information and unique information that identifies the location within the document that contains the social security, employer taxpayer identification, drivers license, state identification, passport, checking account, savings account, credit card, or debit card number, or personal identification (PIN) code or passwords to be redacted. No fee will be charged for the redaction pursuant to such a request. Any person who requests a redaction without proper authority to do so shall be guilty of an infraction, punishable by a fine not to exceed five hundred dollars ($500.00) for each violation.

(h) Any affected person may petition the court for an order directing compliance with this section. No liability shall accrue to a register of deeds or clerk of court or to his or her agent for any action related to provisions of this section or for any claims or damages that might result from a social security number or other identifying information on the public record or on a register of deeds' or clerk of court's Internet website available to the general public or an Internet Web site available to the general public used by a register of deeds or clerk of court. Session Laws 2005-414, s. 11, provides in part that subdivisions (b)(6), (7), (8) and (9) of this section become effective July 1, 2007. The remainder of the section becomes effective December 1, 2005.

Session Laws 2005-414, s. 10, is a severability clause.

Session Laws 2006-173, s. 2, effective August 1, 2006, but not applicable to identifying information accessible on the Internet Web site of the Department of Secretary of State or by magnetic tapes, electronic data feeds, or electronic file transfer of all records or updates of records on file with the Secretary of State until July 1, 2007, added the last four sentences in subdivision (b)(5).

Session Laws 2006-173, s. 8, provides: "The provisions of G.S. 132-1.10(b)(5) shall not apply to identifying information accessible on the Internet Web site of the Department of the Secretary of State or by magnetic tapes, electronic data feeds, or electronic file transfers of all records or updates of records on file with the Secretary of State until July 1, 2007. Notwithstanding the exemption provided by this section, the Department of the Secretary of State shall, whenever funds are made available, make it a priority to first remove identifying information contained in Uniform Commercial Code financing statements filed with the Department of the Secretary of State under Chapter 25 of the General Statutes no later than June 30, 2007."

Session Laws 2006-173, s. 9, provides: "The Department of the Secretary of State shall study the alternatives and costs for redacting identifying information contained in the records of the Department of the Secretary of State, including the Internet Web site of the Department, and shall report the results of its study to the Office of State Budget and Management and to the House and Senate cochairs of the Joint Appropriations Subcommittee on General Government on or before February 1, 2007. This study shall focus on the most expeditious, cost-effective method of redacting identifying information on or before January 1, 2007."

Effect of Amendments. — Session Laws 2009-355, s. 3, effective October 1, 2009, added subsection (f1).

CASE NOTES

Exemption for Court Orders. — The trial court did not abuse its discretion because its order compelling discovery of an employee's social security number fell squarely within the exemption for court orders in both G.S. 132-1.10, and the original Federal Privacy Act of 1974. The trial court took measures to minimize the potential loss of privacy resulting from the disclosure of the social security number, requiring that all records be purged upon the completion of the lawsuit pursuant to G.S. 1A-1, N.C. R. Civ. P. 26(c). Fulmore v. Howell, 189 N.C. App. 93, 657 S.E.2d 437, 2008 N.C. App. LEXIS 429 (2008).

§ 132-1.11. Economic development incentives.

(a) Assumptions and Methodologies. — Subject to the provisions of this Chapter regarding confidential information and the withholding of public records relating to the proposed expansion or location of specific business or industrial projects when the release of those records would frustrate the purpose for which they were created, whenever a public agency or its subdivision performs a cost-benefit analysis or similar assessment with respect to economic development incentives offered to a specific business or industrial project, the agency or its subdivision must describe in detail the assumptions and methodologies used in completing the analysis or assessment. This description is a public record and is subject to all provisions of this Chapter and other law regarding public records.

(b) Disclosure of Public Records Requirements. — Whenever an agency or its subdivision first proposes, negotiates, or accepts an application for economic development incentives with respect to a specific industrial or business project, the agency or subdivision must disclose that any information obtained by the agency or subdivision is subject to laws regarding disclosure of public records. In addition, the agency or subdivision must fully and accurately describe the instances in which confidential information may be withheld from disclosure, the types of information that qualify as confidential information, and the methods for ensuring that confidential information is not disclosed. (2005-429, s. 1.2.)

Editor's Note. — The number of this section was assigned by the Revisor of Statutes, the number in Session Laws 2005-429, s. 1.2, having been G.S. 132-1.8.

Session Laws 2005-429, s. 3, provides: "The Economic Development Oversight Committee shall study the issue of public disclosure as it relates to economic development efforts. Specifically, the Committee shall study ways of providing the public information about the employment levels, and any changes in employment levels, of businesses that receive economic development incentives from the State or local governments. The Committee may make an interim report on this study, including any recommendations for legislative proposals, to the 2006 Regular Session of the 2005 General Assembly and shall make a final report on this study to the 2007 General Assembly."

§ 132-1.12. Limited access to identifying information of minors participating in local government parks and recreation programs.

(a) A public record, as defined by G.S. 132-1, does not include, as to any minor participating in a park or recreation program sponsored by a local government or combination of local governments, any of the following information as to that minor participant: (i) name, (ii) address, (iii) age, (iv) date of birth, (v) telephone number, (vi) the name or address of that minor participant's parent or legal guardian, or (vii) any other identifying information on an application to participate in such program or other records related to that program.

(b) The county, municipality, and zip code of residence of each participating minor covered by subsection (a) of this section is a public record, with the information listed in subsection (a) of this section redacted.

(c) Nothing in this section makes the information listed in subsection (a) of this section confidential information. (2008-126, s. 1.)

Editor's Note. — Session Laws 2008-126, s. 2, made this section effective July 28, 2008.

§ 132-2. Custodian designated.

The public official in charge of an office having public records shall be the custodian thereof. (1935, c. 265, s. 2.)

§ 132-3. Destruction of records regulated.

(a) Prohibition. — No public official may destroy, sell, loan, or otherwise dispose of any public record, except in accordance with G.S. 121-5 and G.S. 130A-99, without the consent of the Department of Cultural Resources. Whoever unlawfully removes a public record from the office where it is usually kept, or alters, defaces, mutilates or destroys it shall be guilty of a Class 3 misdemeanor and upon conviction only fined not less than ten dollars ($10.00) nor more than five hundred dollars ($500.00).

(b) Revenue Records. — Notwithstanding subsection (a) of this section and G.S. 121-5, when a record of the Department of Revenue has been copied in any manner, the original record may be destroyed upon the order of the Secretary of Revenue. If a record of the Department of Revenue has not been copied, the original record shall be preserved for at least three years. After three years the original record may be destroyed upon the order of the Secretary of Revenue.

(c) Employment Security Commission Records. — Notwithstanding subsection (a) of this section and G.S. 121-5, when a record of the Employment Security Commission has been copied in any manner, the original record may be destroyed upon the order of the Chairman of the Employment Security Commission. If a record of the Commission has not been copied, the original record shall be preserved for at least three years. After three years the original record may be destroyed upon the order of the Chairman of the Employment Security Commission. (1935, c. 265, s. 3; 1943, c. 237; 1953, c. 675, s. 17; 1957, c. 330, s. 2; 1973, c. 476, s. 48; 1993, c. 485, s. 39; c. 539, s. 966; 1994, Ex. Sess., c. 24, s. 14(c); 1997-309, s. 12; 2001-115, s. 2.)

Cross References. — For section further regulating destruction of records, see G.S. 121-5.

Editor's Note. — Session Laws 1997-309, s. 15, provides that the removal and destruction by a register of deeds of any out-of-county birth certificates prior to the effective date of that act is valid, and the register of deeds is not in violation of G.S. 121-5 or G.S. 132-3.

§ 132-4. Disposition of records at end of official's term.

Whoever has the custody of any public records shall, at the expiration of his term of office, deliver to his successor, or, if there be none, to the Department of Cultural Resources, all records, books, writings, letters and documents kept or received by him in the transaction of his official business; and any such person who shall refuse or neglect for the space of 10 days after request made in writing by any citizen of the State to deliver as herein required such public records to the person authorized to receive them shall be guilty of a Class 1 misdemeanor. (1935, c. 265, s. 4; 1943, c. 237; 1973, c. 476, s. 48; 1975, c. 696, s. 1; 1993, c. 539, s. 967; 1994, Ex. Sess., c. 24, s. 14(c).)

If the person who unlawfully possesses public records shall without just cause refuse or neglect for 10 days after a request made in writing by any citizen of the State to deliver such records to their lawful custodian, he shall be guilty of a Class 1 misdemeanor. § 132-5.1. Regaining custody; civil remedies.

(a) The Secretary of the Department of Cultural Resources or his designated representative or any public official who is the custodian of public records which are in the possession of a person or agency not authorized by the custodian or by law to possess such public records may petition the superior court in the county in which the person holding such records resides or in which the materials in issue, or any part thereof, are located for the return of such public records. The court may order such public records to be delivered to the petitioner upon finding that the materials in issue are public records and that such public records are in the possession of a person not authorized by the custodian of the public records or by law to possess such public records. If the order of delivery does not receive compliance, the petitioner may request that the court enforce such order through its contempt power and procedures.

(b) At any time after the filing of the petition set out in subsection (a) or contemporaneous with such filing, the public official seeking the return of the public records may by ex parte petition request the judge or the court in which the action was filed to grant one of the following provisional remedies:

(1) An order directed at the sheriff commanding him to seize the materials which are the subject of the action and deliver the same to the court under the circumstances hereinafter set forth; or

(2) A preliminary injunction preventing the sale, removal, disposal or destruction of or damage to such public records pending a final judgment by the court.

(c) The judge or court aforesaid shall issue an order of seizure or grant a preliminary injunction upon receipt of an affidavit from the petitioner which alleges that the materials at issue are public records and that unless one of said provisional remedies is granted, there is a danger that such materials shall be sold, secreted, removed out of the State or otherwise disposed of so as not to be forthcoming to answer the final judgment of the court respecting the same; or that such property may be destroyed or materially damaged or injured if not seized or if injunctive relief is not granted.

(d) The aforementioned order of seizure or preliminary injunction shall issue without notice to the respondent and without the posting of any bond or other security by the petitioner. (1975, c. 787, s. 2.)

CASE NOTES

Public records and documents are the property of the State and not of the individual who happens, at the moment, to have them in his possession; and when they are deposited in the place designated for them by law, there they must remain, and can be removed only under authority of an act of the legislature and in the manner and for the purpose designated by law. State v. West, 31 N.C. App. 431, 229 S.E.2d 826 (1976), aff'd, 293 N.C. 18, 235 S.E.2d 150 (1977).

Since ownership of bills of indictment is

in the State, it cannot be disposed of except as provided by law. It cannot be forfeited through the oversight, carelessness or even intentional conduct of any of the agents of the State. Thus, the documents in question left the custody of the court in an unlawful manner and legal title thereto cannot pass to the individual who happens, at the moment, to have them in his possession. State v. West, 31 N.C. App. 431, 229 S.E.2d 826 (1976), aff'd, 293 N.C. 18, 235 S.E.2d 150 (1977).

§ 132-6. Inspection and examination of records.

(a) Every custodian of public records shall permit any record in the custodian's custody to be inspected and examined at reasonable times and under reasonable supervision by any person, and shall, as promptly as possible, furnish copies thereof upon payment of any fees as may be prescribed by law. As used herein, "custodian" does not mean an agency that holds the public records of other agencies solely for purposes of storage or safekeeping or solely to provide data processing.

(b) No person requesting to inspect and examine public records, or to obtain copies thereof, shall be required to disclose the purpose or motive for the request.

(c) No request to inspect, examine, or obtain copies of public records shall be denied on the grounds that confidential information is commingled with the requested nonconfidential information. If it is necessary to separate confidential from nonconfidential information in order to permit the inspection, examination, or copying of the public records, the public agency shall bear the cost of such separation on the following schedule:

State agencies after June 30, 1996;
Municipalities with populations of 10,000 or more, counties with populations of 25,000 or more, as determined by the 1990 U.S. Census, and public hospitals in those counties, after June 30, 1997;
Municipalities with populations of less than 10,000, counties with populations of less than 25,000, as determined by the 1990 U.S. Census, and public hospitals in those counties, after June 30, 1998;
Political subdivisions and their agencies that are not otherwise covered by this schedule, after June 30, 1998.

(d) Notwithstanding the provisions of subsections (a) and (b) of this section, public records relating to the proposed expansion or location of specific business or industrial projects may be withheld so long as their inspection, examination or copying would frustrate the purpose for which such public records were created; provided, however, that nothing herein shall be construed to permit the withholding of public records relating to general economic development policies or activities. Once the State, a local government, or the specific business has announced a commitment by the business to expand or locate a specific project in this State or a final decision not to do so and the business has communicated that commitment or decision to the State or local government agency involved with the project, the provisions of this subsection allowing public records to be withheld by the agency no longer apply. Once the provisions of this subsection no longer apply, the agency shall disclose as soon as practicable, and within 25 business days, public records requested for the announced project that are not otherwise made confidential by law. An announcement that a business or industrial project has committed to expand or locate in the State shall not require disclosure of local government records relating to the project if the business has not selected a specific location within the State for the project. Once a specific location for the project has been determined, local government records must be disclosed, upon request, in accordance with the provisions of this section. For purposes of this section, "local government records" include records maintained by the State that relate to a local government's efforts to attract the project.

(e) The application of this Chapter is subject to the provisions of Article 1 of Chapter 121 of the General Statutes, the North Carolina Archives and History Act.

(f) Notwithstanding the provisions of subsection (a) of this section, the inspection or copying of any public record which, because of its age or condition could be damaged during inspection or copying, may be made subject to reasonable restrictions intended to preserve the particular record. (1935, c. 265, s. 6; 1987, c. 835, s. 1; 1995, c. 388, s. 2; 2005-429, s. 1.1.)

CASE NOTES

"Any Person" Includes Corporation. — The General Assembly did not intend to exclude corporate entities from the scope of the phrase "any person" in this section. Advance Publications, Inc. v. City of Elizabeth City, 53 N.C. App. 504, 281 S.E.2d 69 (1981).

What Must Be Made Available for Inspection. — In the absence of clear statutory exemption or exception, documents falling within the definition of "public records" in the Public Records Act must be made available for public inspection. News & Observer Publishing Co. v. Poole, 330 N.C. 465, 412 S.E.2d 7 (1992).

When a county employee wrote to the board of county commissioners about the employee's experience working with the county medical director, when the board was considering whether to renew the director's contract, and recommended another person for the director's job and discussed the employee's interaction with the board regarding the board's decision-making process, disclosure of those parts of the letter discussing the employee's experience working with the director were exempt from disclosure because they were any information in any form gathered by the county with respect to the employee relating to the employee's performance, under G.S. 153A-98(a), as they discussed the employee's ability to work with the director and related to the employee's performance as a county employee. News Reporter Co. v. Columbus County, 184 N.C. App. 512, 646 S.E.2d 390, 2007 N.C. App. LEXIS 1471 (2007).

Parts of the letter to the board of county commissioners recommending a certain person for the medical director's job and discussing the employee's interaction with the board were subject to public disclosure under G.S. 132-1 because G.S. 132-6 did not allow disclosure of this information to be denied on the basis that the information was found in the same document as personnel information that was exempt from disclosure. News Reporter Co. v. Columbus County, 184 N.C. App. 512, 646 S.E.2d 390, 2007 N.C. App. LEXIS 1471 (2007).

Draft reports of individual members of an investigative Commission were subject to disclosure under the Public Records Act. News & Observer Publishing Co. v. Poole, 330 N.C. 465, 412 S.E.2d 7 (1992).

But, the courts have jurisdiction to issue injunctions to prevent the disclosure of documents which are exempt from disclosure under the Public Records Act. North Carolina Elec. Membership Corp. v. North Carolina Dep't of Economic & Community Dev., 108 N.C. App. 711, 425 S.E.2d 440 (1993).

SBI Reports That Become Part of Public Agency's Records. — When State Bureau of Investigation investigative reports become part of the records of a public agency subject to the Public Records Act, they are protected only to the extent that agency's records are protected. News & Observer Publishing Co. v. Poole, 330 N.C. 465, 412 S.E.2d 7 (1992).

When the State Bureau of Investigation submitted investigative reports to an investigative Commission appointed by the president of The

University of North Carolina system of higher education, they became Commission records. As such they were subject to the Public Records Act and had to be disclosed to the same extent that other Commission materials had to be disclosed under that law. News & Observer Publishing Co. v. Poole, 330 N.C. 465, 412 S.E.2d 7 (1992).

OPINIONS OF ATTORNEY GENERAL

Test scores and applications for licensure and related materials received by the North Carolina Board for Licensing Geologists are not subject to public inspection and examination under this section. See opinion of the Attorney General to Charles H. Gardner, Dir., Division of Land Resources Department of Environment, Health, and Natural Resources [now the Department of Environment and Natural Resources], 60 N.C.A.G. 76 (1991).

Licensure Procedures. — The application and other information obtained during the Private Protective Services Board's licensure procedure which are not otherwise exempt by law are public records subject to public inspection and examination under this section. See opinion of Attorney General to W. A. "Doc" Hoggard, III PPS Board Administrator Private Protective Services Board, 1997 N.C.A.G. 50 (8/15/97).

§ 132-6.1. Electronic data-processing records.

(a) After June 30, 1996, no public agency shall purchase, lease, create, or otherwise acquire any electronic data-processing system for the storage, manipulation, or retrieval of public records unless it first determines that the system will not impair or impede the agency's ability to permit the public inspection and examination, and to provide electronic copies of such records. Nothing in this subsection shall be construed to require the retention by the public agency of obsolete hardware or software.

(b) Every public agency shall create an index of computer databases compiled or created by a public agency on the following schedule:

State agencies by July 1, 1996;

Municipalities with populations of 10,000 or more, counties with populations of 25,000 or more, as determined by the 1990 U.S. Census, and public hospitals in those counties, by July 1, 1997;

Municipalities with populations of less than 10,000, counties with populations of less than 25,000, as determined by the 1990 U.S. Census, and public hospitals in those counties, by July 1, 1998;

Political subdivisions and their agencies that are not otherwise covered by this schedule, after June 30, 1998.

The index shall be a public record and shall include, at a minimum, the following information with respect to each database listed therein: a list of the data fields; a description of the format or record layout; information as to the frequency with which the database is updated; a list of any data fields to which public access is restricted; a description of each form in which the database can be copied or reproduced using the agency's computer facilities; and a schedule of fees for the production of copies in each available form. Electronic databases compiled or created prior to the date by which the index must be created in accordance with this subsection may be indexed at the public agency's option. The form, content, language, and guidelines for the index and the databases to be indexed shall be developed by the Office of Archives and History in consultation with officials at other public agencies.

(c) Nothing in this section shall require a public agency to create a computer database that the public agency has not otherwise created or is not otherwise required to be created. Nothing in this section requires a public agency to disclose security features of its electronic data processing systems, information technology systems, telecommunications networks, or electronic security systems, including hardware or software security, passwords, or security standards, procedures, processes, configurations, software, and codes.

(d) The following definitions apply in this section:

(1) Computer database. — A structured collection of data or documents residing in a database management program or spreadsheet software.

(2) Computer hardware. — Any tangible machine or device utilized for the electronic storage, manipulation, or retrieval of data.

(3) Computer program. — A series of instructions or statements that permit the storage, manipulation, and retrieval of data within an electronic data-processing system, together with any associated documentation. The term does not include the original data, or any analysis, compilation, or manipulated form of the original data produced by the use of the program or software.

(4) Computer software. — Any set or combination of computer programs. The term does not include the original data, or any analysis, compilation, or manipulated form of the original data produced by the use of the program or software.

(5) Electronic data-processing system. — Computer hardware, computer software, or computer programs or any combination thereof, regardless of kind or origin. (1995, c. 388, s. 3; 2000-71, s. 1; 2002-159, s. 35(i).)

OPINIONS OF ATTORNEY GENERAL

Computer software developed by the State with the assistance of a private contractor is not a "record," and its disclosure may cause a breach in software security inconsistent with this section. See opinion of Attorney General to Commissioner Janice Faulkner, North Carolina Division of Motor Vehicles, 1998 N.C.A.G. 25 (5/28/98).

The Employment Security Commission was not required to replace confidential social security numbers with a non-identifying code in order to allow the analysis of data in the Common Follow-Up System without revealing confidential, personally identifiable information. See opinion of Attorney General to Mr. T.S. Whitaker, Deputy Chairman for Programs, Employment Security Commission of N.C., 1999 N.C. AG LEXIS 26 (9/20/99).

Confidentiality of Security Features. — Members of the Information Resources Management Commission, or their delegates, who are representatives of other agencies may be present at the committee meeting during which information will be reported about audits of the security practices of information technology systems in specific agencies; the presence of these representatives does not waive the confidentiality of the security features of the systems under subsection (c) of this section. See opinion of Attorney General to Beverly Eaves Perdue, Lieutenant Governor, 2002 N.C.A.G. 28 (11/8/02).

§ 132-6.2. Provisions for copies of public records; fees.

(a) Persons requesting copies of public records may elect to obtain them in any and all media in which the public agency is capable of providing them. No request for copies of public records in a particular medium shall be denied on the grounds that the custodian has made or prefers to make the public records available in another medium. The public agency may assess different fees for different media as prescribed by law.

(b) Persons requesting copies of public records may request that the copies be certified or uncertified. The fees for certifying copies of public records shall be as provided by law. Except as otherwise provided by law, no public agency shall charge a fee for an uncertified copy of a public record that exceeds the actual cost to the public agency of making the copy. For purposes of this subsection, "actual cost" is limited to direct, chargeable costs related to the reproduction of a public record as determined by generally accepted accounting principles and does not include costs that would have been incurred by the public agency if a request to reproduce a public record had not been made. Notwithstanding the provisions of this subsection, if the request is such as to require extensive use of information technology resources or extensive clerical or supervisory assistance by personnel of the agency involved, or if producing the record in the medium requested results in a greater use of information technology resources than that established by the agency for reproduction of the volume of information requested, then the agency may charge, in addition to the actual cost of duplication, a special service charge, which shall be reasonable and shall be based on the actual cost incurred for such extensive use of information technology resources or the labor costs of the personnel providing the services, or for a greater use of information technology resources that is actually incurred by the agency or attributable to the agency. If anyone requesting public information from any public agency is charged a fee that the requester believes to be unfair or unreasonable, the requester may ask the State Chief Information Officer or his designee to mediate the dispute.

(c) Persons requesting copies of computer databases may be required to make or submit such requests in writing. Custodians of public records shall respond to all such requests as promptly as possible. If the request is granted, the copies shall be provided as soon as reasonably possible. If the request is denied, the denial shall be accompanied by an explanation of the basis for the denial. If asked to do so, the person denying the request shall, as promptly as possible, reduce the explanation for the denial to writing.

(d) Nothing in this section shall be construed to require a public agency to respond to requests for copies of public records outside of its usual business hours.

(e) Nothing in this section shall be construed to require a public agency to respond to a request for a copy of a public record by creating or compiling a record that does not exist. If a public agency, as a service to the requester, voluntarily elects to create or compile a record, it may negotiate a reasonable charge for the service with the requester. Nothing in this section shall be construed to require a public agency to put into electronic medium a record that is not kept in electronic medium. (1995, c. 388, s. 3; 2004-129, s. 38.)

CASE NOTES

In Custody. — Trial court did not err in holding that the records the newspaper sought, with limited exceptions, were public records that had to be made available by the town for public inspection and copying; the town could not assert that because the town attorneys, and not the town itself, possessed the records that the records were not public records, as the town attorneys were an agency or subdivision of the town, were public officers, and a ruling otherwise would mean that a town could give records to its town attorneys to shield what otherwise would be public records from disclosure. Womack Newspapers, Inc. v. Town of Kitty Hawk, 181 N.C. App. 1, 639 S.E.2d 96, 2007 N.C. App. LEXIS 81 (2007).

OPINIONS OF ATTORNEY GENERAL

A governmental entity is not required to record its 800 megahertz radio communications. See opinion of Attorney General to Mr. J. Mark Payne, Johnston County Attorney, 2002 N.C. AG LEXIS 3 (1/22/02).

§ 132-7. Keeping records in safe places; copying or repairing; certified copies.

Insofar as possible, custodians of public records shall keep them in fireproof safes, vaults, or rooms fitted with noncombustible materials and in such arrangement as to be easily accessible for convenient use. All public records should be kept in the buildings in which they are ordinarily used. Record books should be copied or repaired, renovated or rebound if worn, mutilated, damaged or difficult to read. Whenever any State, county, or municipal records are in need of repair, restoration, or rebinding, the head of such State agency, department, board, or commission, the board of county commissioners of such county, or the governing body of such municipality may authorize that the records in need of repair, restoration, or rebinding be removed from the building or office in which such records are ordinarily kept, for the length of time required to repair, restore, or rebind them. Any public official who causes a record book to be copied shall attest it and shall certify on oath that it is an accurate copy of the original book. The copy shall then have the force of the original. (1935, c. 265, s. 7; 1951, c. 294.)

§ 132-8. Assistance by and to Department of Cultural Resources.

The Department of Cultural Resources shall have the right to examine into the condition of public records and shall give advice and assistance to public officials in the solution of their problems of preserving, filing and making available the public records in their custody. When requested by the Department of Cultural Resources, public officials shall assist the Department in the preparation of an inclusive inventory of records in their custody, to which shall be attached a schedule, approved by the head of the governmental unit or agency having custody of the records and the Secretary of Cultural Resources, establishing a time period for the retention or disposal of each series of records. Upon the completion of the inventory and schedule, the Department of Cultural Resources shall (subject to the availability of necessary space, staff, and other facilities for such purposes) make available space in its Records Center for the filing of semicurrent records so scheduled and in its archives for noncurrent records of permanent value, and shall render such other assistance as needed, including the microfilming of records so scheduled. (1935, c. 265, s. 8; 1943, c. 237; 1959, c. 68, s. 2; 1973, c. 476, s. 48.)

Legal Periodicals. — For comment, "You Can't Always Get What You Want: A Look at North Carolina's Public Records Law," see 72 N.C.L. Rev. 1527 (1994).

§ 132-8.1. Records management program administered by Department of Cultural Resources; establishment of standards, procedures, etc.; surveys.

A records management program for the application of efficient and economical management methods to the creation, utilization, maintenance, retention, preservation, and disposal of official records shall be administered by the Department of Cultural Resources. It shall be the duty of that Department, in cooperation with and with the approval of the Department of Administration, to establish standards, procedures, and techniques for effective management of public records, to make continuing surveys of paper work operations, and to recommend improvements in current records management practices including the use of space, equipment, and supplies employed in creating, maintaining, and servicing records. It shall be the duty of the head of each State agency and the governing body of each county, municipality and other subdivision of government to cooperate with the Department of Cultural Resources in conducting surveys and to establish and maintain an active, continuing program for the economical and efficient management of the records of said agency, county, municipality, or other subdivision of government. (1961, c. 1041; 1973, c. 476, s. 48.)

§ 132-8.2. Selection and preservation of records considered essential; making or designation of preservation duplicates; force and effect of duplicates or copies thereof.

In cooperation with the head of each State agency and the governing body of each county, municipality, and other subdivision of government, the Department of Cultural Resources shall establish and maintain a program for the selection and preservation of public records considered essential to the operation of government and to the protection of the rights and interests of persons, and, within the limitations of funds available for the purpose, shall make or cause to be made preservation duplicates or designate as preservation duplicates existing copies of such essential public records. Preservation duplicates shall be durable, accurate, complete and clear, and such duplicates made by a photographic, photostatic, microfilm, micro card, miniature photographic, or other process which accurately reproduces and forms a durable medium for so reproducing the original shall have the same force and effect for all purposes as the original record whether the original record is in existence or not. A transcript, exemplification, or certified copy of such preservation duplicate shall be deemed for all purposes to be a transcript, exemplification, or certified copy of the original record. Such preservation duplicates shall be preserved in the place and manner of safekeeping prescribed by the Department of Cultural Resources. (1961, c. 1041; 1973, c. 476, s. 48.)

§ 132-9. Access to records.

(a) Any person who is denied access to public records for purposes of inspection and examination, or who is denied copies of public records, may apply to the appropriate division of the General Court of Justice for an order compelling disclosure or copying, and the court shall have jurisdiction to issue such orders. Actions brought pursuant to this section shall be set down for immediate hearing, and subsequent proceedings in such actions shall be accorded priority by the trial and appellate courts.

(b) In an action to compel disclosure of public records which have been withheld pursuant to the provisions of G.S. 132-6 concerning public records relating to the proposed expansion or location of particular businesses and industrial projects, the burden shall be on the custodian withholding the records to show that disclosure would frustrate the purpose of attracting that particular business or industrial project.

(c) In any action brought pursuant to this section in which a party successfully compels the disclosure of public records, the court shall allow the prevailing party to recover its reasonable attorneys' fees if attributed to those public records, unless the court finds the agency acted with substantial justification in denying access to the public records or the court finds circumstances that would make the award of attorneys' fees unjust.

Any attorneys' fees assessed against a public agency under this section shall be charged against the operating expenses of the agency; provided, however, that the court may order that all or any portion of any attorneys' fees so assessed be paid personally by any public employee or public official found by the court to have knowingly or intentionally committed, caused, permitted, suborned, or participated in a violation of this Article. No order against any public employee or public official shall issue in any case where the public employee or public official seeks the advice of an attorney and such advice is followed.

(d) If the court determines that an action brought pursuant to this section was filed in bad faith or was frivolous, the court shall assess a reasonable attorney's fee against the person or persons instituting the action and award it to the public agency as part of the costs. (1935, c. 265, s. 9; 1975, c. 787, s. 3; 1987, c. 835, s. 2; 1995, c. 388, s. 4; 2005-332, s. 2.)

CASE NOTES

"Any Person" Includes Corporation. — The General Assembly did not intend to exclude corporate entities from the scope of the phrase "any person" in this section. Advance Publications, Inc. v. City of Elizabeth City, 53 N.C. App. 504, 281 S.E.2d 69 (1981).

The Public Records Act does not give a governmental agency the discretionary authority to decline to comply with an order for release of records to the public until a time when the agency has determined that release would be prudent or timely. North Carolina Press Ass'n v. Spangler, 94 N.C. App. 694, 381 S.E.2d 187, cert. denied, 325 N.C. 709, 388 S.E.2d 461 (1989).

The North Carolina Public Records Act does not appear to allow a government entity to bring a declaratory judgment action; only the person making the public records request is entitled to initiate judicial action to seek enforcement of its request. McCormick v. Hanson Aggregates Southeast, Inc., 164 N.C. App. 459, 596 S.E.2d 431 (2004).

A suit brought to compel the disclosure of public records under this section is not a special proceeding, but is a civil action to which the Rules of Civil Procedure apply and which requires service of a summons to commence the action. Charns v. Brown, 129 N.C. App. 635, 502 S.E.2d 7, 1998 N.C. App. 668 (1998), cert. denied, 349 N.C. 228, 515 S.E.2d 701 (1998).

Contract to Buy Practice Not Competitive Health Care Information. — Because nothing suggested that other hospitals or entities were competing for a doctor's medical practice or that a medical center's contract to buy the doctor's practice contained "financial terms" or health care information directly related to financial terms, the contract was not confidential as "competitive health care information" pursuant to G.S. 131E-97.3. Carter-Hubbard Publ'g Co. v. WRMC Hosp. Operating Corp., 178 N.C. App. 621, 633 S.E.2d 682, 2006 N.C. App. LEXIS 1653 (2006).

Public Release of Clemency Records. — Subject matter jurisdiction existed over the question of whether the Governor was required to release certain records relating to applications for clemency pursuant to the North Carolina Public Records Law because resolving the relevant issues required the court to exercise its fundamental responsibility to determine the proper meaning of N.C. Const., Art. III, § 5(6); the case did not raise a political question by requiring the court to intrude upon the Governor's clemency powers, but only required the court to identify where to draw the line between the Executive Branch and the Legislature with respect to clemency, given the separation of powers doctrine. News & Observer Publ'g Co. v. Easley, 182 N.C. App. 14, 641 S.E.2d 698, 2007 N.C. App. LEXIS 490 (2007).

§ 132-10. Qualified exception for geographical information systems.

Geographical information systems databases and data files developed and operated by counties and cities are public records within the meaning of this Chapter. The county or city shall provide public access to such systems by public access terminals or other output devices. Upon request, the county or city shall furnish copies, in documentary or electronic form, to anyone requesting them at reasonable cost. As a condition of furnishing an electronic copy, whether on magnetic tape, magnetic disk, compact disk, or photo-optical device, a county or city may require that the person obtaining the copy agree in writing that the copy will not be resold or otherwise used for trade or commercial purposes. For purposes of this section, publication or broadcast by the news media, real estate trade associations, or Multiple Listing Services operated by real estate trade associations shall not constitute a resale or use of the data for trade or commercial purposes and use of information without resale by a licensed professional in the course of practicing the professional's profession shall not constitute use for a commercial purpose. For purposes of this section, resale at cost by a real estate trade association or Multiple Listing Services operated by a real estate trade association shall not constitute a resale or use of the data for trade or commercial purposes. (1995, c. 388, s. 5; 1997-193, s. 1.)

Editor's Note. — Session Laws 1995, c. 151 which made a qualified public records exception from the public records act for the Geographical information systems of the cities of Concord, Greensboro, High Point and Salisbury and Cabarrus, Cumberland and Gulford Counties was essentially the same as this section.

§ 132-10. Qualified exception for geographical information systems.

Geographical information systems databases and data files developed and operated by counties and cities are public records within the meaning of this Chapter. The county or city shall provide public access to such systems by public access terminals or other output devices. Upon request, the county or city shall furnish copies, in documentary or electronic form, to anyone requesting them at reasonable cost. As a condition of furnishing an electronic copy, whether on magnetic tape, magnetic disk, compact disk, or photo-optical device, a county or city may require that the person obtaining the copy agree in writing that the copy will not be resold or otherwise used for trade or commercial purposes. For purposes of this section, publication or broadcast by the news media, real estate trade associations, or Multiple Listing Services operated by real estate trade associations shall not constitute a resale or use of the data for trade or commercial purposes and use of information without resale by a licensed professional in the course of practicing the professional's profession shall not constitute use for a commercial purpose. For purposes of this section, resale at cost by a real estate trade association or Multiple Listing Services operated by a real estate trade association shall not constitute a resale or use of the data for trade or commercial purposes. (1995, c. 388, s. 5; 1997-193, s. 10.)

Editor's Note. — Session Laws 1995, c. 161, which made a qualified public records exception from the public procedures for the Geographical information systems of the cities of Concord, Greensboro, High Point and Salisbury and Catawba, Cumberland and Guilford Counties was made mostly the same as this section.

(1933, c. 66, s. 1; 1977, c. 730.)

Local Modification. — (As to this Chapter) New Hanover: 1983, c. 365; Tyrrell: 1983, c. 208; 1985, c. 120; 1987, c. 58, s. 1; Tyrrell County Board of Education: 1983, c. 580; 1985, c. 120; 1987, c. 58, s. 2.

§ 133-1.1. Certain buildings involving public funds to be designed, etc., by architect or engineer.

(a) In the interest of public health, safety and economy, every officer, board, department, or commission charged with the duty of approving plans and specifications or awarding or entering into contracts involving the expenditure of public funds in excess of:

(1) Three hundred thousand dollars ($300,000) for the repair of public buildings where such repair does not include major structural change in framing or foundation support systems, or five hundred thousand dollars ($500,000) for the repair of public buildings by The University of North Carolina or its constituent institutions where such repair does not include major structural change in framing or foundation support systems,

(b)(1) On all projects requiring the services of an architect, an architect shall conduct frequent and regular inspections or such inspections as required by contract and shall issue a signed and sealed certificate of compliance to the awarding authority that:

a. The inspections of the construction, repairs or installations have been conducted with the degree of care and professional skill and judgment ordinarily exercised by a member of that profession; and

b. To the best of his knowledge and in the professional opinion of the architect, the contractor has fulfilled the obligations of such plans, specifications, and contract.

OPINIONS OF ATTORNEY GENERAL

Rest Area Structures Are Public Buildings Within the Meaning of This Section. — See opinion of Attorney General to Mr. John Davis, Chief Engineer, State Highway Commission, 40 N.C.A.G. 541 (1970).

Application of Subsection (g). — Subsection (g) of this section, which requires plans and specifications for the construction or repair of certain public buildings to include a "color schedule" for "job-installed finishes," applies to all finished material incorporated into the construction work at the site, such as paint, wall covering, flooring, tile, laminates and paneling. See opinion of Attorney General to Mr. Edward E. Hollowell, Attorney for Wake County Hospital, Inc., 49 N.C.A.G. 78 (1979).

§ 133-2. Drawing of plans by material furnisher prohibited.

It shall be unlawful for any architect, engineer, designer or draftsman, employed on county, State, or city works, to employ or allow any manufacturer, his representatives or agents, to write, plan, draw, or make specifications for such works or any part thereof. (1933, c. 66, s. 2.)

§ 133-3. Specifications to carry competitive items; substitution of materials.

All architects, engineers, designers, or draftsmen, when providing design services, or writing specifications, directly or indirectly, for materials to be used in any city, county or State work, shall specify in their plans the required performance and design characteristics of such materials. However, when it is impossible or impractical to specify the required performance and design characteristics for such materials, then the architect, engineer, designer or draftsman may use a brand name specification so long as they cite three or more examples of items of equal design or equivalent design, which would establish an acceptable range for items of equal or equivalent design. The specifications shall state clearly that the cited examples are used only to denote the quality standard of product desired and that they do not restrict bidders to a specific brand, make, manufacturer or specific name; that they are used only to set forth and convey to bidders the general style, type, character and quality of product desired; and that equivalent products will be acceptable. Where it is impossible to specify performance and design characteristics for such materials and impossible to cite three or more items due to the fact that there are not that many items of similar or equivalent design in competition, then as many items as are available shall be cited. On all city, county or State works, the maximum interchangeability and compatibility of cited items shall be required. The brand of product used on a city, county or State work shall not limit competitive bidding on future works. Specifications may list one or more preferred brands as an alternate to the base bid in limited circumstances. Specifications containing a preferred brand alternate under this section must identify the performance standards that support the preference. Performance standards for the preference must be approved in advance by the owner in an open meeting. Any alternate approved by the owner shall be approved only where (i) the preferred alternate will provide cost savings, maintain or improve the functioning of any process or system affected by the preferred item or items, or both, and (ii) a justification identifying these criteria is made available in writing to the public. Substitution of materials, items, or equipment of equal or equivalent design shall be submitted to the architect or engineer for approval or disapproval; such approval or disapproval shall be made by the architect or engineer prior to the opening of bids. The purpose of this statute is to mandate and encourage free and open competition on public contracts. (1933, c. 66, s. 3; 1951, c. 1104, s. 5; 1993, c. 334, s. 7.1; 2002-107, s. 5; 2002-159, s. 64(c).)

§ 133-4. Violation of Chapter made misdemeanor.

Any person, firm, or corporation violating the provisions of this Chapter shall be guilty of a Class 3 misdemeanor and upon conviction, license to practice his profession in this State shall be withdrawn for a period of one year and he shall only be subject to a fine of not more than five hundred dollars ($500.00). (1933, c. 66, s. 4; 1993, c. 539, s. 969; 1994, Ex. Sess., c. 24, s. 14(c).)

(ii) In any case in which the agency acquires property for a program or project, any person (other than a person who was an occupant of such property at the time it was acquired) who occupies such property on a rental basis for a short term or a period subject to termination when the property is needed for the program or project.

Editor's Note. — The reference to G.S. 133-7(2)(d) found in subdivision (3)a(i) of this section was apparently meant to be to G.S. 133-7(2)d.

CASE NOTES

The definition of "displaced person" does not unconstitutionally discriminate against persons who are forced to move from real property before January 1, 1972, by denying to them but granting to others who moved from the property "on or after January 1, 1972" assistance under the various provisions of the Relocation Assistance Act. Quick v. City of Charlotte, 21 N.C. App. 401, 204 S.E.2d 533, cert. denied, 285 N.C. 590, 205 S.E.2d 723 (1974).

§ 133-8. Moving and related expenses.

(a) Whenever the acquisition of real property for a program or project undertaken by an agency will result in the displacement of any person, such agency shall make a payment to any displaced person, upon application as approved by the head of the agency for:

(1) Actual reasonable expenses in moving himself, his family, business, farm operation, or other personal property;

(2) Actual direct losses of tangible personal property as a result of moving or discontinuing a business or farm operation, but not to exceed an amount equal to the reasonable expenses that would have been required to relocate such property, as determined by the relocation officer; and

(3) Actual reasonable expenses in searching for a replacement business or farm in accordance with criteria established by the lead agency, but not to exceed two thousand five hundred dollars ($2,500); and

(4) Actual reasonable expenses necessary to reestablish a displaced farm, nonprofit organization, or small business at its new site, in accordance with criteria to be established by the lead agency, but not to exceed ten thousand dollars ($10,000).

(b) Any displaced person eligible for payments under subsection (a) of this section who is displaced from a dwelling and who elects to accept the payments authorized by this subsection in lieu of the payments authorized by subsection (a) of this section may receive an expense and dislocation allowance, which shall be determined according to a schedule established by the lead agency.

(c) Any displaced person eligible for payments under subsection (a) of this section who is displaced from the person's place of business or farm operation and who is eligible under criteria established by the lead agency may elect to accept the payment authorized by this subsection in lieu of the payment authorized by subsection (a) of this section. Such payment shall consist of a fixed payment in an amount to be determined according to criteria established by the lead agency, except that such payment shall not be less than one thousand dollars ($1,000) nor more than twenty thousand dollars ($20,000). A person whose sole business at the displacement dwelling is the rental of such property to others shall not qualify for a payment under this subsection. (1971, c. 1107, s. 1; 1989, c. 28, s. 2; 2005-331, s. 1.)

CASE NOTES

Relocation Payments in Discretion of Agency Officials. — Subsections (a), (b), and (c) of this section commit the matter of relocation assistance payments absolutely and solely to the discretion of the officials of the agency involved. This section confers no right either to receive such payments or to demand that the amount of payments, if granted, be calculated other than as the agency officials determine. Henry v. North Carolina Dep't of Transp., 44 N.C. App. 170, 260 S.E.2d 438 (1979), cert. denied, 299 N.C. 330, 265 S.E.2d 396 (1980).

§ 133-9. Replacement housing for homeowners.

(a) In addition to payments otherwise authorized by this Article and subject to the provisions of G.S. 133-10.1 the agency shall make an additional payment not in excess of twenty-two thousand five hundred dollars ($22,500) to any displaced person who is displaced from a dwelling actually owned and occupied by such displaced person for not less than 180 days prior to the initiation of negotiations for the acquisition of the property. Such additional payment shall include the following elements:

(1) The amount, if any, which when added to the acquisition cost of the dwelling acquired by the agency, equals the reasonable cost of a comparable replacement dwelling. All determinations required to carry out this section shall be made in accordance with standards established by the lead agency.

(2) The amount, if any, which will compensate such displaced person for any increased interest costs and other debt service costs which such person is required to pay for financing the acquisition of any such comparable replacement dwelling. Such amount shall be paid only if the dwelling acquired by the agency was encumbered by a bona fide mortgage which was a valid lien on such dwelling for not less than 180 days immediately prior to the initiation of negotiations for the acquisition of such dwelling in accordance with criteria to be established by the lead agency.

(3) Reasonable expenses incurred by such displaced person for evidence of title, recording fees, and other closing costs incident to the purchase of the replacement dwelling, but not including prepaid expenses.

(b) The additional payment authorized by this section shall be made only to a displaced person who purchases and occupies a comparable replacement dwelling within one year after the date on which such person receives final payment from the agency for the acquired dwelling, except that the agency may extend such period for good cause. If such period is extended, the payment under this section shall be based on the costs, of relocating the person to a comparable replacement dwelling within one year of such date.

(c) The agency may, in cooperation with any federal agency upon application by a mortgagee, insure any mortgage (including advances during construction) on a comparable replacement dwelling executed by a displaced person assisted under this section, which mortgage is eligible for insurance under any federal law administered by such agency notwithstanding any requirements under such law relating to age, physical condition, or other personal characteristics of eligible mortgagors, and may make commitments for the insurance of such mortgage prior to the date of execution of the mortgage. (1971, c. 1107, s. 1; 1981, c. 101, s. 1; 1989, c. 28, s. 3.)

§ 133-10. Replacement housing for tenants and certain others.

(a) In addition to amounts otherwise authorized by this Article, the agency shall make a payment to or for any displaced person displaced from any dwelling not eligible to receive a payment under G.S. 133-9 which dwelling was actually and lawfully occupied by such displaced person for not less than 90 days immediately prior to (1) the initiation of negotiations for acquisition of such dwelling, or (2) in any case in which displacement is not a direct result of acquisition, such other event as the agency shall prescribe. Such payment shall consist of the amount necessary to enable such person to lease or rent for a period not to exceed 42 months, a comparable replacement dwelling, but not to exceed five thousand two hundred fifty dollars ($5,250). At the discretion of the agency, a payment under this subsection may be made in periodic installments. Computation of a payment under this subsection to a low-income displaced person for a comparable replacement dwelling shall take into account such person's income.

(b) Any person eligible for a payment under subsection (a) of this section may elect to apply such payment to a down payment on, and other incidental expenses pursuant to, the purchase of a comparable replacement dwelling. Any such person may, at the discretion of the agency, be eligible under this subsection for the maximum payment allowed under subsection (a), except that, in the case of a displaced homeowner who has owned and occupied the displacement dwelling for at least 90 days but not more than 180 days immediately prior to the initiation of negotiations for the acquisition of such dwelling, such payment shall not exceed the payment such person would otherwise have received under G.S. 133-9(a) had the person owned and occupied the displacement dwelling 180 days prior to the initiation of such negotiations. (1971, c. 1107, s. 1; 1981, c. 101, s. 2; 1989, c. 28, s. 4.)

§ 133-10.1. Authorization for replacement housing.

(a) As a last resort, if a project cannot proceed to actual construction because of the lack of availability of comparable sale or rental housing, or because required federal-aid payments are in excess of those otherwise authorized by this Article, the State of North Carolina and its agencies may:

(1) Undertake through private contractors, after competitive bidding, to provide for the construction and renovation of the necessary housing,

(2) Purchase sites and improvements after publishing in a newspaper of general circulation in the county in which such sites are located a public notice of the proposed transaction, including a description of the sites and improvements to be purchased, the owner or owners thereof, the terms of the transaction including the price and date of the proposed purchase, and a brief description of the factors upon which the agency has based its determination that such housing is not otherwise available, and

(3) Sell or lease the premises to the displaced person upon such terms as the agency deems necessary.

(4) Exceed the limitation in G.S. 133-9(a) and 133-10.

(b) Cities, counties and other local governments and agencies may comply with and provide assistance authorized under the Federal Uniform Relocation and Real Property Acquisition Policy Act of 1970, as amended, for last resort housing. (1975, c. 515; 1981, c. 101, ss. 3, 4; 1989, c. 28, s. 5.)

§ 133-11. Relocation assistance advisory services.

(a) Programs or projects undertaken by an agency shall be planned in a manner that (1) recognizes, at any early stage in the planning of such programs or projects and before the commencement of any actions which will cause displacements of individuals, families, businesses, and farm operations, and (2) provides for the resolution of such problems in order to minimize adverse impacts on displaced persons and to expedite program or project advancement and completion.

(b) Agencies shall ensure that the relocation assistance advisory services described in subsection (c) of this section are made available to all persons displaced by such agency. If such agency determines that any person occupying property immediately adjacent to the property where the displacing activity occurs suffers substantial economic injury as a result thereof, the agency may make such advisory services available to that person.

(c) Each relocation assistance advisory program required by subsection (b) of this section shall include such measures, facilities, or services as may be necessary or appropriate in order to:

(1) Determine, and make timely recommendations on, the needs and preferences, if any, of displaced persons for relocation assistance;

A governmental agency may order a temporary suspension of any contractor, subcontractor, or supplier or subsidiary or affiliate thereof charged in an indictment or an information with engaging in any conspiracy, combination, or other unlawful act in restraint of trade or of similar charges in any federal court or a court of this or any other state until the charges are resolved.

The provisions of this section are in addition to and not in derogation of any other powers and authority of any governmental agency. (1981, c. 764, s. 1.)

(c) The cause of action shall accrue at the time of discovery of the conspiracy by the governmental agency which entered into the contract. The action shall be brought within six years of the date of accrual of the cause of action. (1981, c. 764, s. 1; 1993, c. 441, s. 1.)

§ 133-29. Reporting of violations of G.S. 75-1 or 75-2.

Any person having knowledge of acts committed in violation of G.S. 75-1 or 75-2 involving a contract with a governmental agency who reports the same to that governmental agency and assists in any resulting proceedings may receive a reward as set forth herein. The governmental agency is authorized to pay to the informant up to twenty-five percent (25%) of any civil damages that it collects from the violator named by the informant by reason of the information furnished by the informant. The information and knowledge to be reported includes but is not limited to any agreement or proposed agreement or offer or request for agreement among contractors, subcontractors or suppliers to rotate bids, to share the profits with a contractor not the low bidder, to sublet work in advance of bidding as a means of preventing competition, to refrain from bidding, to submit prearranged bids, to submit complimentary bids, to set up territories to restrict competition, or to alternate bidding. (1981, c. 764, s. 1.)

§ 133-30. Noncollusion affidavits.

Noncollusion affidavits may be required by rule of any governmental agency from all prime bidders. Any such requirement shall be set forth in the invitation to bid. Failure of any bidder to provide a required affidavit to the governmental agency shall be grounds for disqualification of his bid. The provisions of this section are in addition to and not in derogation of any other powers and authority of any governmental agency. (1981, c. 764, s. 1.)

§ 133-31. Perjury; punishment.

Any person who shall willfully commit perjury in any affidavit taken pursuant to this Article or rules pursuant thereto shall be guilty of a felony and shall be punished as a Class I felon. (1981, c. 764, s. 1; 1993, c. 539, s. 1307; 1994, Ex. Sess., c. 24, s. 14(c).)

It shall also be unlawful for any officer or employee of a governmental agency who is charged with the duty of:

willfully to receive or accept any such gift or favor.

(b) A violation of subsection (a) shall be a Class 1 misdemeanor.

(c) Gifts or favors made unlawful by this section shall not be allowed as a deduction for North Carolina tax purposes by any contractor, subcontractor or supplier or officers or employees thereof.

(d) This section is not intended to prevent a gift a public servant would be permitted to accept under G.S. 138A-32, or the gift and receipt of honorariums for participating in meetings, advertising items or souvenirs of nominal value, or meals furnished at banquets. This section is not intended to prevent any contractor, subcontractor, or supplier from making donations to professional organizations to defray meeting expènses where governmental employees are members of such professional organizations, nor is it intended to prevent governmental employees who are members of professional organizations from participation in all scheduled meeting functions available to all members of the professional organization attending the meeting. This section is also not intended to prohibit customary gifts or favors between employees or officers and their friends and relatives or the friends and relatives of their spouses, minor children, or members of their household where it is clear that it is that relationship rather than the business of the individual concerned which is the motivating factor for the gift or favor. However, all such gifts knowingly made or received are required to be reported by the donee to the agency head if the gifts are made by a contractor, subcontractor, or supplier doing business directly or indirectly with the governmental agency employing the recipient of such a gift. (1981, c. 764, s. 1; 1987, c. 399, s. 1; 1993, c. 539, s. 970; 1994, Ex. Sess., c. 24, s. 14(c); 2007-348, s. 18.)

§ 133-33. Cost estimates; bidders' lists.

Any governmental agency responsible for letting public contracts may promulgate rules concerning the confidentiality of:

(1) The agency's cost estimate for any public contracts prior to bidding; and

(2) The identity of contractors who have obtained proposals for bid purposes for a public contract.

If the agency's rules require that such information be kept confidential, an employee or officer of the agency who divulges such information to any unauthorized person shall be subject to disciplinary action. This section shall not be construed to require that cost estimates or bidders' lists be kept confidential. (1981, c. 764, s. 1.)

ARTICLE 1.

Retirement System for Teachers and State Employees.

§ 135-1. Definitions.

The following words and phrases as used in this Chapter, unless a different meaning is plainly required by the context, shall have the following meanings:

(1) "Accumulated contributions" shall mean the sum of all the amounts deducted from the compensation of a member and accredited to his individual account in the annuity savings fund, together with regular interest thereon as provided in G.S. 135-8.

(2) "Actuarial equivalent" shall mean a benefit of equal value when computed upon the basis of such mortality tables as shall be adopted by the Board of Trustees, and regular interest.

(3) "Annuity" shall mean payments for life derived from that "accumulated contribution" of a member. All annuities shall be payable in equal monthly installments.

(4) "Annuity reserve" shall mean the present value of all payments to be made on account of any annuity or benefit in lieu of any annuity, computed upon the basis of such mortality tables as shall be adopted by the Board of Trustees, and regular interest.

(5) "Average final compensation" shall mean the average annual compensation of a member during the four consecutive calendar years of

membership service producing the highest such average; but shall not include any compensation, as determined by the Board of Trustees, for the reimbursement of expenses or payments for housing or any other allowances whether or not classified as salary and wages. In the event a member is or has been in receipt of a benefit under the provisions of G.S. 135-105 or G.S. 135-106, the compensation used in the calculation of "average final compensation" shall be the higher of compensation of the member under the provisions of this Article or compensation used in calculating the payment of benefits under Article 6 of this Chapter as adjusted for percentage increases in the post disability benefit.

(6) "Beneficiary" shall mean any person in receipt of a pension, an annuity, a retirement allowance or other benefit as provided by this Chapter.

(7) "Board of Trustees" shall mean the Board provided for in G.S. 135-6 to administer the Retirement System.

(7a) a. "Compensation" shall mean all salaries and wages prior to any reduction pursuant to sections 125, 401(k), 403(b), 414(h)(2), and 457 of the Internal Revenue Code, not including any terminal payments for unused sick leave, derived from public funds which are earned by a member of the Retirement System for service as an employee or teacher in the unit of the Retirement System for which he is performing full-time work. In addition to the foregoing, "compensation" shall include:

1. Performance-based compensation (regardless of whether paid in a lump sum, in periodic installments, or on a monthly basis);
2. Conversion of additional benefits to salary (additional benefits such as health, life, or disability plans), so long as the benefits are other than mandated by State law or regulation;
3. Payment of tax consequences for benefits provided by the employer, so long as they constitute an adjustment or increase in salary and not a "reimbursement of expenses";
4. Payout of vacation leave so long as such payouts are permitted by applicable law and regulation;
5. Employee contributions to eligible deferred compensation plans; and
6. Effective July 1, 2009, payment of military differential wages.

b. "Compensation" shall not include any payment, as determined by the Board of Trustees, for the reimbursement of expenses or payments for housing or any other allowances whether or not classified as salary and wages. "Compensation" includes all special pay contribution of annual leave made to a 401(a) Special Pay Plan for the benefit of an employee. Notwithstanding any other provision of this Chapter, "compensation" shall not include:

1. Supplement/allowance provided to employee to purchase additional benefits such as health, life, or disability plans;
2. Travel supplement/allowance (nonaccountable allowance plans);
3. Employer contributions to eligible deferred compensation plans;
4. Employer-provided fringe benefits (additional benefits such as health, life, or disability plans);
5. Reimbursement of uninsured medical expenses;
6. Reimbursement of business expenses;
7. Reimbursement of moving expenses;

8. Reimbursement/payment of personal expenses;
9. Incentive payments for early retirement;
10. Bonuses paid incident to retirement;
11. Contract buyout/severance payments; and
12. Payouts for unused sick leave.

c. In the event an employer reports as "compensation" payments not specifically included or excluded as "compensation", such payments shall be "compensation" for retirement purposes only if the employer pays the Retirement System the additional actuarial liability created by such payments.

(8) "Creditable service" shall mean the total of "prior service" plus "membership service" plus service, both noncontributory and purchased, for which credit is allowable as provided in G.S. 135-4. In no event, however, shall "creditable service" be deemed "membership service" for the purpose of determining eligibility for benefits accruing under this Chapter.

(9) "Earnable compensation" shall mean the full rate of the compensation that would be payable to a teacher or employee if he worked in full normal working time. In cases where compensation includes maintenance, the Board of Trustees shall fix the value of that part of the compensation not paid in money.

(10) "Employee" shall mean all full-time employees, agents or officers of the State of North Carolina or any of its departments, bureaus and institutions other than educational, whether such employees are elected, appointed or employed: Provided that the term "employee" shall not include any person who is a member of the Consolidated Judicial Retirement System, any member of the General Assembly or any part-time or temporary employee. Notwithstanding any other provision of law, "employee" shall include all employees of the General Assembly except participants in the Legislative Intern Program, pages, and beneficiaries in receipt of a monthly retirement allowance under this Chapter who are reemployed on a temporary basis. "Employee" also includes any participant whose employment is interrupted by reason of service in the Uniformed Services, as that term is defined in section 4303(16) of the Uniformed Services Employment and Reemployment Rights Act, Public Law 103-353, if that participant was an employee at the time of the interruption; if the participant does not return immediately after that service to employment with a covered employer in this System, then the participant shall be deemed "in service" until the date on which the participant was first eligible to be separated or released from his or her involuntary military service. In all cases of doubt, the Board of Trustees shall determine whether any person is an employee as defined in this Chapter. "Employee" shall also mean every full-time civilian employee of the Army National Guard and Air National Guard of this State who is employed pursuant to section 709 of Title 32 of the United States Code and paid from federal appropriated funds, but held by the federal authorities not to be a federal employee: Provided, however, that the authority or agency paying the salaries of such employees shall deduct or cause to be deducted from each employee's salary the employee's contribution in accordance with applicable provisions of G.S. 135-8 and remit the same, either directly or indirectly, to the Retirement System; coverage of employees described in this sentence shall commence upon the first day of the calendar year or fiscal year, whichever is earlier, next following the date of execution of an agreement between the Secretary of Defense of the United States and

the Adjutant General of the State acting for the Governor in behalf of the State, but no credit shall be allowed pursuant to this sentence for any service previously rendered in the above-described capacity as a civilian employee of the National Guard: Provided, further, that the Adjutant General, in his discretion, may terminate the Retirement System coverage of the above-described National Guard employees if a federal retirement system is established for such employees and the Adjutant General elects to secure coverage of such employees under such federal retirement system. Any full-time civilian employee of the National Guard described above who is now or hereafter may become a member of the Retirement System may secure Retirement System credit for such service as a National Guard civilian employee for the period preceding the time when such employees became eligible for Retirement System coverage by paying to the Retirement System an amount equal to that which would have constituted employee contributions if he had been a member during the years of ineligibility, plus interest. Employees of State agencies, departments, institutions, boards, and commissions who are employed in permanent job positions on a recurring basis and who work 30 or more hours per week for nine or more months per calendar year are covered by the provisions of this subdivision. On and after August 1, 2001, a person who is a nonimmigrant alien and who otherwise meets the requirements of this subdivision shall not be excluded from the definition of "employee" solely because the person holds a temporary or time-limited visa.

(11) "Employer" shall mean the State of North Carolina, the county board of education, the city board of education, the State Board of Education, the board of trustees of the University of North Carolina, the board of trustees of other institutions and agencies supported and under the control of the State, or any other agency of and within the State by which a teacher or other employee is paid.

(11a) "Filing" when used in reference to an application for retirement shall mean the receipt of an acceptable application on a form provided by the Retirement System.

(11b) "Law-Enforcement Officer" means a full-time paid employee of an employer who is actively serving in a position with assigned primary duties and responsibilities for prevention and detection of crime or the general enforcement of the criminal laws of the State of North Carolina or serving civil processes, and who possesses the power of arrest by virtue of an oath administered under the authority of the State.

(12) "Medical board" shall mean the board of physicians provided for in G.S. 135-6.

(13) "Member" shall mean any teacher or State employee included in the membership of the System as provided in G.S. 135-3 and 135-4.

(17) "Prior service" shall mean service rendered prior to the date of establishment of the Retirement System for which credit is allowable

under G.S. 135-4; provided, persons now employed by the Board of Transportation shall be entitled to credit for employment in road maintenance by the various counties and road districts prior to 1931.

(18) "Public school" shall mean any day school conducted within the State under the authority and supervision of a duly elected or appointed city or county school board, and any educational institution supported by and under the control of the State.

(19) "Regular interest" shall mean interest compounded annually at such a rate as shall be determined by the Board of Trustees in accordance with G.S. 135-7, subsection (b).

(20) **(For applicability, see Editor's note)** "Retirement" means the termination of employment and the complete separation from active service with no intent or agreement, express or implied, to return to service. A retirement allowance under the provisions of this Chapter may only be granted upon retirement of a member. In order for a member's retirement to become effective in any month, the member must render no service, including part-time, temporary, substitute, or contractor service, at any time during the six months immediately following the effective date of retirement. For purposes of this subdivision, service as a member of a school board or as an unpaid bona fide volunteer in a local school administrative unit shall not be considered service.

(21) "Retirement allowance" shall mean the sum of the "annuity and the pensions," or any optional benefit payable in lieu thereof.

(22) "Retirement System" shall mean the Teachers' and State Employees' Retirement System of North Carolina as defined in G.S. 135-2.

(23) "Service" shall mean service as a teacher or State employee as described in subdivision (10) or (25) of this section.

In all cases of doubt, the Board of Trustees, hereinbefore defined, shall determine whether any person is a teacher as defined in this Chapter. On and after August 1, 2001, a person who is a nonimmigrant alien and who otherwise meets the requirements of this subdivision shall not be excluded from the definition of "teacher" solely because the person holds a temporary or time-limited visa. Notwithstanding the foregoing, the term "teacher" shall not include any nonimmigrant alien employed in elementary or secondary public schools (whether employed in a full-time, part-time, temporary, permanent, or substitute teacher position) and participating in an exchange visitor program designated by the United States Department of State pursuant to 22 C.F.R. Part 62 or by the United States Department of Homeland Security pursuant to 8 C.F.R. Part 214.2(q).

(26) "Year" as used in this Article shall mean the regular fiscal year beginning July 1 and ending June 30 in the following calendar year

This open enrollment period shall begin February 1, 2008, and end May 31, 2008. The Retirement Systems Division shall send notice by U.S. mail of the open enrollment period to all retirees who elected not to be covered under this benefit or who failed to make any election at the time of their retirement and shall send a second notice by U.S. mail to any such retiree who fails to make an election within 60 days of the notification of the open enrollment period. Notice, at minimum, shall consist of notification of the open enrollment period and the consequences of failure to respond within the specified time frames, informational materials explaining the benefit program and the associated costs, and a preprinted personalized enrollment application to facilitate the enrollment process indicating each individual retiree's contribution rate. The contribution rate for retirees electing coverage during the open enrollment period shall be increased by eleven and one-tenth percent (11.1%) the rate established for retirees who elected coverage when first eligible, at retirement. For retirees electing coverage during this open enrollment period, coverage shall become effective the first of the month following the month in which the election of coverage is received by the Retirement Systems Division but not before February 1, 2008. Contribution rates for coverage shall be based upon the retiree's nearest age as of the effective date of coverage and shall begin by deduction from the retiree's net monthly retirement allowance in the month in which coverage becomes effective. Coverage elected by retirees during this open enrollment period shall be subject to all other laws and rules and regulations adopted by the Board of Trustees governing the Contributory Death Benefit for Retired Members."

The member shall suffer no diminution of retirement average final compensation based on being on furlough, and the retirement average final compensation shall be calculated based on the undiminished compensation. During a furlough period, the employer shall pay both employee and employer contributions to the Retirement Systems Division or ORP on behalf of the furloughed employee as though the employee were in active service.

"(2) A member of the State Health Plan for Teachers and State Employees shall be considered eligible for coverage under the Plan on the same basis as on the workday immediately preceding the furlough. The public employer shall pay contributions on behalf of the furloughed public employee as though the employee were in active service.

CASE NOTES

Actuarial Equivalent. — The actuarial value includes interest and there was no double recovery where the court was following the definition of actuarial equivalent as prescribed by this section and included interest in the underpayment award. Faulkenbury v. Teachers' & State Emps. Retirement Sys., 345 N.C. 683, 483 S.E.2d 422 (1997).

Retirement Law Is Valid. — It is the verdict of the General Assembly, embodied and expressed in this and the following sections, that the retirement plan has a definite relation to the just and efficient administration of the public school system which brings it within the scope of constitutional authority. Under the mandatory provisions of the retirement law, the public policy thus expressed is applied to the entire public school system and its administration at the hands of every administrative unit within it. Bridges v. City of Charlotte, 221 N.C. 472, 20 S.E.2d 825 (1942).

The retirement law is sufficiently invested with a public purpose and is a constitutional and valid expression of the legislative will, both generally and in its application to the local administrative units with which it deals. Bridges v. City of Charlotte, 221 N.C. 472, 20 S.E.2d 825 (1942).

Allowances to which a member of the Teachers' and State Employees' Retirement System is entitled upon retirement constitute compensation for public services previously rendered and do not violate former N.C. Const., Art. I, § 32 (now N.C. Const., Art. I, § 16). Harrill v. Teachers' & State Employees' Retirement Sys., 271 N.C. 357, 156 S.E.2d 702 (1967).

The purpose of this and the following sections is to provide benefits on retirement for the teachers in the public school system of the State and for State employees. It is based not only upon the principle of justice to poorly paid State employees, but also upon the philosophy that a measure of freedom from apprehension of old age and disability will add to the immediate efficiency of those engaged in carrying on a work of first importance to society and the State. Bridges v. City of Charlotte, 221 N.C. 472, 20 S.E.2d 825 (1942); Powell v. Board of Trustees, 3 N.C. App. 39, 164 S.E.2d 80 (1968).

Under G.S. 135-2, the Retirement System for Teachers and State Employees was established for the purpose of providing retirement allowances and other benefits under the provisions of G.S. 135-1 et seq., for teachers and State employees of the State of North Carolina. State Employees Ass'n of N.C., Inc. v. State, 154 N.C. App. 207, 573 S.E.2d 525, 2002 N.C. App. LEXIS 1451 (2002).

The intent of this Chapter is not to exclude, but to include, State employees under an umbrella of protections designed to provide maximum security in their work environment and to afford a measure of freedom from apprehension of old age and disability. Stanley v. Retirement & Health Benefits Div., 55 N.C. App. 588, 286 S.E.2d 643, cert. denied, 305 N.C. 587, 292 S.E.2d 571 (1982).

The Teachers' and State Employees' Retirement System of North Carolina is an agency or instrumentality of the State. Stanley v. Retirement & Health Benefits Div., 66 N.C. App. 122, 310 S.E.2d 637, cert. denied and appeal dismissed, 310 N.C. 626, 315 S.E.2d 692 (1984).

Employee Status When Job Sharing. — Petitioner remained an "employee" under subsection (10) during the period of time when she participated in a job sharing program and was working full time and thus was entitled to credit for those years of service as reflected in her retirement records. Wiebenson v. Board of Trustees, 345 N.C. 734, 483 S.E.2d 153 (1997).

Transfer of Local Creditable Service to State System. — In determining the date of eligibility of state employee petitioner to purchase retirement credits under Teachers' and State Employees' Retirement System for time spent in the military service under repealed

G.S. 135-4(f)(6), petitioner could not include service in the Local Governmental Employees' Retirement System. Worrell v. North Carolina Dep't of State Treas., 333 N.C. 528, 427 S.E.2d 871 (1993).

Interest Accrual and Compounding. — Consistent with the purposes of subdivision (19) of this section and G.S. 128-21(18), underpayments were found to accrue interest from the date they became due. Furthermore, court found that statutes entitled beneficiaries to interest, not only on the principle due, but also on the accrued or earned interest. Faulkenbury v. Teachers' & State Employees' Ret. Sys., 133 N.C. App. 587, 515 S.E.2d 743, 1999 N.C. App. LEXIS 615 (1999), cert. denied, 351 N.C. 102, 540 S.E.2d 358 (1999).

Postjudgment Interest Not Awardable Against State. — Retirees under the state and local government retirement system were not entitled to post-judgment interest on retroactive disability benefits, because the state retirement statutes contain no provision for the allowance of such interest. Faulkenbury v. Teachers' & State Employees' Ret. Sys., 132 N.C. App. 137, 510 S.E.2d 675, 1999 N.C. App. LEXIS 89 (1999), cert. denied, 350 N.C. 379, 536 S.E.2d 620 (1999).

Retiree Not Entitled to Tax-Free Pension. — Retiree was not entitled to a tax free pension because he withdrew his contributions to the Consolidated Judicial Retirement System and the Teachers' and State Employees Retirement System and left public employment before August 12, 1989, and thus he was not vested on that date; although the retiree later returned to public employment, became vested, and repaid the money he had previously withdrawn, when read together, G.S. 135-4 and G.S. 135-5 made clear that a member who left state service and withdrew contributions in the retirement system had no rights to any benefits within the system except for the right to repay previously withdrawn contributions as provided in G.S. 135-4. The repayment served only to increase the retiree's years of service creditable. Cashwell v. Dep't of State Treasurer, Ret. Sys. Div., — N.C. App. —, 675 S.E.2d 73, 2009 N.C. App. LEXIS 452 (2009).

Applied in Faulkenbury v. Teachers' & State Employees' Ret. Sys., 133 N.C. App. 587, 515 S.E.2d 743, 1999 N.C. App. LEXIS 615 (1999).

§ 135-1.1. Licensing and examining boards.

(a) Any State board or agency charged with the duty of administering any law relating to the examination and licensing of persons to practice a profession, trade or occupation, in its discretion, may elect on or before July 1, 1983, by an appropriate resolution of said board, to cause its employees so employed prior to July 1, 1983 to become members of the Teachers' and State Employees' Retirement System. Such Retirement System coverage shall be conditioned on such board's paying all of the employer's contributions or matching funds from funds of the board and on such board's collecting from its employees the employees' contributions, at such rates as may be fixed by law and by the regulations of the Board of Trustees of the Retirement System, all of such funds to be paid to the Retirement System and placed in the appropriate funds. Retroactive coverage of the employees of any such board may also be effected to the extent that such board requests provided the board pays all of the employer's contributions or matching funds necessary for such purpose and provided said board collects from its employees all employees' contributions necessary for such purpose, computed at such rates and in such amount as the Board of Trustees of the Retirement System determines, all of such funds to be paid to the Retirement System, together with such interest as may be due, and placed in the appropriate funds.

(b) Notwithstanding any other provision of this Chapter, any State board or agency charged with the duty of administering any law relating to the examination and licensing of persons to practice a profession, trade, or occupation, and who is subject to the provisions of the State Budget Act, Chapter 143C of the General Statutes, may make an irrevocable election by appropriate resolution of the board, on or before October 1, 2000, to become an employer in the Teachers' and State Employees' Retirement System. Retirement System coverage shall be conditioned on the board's payment of all of the employer's contributions or matching funds from funds of the board and on the board's collecting from its employees the employees' contributions, at such rates as may be fixed by law and by the rules of the Board of Trustees of the Retirement System, all of such funds to be paid to the Retirement System and placed in the appropriate funds. Any person who is an employee of the board on the date the board makes an irrevocable election to participate in the Retirement System may purchase creditable service for periods of employment with the board prior to the election by making a lump-sum payment equal to the full cost of the service credits calculated on the basis of the assumptions used for the purposes of the actuarial valuation of the system's liabilities, and shall take into account the additional retirement allowance arising on account of such additional service credit commencing at the earliest age at which a member could retire on an unreduced retirement allowance, as determined by the Board of Trustees upon the advice of the consulting actuary, plus an administrative fee to be set by the Board of Trustees. Notwithstanding the foregoing provisions of this subdivision that provide for the purchase of service credits, the terms "full cost", "full liability", and "full actuarial cost" include assumed annual postretirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service allowance. (1959, c. 1012; 1983, c. 412, s. 3; 2000-187, s. 1; 2006-203, s. 72.)

Editor's Note. — Session Laws 2006-203, s. 126, provides in part: "Prosecutions for offenses committed before the effective date of this act [July 1, 2007] are not abated or affected by this act, and the statutes that would be applicable but for this act remain applicable to those prosecutions."

Effect of Amendments. — Session Laws 2006-203, s. 72, effective July 1, 2007, and applicable to the budget for the 2007-2009 biennium and each subsequent biennium thereafter, substituted "State Budget Act, Chapter 143C" for "Executive Budget Act, Article 1 of Chapter 143" in the first sentence of subsection (b).

OPINIONS OF ATTORNEY GENERAL

Occupational Licensing Boards. — Those occupational licensing boards subject to the Personnel Act, G.S. 126-1 et seq., and the Budget Act, G.S. 143-1 et seq., are also subject to G.S. 135-1.1, just as are the occupational licensing boards not subject to the Personnel and Budget Acts. See opinion of Attorney General to Vicky Goudie, Executive Secretary, State Board of Cosmetology, 60 N.C.A.G. 54 (1990).

An occupational licensing board, even one such as the Cosmetic Arts Board and several others subject to the Personnel and Budget Acts, is not entitled to have any of its employees, who were employed on or after July 1, 1983, covered by and participating in the Retirement System. See opinion of Attorney General to Vicky Goudie, Executive Secretary, State Board of Cosmetology, 60 N.C.A.G. 54 (1990).

§ 135-2. Name and date of establishment.

A Retirement System is hereby established and placed under the management of the Board of Trustees for the purpose of providing retirement allowances and other benefits under the provisions of this Chapter for teachers and State employees of the State of North Carolina. The Retirement System so created shall be established as of the first day of July, 1941.

It shall have the power and privileges of a corporation and shall be known as the "Teachers' and State Employees' Retirement System of North Carolina," and by such name all of its business shall be transacted, all of its funds invested, and all of its cash and securities and other property held. (1941, c. 25, s. 2.)

State Government Reorganization. — The Teachers' and State Employees' Retirement System was transferred to the Department of State Treasurer by G.S. 143A-34, enacted by Session Laws 1971, c. 864.

§ 135-3. Membership.

The membership of this Retirement System shall be composed as follows:

(1) All persons who shall become teachers or State employees after the date as of which the Retirement System is established. On and after July 1, 1947, membership in the Retirement System shall begin 90 days after the election, appointment or employment of a "teacher or employee" as the terms are defined in this Chapter. On and after July 1, 1955, membership in the Retirement System shall begin immediately upon the election, appointment or employment of a "teacher or employee," as the terms are defined in this Chapter. Under such rules and regulations as the Board of Trustees may establish and promulgate, Cooperative Agricultural Extension Service employees excluded from coverage under Title II of the Social Security Act may in the discretion of the governing authority of a county, become members of the Teachers' and State Employees' Retirement System to the extent of that part of their compensation derived from a county. On and after July 1, 1965, new extension service employees excluded from coverage under Title II of the Social Security Act in the employ of a county participating in the Local Governmental Employees' Retirement System are hereby excluded from participation in the Teachers' and State Employees' Retirement System to the extent of that part of their compensation derived from a county; provided that on and after July 1, 1965, new extension service employees excluded from coverage under Title II of the Social Security Act who are required to accept a federal civil service appointment may elect in writing, on a form acceptable to the Retirement System, to be excluded from the Teachers' and State Employees' Retirement System and the Local Retirement System; provided further, that effective July 1, 1985, an extension service employee excluded from coverage under Title II of the Social Security Act who is employed in part by a county and who is compensated in whole by the Cooperative Agricultural Extension Service pursuant to a contract where the Cooperative Agricultural Extension Service is reimbursed by the county for the county's share of the compensation shall participate exclusively in the Teachers' and State Employees' Retirement System to the extent of their full compensation. On or after July 1, 1979, upon election, appointment or employment, a legislative employee shall automatically become a member of the Teachers' and State Employees' Retirement System. At such time as Cooperative Agricultural Extension Service Employees excluded from coverage under Title II of the Social Security Act become covered by Title II of the Social Security Act, such employees shall no longer be covered by the provisions of this section, provided

no accrued rights of these employees under this section prior to coverage by Title II of the Social Security Act shall be diminished.

(2) All persons who are teachers or State employees on February 17, 1941, or who may become teachers or State employees on or before July 1, 1941, except those who shall notify the Board of Trustees, in writing, on or before January 1, 1942, that they do not choose to become members of this Retirement System, shall become members of the Retirement System.

(3) Should any member in any period of six consecutive years after becoming a member be absent from service more than five years, or should he withdraw his accumulated contributions, or should he become a beneficiary or die, he shall thereupon cease to be a member: Provided that on and after July 1, 1967, should any member in any period of eight consecutive years after becoming a member be absent from service more than seven years, or should he withdraw his accumulated contributions, or should he become a beneficiary or die, he shall thereupon cease to be a member; provided further that the period of absence from service shall be computed from January 1, 1962, or later date of separation for any member whose contributions were not withdrawn prior to July 1, 1967: Provided that on and after July 1, 1971, a member shall cease to be a member only if he withdraws his accumulated contributions, or becomes a beneficiary, or dies.

Notwithstanding the foregoing, any persons whose membership was terminated under the provisions set forth above who had five or more years of creditable service and had not effected a return of contributions may elect to receive a retirement allowance on or after age 60; provided that this member may retire only upon electronic submission or written application to the Board of Trustees setting forth at which time, not less than 30 days nor more than 90 days subsequent to the execution and filing, he desires to be retired.

(4) Notwithstanding any provisions contained in this section, any employee of the State of North Carolina who was taken over and required to perform services for the federal government, on a loan basis, and by virtue of an executive order of the President of the United States effective on or after January 1, 1942, and who on the effective date of such executive order was a member of the Retirement System and had not withdrawn all of his or her accumulated contributions, shall be deemed to be a member of the Retirement System during such period of federal service or employment by virtue of such executive order of the President of the United States. Any such employee who within a period of 12 months after the cessation of such federal service or employment, is again employed by the State or any employer as said term is defined in this Chapter, or within said period of 12 months engages in service or membership service, shall be permitted to resume active participation in the Retirement System and to resume his or her contributions as provided by this Chapter. If such member so elects, he or she may pay to the Board of Trustees for the benefit of the proper fund or account an amount equal to his or her accumulated contributions previously withdrawn with interest from date of withdrawal to time of payment and the accumulated contributions, with interest thereon, that such member would have made during such period of federal employment to the same extent as if such member had been in service or engaged in the membership service for the State or an employer as defined in this Chapter, which such payment of accumulated contributions shall be computed on the basis of the

salary or earnable compensation received by such member on the effective date of such executive order.

(5) Any teacher or State employee whose membership is contingent on his own election and who elects not to become a member may thereafter apply for and be admitted to membership; but no such teacher or State employee shall receive prior service credit unless he elected to become a member prior to July 1, 1946. Any such member on or after June 30, 1965, anything in this Chapter to the contrary, may deposit in the annuity savings fund by a single payment the contributions plus interest which would have been credited to his account had he not signed a nonelection blank on or before January 1, 1942, and be entitled to such membership service credits and any prior service credits which became void upon execution of such nonelection blank; provided that the employer will pay the appropriate matching contributions.

(6) Repealed by Session Laws 1981 (Regular Session, 1982), c. 1396, s. 1.

(7) The provisions of this subdivision (7) shall apply to any member whose retirement became effective prior to July 1, 1963, and who became entitled to benefits hereunder in accordance with the provisions hereof. Such benefits shall be computed in accordance with the provisions of G.S. 135-5(b) as in effect at the date of such retirement.

a. Notwithstanding any other provision of this Chapter, any member who separates from service prior to the attainment of the age of 60 years for any reason other than death or retirement for disability as provided in G.S. 135-5(d), after completing 20 or more years of creditable service, and who leaves his total accumulated contributions in said System shall have the right to retire on a deferred retirement allowance upon attaining the age of 60 years: Provided, that such member may retire only upon written application to the Board of Trustees setting forth at what time, not less than 30 days nor more than 90 days subsequent to the execution and filing thereof, he desires to be retired. Such deferred retirement allowance shall be computed in accordance with the provisions of G.S. 135-5(b), subdivisions (1), (2) and (3).

b. In lieu of the benefits provided in paragraph a of this subdivision (7) any member who separates from service on or after July 1, 1951, and prior to the attainment of the age of 60 years, for any reason other than death or retirement for disability as provided in G.S. 135-5(d), after completing 30 or more years of creditable service, and who leaves his total accumulated contributions in said System, may elect to retire on an early retirement allowance; provided that such member may so retire only upon written application to the Board of Trustees setting forth at what time, not less than 30 days nor more than 90 days subsequent to the execution and filing thereof, he desires to be retired; provided further that such application shall be duly filed within 60 days following the date of such separation. Such early retirement allowance so elected shall be the actuarial equivalent of the deferred retirement allowance otherwise payable at the attainment of the age of 60 years upon proper application therefor.

c. In lieu of the benefits provided in paragraph a of this subdivision (7), any member who separated from service before July 1, 1951, and prior to the age of 60 years for any reason other than death or retirement for disability as provided in G.S. 135-5(d), and who left his total accumulated contributions in said System, may elect to retire on an early retirement allowance; provided that such member may so retire only upon written application to the Board of Trustees setting forth at what time, subsequent to July 1, 1951, and not less than 30 days nor more than 90 days subsequent to the execution and filing thereof, he desires to be retired; provided that such application shall be duly filed not later than August 31, 1951. Such early retirement allowance so elected shall be the actuarial equivalent of the deferred retirement allowance otherwise payable at the attainment of the age of 60 years upon proper application therefor.

d. Should a teacher or employee who retired on an early or service retirement allowance be restored to service prior to the attainment of the age of 62 years, his allowance shall cease, he shall again become a member of the Retirement System, and he shall contribute thereafter at the uniform contribution rate payable by all members. Upon his subsequent retirement, he shall be entitled to the allowance described in 1 below reduced by the amount in 2 below.

1. The allowance to which he would have been entitled if he were retiring for the first time, calculated on the basis of his total creditable service represented by the sum of his creditable service at the time of his first retirement, and his creditable service after he was restored to service.
2. The actuarial equivalent of the retirement benefits he previously received.

e. Should a teacher or employee who retired on an early or service retirement allowance be restored to service after the attainment of the age of 62 years, his retirement allowance shall be reduced to the extent necessary (if any) so that the sum of the retirement allowance at the time of his retirement and earnings from employment by a unit of the Retirement System for any year (beginning January 1, and ending December 31) will not exceed the member's compensation received for the 12 months of service prior to retirement. Provided, however, that under no circumstances will the member's retirement allowance be reduced below the amount of his annuity as defined in G.S. 135-1(3).

(8) The provisions of this subsection (8) shall apply to any member whose membership is terminated on or after July 1, 1963 and who becomes entitled to benefits hereunder in accordance with the provisions hereof.

a. Notwithstanding any other provision of this Chapter, any member who separates from service prior to the attainment of the age of 60 years for any reason other than death or retirement for disability as provided in G.S. 135-5(c), after completing 15 or more years of creditable service, and who leaves his total accumulated contributions in said System shall have the right to retire on a deferred retirement allowance upon attaining the age of 60 years; provided that such member may retire only upon electronic submission or written application to the Board of Trustees setting forth at what time, not less than one day nor more than 90 days subsequent to the execution and filing thereof, he desires to be retired; and further provided that in the case of a member who so separates from service on or after July 1, 1967, or whose account is active on July 1, 1967, or has not withdrawn his contributions, the aforestated requirement of 15 or more years of creditable service shall be reduced to 12 or more years of creditable service; and further provided that in the case of a member who so separates from service on or after July 1, 1971, or whose account is active on July 1, 1971, the aforestated requirement of 12 or more years of creditable service shall be reduced to five or more years of creditable service. Such deferred retirement allowance shall be computed in accordance with the service retirement provisions of this Article pertaining to a member who is not a law enforcement officer or an eligible former law enforcement officer. Notwithstanding the foregoing, any member whose services as a teacher or employee are terminated for any reason other than retirement, who becomes employed by a nonprofit, nonsectarian private school in North Carolina below the college level within one year after such teacher or employee has ceased to be a teacher or employee, may elect to leave his total accumulated contributions in the Teachers' and State Employees' Retirement System during the period he is in the employment of such employer; provided that he files notice thereof in writing with the Board of Trustees of the Retirement System within five years after separation from service as a public school teacher or State employee; such member shall be deemed to have met the requirements of the above provisions of this subdivision upon attainment of age 60 while in such employment provided that he is otherwise vested.

b. In lieu of the benefits provided in paragraph a of this subdivision (8), any member who separates from service prior to the attainment of the age of 60 years, for any reason other than death or retirement for disability as provided in G.S. 135-5(c), after completing 20 or more years of creditable service, and who leaves his total accumulated contributions in said System, may elect to retire on an early retirement allowance upon attaining the age of 50 years or at any time thereafter; provided that such member may so retire only upon electronic submission or written application to the Board of Trustees setting forth at what time, not less than one day nor more than 90 days subsequent to the execution and filing thereof, he desires to be retired. Such early retirement allowance so elected shall be equal to the deferred retirement allowance otherwise payable at the attainment of the age of 60 years reduced by the percentage thereof indicated below.

b1. In lieu of the benefits provided in paragraphs a and b of this subdivision, any member who is a law-enforcement officer at the time of separation from service prior to the attainment of the age of 50 years, for any reason other than death or disability as provided in this Article, after completing 15 or more years of creditable service in this capacity immediately prior to separation from service, and who leaves his total accumulated contributions in this System may elect to retire on a deferred early retirement allowance upon attaining the age of 50 years or at any time thereafter; provided, that the member may commence retirement only upon electronic submission or written application to the Board of Trustees setting forth at what time, as of the first day of a calendar month, not less than one day nor more than 90 days subsequent to the execution and filing thereof, he desires to commence retirement. The deferred early retirement allowance shall be computed in accordance with the service retirement provisions of this Article pertaining to law-enforcement officers.

b2. In lieu of the benefits provided in paragraphs a and b of this subdivision, any member who is a law-enforcement officer at the time of separation from service prior to the attainment of the age of 55 years, for any reason other than death or disability as provided in this Article, after completing five or more years of creditable service in this capacity immediately prior to separation from service, and who leaves his total accumulated contributions in this System may elect to retire on a deferred early retirement allowance upon attaining the age of 55 years or at any time thereafter; provided, that the member may commence retirement only upon electronic submission or written application to the Board of Trustees setting forth at what time, as of the first day of a calendar month not less than one day nor more than 90 days subsequent to the execution and filing thereof, he desires to commence retirement. The deferred early retirement allowance shall be computed in accordance with the service retirement provisions of this Article pertaining to law-enforcement officers.

b3. Vested deferred retirement allowance of members retiring on or after July 1, 1994. — In lieu of the benefits provided in paragraphs a. and b. of this subdivision, any member who separates from service prior to attainment of age 60 years, after completing 20 or more years of creditable service, and who leaves his total accumulated contributions in said System, may elect to retire on a deferred retirement allowance upon attaining the age of 50 years or any time thereafter; provided that such member may so retire only upon electronic submission or written application to the Board of Trustees setting forth at what time, not less than one day nor more than 90 days subsequent to the execution and filing thereof, he desires to be retired. Such deferred retirement allowance shall be computed in accordance with the service retirement provisions of this Article pertaining to a member who is not a law enforcement officer or an eligible former law enforcement officer.

c. **(Effective until June 30, 2013 — see Editor's Note)** Should a beneficiary who retired on an early or service retirement allowance under this Chapter be reemployed by, or otherwise engaged to perform services for, an employer participating in the Retirement System on a part time, temporary, interim, or on a fee for service basis, whether contractual or otherwise, and if such beneficiary earns an amount during the 12 month period immediately following the effective date of retirement or in any calendar year which exceeds fifty percent (50%) of the reported compensation, excluding terminal payments, during the 12 months of service preceding the effective date of retirement, or

G.S. 135-3(8)c is set out twice. See note.

twenty thousand dollars ($20,000), whichever is greater, as hereinafter indexed, then the retirement allowance shall be suspended as of the first day of the month following the month in which the reemployment earnings exceed the amount above, for the balance of the calendar year, except when the reemployment earnings exceed the amount above in the month of December, in which case the retirement allowance shall not be suspended. The retirement allowance of the beneficiary shall be reinstated as of January 1 of each year following suspension. The amount that may be earned before suspension shall be increased on January 1 of each year by the ratio of the Consumer Price Index to the Index one year earlier, calculated to the nearest tenth of a percent (1/10 of 1%).

The computation of postretirement earnings of a beneficiary under this sub-subdivision who retired on or before June 1, 2009, regardless of age or years of creditable service, or who retires on or after July 1, 2009, after attaining (i) the age of at least 65 with five years of creditable service; or (ii) the age of at least 60 with 25 years of creditable service; or (iii) 30 years of service; and who has been retired at least six months and has not been employed in any capacity with a State-supported community college or a State-supported university for at least six months immediately preceding the effective date of reemployment, shall not include earnings while the beneficiary is employed to teach in a permanent full-time or part-time capacity that exceeds fifty percent (50%) of the applicable workweek as a nursing instructor in a certified nursing program for a maximum period of three years.

In order for a retired nursing instructor to be rehired, the community college or university must certify to the Teachers' and State Employees' Retirement System that it has a shortage of qualified nursing instructors, and must:

1. Make a good faith effort to fill positions with qualified nursing instructors who are not retirees;
2. Post the vacancy or vacancies for at least two months;
3. Solicit applications through local newspapers, other media, and nursing education programs; and
4. Determine that there is an insufficient number of eligible applicants for the advertised position or positions.

The North Carolina Community College System and The University of North Carolina shall certify to the Retirement System that a beneficiary is employed to teach as a nursing instructor with a State-supported community college or a State-supported university under the provisions of this sub-subdivision.

c. **(Effective June 30, 2013 — see Editor's Note)** Should a beneficiary who retired on an early or service retirement allowance under this Chapter be reemployed by, or otherwise engaged to perform services for, an employer participating in the Retirement System on a part time, temporary, interim, or on a fee for service basis, whether contractual or otherwise, and if such beneficiary earns an amount during the 12 month period immediately following the effective date of retirement or in any calendar year which exceeds fifty percent (50%) of the reported compensation, excluding terminal payments, during the 12 months of service preceding the effective date of retirement, or twenty thousand

dollars ($20,000), whichever is greater, as hereinafter indexed, then the retirement allowance shall be suspended as of the first day of the month following the month in which the reemployment earnings exceed the amount above, for the balance of the calendar year, except when the reemployment earnings exceed the amount above in the month of December, in which case the retirement allowance shall not be suspended. The retirement allowance of the beneficiary shall be reinstated as of January 1 of each year following suspension. The amount that may be earned before suspension shall be increased on January 1 of each year by the ratio of the Consumer Price Index to the Index one year earlier, calculated to the nearest tenth of a percent (1/10 of 1%).

c1. Within 90 days of the end of each month in which a beneficiary is reemployed under the provisions of sub-subdivision c. of this subdivision, each employer shall provide a report for that month on each reemployed beneficiary, including the terms of the reemployment, the date of the reemployment, and the amount of the monthly compensation. If such a report is not received within the required 90 days, the Board shall assess the employer with a penalty of ten percent (10%) of the compensation of the unreported reemployed beneficiaries during the months for which the employer did not report the reemployed beneficiaries, with a minimum penalty of twenty-five dollars ($25.00).

d. Should a beneficiary who retired on an early or service retirement allowance under this Chapter be restored to service as an employee or teacher, then the retirement allowance shall cease as of the first of the month following the month in which the beneficiary is restored to service and the beneficiary shall become a member of the Retirement System and shall contribute thereafter as allowed by law at the uniform contribution payable by all members.

Upon his subsequent retirement, he shall be paid a retirement allowance determined as follows:

1. For a member who earns at least three years' membership service after restoration to service, the retirement allowance shall be computed on the basis of his compensation and service before and after the period of prior retirement without restrictions; provided, that if the prior allowance was based on a social security leveling payment option, the allowance shall be adjusted actuarially for the difference between the amount received under the optional payment and what would have been paid if the retirement allowance had been paid without optional modification.
2. For a member who does not earn three years' membership service after restoration to service, the retirement allowance shall be equal to the sum of the retirement allowance to which he would have been entitled had he not been restored to service, without modification of the election of an optional allowance previously made, and the retirement allowance that results from service earned since being restored to service; provided, that if the prior retirement allowance was based on a social security leveling payment option, the prior allowance shall be adjusted actuarially for the difference between the amount that would have been paid for each

month had the payment not been suspended and what would have been paid if the retirement allowance had been paid without optional modification.

e. Any beneficiary who retired on an early or service retirement allowance as an employee of any State department, agency or institution under the Law Enforcement Officers' Retirement System and becomes employed as an employee by a State department, agency, or institution as an employer participating in the Retirement System shall become subject to the provisions of G.S. 135-3(8)c and G.S. 135-3(8)d on and after January 1, 1989.

(8a) Notwithstanding the provisions of paragraphs c and d of subdivision (8) to the contrary, a beneficiary who was a beneficiary retired on an early or service retirement with the Law Enforcement Officers' Retirement System at the time of the transfer of law enforcement officers employed by the State and beneficiaries last employed by the State to this Retirement System on January 1, 1985, and who also was a contributing member of this Retirement System on January 1, 1985, shall continue to be paid his retirement allowance without restriction and may continue as a member of this Retirement System with all the rights and privileges appendant to membership.

(9) Members who are participating in an intergovernmental exchange of personnel under the provisions of Article 10 of Chapter 126 may retain their membership status and receive all benefits provided by this Chapter during the period of the exchange provided the requirements of Article 10 of Chapter 126 are met; provided further, that a member participating in an intergovernmental exchange of personnel under Article 10 of Chapter 126 shall, notwithstanding whether he and his employer are making contributions to the member's account during the exchange period, be entitled to the death benefit if he otherwise qualifies under the provisions of this Article and provided further that no duplicate benefits shall be paid. CASE NOTES

Constitutionality of Subsection (8)d. — Because all retired officers and employees are subject to the provisions of subsection (8)d of this section, plaintiff retired judge was not treated differently than similarly situated persons, and the Retirement System's interpretation of subsection (8)d did not violate the Equal Protection Clause of either the United States or the North Carolina Constitution. Wells v. Consolidated Judicial Retirement Sys., 136 N.C. App. 671, 526 S.E.2d 486, 2000 N.C. App. LEXIS 162 (2000), aff'd, 354 N.C. 313, 553 S.E.2d 877 (2001).

Suspension of Benefits. — In case involving suspension of plaintiff retired judge's retirement benefits after he was appointed to another state office, where the prohibition contained in subsection (8)d of this section existed as former (8)c when plaintiff's rights vested in the Retirement System, the prohibition applied to plaintiff, and plaintiff's contract under Chapter 135 provided that his benefits would cease if he returned to employment with the State of North Carolina following his retirement from the court. Wells v. Consolidated Judicial Retirement Sys., 136 N.C. App. 671, 526 S.E.2d 486, 2000 N.C. App. LEXIS 162 (2000), aff'd, 354 N.C. 313, 553 S.E.2d 877 (2001).

Suspension of the retirement benefits of a retired judge who was appointed to state utilities commission, while he served on that commission, was proper even though the statute authorizing the suspension of a retired judge's pension only spoke of suspending the benefits of a retired judge who returned to judicial service, because the broader provisions of G.S. 135-3(8)(c), disallowing continued receipt of benefits by a contributor to the Teachers' and State Employees' Retirement System of North Carolina, applied to the judge. Wells v. Consolidated Judicial Ret. Sys., 354 N.C. 313, 553 S.E.2d 877, 2001 N.C. LEXIS 1098 (2001).

He is not entitled to benefits using the current formula and his total service recently plus that prior to his first retirement. Opinion of Attorney General to Mr. J.E. §§ 135-3.1, 135-3.2: Repealed by Session Laws 1961, c. 516, s. 9.

§ 135-4. Creditable service.

(a) Under such rules and regulations as the Board of Trustees shall adopt, each member who was a teacher or State employee at any time during the five years immediately preceding the establishment of the System and who became a member prior to July 1, 1946, shall file a detailed statement of all North Carolina service as a teacher or State employee rendered by him prior to the date of establishment for which he claims credit; provided, that, notwithstanding the foregoing, any member retiring on or after July 1, 1965, with credit for not less than 10 years of membership service shall file such detailed statement of service as a teacher or State employee rendered by him prior to July 1, 1941, for which he claims credit; provided, that any member who retired on a service retirement allowance prior to July 1, 1965, who at the time of his retirement did not qualify for credit for his service as a teacher or State employee prior to July 1, 1941, may request on and after July 1, 1971, that his original benefit be recalculated, in accordance with the formula prevailing at the time of his retirement, to include credit for such service with the new benefit to become effective on the first of the month following certification of the prior service.

(b) The Board of Trustees shall fix and determine by appropriate rules and regulations how much service in any year is equivalent to one year of service, but in no case shall more than one year of service be creditable for all services in one year. Service rendered for the regular school year in any district shall be equivalent to one year's service. Service rendered by a school employee in a job-sharing position shall be credited at the rate of one-half year for each regular school year of employment.

(c) Subject to the above restrictions and to such other rules and regulations as the Board of Trustees may adopt, the Board of Trustees shall verify, as soon as practicable after the filing of such statements of service, the service therein claimed.

In lieu of a determination of the actual compensation of the members that was received during such period of prior service the Board of Trustees may use for the purpose of this Chapter the compensation rates which will be determined by the average salary of the members for five years immediately preceding the date this System became operative as the records show the member actually received. Creditable service for unused sick leave shall be allowed only for sick leave accrued monthly during employment under a duly adopted sick leave policy and for which the member may be able to take credits and be paid for sick leave without restriction.

(d) Any member may, up to his date of retirement and within one year thereafter, request the Board of Trustees to modify or correct his prior service credit.

(e) Creditable service at retirement on which the retirement allowance of a member shall be based shall consist of the membership service rendered by him since he last became a member, and also if he has a prior service certificate which is in full force and effect, the amount of service certified on his prior service certificate; and if he has sick leave standing to his credit upon retirement on or after July 1, 1971, one month of credit for each 20 days or portion thereof, but not less than one hour; sick leave shall not be counted in computing creditable service for the purpose of determining eligibility for disability retirement or for a vested deferred allowance.

On and after July 1, 1971, a member whose account was closed on account of absence from service under the provisions of G.S. 135-3(3) and who subsequently returns to service for a period of five years, may thereafter repay in a lump sum the amount withdrawn plus regular interest thereon from the date of withdrawal through the year of repayment and thereby increase his creditable service by the amount of creditable service lost when his account was closed.

On and after July 1, 1973, a member whose account in the North Carolina Local Governmental Employees' Retirement System was closed on account of absence from service under the provisions of G.S. 128-24(1a) and who subsequently became or becomes a member of this System with credit for five years of service, may thereafter repay in a lump sum the amount withdrawn from the North Carolina Local Governmental Employees' Retirement System plus regular interest thereon from the date of withdrawal through the year of repayment and thereby increase his creditable service in this System by the amount of creditable service lost when his account was closed.

On or after July 1, 1979, a member who has obtained 60 months of aggregate service, or five years of membership service, as an employee of the North Carolina General Assembly, except legislators, participants in the Legislative Intern Program and pages, may make a lump sum payment together with interest, and an administrative fee for such service, to the Teachers' and State Employees' Retirement System of an amount equal to what he would have contributed had he been a member on his first day of employment.

On and after January 1, 1985, the creditable service of a member who was a member of the Law-Enforcement Officers' Retirement System at the time of the transfer of law-enforcement officers employed by the State from that System to this Retirement System and whose accumulated contributions are transferred from that System to this Retirement System, shall include service that was creditable in the Law-Enforcement Officers' Retirement System; and membership service with that System shall be membership service with this Retirement System; provided, notwithstanding any provision of this Article to the contrary, any inchoate or accrued rights of such a member to purchase creditable service for military service, withdrawn service and prior service under the rules and regulations of the Law-Enforcement Officers' Retirement System shall not be diminished and may be purchased as creditable service with this Retirement System under the same conditions which would have otherwise applied.

(f) Armed Service Credit. —

(1) Teachers and other State employees who entered the armed services of the United States on or after September 16, 1940, and prior to

February 17, 1941, and who returned to the service of the State within a period of two years after they were first eligible to be separated or released from such armed services under other than dishonorable conditions shall be entitled to full credit for all prior service.

(2) Teachers and other State employees who entered the armed services of the United States on or after September 16, 1940, and who returned to the service of the State prior to October 1, 1952, or who devote not less than 10 years of service to the State after they are separated or released from such armed services under other than dishonorable conditions, shall be entitled to full credit for all prior service, and, in addition they shall receive membership service credit for the period of service in such armed services up to the date they were first eligible to be separated or released therefrom, occurring after the date of establishment of the Retirement System.

(3) Teachers and other State employees who enter the armed services of the United States on or after July 1, 1950, or who engage in active military service on or after July 1, 1950, and who return to the service of the State within a period of two years after they are first eligible to be separated or released from such active military service under other than dishonorable conditions shall be entitled to full membership service credit for the period of such active service in the armed services.

(4) Under such rules as the Board of Trustees shall adopt, credit will be provided by the Retirement System with respect to each such teacher or other State employee in the amounts that he would have been paid during such service in such armed services on the basis of his earnable compensation when such service commenced. Such contributions shall be credited to the individual account of the member in the annuity savings fund, in such manner as the Board of Trustees shall determine, but any such contributions so credited and any regular interest thereon shall be available to the member only in the form of an annuity, or benefit in lieu thereof, upon his retirement on a service, disability or special retirement allowance; and in the event of cessation of membership or death prior thereto, any such contributions so credited and regular interest thereon shall not be payable to him or on his account, but shall be transferred from the annuity savings fund to the pension accumulation fund. If any payments were made by a member on account of such service as provided by subdivision (5) of subsection (b) of G.S. 135-8, the Board of Trustees shall refund to or reimburse such member for such payments.

(5) The provisions of this subsection shall also apply to members of the National Guard with respect to teachers and State employees who are called into federal service or who are called into State service, to the extent that such persons fail to receive compensation for performance of the duties of their employment other than for service in the National Guard.

(6) Repealed by Session Laws 1981, c. 636, s. 1. For proviso as to inchoate or accrued rights, see Editor's Note below.

(7) Notwithstanding any other provision of this Chapter, any member and any retired member as herein described may purchase creditable service in the Armed Forces of the United States, not otherwise allowed, by paying a total lump sum payment determined as follows:
  a. For members who completed 10 years of membership service, and retired members who completed 10 years of membership service prior to retirement, whose membership began on or prior to July 1, 1981, and who make this purchase within three years after first

becoming eligible, the cost shall be an amount equal to the monthly compensation the member earned when he first entered membership service times the employee contribution rate at that time times the months of service to be purchased, with sufficient interest added thereto so as to equal one-half of the cost of allowing this service, plus an administrative fee to be set by the Board of Trustees.

b. For members who complete five years of membership service, and retired members who complete five years of membership service prior to retirement, and eligible members and retired members covered by paragraph a. of this subdivision, whose membership began on or before July 1, 1981, but who did not or do not make this purchase within three years after first becoming eligible, the cost shall be an amount equal to the full liability of the service credits calculated on the basis of the assumptions used for the purposes of the actuarial valuation of the System's liabilities and shall take into account the retirement allowance arising on account of the additional service credits commencing at the earliest age at which the member could retire on an unreduced allowance, as determined by the Board of Trustees upon the advice of the consulting actuary, plus an administrative fee to be set by the Board of Trustees. Notwithstanding the foregoing provisions of this subsection that provide for the purchase of service credits, the term "full liability" includes assumed post-retirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service retirement allowance.

Creditable service allowed under this subdivision shall be only for the initial period of "active duty", as defined in 38 U.S. Code Section 101(21), in the Armed Forces of the United States up to the date the member was first eligible to be separated and released and for subsequent periods of "active duty", as defined in 38 U.S. Code Section 101(21), as required by the Armed Forces of the United States up to the date of first eligibility for separation or release, but shall not include periods of active duty in the Armed Forces of the United States creditable in any other retirement system except the National Guard or any reserve component of the Armed Forces of the United States, and shall not include periods of "active duty for training", as defined in 38 U.S. Code Section 101(22), or periods of "inactive duty training", as defined in 38 U.S. Code Section 101(23), rendered in any reserve component of the Armed Forces of the United States. Provided, creditable service may be allowed only for active duty in the Armed Forces of the United States of a member that resulted in a general or honorable discharge from duty. The member shall submit satisfactory evidence of the service claimed. For purposes of this subsection, membership service may include any membership or prior service credits transferred to this Retirement System pursuant to G.S. 135-18.1.

(g) Teachers and other State employees who served in the uniformed services as defined in the Uniformed Services Employment and Reemployment Rights Act of 1994, 38 U.S.C. § 4303, and who, after being honorably discharged, returned to the service of the State within a period of two years from date of discharge shall be credited with prior service for such period of service in the uniformed services for the maximum period that they are entitled to reemployment under the Uniformed Services Employment and Reemployment Rights Act of 1994, 38 U.S.C. § 4301, et seq., or other federal law, and the salary or compensation of such a teacher or State employee during that period of service is deemed to be that salary or compensation the employee would have received but for the period of service had the employee remained continuously employed, if the determination of that salary or compensation is reasonably certain. If the determination of the salary or compensation is not reasonably certain, then it is deemed to be that employee's average rate of compensation during the 12-month period immediately preceding the period of service.

(h) During periods when a member is on leave of absence and is receiving less than his full compensation, he will be deemed to be in service only if he is contributing to the Retirement System as provided in G.S. 135-8(b)(5). If he is so contributing, the annual rate of compensation paid to such employee immediately before the leave of absence began will be deemed to be the actual compensation rate of the employee during the leave of absence.

(i) Any person who became a member after June 30, 1947, and before July 1, 1955, and did not subsequently withdraw his contributions may, prior to his retirement, increase his creditable service to the extent of the period of time from the date he became a "teacher or employee" as the terms are defined in this Chapter to the date he became a member, but not exceeding three months immediately preceding membership, provided that he makes an additional contribution in one lump sum equal to five per centum (5%) of the compensation he received for the aforesaid period of time plus regular interest thereon from the date he became a member to the date of payment.

(j) Creditable service at retirement shall include any service rendered by a member while on leave of absence to serve as a member or officer of the General Assembly which is not creditable toward retirement under the Legislative Retirement Fund provided the allowance of such credit shall be contingent upon the cancellation of service credit in the Fund and the transfer of the member's contributions plus accumulated interest from the Fund to this System.

(j1) Any member may purchase creditable service for service as a member of the General Assembly not otherwise creditable under this section, provided the service is not credited in the Legislative Retirement Fund nor the Legislative Retirement System, and further provided the member pays a lump sum amount equal to the full cost of the additional service credits calculated on the basis of the assumptions used for the purposes of the actuarial valuation of the System's liabilities, taking into account the additional retirement allowance arising on account of the additional service credits commencing at the earliest age at which a member could retire on an unreduced retirement allowance as determined by the Board of Trustees upon the advice of the consulting actuary, plus an administrative fee to be set by the Board of Trustees. Notwithstanding the foregoing provisions of this subsection that provide for the purchase of service credits, the terms "full cost", "full liability", and "full actuarial cost" include assumed annual post-retirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service allowance.

(j2) The creditable service of a member who was a member of the Local Governmental Employees' Retirement System, the Consolidated Judicial Retirement System, or the Legislative Retirement System, and whose accumulated contributions and reserves are transferred from that System to this System, includes service that was creditable in the Local Governmental Employees' Retirement System, the Consolidated Judicial Retirement System, or the Legislative Retirement System, and membership service with those Retirement Systems is membership service with this Retirement System.

(k) Notwithstanding any other provision of this Chapter, any person who withdrew his contributions in accordance with the provisions of G.S. 128-27(f) or G.S. 135-5(f) or the rules and regulations of the Law-Enforcement Officers' Retirement System and who subsequently returns to service may, upon completion of five years of membership service, repay in a total lump sum any and all of the accumulated contributions previously withdrawn with interest compounded annually at the rate of six and one-half percent (6.5%) for each calendar year from the year of withdrawal to the year of repayment plus a fee to cover expense of handling which shall be determined by the Board of Trustees, and receive credit for the service forfeited at time of withdrawal. These provisions shall apply equally to retired members who had attained five years of membership service prior to retirement. The retirement allowance of a retired member who restores service under this subsection shall be increased the month following the month payment is received. The increase in the retirement allowance shall be the difference between the initial retirement allowance, under any optional allowance elected at the time of retirement, and the amount of the retirement allowance, under any optional allowance elected at the time of retirement, to which the retired member would have been entitled had the service not been previously forfeited, adjusted by any increases in the retirement accrual rate occurring between the member's date of retirement and the date of payment. The increase in the retirement allowance shall not include any adjustment for cost-of-living increases granted since the date of retirement.

Notwithstanding any provision to the contrary, a law enforcement officer who was transferred from the Law Enforcement Officers' Retirement System to this Retirement System pursuant to Article 12C of Chapter 143 of the General Statutes and withdrew his accumulated contributions prior to January 1, 1985, in accordance with G.S. 128-27(f) or G.S. 135-5(f) for non-law enforcement service and who has five years or more of membership service standing to his credit may repay in a total lump sum the accumulated contributions previously withdrawn with interest compounded annually at the rate of six and one-half percent (6.5%) for each calendar year from the year of withdrawal to the year of repayment plus a fee to cover expense of handling which shall be determined by the Board of Trustees, and receive credit for the service forfeited at time of withdrawal(s). The retirement allowance of a retired member who restores service under this subsection shall be increased the month following the month payment is received. The increase in the retirement allowance shall be the difference between the initial retirement allowance, under any optional allowance elected at the time of retirement, and the amount of the retirement allowance, under any optional allowance elected at the time of retirement, to which the retired member would have been entitled had the service not been previously forfeited, adjusted by any increases in the retirement accrual rate occurring between the member's date of retirement and the date of payment. The increase in the retirement allowance shall not include any adjustment for cost-of-living increases granted since the date of retirement.

(*l*) Repealed by Session Laws 1981, c. 636, s. 1. For proviso as to inchoate or accrued rights, see Editor's Note below.

(*l*1) Notwithstanding any other provision of this Chapter, any member and any retired member as herein described may purchase creditable service previously rendered to any state, territory, or other governmental subdivision of the United States other than this State by paying a total lump-sum payment determined as follows:

(1) For members who completed 10 years of current membership service, and retired members who completed 10 years of current membership service prior to retirement, whose membership began on or before July 1, 1981, and who make such purchase within three years after first becoming eligible, the cost shall be an amount equal to the monthly compensation the member earned when he first entered

membership service, times the employee contribution rate at that time, times the months of service to be purchased, times two, with sufficient interest added thereto so as to equal the full cost of allowing such service, plus an administrative fee to be set by the Board of Trustees.

(2) For members who complete five years of current membership service, and retired members who complete five years of current membership service prior to retirement, and eligible members and retired members covered by subdivision (1) of this subsection, whose membership began on or before July 1, 1981, but who did not or do not make such purchase within three years after first becoming eligible, the cost shall be an amount equal to the full liability of the service credits calculated on the basis of the assumptions used for the purposes of the actuarial valuation of the System's liabilities and shall take into account the retirement allowance arising on account of the additional service credits commencing at the earliest age at which the member could retire on an unreduced allowance, as determined by the Board of Trustees upon the advice of the consulting actuary, plus an administrative fee to be set by the Board of Trustees. Notwithstanding the foregoing provisions of this subsection that provide for the purchase of service credits, the term "full liability" includes assumed postretirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service retirement allowance. Notwithstanding the requirement of five years of current membership service, a member whose membership began prior to the service the member desires to purchase shall be eligible to purchase creditable service under this subdivision upon returning to service as a teacher or employee upon completion of a total of five years of membership service and upon completion of one year of current membership service.

Current membership service shall mean membership service earned since the service previously rendered to any state, territory, or other governmental subdivision of the United States other than this State. Creditable service under this subsection shall be allowed only at the rate of one year of out-of-state service for each year of membership service in this State, with a maximum allowable of 10 years of out-of-state service. Such service is limited to full-time service which would be allowable under the laws governing this System. Credit will be allowed only if no benefit is allowable in another public retirement system as a result of the service.

(m) Notwithstanding any language to the contrary of any provision of this section, or of any repealed provision of this section that was repealed with the inchoate and accrued rights preserved, all repayments and purchases of service credits, allowed under the provisions of this section or of any repealed provision of this section that was repealed with inchoate and accrued rights preserved, must be made within three years after the member first becomes eligible to make such repayments and purchases. Any member who does not repay or purchase service credits within said three years after first eligibility to make such repayments and purchases may, under the same conditions as are otherwise required, repay or purchase service credits provided that the repayment or purchase equals the full cost of the service credits calculated on the basis of the assumptions used for purposes of the actuarial valuation of the system's liabilities and shall take into account the additional retirement allowance arising on account of such additional service credit commencing at the earliest age at which such member could retire on an unreduced retirement allowance as determined by the Board of Trustees upon the advice of the consulting actuary. Notwithstanding the foregoing provisions of this subsection that provide for the purchase of service credits, the terms "full cost", "full liability", and "full actuarial cost" include assumed annual post-retirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service allowance. Notwithstanding the foregoing, on and after July 1, 2001, the provisions of this subsection shall not apply to the repayment of contributions withdrawn pursuant to subsection (k) of this section.

(p) Credit for prior temporary State employment. — Notwithstanding any other provision of this Chapter, a member may purchase service credit for temporary State employment upon completion of 10 years of membership service and subject to the condition that the member had been classified as a temporary employee for more than three years. Each employer shall certify to the Board of Trustees that an employee is eligible to purchase this service credit prior to the member making payment. Payment for the service credit shall be in a single lump sum based upon the amount the member would have contributed if he had been properly classified as a permanent employee and been a member of this retirement system.

(p1) Part-Time Service Credit. —

(1) Notwithstanding any other provision of this Chapter, upon completion of five years of membership service, any member may purchase service previously rendered as a part-time teacher or employee of an employer as defined in G.S. 135-1(11) or G.S. 128-21(11), except for temporary or part-time service rendered while a full-time student in pursuit of a degree or diploma in a degree-granting program. Payment shall be made in a single lump sum in an amount equal to the full actuarial cost of providing credit for the service, together with interest and an administrative fee, as determined by the Board of Trustees on the advice of the Retirement System's actuary. Notwithstanding the provisions of G.S. 135-4(b), the Board of Trustees shall fix and determine by appropriate rules and regulations how much service in any year, as based on compensation, is equivalent to one year of service in proportion to "earnable compensation", but in no case shall more than one year of service be creditable for all service in one year. Service rendered for the regular school year in any district shall be equivalent to one year's service. Notwithstanding the foregoing provisions of this subdivision that provide for the purchase of service credits, the terms "full cost", "full liability", and "full actuarial cost" include assumed annual post-retirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service allowance.

(2) Under all requirements and conditions set forth in the preceding subdivision of this subsection (p1), except for the requirement that the completion of five years of membership service be subsequent to service rendered as a part-time teacher or employee of the State, any member with five or more years of membership service standing to his credit may purchase additional membership service for service rendered as a part-time teacher or employee of the State if (i) the member terminates or has terminated employment in any capacity as a teacher or employee of the State, (ii) the purchase of the additional membership service causes the member to become eligible to commence an early or service retirement allowance, and (iii) the member immediately elects to commence retirement and become a beneficiary.

(3) Under all the requirements and conditions set forth in subdivision (1) of this subsection, except for the condition that part-time service rendered when a full-time student in pursuit of a degree or diploma in a degree-granting program is not eligible for purchase, any member with five or more years of membership service standing to the member's credit may purchase creditable service for service rendered as a part-time teacher or employee of the State if that service was rendered on a permanent part-time basis and required at least 20 hours of service per week.

(q) Notwithstanding any other provision of this Chapter, any member who entered service or was restored to service prior to July 1, 1982, and was excluded from membership service solely on account of having attained the age of 62 years, in accordance with former G.S. 135-3(6), may purchase membership service credits of such excluded service by making a lump-sum payment equal to the contributions that would have been deducted pursuant to G.S. 135-8(b) had he been a member of the Retirement System, increased by interest calculated at a rate of seven percent (7%) per annum.

(r) Notwithstanding any other provision of this Chapter, any member may purchase creditable service for periods of employer approved leaves of absence when in receipt of benefits under the North Carolina Workers' Compensation Act. This service shall be purchased by paying a cost calculated in the following manner:

(1) Leaves of Absence Terminated Prior to July 1, 1983. — The cost to a member whose employer approved leave of absence, when in receipt of benefits under the North Carolina Workers' Compensation Act, terminated upon return to service prior to July 1, 1983, shall be a lump sum amount payable to the Annuity Savings Fund equal to the full liability of the service credits calculated on the basis of the assumptions used for purposes of the actuarial valuation of the system's liabilities, and shall take into account the retirement allowance arising on account of the additional service credit commencing at the earliest age at which the member could retire on an unreduced retirement allowance, as determined by the board of trustees upon the advice of the consulting actuary, plus an administrative fee to be set by the board of trustees. Notwithstanding the foregoing provisions of this subdivision that provide for the purchase of service credits, the terms "full cost", "full liability", and "full actuarial cost" include assumed annual post-retirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service allowance.

(2) Leaves of Absence Terminating On and After July 1, 1983, but before January 1, 1988. — The cost to a member whose employer approved leave of absence, when in receipt of benefits under the North Carolina Workers' Compensation Act, terminates upon return to service on and after July 1, 1983, but before January 1, 1988, shall be a lump sum amount due and payable to the Annuity Savings Fund within six months from return to service equal to the total employee and employer percentage rates of contribution in effect at the time of purchase and based on the annual rate of compensation of the member immediately prior to the leave of absence; Provided, however, the cost to a member whose amount due is not paid within six months from return to service shall be the amount due plus one percent (1%) per month penalty for each month or fraction thereof the payment is made beyond the six-month period.

(3) Leaves of Absence Terminating On and After January 1, 1988. — The cost to a member whose employer approved leave of absence, when in

receipt of benefits under the North Carolina Workers' Compensation Act, terminates upon or before a return to service on and after January 1, 1988, shall be due and payable to the Annuity Savings Fund within six months from return to service and shall be a lump sum amount equal to the employee percentage rate of contribution in effect at the time of purchase applied to the annual rate of compensation of the member immediately prior to the leave of absence. For members electing to make this payment, the member's employer which granted the leave of absence, or the member's employer upon a return to service, or both, shall make a matching lump sum payment to the Pension Accumulation Fund within six months from return to service equal to the employer percentage rate of contribution in effect at the time of purchase applied to the annual rate of compensation of the member immediately prior to the leave of absence. Such purchases of creditable service are applicable only when members have membership service credits within 30 days prior to the leave of absence and within 12 months following the leave of absence and such membership service is creditable service at the time of purchase. Notwithstanding any other provision of this subdivision, the cost to a member and to a member's employer or former employer or both employers whose amount due is not paid within six months from return to service shall be the amount due plus one percent (1%) per month penalty for each month or fraction thereof that the payment is made after the six-month period.

Notwithstanding the requirement of this provision that a member return to service, a member who is in receipt of Workers' Compensation during the period for which he or she would have otherwise been eligible to receive short-term benefits as provided in G.S. 135-105 and who subsequently becomes a beneficiary in receipt of a benefit as provided in G.S. 135-106 may purchase creditable service for any period of employer approved leave of absence when in receipt of benefits under the North Carolina Workers' Compensation Act. The cost to purchase such creditable service shall be as determined above provided the amount due if not paid within six months from the beginning of the long-term disability period as determined in G.S. 135-106 shall be the amount due plus one percent (1%) per month penalty for each month or fraction thereof that the payment is made after the six-month period.

Whenever the creditable service purchased pursuant to this subsection is for a period that occurs during the four consecutive calendar years that would have produced the highest average annual compensation pursuant to G.S. 135-1(5) had the member not been on leave of absence without pay, then the compensation that the member would have received during the purchased period shall be included in calculating the member's average final compensation. In such cases, the compensation that the member would have received during the purchased period shall be based on the annual rate of compensation of the member immediately prior to the leave of absence.

(s) Credit at Full Cost for Temporary Employment. — In addition to the provisions of subsection (p) above, any member may purchase creditable service for State employment when classified as a temporary teacher or employee subject to the conditions that the:

(1) Member was employed by an employer as defined in G.S. 135-1(11) or G.S. 128-21(11);

(2) Member's temporary employment met all other requirements of G.S. 135-1(10) or (25), or G.S. 128-21(10);

(3) Member has completed five years or more of membership service;
(4) Member acquires from the employer such certifications of temporary employment as are required by the Board of Trustees; and
(5) Member makes a lump sum payment into the Annuity Savings Fund equal to the full liability of the service credits calculated on the basis of the assumptions used for purposes of the actuarial valuation of the Retirement System's liabilities and shall take into account the retirement allowance arising on account of the additional service credit commencing at the earliest age at which the member could retire on an unreduced retirement allowance, as determined by the Board of Trustees upon the advice of the actuary, plus an administrative expense fee to be determined by the Board of Trustees. Notwithstanding the foregoing provisions of this subdivision that provide for the purchase of service credits, the terms "full cost", "full liability", and "full actuarial cost" include assumed annual post-retirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service allowance.

The provisions of this subsection shall also apply to the purchase of creditable service for State employment when classified as a permanent hourly employee in accordance with G.S. 126-5(c4).

(t) Credit at Full Cost for Local Government Employment. — Any member may purchase creditable service for any employment as an employee, as defined in G.S. 128-21(10), of a local government employer not creditable in the North Carolina Local Governmental Employees' Retirement System upon completion of five years of membership service by making a lump-sum payment into the Annuity Savings Fund. The payment by the member shall be equal to the full liability of the service credits calculated on the basis of the assumptions used for purposes of the actuarial valuation of the Retirement System's liabilities, taking into account the additional retirement allowance arising on account of the additional service credits commencing at the earliest age at which the member could retire with an unreduced retirement allowance, as determined by the Board of Trustees upon the advice of the actuary plus an administrative expense fee to be determined by the Board of Trustees. Notwithstanding the foregoing provisions of this subsection that provide for the purchase of service credits, the terms "full cost", "full liability", and "full actuarial cost" include assumed annual post-retirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service allowance.

(u) Any member who was a wildlife protector who elected to become a member of the Law Enforcement Officers' Retirement System pursuant to Chapter 837 of the 1971 Session Laws by the transfer of accumulated contributions from this Retirement System to the Law Enforcement Officers' Retirement System and who has not subsequently applied for and received a return of accumulated contributions shall be entitled to creditable service for the service as a non-law enforcement officer forfeited as a result of the transfer pursuant to Chapter 837 of the 1971 Session Laws.

(v) Omitted Membership Service. — A member who had service as an employee as defined in G.S. 135-1(10) and G.S. 128-21(10) or as a teacher as defined in G.S. 135-1(25) and who was omitted from contributing membership through error may be allowed membership service, after submitting clear and convincing evidence of the error, as follows:
(1) Within 90 days of the omission, by the payment of employee and employer contributions that would have been paid; or
(2) After 90 days and prior to three years of the omission, by the payment of the employee and employer contributions that would have been

paid plus interest compounded annually at a rate equal to the greater of the average yield on the pension accumulation fund for the preceding calendar year or the actuarial investment rate-of-return assumption, as adopted by the Board of Trustees; or

(3) After three years of the omission, by the payment of an amount equal to the full cost of the service credits calculated on the basis of the assumptions used for the purposes of the actuarial valuation of the system's liabilities, and shall take into account the additional retirement allowance arising on account of such additional service credit commencing at the earliest age at which a member could retire on an unreduced retirement allowance, as determined by the Board of Trustees upon the advice of the consulting actuary, plus an administrative fee to be set by the Board of Trustees. Notwithstanding the foregoing provisions of this subdivision that provide for the purchase of service credits, the terms "full cost", "full liability", and "full actuarial cost" include assumed annual post-retirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service allowance.

Nothing contained in this subsection shall prevent an employer or member from paying all or a part of the cost of the omitted membership service; and to the extent paid by the employer, the cost paid by the employer shall be credited to the pension accumulation fund; and to the extent paid by the member, the cost paid by the members shall be credited to the member's annuity savings account; provided, however, an employer does not discriminate against any member or group of members in his employ in paying all or any part of the cost of the omitted membership service.

(w) Credit at Full Cost for Federal Employment. — Notwithstanding any other provisions of this Chapter, a member, upon the completion of five years of membership service, may purchase creditable service for periods of federal employment, provided that the member is not receiving any retirement benefits resulting from this federal employment, and provided that the member is not vested in the particular federal retirement system to which the member may have belonged while a federal employee. The member shall purchase this service by making a lump sum amount payable to the Annuity Savings Fund equal to the full liability of the service credits calculated on the basis of the assumptions used for purposes of the actuarial valuation of the system's liabilities, and shall take into account the retirement allowance arising on account of the additional service credit commencing at the earliest age at which the member could retire on an unreduced retirement allowance, as determined by the Board of Trustees upon the advice of the consulting actuary, plus an administrative fee to be set by the Board of Trustees. Notwithstanding the foregoing provisions of this subsection that provide for the purchase of service credits, the terms "full cost", "full liability", and "full actuarial cost" include assumed annual post-retirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service allowance.

Members may also purchase creditable service for periods of employment with public community service entities within the State funded entirely with federal funds, other than the federal government, that are not covered by the provisions of G.S. 128-21(11) or G.S. 135-1(11), under the same terms and conditions that are applicable to the purchase of creditable service for periods of federal employment in accordance with this subsection. "Public community service entities" as used in this subsection shall mean community action, human relations, manpower development, and community development programs as defined in Articles 19 and 21 of Chapter 160A and Article 18 of

Chapter 153A of the General Statutes and any other similar programs that the Board of Trustees may adopt.

(x) Repealed by Session Laws 2001-424, s. 32.32(c), effective July 1, 2001.

(y) A member who is a beneficiary of the Disability Income Plan provided for in Article 6 of this Chapter shall be granted creditable service for each month that the member is eligible for and for which a benefit is paid under the provisions of G.S. 135-105 and G.S. 135-106; provided, however, that in no instance shall a member be granted creditable service under this subsection if creditable service is earned or credited for the same month in this retirement system or any other retirement system administered by the State.

(z) Credit at Full Cost for Leave Due to Extended Illness. — Any member in service with five or more years of membership service standing to his credit may purchase creditable service for periods of interrupted service while on leave without pay status due to the member's illness or injury, excluding leave due to maternity, provided that any single such interrupted service shall have included such period of time during which the member failed to earn at least two months membership service, by making a lump sum amount payable to the Annuity Savings Fund equal to the full liability of the service credits calculated on the basis of the assumptions used for purposes of the actuarial valuation of the system's liabilities; and the calculation of the amount payable shall take into account the retirement allowance arising on account of the additional service credit commencing at the earliest age at which the member could retire on an unreduced retirement allowance, as determined by the Board of Trustees upon the advice of the consulting actuary, plus an administrative fee to be set by the Board of Trustees. Notwithstanding the foregoing provisions of this subsection that provide for the purchase of service credits, the terms "full cost", "full liability", and "full actuarial cost" include assumed annual post-retirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service allowance.

(aa) Credit at Full Cost for Maternity Leave. — Notwithstanding other provisions of this Chapter, any member in service with five or more years of credited membership service may purchase creditable service for periods of service which were interrupted due to parental leave, pregnancy or childbirth, or involuntary administrative furlough due to a lack of funds to support the position by making a lump sum amount payable to the Annuity Savings Fund equal to the full liability of the service credits calculated on the basis of the assumptions used for purposes of the actuarial valuation of the system's liabilities; and the calculation of the amount payable shall take into account the retirement allowance arising on account of the additional service credit commencing at the earliest age at which the member could retire on an unreduced retirement allowance, as determined by the Board of Trustees upon the advice of the consulting actuary, plus an administrative fee to be set by the Board of Trustees. Creditable service purchased under this subsection may not exceed six months per parental leave, pregnancy or childbirth, or involuntary administrative furlough due to a lack of funds to support the position. Notwithstanding the foregoing provisions of this subsection that provide for the purchase of service credits, the term "full liability" includes assumed annual postretirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service allowance.

(bb) Credit at Full Cost for Probationary Local Government Employment. — Notwithstanding any other provision of this Chapter, a member may purchase creditable service, prior to retirement, for employment with any local employer as defined in G.S. 128-21(11) when considered to be in a probationary or employer-imposed waiting period status, between the date of employment and the date of membership service with the Local Governmental Employees' Retirement System, provided that the former employer of such a member has revoked this probationary employment or waiting period policy.

The member shall purchase this service by making a lump-sum amount payable to the Annuity Savings Fund equal to the full liability of the service credits calculated on the basis of the assumptions used for purposes of the actuarial valuation of the liabilities of the retirement system, and the calculation of the amount payable shall take into account the retirement allowance arising on account of the additional service credit commencing at the earliest age at which the member could retire on an unreduced retirement allowance, as determined by the Board of Trustees upon the advice of the consulting actuary, plus an administrative fee to be set by the Board of Trustees. Notwithstanding the provisions of this subsection that provide for the purchase of service credits, the term "full liability" includes assumed annual postretirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service allowance.

(cc) Credit for Employment in Charter School Operated by a Private Nonprofit Corporation. — Any member may purchase creditable service for any employment as an employee of a charter school operated by a private nonprofit corporation whose board of directors did not elect to participate in the Retirement System under G.S. 135-5.3 upon completion of five years of membership service after that charter school employment by making a lump-sum payment into the Annuity Savings Fund. The payment by the member shall be equal to the full liability of the service credits calculated on the basis of the assumptions used for purposes of the actuarial valuation of the Retirement System's liabilities, taking into account the additional retirement allowance arising on account of the additional service credits commencing at the earliest age at which the member could retire with an unreduced retirement allowance, as determined by the Board of Trustees upon the advice of the actuary plus an administrative expense fee to be determined by the Board of Trustees. Notwithstanding the foregoing provisions of this subsection that provide for the purchase of service credits, the terms "full cost", "full liability", and "full actuarial cost" include assumed annual postretirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service allowance.

(dd) Purchase of Service Credits Through Rollover Contributions From Certain Other Plans. — Notwithstanding any other provision of this Article, and without regard to any limitations on contributions otherwise set forth in this Article, a member, who is eligible to restore or purchase membership or creditable service pursuant to the provisions of G.S. 135-4, may, subject to such rules and regulations established by the Board of Trustees, purchase such service credits through rollover contributions to the Annuity Savings Fund from (i) an annuity contract described in Section 403(b) of the Internal Revenue Code, (ii) an eligible plan under Section 457(b) of the Internal Revenue Code which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state, (iii) an individual retirement account or annuity described in Section 408(a) or 408(b) of the Internal Revenue Code that is eligible to be rolled over and would otherwise be includible in gross income, or (iv) a qualified plan described in Section 401(a) or 403(a) of the Internal Revenue Code. Notwithstanding the foregoing, the Retirement System shall not accept any amount as a rollover contribution unless such amount is eligible to be rolled over to a qualified trust in accordance with applicable law and the member provides evidence satisfactory to the Retirement System that such amount qualifies for rollover treatment. Unless received by the Retirement System in the form of a direct rollover, the rollover contribution must be paid to the Retirement System on or before the 60th day after the date it was received by the member.

Purchase of Service Credits Through Plan-to-Plan Transfers. — Notwithstanding any other provision of this Article, and without regard to any limitations on contributions otherwise set forth in this Article, a member, who is eligible to restore or purchase membership or creditable service pursuant to the provisions of G.S. 135-4, may, subject to such rules and regulations established by the Board of Trustees, purchase such service credits through a direct transfer to the Annuity Savings Fund of funds from (i) an annuity contract described in Section 403(b) of the Internal Revenue Code or (ii) an eligible plan under Section 457(b) of the Code which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state.

(ee) Purchase of Service Credits Through Plan-to-Plan Transfers. — Notwithstanding any other provision of this Article, and without regard to any limitations on contributions otherwise set forth in this Article, a member, who is eligible to restore or purchase membership or creditable service pursuant to the provisions of G.S. 135-4, may, subject to such rules and regulations established by the Board of Trustees, purchase such service credits through a direct transfer to the Annuity Savings Fund of funds from (i) the Supplemental Retirement Income Plans A, B, or C of North Carolina or (ii) any other defined contribution plan qualified under Section 401(a) of the Internal Revenue Code which is maintained by the State of North Carolina, a political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state.

(ff) Retroactive Membership Service. — A member who is reinstated to service as an employee as defined in G.S. 135-1(10) or as a teacher as defined in G.S. 135-1(25) retroactively to the date of prior involuntary termination (with backpay and benefits) may be allowed membership service, after submitting clear and convincing evidence of the reinstatement, as follows:

(1) Within 90 days of the involuntary termination, by the payment of employee and employer contributions that would have been paid; or

(2) After 90 days of the involuntary termination, by the payment of the employee and employer contributions that would have been paid plus interest compounded annually at a rate equal to the greater of the average yield on the pension accumulation fund for the preceding calendar year or the actuarial investment rate-of-return assumption, as adopted by the Board of Trustees.

Nothing contained in this subsection shall prevent an employer or member from paying all or a part of the cost of the retroactive membership service; and to the extent paid by the employer, the cost paid by the employer shall be credited to the pension accumulation fund; and to the extent paid by the member, the cost paid by the member shall be credited to the member's annuity savings account; provided, however, an employer does not discriminate against any member or group of members in his employ in paying all or any part of the cost of the retroactive membership service.

In the event a member received a return of accumulated contributions subsequent to an involuntary termination as provided in G.S. 135-5(f), the member may redeposit, within 90 days of reinstatement retroactive to the date of prior involuntary termination, in the annuity savings fund by single payment an amount equal to the total amount he previously withdrew plus regular interest and restore the creditable service forfeited upon receiving his return of accumulated contributions.

(gg) If a member who is an elected government official and has not vested in this System on July 1, 2007, is convicted of an offense listed in G.S. 135-18.10 for acts committed after July 1, 2007, then that member shall forfeit all benefits under this System. If a member who is an elected government official and has vested in this System on July 1, 2007, is convicted of an offense listed in G.S. 135-18.10 for acts committed after July 1, 2007, then that member is not entitled to any creditable service that accrued after July 1, 2007. No member shall forfeit any benefit or creditable service earned from a position not as an elected government official.

The member shall purchase this service by making a lump-sum amount payable to the Annuity Savings Fund equal to the full liability of the service credits calculated on the basis of the assumptions used for purposes of the actuarial valuation of the system's liabilities and shall take into account the retirement allowance arising on account of the additional service credit commencing at the earliest age at which the member could retire on an unreduced retirement allowance, as determined by the Board of Trustees upon the advice of the consulting actuary, plus an administrative fee to be set by the Board of Trustees. Notwithstanding the foregoing provisions of this subsection that provide for the purchase of service credits, the terms "full cost," "full liability," and "full actuarial cost" include assumed annual postretirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service allowance. Editor's Note. — Section 126-5(c4), referred to in subsection (s) of this section, was repealed by Session Laws 1993, c. 321, s. 145(b).

Session Laws 1981, c. 636, s. 1, effective July 1, 1981, deleted subdivision (f)(6), which concerned purchase of service credit for service in the armed forces of the United States, subsection (*l*), which concerned purchase of credit for service to governmental entities, subsection (n), which defined "out-of-state service", and subsection (o), which concerned purchase of credit for time spent as a court reporter prior to establishment of the Uniform Court System, but provided that any inchoate or accrued rights of any member on July 1, 1981, shall not be diminished.

Prior to this amendment, subdivision (f)(6) and subsections (*l*), (n) and (o) read:

"(f) (6) Notwithstanding any other provision of this Chapter, teachers and other State employees not otherwise allowed service credit for service in the armed forces of the United States may, upon completion of 10 years of membership service, purchase such service credit by paying in a total lump sum an amount, based on the compensation the member earned when he first entered membership and the employee contribution rate at that time, with sufficient interest added thereto so as to equal one half the cost of allowing such service, plus a fee to cover expense of handling payment to be determined by the Board of Trustees and assessed the member at the time of payment; provided that credit will be allowed only for the initial period of active duty in the armed forces of the United States up to the time the member was first eligible to be separated or released therefrom, and subsequent periods of such active duty as required by the armed forces of the United States up to the date of first eligibility for separation or release therefrom; and further provided that the member submit satisfactory evidence of the service claimed and that service credit be allowed only for that period of active service in the armed forces of the United States not creditable in any other retirement system, except the national guard or any reserve component of the armed forces of the United States. These provisions shall apply equally to retired members who had attained 10 years of membership service prior to retirement. Cost as used in this subsection shall mean the amount of money required to provide additional retirement benefits based on service credit allowed at the time any adjustment to the service credit of a member is made.

"(*l*) Notwithstanding any other provision of this Chapter, any member may, upon completion of 10 years of current membership service, purchase credit for service previously rendered to any state, territory or other governmental subdivision of the United States other than this State at the rate of one year of out-of-state service for each two years of service in this State with a maximum allowable of 10 years of out-of-state service. Such service is limited to full-time service which would be allowable under the laws governing this System. Credit will be allowed only if no benefit is allowable in another public retirement system as a result of the service. Payment shall be permitted only on a total lump sum, an amount based on the compensation the member earned when he first entered membership and the employee contribution rate at that time and shall be equal to the full cost of providing credit for such service plus a fee to cover expense of handling which shall be determined by the Board of Trustees. These provisions shall apply equally to retired members who had attained 10 years of membership service prior to retirement. Cost as used in this subsection shall mean the amount of money required to provide additional retirement benefits based on service credit allowed at the time any adjustment to the service credit of an individual is made.

"Notwithstanding the foregoing provisions, any member may, upon completion of 10 years of current membership service, purchase Federal School, Overseas Dependent Schools, or Military Dependent Schools service, or, while on an approved leave of absence from employment with the State of North Carolina, foreign service in the International Cooperation Administration or the Agency for International Development upon the same terms as in the preceding paragraph for out-of-state service.

"(n) Wherever the terminology 'out-of-state service,' is used in this section, that terminology shall be interpreted to include the United States Public Health Service and time spent in the Merchant Marines while in the United States Naval Reserve.

"(o) Notwithstanding any other provision of this Chapter, a member who is presently a court reporter may buy in time spent serving as court reporter prior to the establishment of the Uniform Court System in 1968 by purchasing service credits, provided that the purchase payment equals the full cost of the service credits calculated on the basis of the assumptions used for purposes of the actuarial valuation of the system's liabilities. Account shall be taken of the additional retirement allowance arising on account of the additional service credit commencing at the earliest date of which the member could retire or of a reduced retirement allowance as determined by the Board of Trustees upon the advice of the consulting actuary."

Session Laws 1991 (Reg. Sess., 1992), c. 1017, s. 2, which rewrote the first sentence of subsection (m), became effective on and after July 1, 1979.

Session Laws 2002-71, which added subsections (dd) and (ee) by s. 5, in s. 9, provides, in part, that s. 5 of the act becomes effective January 1, 2003, except that G.S. 135-4(ee), as enacted by s. 5, becomes effective the later of January 1, 2003, or the date upon which the Department of State Treasurer receives a ruling from the Internal Revenue Service approving the direct transfers provided for in that subsection. The Revisor of Statutes is informed that a favorable letter of determination has been received.

Effect of Amendments. — Session Laws 2009-281, s. 1, effective July 10, 2009, substituted "National Guard" for "national guard" twice in subdivision (f)(5), and once in the first sentence of the second paragraph of subdivision (f)(7)b.

CASE NOTES

The 1992 Amendment. — In 1992, the General Assembly revised subsection (m) of this section, to make it clear that its intention was that credits for military service had to be purchased within three years of the date a member first becomes eligible to do so. Osborne v. Consolidated Judicial Retirement Sys., 333 N.C. 246, 424 S.E.2d 115 (1993).

Employee Held Not in Service for Death Benefit Purposes. — Where employee did not contribute to the Retirement System after being placed on leave without pay, the possible extension provided by this section for plan members who contribute while on leave of absence did not apply. Therefore, employee's death occurred more than 90 days after his last day of actual service, and he was not in service at the time of his death and thus, his beneficiary is not eligible for the death benefit. Garrett v. Teachers' & State Employees' Retirement Sys. ex rel. Board of Trustees, 91 N.C. App. 409, 371 S.E.2d 776, cert. denied, 323 N.C. 624, 374 S.E.2d 585 (1988).

Job Sharing Employee. — Petitioner remained an "employee" under G.S. 135-1(10) during the period of time when she participated in a job sharing program and was working full time and thus was entitled to credit for those years of service as reflected in her retirement records. Wiebenson v. Board of Trustees, 345 N.C. 734, 483 S.E.2d 153 (1997).

Retiree Not Entitled to Tax-Free Pension. — Retiree was not entitled to a tax free pension because he withdrew his contributions to the Consolidated Judicial Retirement System and the Teachers' and State Employees Retirement System and left public employment before August 12, 1989, and thus he was not vested on that date; although the retiree later returned to public employment, became vested, and repaid the money he had previously withdrawn, when read together, G.S. 135-4 and G.S. 135-5 made clear that a member who left state service and withdrew contributions in the retirement system had no rights to any benefits within the system except for the right to repay previously withdrawn contributions as provided in G.S. 135-4. The repayment served only to increase the retiree's years of service creditable. Cashwell v. Dep't of State Treasurer, Ret. Sys. Div., — N.C. App. —, 675 S.E.2d 73, 2009 N.C. App. LEXIS 452 (2009).

Employee Reentering State Employment After Retirement. — When an employee, age 62, retires on July 1, 1959, and receives retirement benefits until July 1, 1964, at which time he reenters State employment, when that employee subsequently retires on July 1, 1969, he is entitled to the resumption of payment of his retirement benefits suspended while he was reemployed, plus additional benefits based on a salary over the most recent 5 years' employment figured at the current formula rate. He is not entitled to benefits using the current formula and his total service recently plus that prior to his first retirement. See opinion of Attorney General to Mr. J.E. § 135-4.1. Reciprocity of creditable service with other State-administered retirement systems.

(a) Only for the purpose of determining eligibility for benefits accruing under this Article, creditable service standing to the credit of a member of the Legislative Retirement System, Consolidated Judicial Retirement System, or the Local Governmental Employees' Retirement System shall be added to the creditable service standing to the credit of a member of this System; provided, that in the event a person is a retired member of any of the foregoing retirement systems, such creditable service standing to the credit of the retired member prior to retirement shall be likewise counted. In no instance shall service credits maintained in the aforementioned retirement systems be added to the creditable service in this System for application of this System's benefit accrual rate in computing a service retirement benefit unless specifically authorized by this Article.

(b) A person who was a former member of this System and who has forfeited his creditable service in this System by receiving a return of contributions and who has creditable service in the Legislative Retirement System, Consolidated Judicial Retirement System, or the Local Governmental Employees' Retirement System may count such creditable service for the purpose of restoring the creditable service forfeited in this System under the terms and conditions as set forth in this Article and reestablish membership in this System.

(c) Creditable service under this section shall not be counted twice for the same period of time whether earned as a member, purchased, or granted as prior service credits. (1989 (Reg. Sess., 1990), c. 1066, s. 35(c); 2006-264, s. 14.)

Editor's Note. — This section was formerly codified as G.S. 135-4A. It was recodified as G.S. 135-4.1 by Session Laws 2006-264, s. 14, effective August 27, 2006.

(2) A member who is not a law enforcement officer or an eligible former law enforcement officer shall receive a service retirement allowance computed as follows:

a. If the member's service retirement date occurs on or after his 65th birthday upon the completion of five years of membership service or after the completion of 30 years of creditable service or on or after his 60th birthday upon the completion of 25 years of creditable service, the allowance shall be equal to one and eighty-two hundredths percent (1.82%) of his average final compensation, multiplied by the number of years of creditable service.

b. If the member's service retirement date occurs after his 60th birthday and before his 65th birthday and prior to his completion of 25 years or more of creditable service, his retirement allowance shall be computed as in G.S. 135-5(b19)(2)a. but shall be reduced by one-quarter of one percent (¼ of 1%) thereof for each month by which his retirement date precedes the first day of the month coincident with or next following his 65th birthday.

c. If the member's early service retirement date occurs on or after his 50th birthday and before his 60th birthday and after completion of 20 years of creditable service but prior to the completion of 30 years of creditable service, his early service retirement allowance shall be equal to the greater of:

1. The service retirement allowance as computed under G.S. 135-5(b19)(2)a. but reduced by the sum of five-twelfths of one percent (5⁄12 of 1%) thereof for each month by which his retirement date precedes the first day of the month coincident with or next following the month the member would have attained his 60th birthday, plus one-quarter of one percent (¼ of 1%) thereof for each month by which his 60th birthday precedes the first day of the month coincident with or next following his 65th birthday; or

2. The service retirement allowance as computed under G.S. 135-5(b19)(2)a. reduced by five percent (5%) times the difference between 30 years and his creditable service at retirement; or

3. If the member's creditable service commenced prior to July 1, 1994, the service retirement allowance equal to the actuarial equivalent of the allowance payable at the age of 60 years as computed in G.S. 135-5(b19)(2)b.

d. Notwithstanding the foregoing provisions, any member whose creditable service commenced prior to July 1, 1963, shall not receive less than the benefit provided by G.S. 135-5(b).

(c) Disability Retirement Benefits of Members Leaving Service Prior to January 1, 1988. — The provisions of this subsection shall not be applicable to members in service on or after January 1, 1988. Upon the application of a member or of his employer, any member who has had five or more years of creditable service may be retired by the Board of Trustees, on the first day of any calendar month, not less than one day nor more than 120 days next following the date of filing such application, on a disability retirement allowance: Provided, that the medical board, after a medical examination of such member, shall certify that such member is mentally or physically incapacitated for the further performance of duty, that such incapacity was incurred at the time of active employment and has been continuous thereafter, that such incapacity is likely to be permanent, and that such member should be retired; Provided further the medical board shall determine if the member is able to engage in gainful employment and, if so, the member may still be retired and the disability retirement allowance as a result thereof shall be reduced as in subsection (e) below. Provided further, that the medical board shall not certify any member as disabled who:

(1) Applies for disability retirement based upon a mental or physical incapacity which existed when the member first established membership in the system; or

(2) Is in receipt of any payments on account of the same disability which existed when the member first established membership in the system.

The Board of Trustees shall require each employee upon enrolling in the retirement system to provide information on the membership application concerning any mental or physical incapacities existing at the time the member enrolls.

Supplemental disability benefits heretofore provided are hereby made a permanent part of disability benefits after age 65, and shall not be discontinued at age 65.

Notwithstanding the requirement of five or more years of creditable service to the contrary, a member who is a law-enforcement officer and who has had one year or more of creditable service and becomes incapacitated for duty as the natural and proximate result of an accident occurring while in the actual performance of duty, and meets all other requirements for disability retirement benefits, may be retired by the Board of Trustees on a disability retirement allowance.

Notwithstanding the foregoing to the contrary, any beneficiary who commenced retirement with an early or service retirement benefit has the right, within three years of his retirement, to convert to an allowance with disability retirement benefits without modification of any election of optional allowance previously made; provided, the beneficiary presents clear and convincing evidence that the beneficiary would have met all applicable requirements for disability retirement benefits while still in service as a member. The allowance on account of disability retirement benefits to the beneficiary shall be retroactive to the effective date of early or service retirement.

Notwithstanding the foregoing, the surviving designated beneficiary of a deceased member who met all other requirements for disability retirement benefits, except whose death occurred before the first day of the calendar month in which the member's disability retirement allowance was to be due and payable, may elect to receive the reduced retirement allowance provided by a one hundred percent (100%) joint and survivor payment option in lieu of a return of accumulated contributions, provided the following conditions apply:

(1) The member had designated as the principal beneficiary, to receive a return of accumulated contributions at the time of his death, one and only one person, and

(2) The member had not instructed the Board of Trustees in writing that he did not wish the provision of this subsection to apply.

(d) Allowance on Disability Retirement of Persons Retiring on or after July 1, 1959, but prior to July 1, 1963. — Upon retirement for disability, in accordance with subsection (c) above, on or after July 1, 1959, but prior to July 1, 1963, a member shall receive a service retirement allowance if he has attained the age of 60 years, otherwise he shall receive a disability retirement allowance which shall consist of:

(1) An annuity which shall be the actuarial equivalent of his accumulated contributions at the time of retirement;

(2) A pension equal to seventy-five per centum (75%) of the pension that would have been payable upon service retirement at the age of 65 years had the member continued in service to the age of 65 years without further change in compensation.

If the member has not less than 20 years of creditable service, he shall be entitled to a total retirement allowance of not less than seventy dollars ($70.00) per month; provided, that the computation shall be made prior to any reduction resulting from an optional allowance as provided by subsection (g) of this section.

(d1) Allowance on Disability Retirement of Persons Retiring on or after July 1, 1963, but prior to July 1, 1969. — Upon retirement for disability, in accordance with subsection (c) above, on or after July 1, 1963, but prior to July 1, 1969, a member shall receive a service retirement allowance if he has attained the age of 60 years, otherwise he shall receive a disability retirement allowance which shall be computed as follows:

(1) Such allowance shall be equal to the service retirement allowance which would have been payable had he continued in service without further change in compensation, to the age of 60 years, minus the actuarial equivalent to the contributions he would have made during such continued service.

(2) Notwithstanding the foregoing provisions, any member whose creditable service commenced prior to July 1, 1963, shall receive not less than the benefit provided by G.S. 135-5(d).

(d2) Allowance on Disability Retirement of Persons Retiring on or after July 1, 1969, but prior to July 1, 1971. — Upon retirement for disability, in accordance with subsection (c) above, on or after July 1, 1969, but prior to July 1, 1971, a member shall receive a service retirement allowance if he has attained the age of 60 years, otherwise he shall receive a disability retirement allowance which shall be computed as follows:

(1) Such allowance shall be equal to the service retirement allowance which would have been payable had he continued in service without further change in compensation to the age of 65 years, minus the actuarial equivalent of the contributions he would have made during such continued service.

(2) Notwithstanding the foregoing provisions, any member whose creditable service commenced prior to July 1, 1963, shall receive not less than the benefit provided by G.S. 135-5(d).

(d3) Allowance on Disability Retirement of Persons Retiring on or after July 1, 1971, but prior to July 1, 1982. — Upon retirement for disability, in accordance with subsection (c) of this section on or after July 1, 1971, but prior to July 1, 1982, a member shall receive a service retirement allowance if he has attained the age of 65 years; otherwise he shall receive a disability retirement allowance which shall be computed as follows:

(1) Such allowance shall be equal to a service retirement allowance calculated on the basis of the member's average final compensation prior to his disability retirement and the creditable service he would have had at the age of 65 years if he had continued in service.

(2) Notwithstanding the foregoing provisions,
  a. Any member whose creditable service commenced prior to July 1, 1971, shall receive not less than the benefit provided by G.S. 135-5(d2);
  b. The amount of disability allowance payable from the reserve funds of the Retirement System to any member retiring on or after July

1, 1974, who is eligible for and in receipt of a disability benefit under the Social Security Act shall be seventy percent (70%) of the amount calculated under a above, and the balance shall be provided by the employer from time to time during each year in such amounts as may be required to cover such payments as current disbursements; and

c. The amount of disability allowance payable to any member retiring on or after July 1, 1974, who is not eligible for and in receipt of a disability benefit under the Social Security Act shall not be payable from the reserve funds of the Retirement System but shall be provided by the employer from time to time during each year in such amounts as may be required to cover such payments as current disbursements.

(d4) Allowance on Disability Retirement of Persons Retiring on or after July 1, 1982, Who Left Service prior to January 1, 1988. — Upon retirement for disability, in accordance with subsection (c) of this section on or after July 1, 1982, a member who left service prior to January 1, 1988 shall receive a service retirement allowance if he has qualified for an unreduced service retirement allowance; otherwise the allowance shall be equal to a service retirement allowance calculated on the member's average final compensation prior to his disability retirement and the creditable service he would have had had he continued in service until the earliest date on which he would have qualified for an unreduced service retirement allowance.

(e) Reexamination of Beneficiaries Retired for Disability. — The provisions of this subsection shall be applicable to members retired on a disability retirement allowance and shall not be applicable to members in service on or after January 1, 1988. Once each year during the first five years following retirement of a member on a disability retirement allowance, and once in every three-year period thereafter, the Board of Trustees may, and upon his application shall, require any disability beneficiary who has not yet attained the age of 60 years to undergo a medical examination, such examination to be made at the place of residence of said beneficiary or other place mutually agreed upon, by a physician or physicians designated by the Board of Trustees. Should any disability beneficiary who has not yet attained the age of 60 years refuse to submit to at least one medical examination in any such year by a physician or physicians designated by the Board of Trustees, his allowance may be discontinued until his withdrawal of such refusal, and should his refusal continue for one year all his rights in and to his pension may be revoked by the Board of Trustees.

(1) The Board of Trustees shall determine whether a disability beneficiary is engaged in or is able to engage in a gainful occupation paying more than the difference, as hereinafter indexed, between his disability retirement allowance and the gross compensation earned as an employee during the 12 consecutive months of service in the final 48 months prior to retirement producing the highest gross compensation excluding any compensation received on account of termination. If the disability beneficiary is earning or is able to earn more than the difference, the portion of his disability retirement allowance not provided by his contributions shall be reduced to an amount which, together with the portion of the disability retirement allowance provided by his contributions and the amount earnable by him shall equal the amount of his gross compensation prior to retirement. This difference shall be increased on January 1 each year by the ratio of the Consumer Price Index to the Index one year earlier, calculated to the nearest tenth of one percent (1/10th of 1%). Should the earning capacity of the disability beneficiary later change, the portion of his disability

retirement allowance not provided by his contributions may be further modified. In lieu of the reductions on account of a disability beneficiary earning more than the aforesaid difference, he may elect to convert his disability retirement allowance to a service retirement allowance calculated on the basis of his average final compensation and creditable service at the time of disability and his age at the time of conversion to service retirement. This election is irrevocable. Provided, the provisions of this subdivision shall not apply to beneficiaries of the Law-Enforcement Officers' Retirement System transferred to this Retirement System who commenced retirement on and before July 1, 1981.

(2) Should a disability beneficiary under the age of 60 years be restored to active service at a compensation not less than his average final compensation, his retirement allowance shall cease, he shall again become a member of the Retirement System, and he shall contribute thereafter at the same rate he paid prior to disability; provided that, on and after July 1, 1971, if a disability beneficiary under the age of 62 years is restored to active service at a compensation not less than his average final compensation, his retirement allowance shall cease, he shall again become a member of the Retirement System, and he shall contribute thereafter at the uniform contribution rate payable by all members. Any such prior service certificate on the basis of which his service was computed at the time of his retirement shall be restored to full force and effect, and, in addition, upon his subsequent retirement he shall be credited with all his service as a member, but should he be restored to active service on or after the attainment of the age of 50 years his pension upon subsequent retirement shall not exceed the sum of the pension which he was receiving immediately prior to his last restoration and the pension that he would have received on account of his service since his last restoration had he entered service at the time as a new entrant.

(3) Notwithstanding the foregoing, a member retired on a disability retirement allowance who is restored to service and subsequently retires on or after July 1, 1971, shall be entitled to an allowance not less than the allowance described in a. below reduced by the amount in b. below:

a. The allowance to which he would have been entitled if he were retiring for the first time, calculated on the basis of his total creditable service represented by the sum of his creditable service at the time of his first retirement and his creditable service after he was restored to service.

b. The actuarial equivalent of the retirement benefits he previously received.

(3a) Notwithstanding the foregoing, should a beneficiary who retired on a disability retirement allowance be restored to service as an employee or teacher, then the retirement allowance shall cease as of the first day of the month following the month in which the beneficiary is restored to service and the beneficiary shall become a member of the Retirement System and shall contribute thereafter as allowed by law at the uniform contribution payable by all members. Upon the subsequent retirement of the beneficiary, he shall be entitled to an allowance to which he would have been entitled if he were retiring for the first time, calculated on the basis of his total creditable service represented by the sum of his creditable service at the time of his first retirement and his creditable service after he was restored to service. Provided, however, any election of an optional allowance cannot be changed unless the member subsequently completes three years of membership service after being restored to service.

(4) As a condition to the receipt of the disability retirement allowance provided for in G.S. 135-5(d), (d1),(d2) and (d3) each member retired on a disability retirement allowance shall, on or before April 15 of each calendar year, provide the Board of Trustees with a statement of his or her income received as compensation for services, including fees, commissions or similar items, and income received from business, for the previous calendar year. Such statement shall be filed on a form as required by the Board of Trustees. The benefit payable to a beneficiary who does not or refuses to provide the information requested within 60 days after such request shall not be paid a benefit until the information so requested is provided, and should such refusal or failure to provide such information continue for 240 days after such request, the right of a beneficiary to a benefit under the Article may be terminated.

The Director of the State Retirement System shall contact any State or federal agency which can provide information to substantiate the statement required to be submitted by this subdivision and may enter into agreements for the exchange of information.

(5) Notwithstanding any other provisions of this Article to the contrary, a beneficiary who was a beneficiary retired on a disability retirement with the Law-Enforcement Officers' Retirement System at the time of the transfer of law-enforcement officers employed by a participating employer and beneficiaries last employed by a participating employer to this Retirement System and who also was a contributing member of this Retirement System at that time, shall continue to be paid his retirement allowance without restriction and may continue as a member of this Retirement System with all the rights and privileges appendant to membership. Any beneficiary who retired on a disability retirement allowance as an employee of any participating employer under the Law-Enforcement Officers' Retirement System and becomes employed as an employee other than as a law-enforcement officer by an employer participating in the Retirement System after the aforementioned transfer shall continue to be paid his retirement allowance without restriction and may continue as a member of this Retirement System with all the rights and privileges appendant to membership until January 1, 1989, at which time his retirement allowance shall cease and his subsequent retirement shall be determined in accordance with the preceding subdivision (3a) of this subsection. Any beneficiary as hereinbefore described who becomes employed as a law-enforcement officer by an employer participating in the Retirement System shall cease to be a beneficiary and shall immediately commence membership and his subsequent retirement shall be determined in accordance with subdivision (3a) of this subsection.

(6) Notwithstanding any other provision to the contrary, a beneficiary in receipt of a disability retirement allowance until the earliest date on which he would have qualified for an unreduced service retirement allowance shall thereafter (i) not be subject to further reexaminations as to disability, (ii) not be subject to any reduction in allowance on account of being engaged in a gainful occupation other than with an employer participating in the Retirement System, and (iii) be considered a beneficiary in receipt of a service retirement allowance. Provided, however, a beneficiary in receipt of a disability retirement allowance whose allowance is reduced on account of reexamination as to disability or to ability to engage in a gainful occupation prior to the

date on which he would have qualified for an unreduced service retirement allowance shall have only the right to elect to convert to an early or service retirement allowance as permitted under subdivision (1) above.

(f) Return of Accumulated Contributions. — Should a member cease to be a teacher or State employee except by death or retirement under the provisions of this Chapter, he shall upon submission of an application be paid, not earlier than 60 days from the date of termination of service, his contributions, and if he has attained at least five years of membership service or if termination of his membership service is involuntary as certified by the employer, the accumulated regular interest thereon, provided that he has not in the meantime returned to service. Upon payment of such sum his membership in the System shall cease and, if he thereafter again becomes a member, no credit shall be allowed for any service previously rendered except as provided in G.S. 135-4, and such payment shall be in full and complete discharge of any rights in or to any benefits otherwise payable hereunder. Upon receipt of proof satisfactory to the Board of Trustees of the death, prior to retirement, of a member or former member there shall be paid to such person or persons as he shall have nominated by electronic submission prior to completing 10 years of service in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time of the member's death, otherwise to the member's legal representatives, the amount of his accumulated contributions at the time of his death, unless the beneficiary elects to receive the alternate benefit under the provisions of (m) below. An extension service employee who made contributions to the Local Governmental Employees' Retirement System and the Teachers' and State Employees' Retirement System as a result of dual employment may not be paid his accumulated contributions unless he is eligible to be paid his accumulated contributions in both systems for the same period of service.

Pursuant to the provisions of G.S. 135-56.2, a member who is also a member of the Consolidated Judicial Retirement System may irrevocably elect to transfer any accumulated contributions to the Consolidated Judicial Retirement System or to the Supplemental Retirement Income Plan and forfeit any rights in or to any benefits otherwise payable hereunder.

A member who is a participant or beneficiary of the Disability Income Plan of North Carolina as is provided in Article 6 of this Chapter shall not be paid a return of accumulated contributions, notwithstanding the member's status as an employee or teacher. Notwithstanding any other provision of law to the contrary, a member who is a beneficiary of the Disability Income Plan of North Carolina as provided in Article 6 of this Chapter and who is receiving disability benefits under the transition provisions as provided in G.S. 135-112, shall not be prohibited from receiving a return of accumulated contributions as provided in this subsection.

(f1) Expired.

(g) Election of Optional Allowance. — With the provision that until the first payment on account of any benefit becomes normally due, or his first retirement check has been cashed, any member may elect to receive his benefits in a retirement allowance payable throughout life, or he may elect to receive the actuarial equivalent of such retirement allowance, including any special retirement allowance, in a reduced allowance payable throughout life under the provisions of one of the options set forth below. The election of Option 2 or Option 3 or nomination of the person thereunder shall be revoked if such person nominated dies prior to the date the first payment becomes normally due or until the first retirement check has been cashed. Such election may be revoked by the member prior to the date the first payment becomes normally due or until his first retirement check has been cashed. Provided, however, in the event a member has elected Option 2 or Option 3 and nominated his or her spouse to receive a retirement allowance upon the member's death, and the spouse predeceases the member after the first payment becomes normally due or the first retirement check has been cashed, if the member remarries he or she may request to nominate a new spouse to receive the retirement allowance under the previously elected option, within 90 days of the remarriage, and may nominate a new spouse to receive the retirement allowance under the previously elected option by written designation duly acknowledged and filed with the Board of Trustees within 120 days of the remarriage. The new nomination shall be effective on the first day of the month in which it is made and shall provide for a retirement allowance computed to be the actuarial equivalent of the retirement allowance in effect immediately prior to the effective date of the new nomination. Any member having elected Options 2, 3, or 6 and nominated his or her spouse to receive a retirement allowance upon the member's death may, after divorce from his or her spouse, revoke the nomination and elect a new option, effective on the first day of the month in which the new option is elected, providing for a retirement allowance computed to be the actuarial equivalent of the retirement allowance in effect immediately prior to the effective date of the new option.

Option 1.(a) In the Case of a Member Who Retires prior to July 1, 1963. — If he dies before he has received in annuity payments the present value of his annuity as it was at the time of his retirement, the balance shall be paid to his legal representatives or to such person as he shall nominate by written designation duly acknowledged and filed with the Board of Trustees.

(b) In the Case of a Member Who Retires on or after July 1, 1963, but prior to July 1, 1993. — If he dies within 10 years from his retirement date, an amount equal to his accumulated contributions at retirement, less 1/120 thereof for each month for which he has received a retirement allowance payment, shall be paid to his legal representatives or to such person as he shall nominate by written designation duly acknowledged and filed with the Board of Trustees; or

Option 2. Upon his death his reduced retirement allowance shall be continued throughout the life of and paid to such person as he shall nominate by written designation duly acknowledged and filed with the Board of Trustees at the time of his retirement, provided that if the person selected is other than his spouse the reduced retirement allowance payable to the member shall not be less than one half of the retirement allowance without optional modification which would otherwise be payable to him; or

Option 3. Upon his death, one half of his reduced retirement allowance shall be continued throughout the life of, and paid to such person as he shall nominate by written designation duly acknowledged and filed with the Board of Trustees at the time of his retirement; or

Option 4. Adjustment of Retirement Allowance for Social Security Benefits. — Until the first payment on account of any benefit becomes normally due, any member may elect to convert his benefit otherwise payable on his account after retirement into a retirement allowance of equivalent actuarial value of such amount that with his benefit under Title II of the Federal Social Security Act, he will receive, so far as possible, approximately the same amount per year before and after the earliest age at which he becomes eligible, upon application therefor, to receive a social security benefit.

Option 5. For Members Retiring Prior to July 1, 1993. — The member may elect to receive a reduced retirement allowance under the conditions of Option 2 or Option 3, as provided for above, with the modification that if both he and the person nominated die within 10 years from his retirement date, an amount equal to his accumulated contributions at retirement, less 1/120 thereof for each month for which a retirement allowance has been paid, shall be paid to his legal representatives or to such person as he shall nominate by written designation duly acknowledged and filed with the Board of Trustees.

Option 6. A member may elect either Option 2 or Option 3 with the added provision that in the event the designated beneficiary predeceases the member, the retirement allowance payable to the member after the designated beneficiary's death shall be equal to the retirement allowance which would have been payable had the member not elected the option.

Upon the death of a member after the effective date of a retirement for which the member has been approved and following receipt by the Board of Trustees of an election of benefits but prior to the cashing of the first benefit check, the retirement benefit shall be payable as provided by the member's election of benefits under this subsection.

Upon the death of a member after the effective date of a retirement for which the member has been approved but prior to the receipt by the Board of Trustees of an election of benefits (Form 6-E or Form 7-E), properly acknowledged and filed by the member, the member's designated beneficiary for a return of accumulated contributions may elect to receive the benefit, if only one beneficiary is named for the return of accumulated contributions. If more than one beneficiary is named for the return of accumulated contributions, the administrator or executor of the member's estate will select an option and name the beneficiary or beneficiaries.

(g1) In the event of the death of a retired member while in receipt of a retirement allowance under the provisions of this Article, there shall be paid to such person or persons as the retiree shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time of the retiree's death, otherwise to the retiree's legal representatives, a death benefit equal to the excess, if any, of the accumulated contributions of the retiree at the date of retirement over the total of the retirement allowances paid prior to the death of the retiree. For purposes of this paragraph, the term "accumulated contributions" includes amounts of employee voluntary contributions that were transferred from the Supplemental Retirement Income Plan of North Carolina to this Retirement System at retirement by eligible law enforcement officers.

In the event that a retirement allowance becomes payable to the designated survivor of a retired member under the provisions above and such retirement allowance to the survivor shall terminate upon the death of the survivor before the total of the retirement allowances paid to the retiree and the designated survivor combined equals the amount of the accumulated contributions of the retiree at the date of retirement, the excess, if any, of such accumulated contributions over the total of the retirement allowances paid to the retiree and the survivor combined shall be paid in a lump sum to such person or persons as the retiree shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time such payment falls due, otherwise to the retiree's legal representative. For purposes of this paragraph, the term "accumulated contributions" includes amounts of employee voluntary contributions that were transferred from the Supplemental Retirement Income Plan of North Carolina to this Retirement System at retirement by eligible law enforcement officers.

In the event that a retirement allowance becomes payable to the principal beneficiary designated to receive a return of accumulated contributions pursuant to subsection (m) of this section and that beneficiary dies before the total of the retirement allowances paid equals the amount of the accumulated contributions of the member at the date of the member's death, the excess of those accumulated contributions over the total of the retirement allowances paid to the beneficiary shall be paid in a lump sum to the person or persons the member has designated as the contingent beneficiary for return of accumulated contributions, if the person or persons are living at the time the payment falls due, otherwise to the principal beneficiary's legal representative. For purposes of this paragraph, the term "accumulated contributions" includes amounts of employee voluntary contributions that were transferred from the Supplemental Retirement Income Plan of North Carolina to this Retirement System at retirement by eligible law enforcement officers.

In the event a retiree purchases creditable service as provided in G.S. 135-4, there shall be paid to such person or persons as the retiree shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time of the retiree's death, otherwise to the retiree's legal representatives, an additional death benefit equal to the excess, if any, of the cost of the creditable service purchased less the administrative fee, if any, over the total of the increase in the retirement allowance attributable to the additional creditable service, paid from the month following the month in which payment was received to the death of the retiree.

In the event that a retirement allowance becomes payable to the designated survivor of a retired member under the provisions above and such retirement allowance to the survivor shall terminate upon the death of the survivor before the total of the increase in the retirement allowance attributable to the additional creditable service paid to the retiree and the designated survivor combined equals the cost of the creditable service purchased less the administrative fee, the excess, if any, shall be paid in a lump sum to such person or persons as the retiree shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time such payment falls due, otherwise to the retiree's legal representative.

In the event that a retiree dies without having designated a beneficiary to receive a benefit under the provisions of this subsection, any such benefit that becomes payable shall be paid to the member's estate.

(h) Computation of Benefits Payable Prior or Subsequent to July 1, 1947. — Prior to July 1, 1947, all benefits payable as of February 22, 1945, shall be computed on the basis of the provisions of Chapter 135 as they existed at the time of the retirement of such beneficiaries. On and after July 1, 1947, all benefits payable to, or on account of, such beneficiaries shall be adjusted to take into account, under such rule as the Board of Trustees may adopt, the provisions of this Article as if they had been in effect at the date of retirement, and no further contributions on account of such adjustment shall be required of such beneficiaries. The Board of Trustees may authorize such transfers of reserve between the funds of the Retirement System as may be required by the provisions of this subsection.

(i) Restoration to Service of Certain Former Members. — If a former member who ceased to be a member prior to July 1, 1949, for any reason other than retirement, again becomes a member and prior to July 1, 1951, redeposits in the annuity savings fund by a single payment the amount, if any, he previously withdrew therefrom, he shall, anything in this Chapter to the contrary, be entitled to any membership service credits he had when his membership ceased, and any prior service certificate which became void at the time his membership ceased shall be restored to full force and effect: Provided, that, for the purpose of computing the amount of any retirement allowance which may become payable to or on account of such member under the Retirement System, any amount redeposited as provided herein shall be deemed to represent contributions made by the member after July 1, 1947.

(j) Notwithstanding anything herein to the contrary, effective July 1, 1959, the following provisions shall apply with respect to any retirement allowance payments due after such date to any retired member who was retired prior to July 1, 1959, on a service or disability retirement allowance:

(1) If such retired member has not made an election of an optional allowance in accordance with G.S. 135-5(g), the monthly retirement allowance payable to him from and after July 1, 1959, shall be equal to the allowance previously payable, increased by fifteen percent (15%) thereof, or by fifteen dollars ($15.00), whichever is the lesser; provided that, if such member had rendered not less than 20 years of creditable service, the retirement allowance payable to him from and after July 1, 1959, shall be not less than seventy dollars ($70.00) per month.

(2) If such retired member has made an effective election of an optional allowance, the allowance payable to him from and after July 1, 1959, shall be equal to the allowance previously payable under such election plus an increase which shall be computed in accordance with (1) above as if he had not made such an election; provided that such increase shall be payable only during the retired member's remaining life and no portion of such increase shall become payable to the beneficiary designated under the election.

(k) Increase in Benefits to Those Persons Who Were in Receipt of Benefits prior to July 1, 1967. — From and after July 1, 1967, the monthly benefits to or on account of persons who commenced receiving benefits from the System prior to July 1, 1967, shall be increased by a percentage thereof. Such percentage shall be determined in accordance with the following schedule:

Period in Which Benefits Commenced	Percentage
January 1, 1966, to June 30, 1967	5%
Year 1965	6%

Year 1963	8%
and so on concluding with	
Year 1942	29%

The minimum increase pursuant to this subsection (k) shall be ten dollars ($10.00) per month; provided that, if an optional benefit has been elected, said minimum shall be reduced actuarially as determined by the Board and shall be applicable to the retired member, if surviving, otherwise to his designated beneficiary under the option elected.

(*l*) Death Benefit Plan. — There is hereby created a Group Life Insurance Plan (hereinafter called the "Plan") which is established as an employee welfare benefit plan that is separate and apart from the Retirement System and under which the members of the Retirement System shall participate and be eligible for group life insurance benefits. Upon receipt of proof, satisfactory to the Board of Trustees in their capacity as trustees under the Group Life Insurance Plan, of the death, in service, of a member who had completed at least one full calendar year of membership in the Retirement System, there shall be paid to such person as he shall have nominated by electronic submission prior to completing 10 years of service in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person is living at the time of the member's death, otherwise to the member's legal representatives, a death benefit. Such death benefit shall be equal to the greater of:

(1) The compensation on which contributions were made by the member during the calendar year preceding the year in which his death occurs, or

(2) The greatest compensation on which contributions were made by the member during a 12-month period of service within the 24-month period of service ending on the last day of the month preceding the month in which his last day of actual service occurs;

(3), (4) Repealed by Session Laws 1983 (Regular Session, 1984), c. 1049, s. 2.

subject to a minimum of twenty-five thousand dollars ($25,000) and to a maximum of fifty thousand dollars ($50,000). Such death benefit shall be payable apart and separate from the payment of the member's accumulated contributions under the System on his death pursuant to the provisions of subsection (f) of this section. For the purpose of the Plan, a member shall be deemed to be in service at the date of his death if his death occurs within 180 days from the last day of his actual service.

The death benefit provided in this subsection (l) shall not be payable, notwithstanding the member's compliance with all the conditions set forth in the preceding paragraph, if his death occurs

(1) After December 31, 1968 and after he has attained age 70; or
(2) After December 31, 1969 and after he has attained age 69; or
(3) After December 31, 1970 and after he has attained age 68; or
(4) After December 31, 1971 and after he has attained age 67; or
(5) After December 31, 1972 and after he has attained age 66; or
(6) After December 31, 1973 and after he has attained age 65; or
(7) After December 31, 1978, but before January 1, 1987, and after he has attained age 70.

Notwithstanding the above provisions, the death benefit shall be payable on account of the death of any member who died or dies on or after January 1, 1974, but before January 1, 1979, after attaining age 65, if he or she had not yet attained age 65, if he or she had not yet attained age 66, was at the time of death completing the work year for those individuals under specific contract, or during the fiscal year for those individuals not under specific contract, in which he or she attained 65, and otherwise met all conditions for payment of the death benefit.

Notwithstanding the above provisions, the Board of Trustees may and is specifically authorized to provide the death benefit according to the terms and conditions otherwise appearing in this Plan in the form of group life insurance, either (i) by purchasing a contract or contracts of group life insurance with any life insurance company or companies licensed and authorized to transact business in this State for the purpose of insuring the lives of members in service, or (ii) by establishing a separate trust fund qualified under Section 501(c)(9) of the Internal Revenue Code of 1954, as amended, for such purpose. To that end the Board of Trustees is authorized, empowered and directed to investigate the desirability of utilizing group life insurance by either of the foregoing methods for the purpose of providing the death benefit. If a separate trust fund is established, it shall be operated in accordance with rules and regulations adopted by the Board of Trustees and all investment earnings on the trust fund shall be credited to such fund.

In administration of the death benefit the following shall apply:

(1) For the purpose of determining eligibility only, in this subsection "calendar year" shall mean any period of 12 consecutive months or, if less, the period covered by an annual contract of employment. For all other purposes in this subsection "calendar year" shall mean the 12 months beginning January 1 and ending December 31.

(2) Last day of actual service shall be:

a. When employment has been terminated, the last day the member actually worked.

b. When employment has not been terminated, the date on which an absent member's sick and annual leave expire, unless he is on approved leave of absence and is in service under the provisions of G.S. 135-4(h).

c. When a participant's employment is interrupted by reason of service in the Uniformed Services, as that term is defined in section 4303(16) of the Uniformed Services Employment and Reemployment Rights Act, Public Law 103-353, and the participant does not return immediately after that service to employment with a covered employer in this System, the date on which the participant was first eligible to be separated or released from his or her involuntary military service.

(3) For a period when a member is on leave of absence, his status with respect to the death benefit will be determined by the provisions of G.S. 135-4(h).

(4) A member on leave of absence from his position as a teacher or State employee for the purpose of serving as a member or officer of the General Assembly shall be deemed to be in service during sessions of the General Assembly and thereby covered by the provisions of the death benefit. The amount of the death benefit for such member shall be the equivalent of the salary to which the member would have been entitled as a teacher or State employee during the 12-month period immediately prior to the month in which death occurred, not to be less than twenty-five thousand dollars ($25,000) nor to exceed fifty thousand dollars ($50,000).

The provisions of the Retirement System pertaining to Administration, G.S. 135-6, and management of funds, G.S. 135-7, are hereby made applicable to the Plan.

A member who is a beneficiary of the Disability Income Plan provided for in Article 6 of this Chapter, or a member who is in receipt of Workers' Compensation during the period for which he or she would have otherwise been eligible to receive short-term benefits as provided in G.S. 135-105 and dies on or after 181 days from the last day of his or her actual service but prior to the date the benefits as provided in G.S. 135-105 would have ended, shall be eligible for group life insurance benefits as provided in this subsection, notwithstanding that the member is no longer an employee or teacher or that the member's death occurs after the eligibility period after active service. The basis of the death benefit payable hereunder shall be the higher of the death benefit computed as above or a death benefit based on compensation used in computing the benefit payable under G.S. 135-105 and G.S. 135-106, as may be adjusted for percentage post-disability increases, all subject to the maximum dollar limitation as provided above. A member in receipt of benefits from the Disability Income Plan under the provisions of G.S. 135-112 whose right to a benefit accrued under the former Disability Salary Continuation Plan shall not be covered under the provisions of this paragraph.

Upon receipt of proof, satisfactory to the Board of Trustees in its capacity under this subsection, of the death of a retired member of the Retirement System on or after July 1, 1988, but before January 1, 1999, there shall be paid a death benefit to the surviving spouse of the deceased retired member or to the deceased retired member's legal representative if not survived by a spouse; provided the retired member has elected, when first eligible, to make, and has continuously made, in advance of his death required contributions as determined by the Board of Trustees on a fully contributory basis, through retirement allowance deductions or other methods adopted by the Board of

Trustees, to a group death benefit trust fund administered by the Board of Trustees separate and apart from the Retirement System's Annuity Savings Fund and Pension Accumulation Fund. This death benefit shall be a lump-sum payment in the amount of five thousand dollars ($5,000) upon the completion of twenty-four months of contributions required under this subsection. Should death occur before the completion of twenty-four months of contributions required under this subsection, the deceased retired member's surviving spouse or legal representative if not survived by a spouse shall be paid the sum of the retired member's contributions required by this subsection plus interest to be determined by the Board of Trustees.

Upon receipt of proof, satisfactory to the Board of Trustees in its capacity under this subsection, of the death of a retired member of the Retirement System on or after January 1, 1999, but before July 1, 2004, there shall be paid a death benefit to the surviving spouse of the deceased retired member or to the deceased retired member's legal representative if not survived by a spouse; provided the retired member has elected, when first eligible, to make, and has continuously made, in advance of his death required contributions as determined by the Board of Trustees on a fully contributory basis, through retirement allowance deductions or other methods adopted by the Board of Trustees, to a group death benefit trust fund administered by the Board of Trustees separate and apart from the Retirement System's Annuity Savings Fund and Pension Accumulation Fund. This death benefit shall be a lump-sum payment in the amount of six thousand dollars ($6,000) upon the completion of 24 months of contributions required under this subsection. Should death occur before the completion of 24 months of contributions required under this subsection, the deceased retired member's surviving spouse or legal representative if not survived by a spouse shall be paid the sum of the retired member's contributions required by this subsection plus interest to be determined by the Board of Trustees.

Upon receipt of proof, satisfactory to the Board of Trustees in its capacity under this subsection, of the death of a retired member of the Retirement System on or after July 1, 2004, but before July 1, 2007, there shall be paid a death benefit to the surviving spouse of the deceased retired member or to the deceased retired member's legal representative if not survived by a spouse; provided the retired member has elected, when first eligible, to make, and has continuously made, in advance of his death required contributions as determined by the Board of Trustees on a fully contributory basis, through retirement allowance deductions or other methods adopted by the Board of Trustees, to a group death benefit trust fund administered by the Board of Trustees Fund and Pension Accumulation Fund. This death benefit shall be a lump-sum payment in the amount of nine thousand dollars ($9,000) upon the completion of 24 months of contributions required under this subsection. Should death occur before the completion of 24 months of contributions required under this subsection, the deceased retired member's surviving spouse or legal representative if not survived by a spouse shall be paid the sum of the retired member's contributions required by this subsection plus interest to be determined by the Board of Trustees.

Upon receipt of proof, satisfactory to the Board of Trustees in its capacity under this subsection, of the death of a retired member of the Retirement System on or after July 1, 2007, there shall be paid a death benefit to the surviving spouse of the deceased retired member or to the deceased retired member's legal representative if not survived by a spouse; provided the retired member has elected, when first eligible, to make, and has continuously made, in advance of his death required contributions as determined by the Board of Trustees on a fully contributory basis, through retirement allowance deductions or other methods adopted by the Board of Trustees, to a group death benefit trust fund administered by the Board of Trustees Fund and Pension Accumulation Fund. This death benefit shall be a lump-sum payment in the amount of ten thousand dollars ($10,000) upon the completion of 24 months of contributions required under this subsection. Should death occur before the completion of 24 months of contributions required under this subsection, the deceased retired member's surviving spouse or legal representative if not survived by a spouse shall be paid the sum of the retired member's contributions required by this subsection plus interest to be determined by the Board of Trustees.

(*l*1) Reciprocity of Death Benefit Plan. — Only for the purpose of determining eligibility for the death benefit provided for in subsection (*l*) of this section, membership service standing to the credit of a member of the Legislative Retirement System or the Consolidated Judicial Retirement System shall be added to the membership service standing to the credit of a member of the Teachers' and State Employees' Retirement System. However, in the event that a participant or beneficiary is a retired member of the Legislative Retirement System or the Consolidated Judicial Retirement System whose retirement benefit was suspended upon entrance into membership in the Teachers' and State Employees' Retirement System, such membership service standing to the credit of the retired member prior to retirement shall be likewise counted. Membership service under this section shall not be counted twice for the same period of time. In no event shall a death benefit provided for in G.S. 135-5(*l*) be paid if a death benefit is paid under G.S. 135-63.

(m) Survivor's Alternate Benefit. — Upon the death of a member in service, the principal beneficiary designated to receive a return of accumulated contributions shall have the right to elect to receive in lieu thereof the reduced retirement allowance provided by Option 2 of subsection (g) above computed by assuming that the member had retired on the first day of the month following the date of his death, provided that the following conditions apply:

(1)a. The member had attained such age and/or creditable service to be eligible to commence retirement with an early or service retirement allowance,

b. The member had obtained 20 years of creditable service in which case the retirement allowance shall be computed in accordance with G.S. 135-5(b19)(1)b. or G.S. 135-5(b19)(2)c., notwithstanding the requirement of obtaining age 50,

b1. The member was a law enforcement officer who had obtained 15 years of service as a law enforcement officer and was killed in the line of duty, in which case the retirement allowance shall be computed in accordance with G.S. 135-5(b19)(1)b., notwithstanding the requirement of obtaining age 50, or

c. The member had not commenced to receive a retirement allowance as provided under this Chapter.

(2) The member had designated as the principal beneficiary to receive a return of his accumulated contributions one and only one person who was living at the time of his death.

(3) The member had not instructed the Board of Trustees in writing that he did not wish the provisions of this subsection to apply.

For the purpose of this benefit, a member is considered to be in service at the date of his death if his death occurs within 180 days from the last day of his actual service. The last day of actual service shall be determined as provided in subsection (l) of this section. Upon the death of a member in service, the surviving spouse may make all purchases for creditable service as provided for under this Chapter for which the member had made application in writing prior to the date of death, provided that the date of death occurred prior to or within 60 days after notification of the cost to make the purchase. The term "in service" as used in this subsection includes a member in receipt of a benefit under the Disability Income Plan as provided in Article 6 of this Chapter.

Notwithstanding the foregoing, a member who is in receipt of Workers' Compensation during the period for which the member would have otherwise been eligible to receive short-term benefits, as provided in G.S. 135-105, and who dies on or after 181 days from the last day of the member's actual service but on or before the date the benefits as provided in G.S. 135-105 would have ended, shall be considered in service at the time of the member's death for the purpose of this benefit.

For the purpose of calculating this benefit any terminal payouts made after the date of death that meet the definition of compensation shall be credited to the month prior to the month of death. These terminal payouts do not include salary or wages paid for work performed during the month of death.

(m1) Special Retirement Allowance for Law Enforcement Officers. — Upon retirement, a member who is a law enforcement officer may elect to transfer his eligible accumulated contributions, not including any Roth after-tax contributions and the earnings thereon, from the Supplemental Retirement Income Plan of North Carolina to this Retirement System and receive, in addition to his basic service, early or disability retirement allowance, a special retirement allowance which shall be based upon his eligible accumulated account balance at the date of the transfer of the assets to this System. For the purpose of determining the special retirement allowance, the Board of Trustees shall adopt straight life annuity factors on the basis of mortality tables, such other tables as may be necessary and the interest assumption rate recommended by the actuary based upon actual experience including an assumed annual post-retirement allowance increase of four percent (4%). The Board of Trustees shall modify such factors every five years, as shall be deemed necessary, based upon the five year experience study as required by G.S. 135-6(n). Provided, however, a member, who transfers his eligible accumulated contributions from the Supplemental Retirement Income Plan of North Carolina, shall be taxed for North Carolina State Income tax purposes on the special retirement allowance the same as if that special retirement allowance had been paid directly by the Supplemental Retirement Income Plan of North Carolina. The Teachers' and State Employees' Retirement System shall be responsible to determine the taxable amount, if any, and report accordingly.

(n) No action shall be commenced against the State or the Retirement System by any retired member or beneficiary respecting any deficiency in the payment of benefits more than three years after such deficient payment was made, and no action shall be commenced by the State or the Retirement System against any retired member or former member or beneficiary respecting any overpayment of benefits or contributions more than three years after such overpayment was made.

(o) Post-Retirement Increases in Allowances. — As of December 31, 1969, the ratio of the Consumer Price Index to such index one year earlier shall be determined. If such ratio indicates an increase that equals or exceeds three per centum (3%), each beneficiary receiving a retirement allowance as of December 31, 1968, shall be entitled to have his allowance increased three per centum (3%) effective July 1, 1970.

As of December 31, 1970, the ratio of the Consumer Price Index to such index one year earlier shall be determined. If such ratio indicates an increase of at least one per centum (1%), each beneficiary on the retirement rolls as of July 1, 1970, shall be entitled to have his allowance increased effective July 1, 1971 as follows:

Increase In Index	*Increase In Allowance*
1.00 to 1.49%	1%
1.50 to 2.49%	2%
2.50 to 3.49%	3%
3.50% or more	4%

As of December 31, 1971, an increase in retirement allowances shall be calculated and made effective July 1, 1972, in the manner described in the preceding paragraph. As of December 31 of each year after 1971, the ratio (R) of the Consumer Price Index to such index one year earlier shall be determined, and each beneficiary on the retirement rolls as of July 1 of the year of determination shall be entitled to have his allowance increased effective on July 1 of the year following the year of determination by the same percentage of increase indicated by the ratio (R) calculated to the nearest tenth of one per centum, but not more than four per centum (4%); provided that any such increase in allowances shall become effective only if the additional liabilities on account of such increase do not require an increase in the total employer rate of contributions.

The allowance of a surviving annuitant of a beneficiary whose allowance is increased under this subsection shall, when and if payable, be increased by the same per centum.

Any increase in allowance granted hereunder shall be permanent, irrespective of any subsequent decrease in the Consumer Price Index, and shall be included in determining any subsequent increase.

For purposes of this subsection, Consumer Price Index shall mean the Consumer Price Index (all items — United States city average), as published by the United States Department of Labor, Bureau of Labor Statistics.

Notwithstanding the above paragraphs, retired members and beneficiaries may receive cost-of-living increases in retirement allowances if active members of the system receive across-the-board cost-of-living salary increases. Such increases in post-retirement allowances shall be comparable to cost-of-living salary increases for active members in light of the differences between the statutory payroll deductions for State retirement contributions, Social Security taxes, State income withholding taxes, and federal income withholding taxes required of each group. The increases for retired members shall include the cost-of-living increases provided in this section. The cost-of-living increases allowed retired and active members of the system shall be comparable when each group receives an increase that has the same relative impact upon the net disposable income of each group.

(p) Increases in Benefits Paid in Respect to Members Retired prior to July 1, 1967. — From and after July 1, 1971, the monthly benefits to or on account of persons who commenced receiving benefits prior to July 1, 1963, shall be increased by twenty percent (20%) thereof; the monthly benefits to or on account of persons who commenced receiving benefits after June 30, 1963 and before July 1, 1967, shall be increased by five percent (5%) thereof. These increases shall be calculated after monthly retirement allowances as of July 1, 1971, have been increased to the extent provided for in the preceding subsection (o).

(q) Increases in Benefits to Those Persons Who Were Retired prior to January 1, 1970. — From and after July 1, 1973, the monthly benefits to or on account of persons who commenced receiving benefits from the System prior to January 1, 1970, shall be increased by a percentage thereof. Such percentage shall be determined in accordance with the following schedule:

1942 through 1958	22

These increases shall be calculated after monthly retirement allowances as of July 1, 1973, have been increased to the extent provided for in the preceding subsection (o).

(r) Notwithstanding anything herein to the contrary, effective July 1, 1973, any member who retired after attaining the age of 60 with 15 or more years of creditable service shall receive a monthly benefit of no less than seventy-five dollars ($75.00) prior to the application of any optional benefit.

(s) Increases in Benefits to Those Persons on Disability Retirement Who Were Retired prior to July 1, 1971. — From and after July 1, 1974, the monthly benefits to members who commenced receiving disability benefits prior to July 1, 1963, shall be increased by one percent (1%) thereof for each year by which the member retired prior to the age of 65 years; the monthly benefits to members who commenced receiving disability benefits after June 30, 1963, and before July 1, 1971, shall be increased by five percent (5%) thereof. These increases shall be calculated before monthly retirement allowances as of June 30, 1974, have been increased to the extent provided for in the preceding subsection (o).

(t) Notwithstanding any of the foregoing provisions, the increase in allowance to each beneficiary on the retirement rolls as of July 1, 1973, which shall become effective on July 1, 1974, as otherwise provided in G.S. 135-5(o), shall be the current maximum four percent (4%) plus an additional two percent (2%) to a total of six percent (6%) for the year 1974 only. The provisions of this subsection shall apply also to the allowance of a surviving annuitant of a beneficiary.

(u) Repealed by Session Laws 1975, c. 875, s. 47.

(v) Notwithstanding any of the foregoing provisions, the increase in allowance to each beneficiary on the retirement rolls as of July 1, 1974, which shall become payable on July 1, 1975, and to each beneficiary on the retirement rolls as of July 1, 1975, which shall become payable on July 1, 1976, as otherwise provided in G.S. 135-5(o), shall be the current maximum four percent (4%) plus an additional four percent (4%) to a total of eight percent (8%) for the years 1975 and 1976 only, provided that the increases do not exceed the actual percentage increase in the Consumer Price Index as determined in G.S. 135-5(o). The provisions of this subsection shall apply also to the allowance of a surviving annuitant of a beneficiary.

(w) Notwithstanding any other provision of this section, the increase in the allowance to each beneficiary on the retirement rolls as otherwise provided in G.S. 135-5(o) shall be the current maximum of four per centum (4%) plus an additional four per centum (4%) to a total of eight per centum (8%) on July 1, 1975, and July 1, 1976, provided the increases do not exceed the actual percentage increase in the cost of living as determined in G.S. 135-5(o). The provisions of this subsection shall apply also to the allowance of a surviving annuitant of a beneficiary. The cost of these increases shall be borne from the funds of the Retirement System unless the 1975 Session of the General Assembly provides an appropriation to fund this provision.

(x) Increases in Benefits to Those Persons on Disability Retirement Who Were Retired prior to July 1, 1971. — From and after July 1, 1975, the monthly benefits to members who commenced receiving disability benefits prior to July 1, 1963, shall be increased one percent (1%) thereof for each year by which the member retired prior to age 65 years; the monthly benefits to members who commenced receiving disability benefits after June 30, 1963, and before July 1, 1971, shall be increased by five percent (5%) thereof. These increases shall be calculated before monthly retirement allowances as of June 30, 1975, have been increased to the extent provided in the preceding provisions of this Chapter.

(y) Notwithstanding the foregoing provisions, the increase in allowance to each beneficiary on the retirement rolls as of July 1, 1976, which shall become payable on July 1, 1977, and to each beneficiary on the retirement rolls as of July 1, 1977, which shall become payable on July 1, 1978, as otherwise provided in G.S. 135-5(o), shall be the current maximum four percent (4%) plus an additional two and one-half percent (2½%) for the years beginning July 1, 1977, and July 1, 1978. The provisions of this subsection shall apply also to the allowance of a surviving annuitant of a beneficiary.

The provisions of this subsection shall apply also to the allowance of a surviving annuitant of a beneficiary.

(aa) Notwithstanding the foregoing provisions, the increase in allowance to each beneficiary on the retirement rolls as of July 1, 1978, which shall become payable on July 1, 1979, as otherwise provided in G.S. 135-5(o), shall be the current maximum four percent (4%) plus an additional one percent (1%) for the year beginning July 1, 1979. (bb) Notwithstanding the foregoing provisions, the increase in allowance to each beneficiary on the retirement rolls as of July 1, 1979, which shall become payable on July 1, 1980, as otherwise provided in G.S. 135-5(o), shall be the current maximum four percent (4%) plus an additional three percent (3%) computed on the retirement allowance prior to any increase authorized by paragraph (cc) of this section. Provisions of this subsection shall apply also to the allowance of a surviving annuitant of a beneficiary.

(cc) Increases in Benefits to Those Persons Who Were Retired Prior to July 1, 1977. — From and after July 1, 1980, the monthly benefits to or on account of persons who commenced receiving benefits from the system prior to July 1, 1977, shall be increased by a percentage in accordance with the following schedule:

Period in Which Benefits Commenced	*Percentage*

(dd) From and after July 1, 1981, the retirement allowance to or on account of the beneficiaries whose retirement commenced prior to July 1, 1980, shall be increased by three percent (3%). These increases shall be calculated on the basis of the allowance payable and in effect on June 30, 1980, so as not to compound on the increases otherwise payable under paragraphs (bb), (cc) and (ee) of this section.

(ee) Adjustment in Allowances Paid Beneficiaries Whose Retirement Commenced Prior to July 1, 1980. — From and after July 1, 1981, the retirement allowance to or on account of beneficiaries whose retirement commenced prior to July 1, 1980, shall be adjusted by an increase of one and three-tenths percent (1.3%). (ff) From and after July 1, 1982, the retirement allowance to or on account of beneficiaries on the retirement rolls as of July 1, 1981, shall be increased by one-tenth of one percent (0.1%) of the allowance payable on July 1, 1981.

(gg) From and after July 1, 1983, the retirement allowance to or on account of beneficiaries on the retirement rolls as of July 1, 1982, shall be increased by two and one-half percent (2.5%) of the allowance payable on July 1, 1982, provided the increase in retirement allowances shall be payable in accordance with all requirements, stipulations and conditions set forth in subsection (o) of this section, plus an additional one and one-half percent (1.5%) of the allowance payable on July 1, 1982, in order to supplement the increase payable in accordance with subsection (o) of this section.

(hh) Notwithstanding any other provision of this Chapter, from and after July 1, 1983, the retirement allowance payable to each teacher and State employee, who retired prior to July 1, 1973, and who is in receipt of a reduced retirement allowance based upon 30 or more years of contributing membership service, shall be increased by the elimination of the reduction factors applicable at the time of their retirement under G.S. 135-3(8) or G.S. 135-5(b3). The provisions of this subsection shall apply equally to the allowance of a surviving annuitant of a beneficiary.

(ii) From and after July 1, 1984, the retirement allowance to or on account of beneficiaries whose retirement commenced on or before July 1, 1983, shall be increased by three and eight-tenths percent (3.8%) of the allowance payable on July 1, 1983, in accordance with G.S. 135-5(o), plus an additional four and two-tenths percent (4.2%) of the allowance payable on July 1, 1983.

Session Laws 2003-284, s. 49.3, provides: "Except for statutory changes or other provisions that clearly indicate an intention to have effects beyond the 2003-2005 fiscal biennium, the textual provisions of this act apply only to funds appropriated for, and activities occurring during, the 2003-2005 fiscal biennium."

Session Laws 2003-284, s. 49.5, is a severability clause.

Editor's Note. — The amendment by Session Laws 1985, c. 479, s. 190, to subsection (b8) directed that "on or after January 1, 1985, but prior to July 1, 1985" be substituted for "on or after July 1, 1985" in the catchline and first sentence of subsection (b8). The language to be inserted by this amendment has been inserted in brackets, since the language of subsection (b8) prior to the amendment read "on or after January 1, 1985," not "on or after July 1, 1985."

Subsection (f1) of this section, which provided for refund of contributions not withdrawn with refund, expired June 30, 1993, pursuant to Session Laws 1987 (Reg. Sess., 1988), c. 1061, s. 1.

Session Laws 2006-172, s. 1, added subsection (ooo), which was redesignated as subsection (ppp) at the direction of the Revisor of Statutes.

Session Laws 2007-384, s. 11(b), provides: "The Board of Trustees of the Teachers' and State Employees' Retirement System shall adopt straight life annuity factors, for the purpose of determining the special retirement allowance, based upon mortality and such other tables and the interest assumption rate recommended by the actuary based upon the actual experience as reported in the last five year experience study as required by G.S. 135-6(n) and including an assumed annual post-retirement allowance increase of four percent (4%). The Board of Trustees of the Local Governmental Employees' Retirement System shall adopt straight life annuity factors, for the purpose of determining the special retirement allowance, based upon mortality and such other tables and the interest assumption rate recommended by the actuary based upon the actual experience as reported in the last five year experience study as required by G.S. 128-29(o) and including an assumed annual post-retirement allowance increase of four percent (4%). Sections 10.1 through 10.6 of this act become effective the first of the month following the adoption of those factors by the Boards of Trustees."

Session Laws 2008-107, s. 1.2, provides: "This act shall be known as 'The Current Operations and Capital Improvements Appropriations Act of 2008'."

Session Laws 2008-107, s. 30.5 is a severability clause.

Effect of Amendments. — Session Laws 2007-384, ss. 10.3 and 10.4, substituted "allowance, including any special retirement allowance" for "allowance" following "actuarial equivalent of such retirement" in the first sentence of subsection (g); and added subsection (m1). For effective date, see Editor's note.

Session Laws 2008-107, s. 26.23(a), effective July 1, 2008, added subsection (rrr).

Session Laws 2009-66, ss. 3(a)-(d), 5(a)-(c), 6(a), 9, 11(e)-(g), 12(c), and (d), effective July 1, 2009, in subdivisions (a)(1) through (a)(5), inserted "electronic submission or"; in subdivisions (a)(3) and (a)(4), substituted "120 days" for "90 days"; in subsection (a1), inserted "electronic submission or" and substituted "120 days" for "90 days"; in subsection (c), in the second sentence of the introductory language, substituted "120 days" for "90 days", and substituted "one hundred percent (100%)" for "fifty percent (50%)" in the last paragraph; in subsection (f), in the first paragraph, inserted "electronic submission prior to completing 10 years of service in a form approved by the Board of Trustees or by" in the third sentence; in subsection (g), added the last two paragraphs; in subsection (g1), added the last paragraph, and inserted "electronic submission in a form approved by the Board of Trustees or by" throughout the subsection; in subsection (l), in the first introductory paragraph, inserted "electronic submission prior to completing 10 years of service in a form approved by the Board of Trustees or by" in the second sentence, and added subdivision (l)(1)c.; and, in subsection (m), added the last paragraph.

CASE NOTES

Constitutionality. — Subsection (*l*) of this section, as in effect in 1974, was constitutional on its face. Stanley v. Retirement & Health Benefits Div., 55 N.C. App. 588, 286 S.E.2d 643, cert. denied, 305 N.C. 587, 292 S.E.2d 571 (1982).

Grant of Disability Retirement Benefits Terminated Status as "Career Teacher". — The granting of a career teacher's application for disability retirement benefits under the Teachers' and State Employees' Retirement System operated as an acceptance of her resignation by implication and terminated her status as a "career teacher" under former G.S. 115-142, since a finding that her disability was "likely to be permanent" was implicit in the granting of her application for disability retirement benefits and this finding rendered her status as a disabled retiree wholly inconsistent with her former status as a "career teacher". Meachan v. Montgomery County Bd. of Educ., 47 N.C. App. 271, 267 S.E.2d 349 (1980).

Employee's Retirement Benefits Did Not Vest Prior to Statute's Amendment. — State employee's G.S. 135-5(d4) claim failed as the employee's retirement benefits did not vest before the North Carolina legislature adopted a new policy under which disabled workers received disability benefits in lieu of retirement, which were offset by any payments received in the form of Social Security benefits. Whisnant v. Teachers' & State Emples. Ret. Sys., 191 N.C. App. 233, 662 S.E.2d 573, 2008 N.C. App. LEXIS 1187 (2008).

Widow of a prison guard was not entitled to death benefits where the guard's last day of service was ruled to be the date his sick and annual leave expired, and not the date his position was vacated, and thus his death, which occurred more than 90 days after his last day of service, did not occur while "in service" within the meaning of the benefits provision. Garrett v. Teachers' & State Employees' Retirement Sys. ex rel. Board of Trustees, 91 N.C. App. 409, 371 S.E.2d 776, cert. denied, 323 N.C. 624, 374 S.E.2d 585 (1988).

Retiree Not Entitled to Tax-Free Pension. — Retiree was not entitled to a tax free pension because he withdrew his contributions to the Consolidated Judicial Retirement System and the Teachers' and State Employees Retirement System and left public employment before August 12, 1989, and thus he was not vested on that date; although the retiree later returned to public employment, became vested, and repaid the money he had previously withdrawn, when read together, G.S. 135-4 and G.S. 135-5 made clear that a member who left state service and withdrew contributions in the retirement system had no rights to any benefits within the system except for the right to repay previously withdrawn contributions as provided in G.S. 135-4. The repayment served only to increase the retiree's years of service creditable. Cashwell v. Dep't of State Treasurer, Ret. Sys. Div., — N.C. App. —, 675 S.E.2d 73, 2009 N.C. App. LEXIS 452 (2009).

Earliest Retirement Date. — In making an equitable distribution of the property of a former husband and former wife, the trial court properly determined a former husband's earliest retirement date for purposes of valuing his Teachers' and State Employees' Retirement System pension because G.S. 135-5(f) did not have to be used as the basis for calculating his "earliest retirement" date; the plain language of

§ 135-5(f) allows for the return of accumulated contributions only if the State employee terminates his service with the State for reasons other than death or retirement. Cochran v. Cochran, — N.C. App. —, 679 S.E.2d 469, 2009 N.C. App. LEXIS 1161 (July 21, 2009).

§ 135-5.1. Optional retirement program for The University of North Carolina.

(a) An Optional Retirement Program provided for in this section is authorized and established and shall be implemented by the Board of Governors of The University of North Carolina. The Optional Retirement Program shall be underwritten by the purchase of annuity contracts, which may be both fixed and variable contracts or a combination thereof, or financed through the establishment of a trust, for the benefit of participants in the Program. Participation in the Optional Retirement Program shall be limited to University personnel who are eligible for membership in the Teachers' and State Employees' Retirement Program and who are:

(1) Administrators and faculty of The University of North Carolina with the rank of instructor or above;

(2) The President and employees of The University of North Carolina who are appointed by the Board of Governors on recommendation of the President pursuant to G.S. 116-11(4), 116-11(5), and 116-14 or who are appointed by the Board of Trustees of a constituent institution of The University of North Carolina upon the recommendation of the Chancellor pursuant to G.S. 116-40.22(b);

(3) Nonfaculty instructional and research staff who are exempt from the State Personnel Act, as defined by the provisions of G.S. 126-5(c1)(8), and the faculty of the North Carolina School of Science and Mathematics; and

(4) Field faculty of the Cooperative Agriculture Extension Service, and tenure track faculty in North Carolina State University agriculture research programs who are exempt from the State Personnel Act and who are eligible for membership in the Teachers' and State Employees' Retirement System pursuant to G.S. 135-3(1), who in any of the cases described in this subsection (i) had been members of the Optional Retirement Program under the provisions of Chapter 338, Session Laws of 1971, immediately prior to July 1, 1985, or (ii) have sought membership as required in subsection (b), below. Under the Optional Retirement Program, the State and the participant shall contribute, to the extent authorized or required, toward the purchase of such contracts or deposited in such trust on the participant's behalf.

(b) Participation in the Optional Retirement Program shall be governed as follows:

(1) Those participating in the Optional Retirement Program immediately prior to July 1, 1985, under the provisions of Chapter 338, Session Laws of 1971, are deemed automatically enrolled in the Program as established by this section.

(2) Eligible employees initially appointed on or after July 1, 1985, shall at the same time of entering upon eligible employment elect (i) to join the Retirement System in accordance with the provisions of law applicable thereto or (ii) to participate in the Optional Retirement Program. This election shall be in writing and filed with the Retirement System

and with the employing institution and shall be effective as of the date of entry into eligible service.

(3) An election to participate in the Optional Retirement Program shall be irrevocable. An eligible employee failing to elect to participate in the Optional Retirement Program at the time of entry into eligible service shall automatically be enrolled as a member of the Retirement System.

(4) No election by an eligible employee of the Optional Retirement Program shall be effective unless it is accompanied by an appropriate application for the issuance of a contract or contracts or trust participation under the Program.

(5) If any participant having less than five years coverage under the Optional Retirement Program leaves the employ of The University of North Carolina and either retires or commences employment with an employer not having a retirement program with the same company underwriting the participant's annuity contract, regardless of whether the annuity contract is held by the participant, a trust, or the Retirement System, the participant's interest in the Optional Retirement Program attributable to contributions of The University of North Carolina shall be forfeited and shall either (i) be refunded to The University of North Carolina and forthwith paid by it to the Retirement System and credited to the pension accumulation fund or (ii) be paid directly to the Retirement System and credited to the pension accumulation fund.

(c) Each employing institution shall contribute on behalf of each participant in the Optional Retirement Program an amount equal to a percentage of the participant's compensation as established from time to time by the General Assembly. Each participant shall contribute the amount which he or she would be required to contribute if a member of the Retirement System. Contributions authorized or required by the provisions of this subsection on behalf of each participant shall be made, consistent with Section 414(h) of the Internal Revenue Code, by salary reduction according to rules and regulations established by The University of North Carolina. Additional personal contributions may also be made by a participant by payroll deduction or salary reduction to an annuity or retirement income plan established pursuant to G.S. 116-17. Payment of contributions shall be made by the employing institution to the designated company or companies underwriting the annuities or the trustees for the benefit of each participant, and this employer contribution shall not be subject to any State tax if made under the Optional Retirement Program or, otherwise, by salary reduction.

(d) The Board of Governors of The University of North Carolina shall designate the company or companies from which contracts are to be purchased or the trustee responsible for the investment of contributions under the Optional Retirement Program, and shall approve the form and contents of such contracts or trust agreement. In making this designation and giving such approval, the Board shall give due consideration to the following:

(1) The nature and extent of the rights and benefits to be provided by these contracts or trust agreement for participants and their beneficiaries;

(2) The relation of these rights and benefits to the amount of contributions to be made;

(3) The suitability of these rights and benefits to the needs of the participants and the interest of the institutions of The University of North Carolina in recruiting and retaining faculty in a national market; and

(4) The ability of the designated company or companies underwriting the annuity contracts or trust agreement to provide these suitable rights

and benefits under such contracts or trust agreement for these purposes.

Notwithstanding the provisions of this subsection, no contractual relationship established under the Optional Retirement Program pursuant to the authority granted by Chapter 338, Session Laws of 1971, is deemed terminated by the provisions of this section.

(e) The Board of Governors of The University of North Carolina may provide for the administration of the Optional Retirement Program and may perform or authorize the performance of all functions necessary for its administration.

(f) Any eligible employee electing to participate in the Optional Retirement Program is ineligible for membership in the Retirement System so long as he or she remains employed in any eligible position within The University of North Carolina, and, in this event, he or she shall continue to participate in the Optional Retirement Program.

(g) No retirement benefit, death benefit, or other benefit under the Optional Retirement Program shall be paid by the State of North Carolina, or The University of North Carolina, or the Board of Trustees of the Teachers' and State Employees' Retirement System with respect to any employee selecting and participating in the Optional Retirement Program or with respect to any beneficiary of that employee. Benefits shall be payable to participants or their beneficiaries only by the designated company in accordance with the terms of the contracts or trust agreement. OPINIONS OF ATTORNEY GENERAL

The Legislative Intent Expressed in This Section Is Ambiguous. — In light of that ambiguity and the Board of Governors' obligations to implement and administer the Optional Retirement Program (ORP), the policies and rules that the Board of Governors has adopted to clarify the description of persons eligible to participate in the ORP are reasonable. See opinion of Attorney General to Mr. Roy A. Carroll, Senior Vice President and Vice President for Academic Affairs, The University of North Carolina General Administration, 1999 N.C.A.G. 1 (2/4/99).

§ 135-5.2. Chapel Hill utilities and telephone employees.

Notwithstanding any other provision to the contrary, all persons employed by Chapel Hill Telephone Company or University Service Plants at the time the Chapel Hill telephone services and utilities services are sold to the Southern Bell Company and Duke Power Company respectively, shall be entitled to retire upon early retirement after 30 years of combined service with the Teachers' and State Employees' Retirement System and either Southern Bell or Duke Power Company. An employee must have had at least five years' service with the Teachers' and State Employees' Retirement System and at least five years with either Southern Bell or Duke Power Company in order to be eligible for benefits under this provision. This provision is in addition to any other retirement benefits or privileges the employee may have under the Teachers' and State Employees' Retirement System. (1977, c. 1007.)

§ 135-5.3. Optional participation for charter schools operated by private nonprofit corporations.

(a) The board of directors of each charter school operated by a private nonprofit corporation shall elect whether to become a participating employer in the Retirement System in accordance with this Article. This election shall be in writing, shall be made no later than 30 days after this section becomes law, and shall be filed with the Retirement System and with the State Board of Education. For each charter school employee who is employed on or before the date the board makes the election to participate, membership in the System is effective as of the date the board makes the election to participate. For each charter school employee who is employed after the date the board makes the election, membership in the System is effective as of the date of that employee's entry into eligible service. This subsection applies only to charter schools that received State Board of Education approval under G.S. 115C-238.29D in 1997 or 1998.

(b) No later than 30 days after both parties have signed the written charter under G.S. 115C-238.29E, the board of directors of a charter school operated by a private nonprofit corporation shall elect whether to become a participating employer in the Retirement System in accordance with this Article. This election shall be in writing and filed with the Retirement System and with the State Board of Education and is effective for each charter school employee as of the date of that employee's entry into eligible service. This subsection applies to charter schools that receive State Board of Education approval under G.S. 115C-238.29D after 1998.

(c) A board's election to become a participating employer in the Retirement System under this section is irrevocable and shall require all eligible employees of the charter school to participate.

(d) No retirement benefit, death benefit, or other benefit payable under the Retirement System shall be paid by the State of North Carolina or the Board of Trustees of the Teachers' and State Employees' Retirement System on account of employment with a charter school with respect to any employee, or with respect to any beneficiary of an employee, of a charter school whose board of directors does not elect to become a participating employer in the Retirement System under this section.

(e) The board of directors of each charter school shall notify each of its employees as to whether the board elected to become a participating employer in the Retirement System under this section. This notification shall be in writing and shall be provided within 30 days of the board's election or at the time an initial offer for employment is made, whichever occurs last. If the board did not elect to join the Retirement System, the notice shall include a statement that the employee shall have no legal recourse against the board or the State for any possible credit or reimbursement under the Retirement System. The employee shall provide written acknowledgment of the employee's receipt of the notification under this subsection. (1998-212, s. 9.14A(b).)

§ 135-5.4. Optional retirement program for State-funded community colleges.

(a) An Optional Retirement Program provided for in this section is authorized and established and shall be implemented by the North Carolina Community Colleges System, ("System"). The Optional Retirement Program shall be underwritten by the purchase of annuity contracts, which may be both fixed and variable contracts or a combination thereof, or financed through the establishment of a trust, for the benefit of the presidents of the community colleges all of whom are appointed after the implementation of the Program and who elect membership as required by subsection (b) of this section. Under the Optional Retirement Program, the State and the participant shall contribute, to the extent authorized or required, toward the purchase of such contracts or deposited in such trust on the participant's behalf.

(b) Participation in the Optional Retirement Program shall be governed as follows:

(1) Employees initially appointed on or after the implementation of the Optional Retirement Program shall at the same time of entering upon eligible employment elect (i) to join the Retirement System in accordance with the provisions of law applicable thereto or (ii) to participate in the Optional Retirement Program. This election shall be in writing and filed with the Retirement System and with the employing institution and shall be effective as of the date of entry into eligible service.

(2) An election to participate in the Optional Retirement Program shall be irrevocable. An eligible employee failing to elect to participate in the Optional Retirement Program at the time of entry into eligible service shall automatically be enrolled as a member of the Retirement System.

(3) No election by an eligible employee of the Optional Retirement Program shall be effective unless it is accompanied by an appropriate application for the issuance of a contract or contracts or trust participation under the Program.

(4) If any participant having less than five years coverage under the Optional Retirement Program leaves the employ of the System and either retires or commences employment with an employer not having a retirement program with the same company underwriting the participant's annuity contract, regardless of whether the annuity contract is held by the participant, a trust, or the Retirement System, the participant's interest in the Optional Retirement Program attributable to contributions of the employing institution shall be forfeited and shall either (i) be refunded to the employing institution and forthwith paid by it to the Retirement System and credited to the pension accumulation fund or (ii) be paid directly to the Retirement System and credited to the pension accumulation fund.

(c) Each employing institution shall contribute on behalf of each participant in the Optional Retirement Program an amount equal to a percentage of the participant's compensation as established from time to time by the General Assembly. Each participant shall contribute the amount that he or she would be required to contribute if a member of the Retirement System. Contributions authorized or required by the provisions of this subsection on behalf of each participant shall be made, consistent with section 414(h) of the Internal Revenue Code, by salary reduction according to rules and regulations established by the employing institution. Additional personal contributions may also be made by a participant by payroll deduction or salary reduction to an annuity or retirement income plan established pursuant to G.S. 115D-25.

Payment of contributions shall be made by the employing institution to the designated company or companies underwriting the annuities or the trustees for the benefit of each participant, and this employer contribution shall not be subject to any State tax if made under the Optional Retirement Program or, otherwise, by salary reduction.

(d) The System shall designate the company or companies from which contracts are to be purchased or the trustee responsible for the investment of contributions under the Optional Retirement Program and shall approve the form and contents of such contracts or trust agreement. In making this designation and giving such approval, the Board shall give due consideration to the following:

(1) The nature and extent of the rights and benefits to be provided by these contracts or trust agreement for participants and their beneficiaries;

(2) The relation of these rights and benefits to the amount of contributions to be made;

(3) The suitability of these rights and benefits to the needs of the participants and the interest of the institutions of the System in recruiting and retaining faculty in a national and market;

(4) The ability of the designated company or companies underwriting the annuity contracts or trust agreement to provide these suitable rights and benefits under such contracts or trust agreement for these purposes.

In lieu of such designation and in order to provide a more efficient, cost-effective, and flexible Program, the System may designate the company or companies designated for the Optional Retirement Program for State institutions of higher education as prescribed in G.S. 135-5.1(d).

Notwithstanding the provisions of this subsection, no contractual relationship established under the Optional Retirement Program pursuant to the authority granted by Chapter 338, Session Laws of 1971, is deemed terminated by the provisions of this section.

(e) The System or employing institution may provide for the administration of the Optional Retirement Program and may perform or authorize the performance of all functions necessary for its administration.

(f) Any eligible employee electing to participate in the Optional Retirement Program is ineligible for membership in the Retirement System so long as he or she remains employed in any eligible position within the System, and, in this event, he or she shall continue to participate in the Optional Retirement Program.

(g) No retirement benefit, death benefit, or other benefit under the Optional Retirement Program shall be paid by the State of North Carolina, or the System, or the Board of Trustees of the Teachers' and State Employees' Retirement System with respect to any employee selecting and participating in the Optional Retirement Program or with respect to any beneficiary of that employee. Benefits shall be payable to participants or their beneficiaries only by the designated company in accordance with the terms of the contracts or trust agreement. (2001-424, s. 32.24(a); 2001-513, s. 24.)

§ 135-6. Administration.

(a) Administration by Board of Trustees; Corporate Name; Rights and Powers; Tax Exemption. — The general administration and responsibility for the proper operation of the Retirement System and for making effective the provisions of the Chapter are hereby vested in a Board of Trustees which shall be organized immediately after a majority of the trustees provided for in this section shall have qualified and taken the oath of office.

The Board of Trustees shall be a body politic and corporate under the name "Board of Trustees Teachers' and State Employees' Retirement System"; and as a body politic and corporate shall have the right to sue and be sued, shall have perpetual succession and a common seal, and in said corporate name shall be able and capable in law to take, demand, receive and possess all kinds of real and personal property necessary and proper for its corporate purposes, and to bargain, sell, grant, alien, or dispose of all such real and personal property as it may lawfully acquire. All such property owned or acquired by said body politic and corporate shall be exempt from all taxes imposed by the State or any political subdivision thereof, and shall not be subject to income taxes.

(b) Membership of Board; Terms. — The Board shall consist of 14 members, as follows:

(1) The State Treasurer, ex officio;

(2) The Superintendent of Public Instruction, ex officio;

(3) Ten members to be appointed by the Governor and confirmed by the Senate of North Carolina. One of the appointive members shall be a member of the teaching profession of the State; one of the appointive members shall be an employee of the Board of Transportation, who shall be appointed by the Governor for a term of four years commencing April 1, 1947, and quadrennially thereafter; one of the appointive members shall be a representative of higher education appointed by the Governor for a term of four years commencing July 1, 1969, and quadrennially thereafter; one of the appointive members shall be a retired teacher who is drawing a retirement allowance, appointed by the Governor for a term of four years commencing July 1, 1969, and quadrennially thereafter; one shall be a retired State employee who is drawing a retirement allowance, appointed by the Governor for a term of four years commencing July 1, 1977, and quadrennially thereafter; one to be a general State employee, and three who are not members of the teaching profession or State employees; two to be appointed for a term of two years, two for a term of three years and one for a term of four years; one appointive member shall be a law-enforcement officer employed by the State, appointed by the Governor, for a term of four years commencing April 1, 1985. At the expiration of these terms of office the appointment shall be for a term of four years;

(4) Two members appointed by the General Assembly, one appointed upon the recommendation of the Speaker of the House of Representatives, and one appointed upon the recommendation of the President Pro Tempore of the Senate in accordance with G.S. 120-121. Neither of these members may be an active or retired teacher or State employee or an employee of a unit of local government. The initial members appointed by the General Assembly shall serve for terms expiring June 30, 1983. Thereafter, their successors shall serve for two-year terms beginning July 1 of odd-numbered years. Vacancies in appointments made by the General Assembly shall be filled in accordance with G.S. 120-122.

(c) Compensation of Trustees. — The trustees shall be paid during sessions of the Board at the prevailing rate established for members of State boards and commissions, and they shall be reimbursed for all necessary expenses that they incur through service on the Board.

(d) Oath. — Each trustee other than the ex officio members shall, within 10 days after his appointment, take an oath of office, that, so far as it devolves upon him, he will diligently and honestly administer the affairs of the said Board, and that he will not knowingly violate or willingly permit to be violated any of the provisions of law applicable to the Retirement System. Such oath shall be subscribed to by the member making it, and certified by the officer before whom it is taken, and immediately filed in the office of the Secretary of State.

(e) Voting Rights. — Each trustee shall be entitled to one vote in the Board. Four affirmative votes shall be necessary for a decision by the trustees at any meeting of said Board.

(f) Rules and Regulations. — Subject to the limitations of this Chapter, the Board of Trustees shall, from time to time, establish rules and regulations for the administration of the funds created by this Chapter and for the transaction of its business. The Board of Trustees shall also, from time to time, in its discretion, adopt rules and regulations to prevent injustices and inequalities which might otherwise arise in the administration of this Chapter.

(g) Officers and Other Employees; Salaries and Expenses. — The State Treasurer shall be ex officio chairman of the Board of Trustees. The Board of Trustees shall, by a majority vote of all the members, appoint a director, who may be, but need not be, one of its members. The salary of the director of the Retirement System is subject to the provisions of Chapter 126 of the General Statutes of North Carolina. The Board of Trustees shall engage such actuarial and other service as shall be required to transact the business of the Retirement System. The compensation of all persons, other than the director, engaged by the Board of Trustees, and all other expenses of the Board necessary for the operation of the Retirement System, shall be paid at such rates and in such amounts as the Board of Trustees shall approve, subject to the approval of the Director of the Budget.

(h) Actuarial Data. — The Board of Trustees shall keep in convenient form such data as shall be necessary for actuarial valuation of the various funds of the Retirement System, and for checking the experience of the System.

(i) Record of Proceedings; Annual Report. — The Board of Trustees shall keep a record of all of its proceedings which shall be open to public inspection. It shall publish annually a report showing the fiscal transactions of the Retirement System for the preceding year, the amount of the accumulated cash and securities of the System, and the last balance sheet showing the financial condition of the System by means of an actuarial valuation of the assets and liabilities of the Retirement System.

(j) Legal Adviser. — The Attorney General shall be the legal adviser of the Board of Trustees.

(k) Medical Board. — The Board of Trustees shall designate a medical board to be composed of not less than three nor more than five physicians not eligible to participate in the Retirement System. If required, other physicians may be employed to report on special cases. The medical board shall arrange for and pass upon all medical examinations required under the provisions of this Chapter, and shall investigate all essential statements and certificates by or on behalf of a member in connection with an application for disability retirement, and shall report in writing to the Board of Trustees its conclusion and recommendations upon all the matters referred to it.

(*l*) Duties of Actuary. — The Board of Trustees shall designate an actuary who shall be the technical adviser of the Board of Trustees on matters regarding the operation of the funds created by the provisions of this Chapter and shall perform such other duties as are required in connection therewith.

(m) Immediately after the establishment of the Retirement System the actuary shall make such investigation of the mortality, service and compensation experience of the members of the System as he shall recommend and the Board of Trustees shall authorize, and on the basis of such investigation he shall recommend for adoption by the Board of Trustees such tables and such rates as are required in subsection (n), subdivisions (1) and (2), of this section. The Board of Trustees shall adopt tables and certify rates, and as soon as practicable thereafter the actuary shall make a valuation based on such tables and rates of the assets and liabilities of the funds created by this Chapter.

(n) In 1943, and at least once in each five-year period thereafter, the actuary shall make an actuarial investigation into the mortality, service and compensation experience of the members and beneficiaries of the Retirement System, and shall make a valuation of the assets and liabilities of the funds of the System, and taking into account the result of such investigation and valuation, the Board of Trustees shall:

(1) Adopt for the Retirement System such mortality, service and other tables as shall be deemed necessary; and

(2) Certify the rates of contributions payable by the State of North Carolina on account of new entrants at various ages.

(o) On the basis of such tables and interest assumption rate as the Board of Trustees shall adopt, the actuary shall make an annual valuation of the assets and liabilities of the funds of the System created by this Chapter.

(p) Notwithstanding any law, rule, regulation or policy to the contrary, any board, agency, department, institution or subdivision of the State maintaining lists of names and addresses in the administration of their programs may upon request provide to the Retirement System information limited to social security numbers, current name and addresses of persons identified by the System as members, beneficiaries, and beneficiaries of members of the System. The System shall use such information for the sole purpose of notifying members, beneficiaries, and beneficiaries of members of their rights to and accruals of benefits in the Retirement System. Any social security number, current name and address so obtained and any information concluded therefrom and the source thereof shall be treated as confidential and shall not be divulged by any employee of the Retirement System or of the Department of State Treasurer except as may be necessary to notify the member, beneficiary, or beneficiary of the member of their rights to and accruals of benefits in the Retirement System. Any person, officer, employee or former employee violating this provision shall be guilty of a Class 1 misdemeanor; and if such offending person be a public official or employee, he shall be dismissed from office or employment and shall not hold any public office or employment in this State for a period of five years thereafter. (1941, c. 25, s. 6; 1943, c. 719; 1947, c. 259; 1957, c. 541, s. 15; 1965, c. 780, s. 1; 1969, c. 805; c. 1223, s. 17; 1973, c. 241, s. 8; c. 507, s. 5; c. 1114; 1977, c. 564; 1979, c. 376; 1981 (Reg. CASE NOTES

Board Without Power to Waive Statutory Deadlines. — The Board of Trustees of the Retirement System does not have discretionary power to extend or waive statutory deadlines for the reinstatement of a withdrawn account or for purchase of out-of-state service, since a waiver would not be a rule or regulation to prevent injustice and inequality across the board but simply a waiver in a specific instance. In re Ford, 52 N.C. App. 569, 279 S.E.2d 122 (1981).

Board had Power to Waive Penalties. — Board's practice of waiving penalties under circumstances where employers were not at fault for failing to remit employer contributions to the Retirement System was entirely consistent with the Board's statutory discretion to adopt rules to prevent injustices under G.S. 135-6(f). Accordingly, the Treasurer and the Board were not required by G.S. 135-8(f)(3) to punish those employers whose employer contributions were not deposited in the Retirement System. Stone v. State, 191 N.C. App. 402, 664 S.E.2d 32, 2008 N.C. App. LEXIS 1485 (2008).

Actuarially Sound Manner is a Term in State Employees' Retirement Contract. — Because state employees had a contractual right to the funding of the Retirement System in an actuarially sound manner, under G.S. 135-6(i) and (m)-(o), the right to have the Retirement System funded in an actuarially sound manner was a term or condition included in the employees' retirement contracts. Stone v. State, 191 N.C. App. 402, 664 S.E.2d 32, 2008 N.C. App. LEXIS 1485 (2008).

Role of Actuary. — G.S. 135-6(m)-(o) envision an active role for an actuary in the state employees' Retirement System. Stone v. State, 191 N.C. App. 402, 664 S.E.2d 32, 2008 N.C. App. LEXIS 1485 (2008).

§ 135-7. Management of funds.

(a) Vested in Board of Trustees. — The Board of Trustees shall be the trustee of the several funds created by this Chapter as provided in this section and in G.S. 135-8.

(b) Regular Interest Allowance. — The Board of Trustees annually shall allow regular interest on the mean amount for the preceding year in each of the funds with the exception of the expense fund. The amounts so allowed shall be due and payable to said funds, and shall be annually credited thereto by the Board of Trustees from interest and other earnings on the moneys of the Retirement System. Any additional amount required to meet the interest on the funds of the Retirement System shall be paid from the pension accumulation fund, and any excess of earnings over such amount required shall be paid to the pension accumulation fund. Regular interest shall mean such per centum rate to be compounded annually as shall be determined by the Board of Trustees on the basis of the interest earnings of the System for the preceding year and of the probable earnings to be made, in the judgment of the Board, during the immediate future, such rate to be limited to a minimum of three per centum (3%) and a maximum of four per centum (4%), with the latter rate applicable during the first year of operation of the Retirement System.

(c) Custodian of Funds; Disbursements; Bond of Director. — The State Treasurer shall be the custodian of the several funds and shall invest their assets in accordance with the provisions of G.S. 147-69.2 and 147-69.3.

(d) Deposits to Meet Disbursements. — For the purpose of meeting disbursements for pensions, annuities and other payments there may be kept available cash, not exceeding ten per centum (10%) of the total amount in the several funds of the Retirement System, on deposit with the State Treasurer of North Carolina.

(e) Personal Profit or Acting as Surety Prohibited. — Except as otherwise herein provided, no trustee and no employee of the Board of Trustees shall have any direct interest in the gains or profits of any investment made by the Board of Trustees, nor as such receive any pay or emolument for his service. No trustee or employee of the Board shall, directly or indirectly, for himself or as an agent in any manner use the same, except to make such current and necessary payments as are authorized by the Board of Trustees; nor shall any trustee or employee of the Board of Trustees become an endorser or surety or in any manner an obligor for moneys loaned or borrowed from the Board of Trustees.

(f) Retiree Health Benefit Fund. — The Retiree Health Benefit Fund is established as a fund in which accumulated contributions from employers and any earnings on those contributions shall be used to provide health benefits to retired and disabled employees and their applicable beneficiaries as provided by this Chapter. The Retiree Health Benefit Fund shall be administered in accordance with the provisions of subsection (a) of this section. Employer contributions to the Fund are irrevocable. The assets of the Fund are dedicated to providing health benefits to retired and disabled employees and their applicable beneficiaries as provided by this Chapter and are not subject to the claims of creditors of the employers making contributions to the Fund. However, Fund assets may be used for reasonable expenses to administer the Fund, including costs to conduct required actuarial valuations of State-supported retired employees' health benefits under other post-employment benefit accounting standards set forth by the Governmental Accounting

Standards Board of the Financial Accounting Foundation. (1941, c. 25, s. 7; 1957, c. 846, s. 2; 1959, c. 1181, s. 2; 1961, c. 397; 1965, c. 780, s. 1; 1967, c. 720, s. 11; c. 1205; 1971, c. 386, s. 4; 1973, c. 241, s. 9; 1979, c. 467, ss. 14, 15; 2004-124, s. 31.20(a); 2007-323, s. 28.23.)

§§ 135-7.1, 135-7.2: Repealed by Session Laws 1979, c. 467, ss. 16, 17.

§ 135-8. Method of financing.

(a) Funds to Which Assets of Retirement System Credited. — All of the assets of the Retirement System shall be credited according to the purpose for which they are held to one of four funds, namely, the annuity savings fund, the annuity reserve fund, the pension accumulation fund, and the pension reserve fund.

(b) Annuity Savings Fund. — The annuity savings fund shall be a fund in which shall be accumulated contributions from the compensation of members to provide for their annuities. Contributions to any payments from the annuity savings fund shall be made as follows:

(1) Prior to the first day of July, 1947, each employer shall cause to be deducted from the salary of each member on each and every payroll of such employer for each and every payroll period four per centum (4%) of his actual compensation; and the employer also shall deduct four per centum (4%) of any compensation received by any member for teaching in public schools, or in any of the institutions, agencies or departments of the State, from salaries other than the appropriations from the State of North Carolina. On and after such date the rate so deducted shall be five per centum (5%) of actual compensation except that, with respect to each member who is eligible for coverage under the Social Security Act in accordance with the agreement entered into during 1955 in accordance with the provisions of Article 2 of Chapter 135 of Volume 17 of the General Statutes, as amended, and with respect to members covered under G.S. 135-27, with such coverage retroactive to January 1, 1955, such deduction shall, commencing with the first day of the period of service with respect to which such agreement is effective, be at the rate of three per centum (3%) of the part of his actual compensation not in excess of the amount taxable to him under the Federal Insurance Contributions Act as from time to time in effect plus five per centum (5%) of the part of his earnable compensation not so taxable; provided that in the case of any member so eligible and receiving compensation from two or more employers such deductions may be adjusted under such rules as the Board of Trustees may establish so as to be as nearly equivalent as practicable to the deductions which would have been made had the member received all of such compensation from one employer. Notwithstand-

ing the foregoing, the Board of Trustees may in its discretion cause such portion as it may determine of deductions made between January 1, 1955, and December 1, 1955, to be transferred into the contribution fund established under G.S. 135-24; such amounts so transferred shall in that event be deemed to be taxes contributed by employees as required under Article 2, Chapter 135 of Volume 17 of the General Statutes as amended, and shall be in lieu of contributions otherwise payable in the same amount as so required.

Notwithstanding the foregoing, effective July 1, 1963, with respect to the period of service commencing on July 1, 1963, and ending December 31, 1965, the rates of such deduction shall be four per centum (4%) of the portion of compensation not in excess of forty-eight hundred dollars ($4,800) and six per centum (6%) of the portion of compensation in excess of forty-eight hundred dollars ($4,800); and with respect to the period of service commencing January 1, 1966, and ending June 30, 1967, the rate of such deductions shall be four per centum (4%) of the portion of compensation not in excess of fifty-six hundred dollars ($5,600) and six per centum (6%) of the portion of compensation in excess of fifty-six hundred dollars ($5,600); and with respect to the period of service commencing July 1, 1967, and ending June 30, 1975, the rate of such deductions shall be five per centum (5%) of the portion of compensation not in excess of fifty-six hundred dollars ($5,600) and six per centum (6%) of the portion of compensation in excess of fifty-six hundred dollars ($5,600). Such rates shall apply uniformly to all members of the Retirement System, without regard to their coverage under the Social Security Act.

Notwithstanding the foregoing, effective July 1, 1975, with respect to the period of service commencing on July 1, 1975, the rate of such deductions shall be six per centum (6%) of the compensation received by any member. Such rates shall apply uniformly to all members of the Retirement System, without regard to their coverage under the Social Security Act.

(2) The deductions provided for herein shall be made notwithstanding that the minimum compensation provided for by law for any member shall be reduced thereby. Every member shall be deemed to consent and agree to the deductions made and provided for herein and shall receipt for his full salary or compensation, and payment of salary or compensation less said deduction shall be a full and complete discharge and acquittance of all claims and demands whatsoever for the services rendered by such person during the period covered by such payment, except as to the benefits provided under this Chapter. The employer shall certify to the Board of Trustees on each and every payroll or in such other manner as the Board of Trustees may prescribe, the amounts to be deducted; and each of said amounts shall be deducted, and when deducted shall be paid into said annuity savings fund, and shall be credited, together with regular interest thereon, to the individual account of the member from whose compensation said deduction was made.

(3) Each board of education of each county and each board of education of each city, and the employer in any department, agency or institution of the State, in which any teacher receives compensation from sources other than appropriations of the State of North Carolina shall deduct from the salaries of these teachers paid from sources other than State appropriations an amount equal to that deducted from the salaries of the teachers whose salaries are paid from State funds, and remit this amount to the State Retirement System. City boards of education and

county boards of education in each and every county and city which has employees compensated from other than the State appropriation shall pay to the State Retirement System the same per centum of the compensation that the State of North Carolina pays and shall transmit same to the State Retirement System monthly: Provided, that for the purpose of enabling the boards of education to make such payment, the tax-levying authorities are hereby authorized, empowered and directed to provide the necessary funds therefor. In case the salary is paid in part from State funds and in part from local funds, the local authorities shall not be relieved of providing and remitting the same per centum of the salary paid from local funds as is paid from State funds. In case the entire salary of any teacher, as defined in this Chapter, is paid from county or local funds, the county or city paying such salary shall provide and remit to the Retirement System the same per centum that would be required if the salary were provided by the State of North Carolina.

(4) In addition to contributions deducted from compensation as hereinbefore provided, subject to the approval of the Board of Trustees, any member may redeposit in the annuity savings fund by a single payment an amount equal to the total amount which he previously withdrew therefrom, as provided in this Chapter. Such amounts so redeposited shall become a part of his accumulated contributions as if such amounts had initially been contributed within the calendar year of such redeposit. In no event, however, shall any member be permitted to redeposit any amount withdrawn after July 1, 1959, except as provided for in G.S. 135-4(e).

(5) The Board of Trustees may approve the purchase of creditable service by any member for leaves of absence or for interrupted service to an employer for the sole purpose of acquiring knowledge, talents, or abilities and to increase the efficiency of service to the employer. This approval shall be made prior to the purchase of the creditable service, is limited to a career total of six years for each member, and may be obtained in the following manner:

a. Approved leave of absence. — Where the employer grants an approved leave of absence, a member may make monthly contributions to the annuity savings fund on the basis of compensation the member was earning immediately prior to such leave of absence. The employer shall make monthly contributions equal to the normal and accrued liability contribution on such compensation or, in lieu thereof, the member may pay into the annuity savings fund monthly an amount equal to the employer's normal and accrued liability contribution when the policy of the employer is not to make such payment.

b. No educational leave policy. — Where the employer has a policy of not granting educational leaves of absence or the member has unsuccessfully petitioned for leave of absence and the member has interrupted service for educational purposes, the member may make monthly contributions into the annuity savings fund in an amount equal to the employee contribution plus the employer normal and accrued liability contribution on the basis of the compensation the member was earning immediately prior to the interrupted service.

c. Educational program prior to July 1, 1981. — Creditable service for leaves of absence or interrupted service for educational purposes prior to July 1, 1981, may be purchased by a member, before or after retirement, who returned as a contributing employee or teacher within 12 months after completing the educational program and completed 10 years of subsequent membership service, by making a lump sum payment into the annuity savings fund equal to the full cost of the service credits calculated on the basis of the assumptions used for purposes of the actuarial valuation of the system's liabilities and shall take into account the retirement allowance arising on account of the additional service credit commencing at the earliest age at which the member could retire on an unreduced retirement allowance as determined by the Board of Trustees upon the advice of the consulting actuary, plus a fee to be determined by the Board of Trustees.

d. Employment in a charter school. — Notwithstanding subparagraph a. of this subdivision, where the employer grants an approved leave of absence for the member to be employed in a charter school or where the member's service is interrupted by employment in a charter school, authorized under Part 6A of Article 16 of Chapter 115C of the General Statutes, the member may make monthly contributions into the annuity savings fund in an amount equal to the employee contribution plus the employer normal and accrued liability contribution on the basis of the compensation the member was earning immediately prior to the interrupted service.

Payments required to be made by the member, the employer, or both under subparagraphs a or b are due by the 15th of the month following the month for which the service credit is allowed and payments made after the due date shall be assessed a penalty, in lieu of interest, of one percent (1%) per month or fraction thereof the payment is made beyond the due date; provided, that these payments shall be made prior to retirement and provided further, that if the member did not become a contributing member within 12 months after completing the educational program and failed to complete three years of subsequent membership service, except in the event of death or disability, any payment made by the member including penalty shall be refunded with regular interest thereon and the service credits cancelled prior to or at retirement.

(6) The contributions of a member, and such interest as may be allowed thereon, paid upon his death or withdrawn by him as provided in this Chapter, shall be paid from the annuity savings fund, and any balance of the accumulated contributions of such a member shall be transferred to the pension accumulation fund.

(b1) Pick Up of Employee Contributions. — Anything within this section to the contrary notwithstanding, effective July 1, 1982, an employer, pursuant to the provisions of section 414(h)(2) of the Internal Revenue Code of 1954 as amended, shall pick up and pay the contributions which would be payable by the employees as members under subsection (b) of this section with respect to the service of employees after June 30, 1982.

The members' contributions picked up by an employer shall be designated for all purposes of the Retirement System as member contributions, except for the determination of tax upon a distribution from the System. These contributions shall be credited to the annuity savings fund and accumulated within the fund in a member's account which shall be separately established for the purpose of accounting for picked-up contributions.

Member contributions picked up by an employer shall be payable from the same source of funds used for the payment of compensation to a member. A deduction shall be made from a member's compensation equal to the amount of his contributions picked up by his employer. This deduction, however, shall not reduce his compensation as defined in subdivision (7a) of G.S. 135-1. Picked up contributions shall be transmitted to the System monthly for the preceding month by means of a warrant drawn by the employer and payable to the Teachers' and State Employees' Retirement System and shall be accompanied by a schedule of the picked-up contributions on such forms as may be prescribed. In the case of a failure to fulfill these conditions, the provisions of subsection (f)(3) of this section shall apply.

The pick up of employee contributions by an employer as provided for hereunder shall be equally applicable to participant contributions required under the optional retirement program as specified in G.S. 135-5.1(c).

(b2) Retroactive Adjustment in Compensation or an Underreporting of Compensation. — A member or beneficiary who is awarded backpay in cases of a denied promotional opportunity in which the aggrieved member or beneficiary is granted a promotion retroactively, or in cases in which an employer errs in the reporting of compensation, including the employee and employer contributions, the member or beneficiary and employer may make employee and employer contributions on the retroactive or additional compensation, after submitting clear and convincing evidence of the retroactive promotion or underreporting of compensation, as follows:

(1) Within 90 days of the denial of the promotion or the error in reporting, by the payment of employee and employer contributions that would have been paid; or

(2) After 90 days of the denial of the promotion or the error in reporting, by the payment of the employee and employer contributions that would have been paid plus interest compounded annually at a rate equal to the greater of the average yield on the pension accumulation fund for the preceding calendar year or the actuarial investment rate-of-return assumption, as adopted by the Board of Trustees.

For members or beneficiaries electing to make the employee contributions on the retroactive adjustment in compensation or on the underreported compensation, the member's or beneficiary's employer, which granted the retroactive promotion or erred in underreporting compensation and contributions, shall make the required employer contributions. Nothing contained in this subsection shall prevent an employer from paying all or a part of the interest assessed on the employee contributions; and to the extent paid by the employer, the interest paid by the employer shall be credited to the pension accumulation fund; provided, however, an employer does not discriminate against any member or beneficiary or group of members or beneficiaries in his employ in paying all or any part of the interest assessed on the employee contributions due.

In the event the retroactive adjustment in compensation or the underreported compensation is for a period that occurs during the four consecutive calendar years that would have produced the highest average annual compensation pursuant to G.S. 135-1(5) the compensation the member or beneficiary would have received during the period shall be included in calculating the member's or beneficiary's average final compensation only in the event the appropriate employee and employer contributions are paid on such compensation.

An employer error in underreporting compensation shall not include a retroactive increase in compensation that occurs during the four consecutive calendar years that would have produced the highest average annual compensation pursuant to G.S. 135-1(5) for reasons other than a wrongfully denied promotional opportunity where the member is promoted retroactively.

(c) Annuity Reserve Fund. — The annuity reserve fund shall be the fund in which shall be held the reserves on all annuities in force and from which shall be paid all annuities and all benefits in lieu of annuities, payable as provided in this Chapter. Should a beneficiary retired on account of disability be restored to active service with a compensation not less than his average final compensation at the time of his last retirement his annuity reserve shall be transferred from the annuity reserve fund to the annuity savings fund and credited to his individual account therein.

(d) Pension Accumulation Fund. — The pension accumulation fund shall be the fund in which shall be accumulated all reserves for the payment of all pensions and other benefits payable from contribution made by employers and from which shall be paid all pensions and other benefits on account of members with prior service credit. Contributions to and payments from the pension accumulation fund shall be made as follows:

(1) On account of each member there shall be paid in the pension accumulation fund by employers an amount equal to a certain percentage of the actual compensation of each member to be known as the "normal contribution," and an additional amount equal to a percentage of his actual compensation to be known as the "accrued liability contribution." The rate per centum of such contributions shall be fixed on the basis of the liabilities of the Retirement System as shown by actuarial valuation. Until the first valuation the normal contribution shall be two and fifty-seven one-hundredths percent (2.57%) for teachers, and one and fifty-seven one-hundredths percent (1.57%) for State employees, and the accrued liability contribution shall be two and ninety-four one-hundredths percent (2.94%) for teachers and one and fifty-nine one-hundredths percent (1.59%) of the salary of other State employees.

(2) On the basis of regular interest and of such mortality and other tables as shall be adopted by the Board of Trustees, the actuary engaged by the Board to make each valuation required by this Chapter during the period over which the accrued liability contribution is payable, immediately after making such valuation, shall determine the uniform and constant percentage of the earnable compensation of the average new entrant throughout his entire period of active service which would be sufficient to provide for the payment of any pension payable on his account. The rate per centum so determined shall be known as the "normal contribution" rate. After the accrued liability contribution has ceased to be payable, the normal contribution rate shall be the rate per centum of the earnable salary of all members obtained by deducting from the total liabilities of the pension accumulation fund the amount of the funds in hand to the credit of that fund and dividing the remainder by one per centum of the present value of the prospective future salaries of all members as computed on the basis of the mortality and service tables adopted by the Board of Trustees and regular interest. The normal rate of contribution shall be determined by the actuary after each valuation.

(3) Immediately succeeding the first valuation the actuary engaged by the Board of Trustees shall compute the rate per centum of the total annual compensation of all members which is equivalent to four percent (4%) of the amount of the total pension liability on account of all members and beneficiaries which is not dischargeable by the aforesaid normal contribution made on account of such members during the remainder of their active service. The rate per centum originally so determined shall be known as the "accrued liability contribution" rate. Such rate shall be increased on the basis of subsequent valuations if benefits are increased over those included in the valuation on the basis of which the original accrued liability contribution rate was determined. Upon certification by the actuary

engaged by the Board of Trustees that the accrued liability contribution rate may be reduced without impairing the Retirement System, the Board of Trustees may cause the accrued liability contribution rate to be reduced.

(4) The total amount payable in each year to the pension accumulation fund shall not be less than the sum of the rate per centum known as the normal contribution rate and the accrued liability contribution rate of the total actual compensation of all members during the preceding year: Provided, however, that, subject to the provisions of subdivision (3) of this subsection the amount of each annual accrued liability contribution shall be at least three percent (3%) greater than the preceding annual accrued liability payment, and that the aggregate payment by employers shall be sufficient, when combined with the amount in the fund, to provide the pensions and other benefits payable out of the fund during the year then current.

(5) The accrued liability contribution shall be discontinued as soon as the accumulated reserve in the pension accumulation fund shall equal the present value as actuarially computed and approved by the Board of Trustees, of the total liability of such fund less the present value, computed on the basis of the normal contribution rate then in force, of the prospective normal contributions to be received on account of all persons who are at the time members.

(6) All pensions, and benefits in lieu thereof, with the exception of those payable on account of members who received no prior service allowance, payable from contributions of employer shall be paid from the pension accumulation fund.

(7) Upon the retirement of a member not entitled to credit for prior service, an amount equal to his pension reserve shall be transferred from the pension accumulation fund to the pension reserve fund.

(e) Pension Reserve Fund. — The pension reserve fund shall be the fund in which shall be held the reserves on all pensions granted to members not entitled to credit for prior service and from which such pensions and benefits in lieu thereof shall be paid. Should such a beneficiary retired on account of disability be restored to active service with a compensation not less than his average final compensation at the time of his last retirement, the pension thereon shall be transferred from the pension reserve fund to the pension accumulation fund. Should the pension of such disability beneficiary be reduced as a result of an increase in his earning capacity, the amount of the annual reduction in his pension shall be paid annually into the pension accumulation fund during the period of such reduction.

(f) Collection of Contributions. —

(1) The collection of members' contributions shall be as follows:

a. Each employer shall cause to be deducted on each and every payroll of a member for each and every payroll subsequent to the date of establishment of the Retirement System the contributions payable by such member as provided in this Chapter, and the employer shall draw his warrant for the amount so deducted, payable to the Teachers' and State Employees' Retirement System of North Carolina, and shall transmit the same, together with schedule of the contributions, on such forms as prescribed.

(2) The collection of employers' contributions shall be made as follows:

a. Upon the basis of each actuarial valuation provided herein there shall be prepared biennially and certified to the Department of Administration a statement of the total amount necessary for the ensuing biennium to the pension accumulation and expense funds, as provided under subsections (d) and (f) of this section, and these funds shall be handled and disbursed in accordance with the State Budget Act, Chapter 143C of the General Statutes.

b. Until the first valuation has been made and the rates computed as provided in subsection (d) of this section, the amount payable by employers on account of the normal and accrued liability contributions shall be five and fifty-one one-hundredths percent (5.51%) of the payroll of all teachers and three and sixteen one-hundredths percent (3.16%) for other State employees.

c. Repealed by Session Laws 1993, c. 257, s. 13.

d. Each board of education in each county and each board of education in each city in which teachers or other employees of the schools receive compensation for services in the public schools from sources other than the appropriation of the State of North Carolina shall pay the Board of Trustees of the State Retirement System such rate of their respective salaries as are paid those of other employees.

e. Each employer shall transmit monthly to the State Retirement System on account of each employee, who is a member of this System, an amount sufficient to cover the normal contribution and the accrued liability contribution of each member employed by such employer for the preceding month.

(3) In the event the employee or employer contributions required under this section are not received by the date set by the Board of Trustees, the Board shall assess the employer with a penalty of 1% per month with a minimum penalty of twenty-five dollars ($25.00). If within 90 days after request therefor by the Board any employer shall not have provided the System with the records and other information required hereunder or if the full accrued amount of the contributions provided for under this section due from members employed by an employer or from an employer other than the State shall not have been received by the System from the chief fiscal officer of such employer within 30 days after the last due date as herein provided, then, notwithstanding anything herein or in the provisions of any other law to the contrary, upon notification by the Board to the State Treasurer as to the default of such employer as herein provided, any distributions which might otherwise be made to such employer from any funds of the State shall be withheld from such employer until notice from the Board to the State Treasurer that such employer is no longer in default.

(g) Merger of Annuity Reserve Fund and Pension Reserve Fund into Pension Accumulation Fund. — Notwithstanding the foregoing, effective at such date not later than December 31, 1959, as the Board of Trustees may determine, the annuity reserve fund and the pension reserve fund shall be merged into and become a part of the pension accumulation fund, provided that such merger shall in no way adversely affect the rights of any members or retired members of the System and further provided the Board of Trustees shall be and hereby is authorized to make such changes in the accounting methods and procedures of the System from time to time as, in its opinion, are in the interest of sound and proper administration of the System.

(h) Repealed by Session Laws 1965, c. 780, s. 1. (1941, c. 25, s. 8; c. 143; 1943, c. 207; 1947, c. 458, ss. 1, 2, 8; 1955, c. 1155, ss. 3-5; 1959, c. 513, s. 4; 1963, c. 687, ss. 4, 5; 1965, c. 780, s. 1; 1967, c. 720, ss. 12, 13; 1969, c. 1223, s. 13; 1971, c. 117, ss. 2, 10; 1975, c. 457, s. 5; c. 879, s. 46; 1977, c. 909; 1981, c. 636, s. 1; c. 1000, ss. 1, 2; 1981 (Reg. Sess., 1982), c. 1282, s. 8; 1985, c. 539, ss. 1, 2; 1991, c. 585, s. 3; c. 718, s. 1; 1993, c. 257, s. 13; 1997-430, s. 11; 2003-359, s. 10; 2006-203, s. 73; 2009-66, s. 7(a).)

Editor's Note. — This section, as amended by Session Laws 1993, c. 257, s. 13 does not contain a subdivision (f)(1)b.

Session Laws 2006-203, s. 126, provides in part: "Prosecutions for offenses committed before the effective date of this act [July 1, 2007] are not abated or affected by this act, and the statutes that would be applicable but for this act remain applicable to those prosecutions."

Effect of Amendments. — Session Laws 2006-203, s. 73, effective July 1, 2007, and applicable to the budget for the 2007-2009 biennium and each subsequent biennium thereafter, substituted "the State Budget Act, Chapter 143C of the General Statutes" for "Chapter 100, Public Laws of 1929, and amendments thereto (G.S. 143-1 et seq.), known as the Executive Budget Act" in subdivision (f)(2)a.

Session Laws 2009-66, s. 7(a), effective July 1, 2009, inserted "or beneficiary", "or beneficiaries" and "or beneficiary's" throughout subsection (b2).

CASE NOTES

Funding. — Teachers' and State Employees' Retirement System of North Carolina, Consolidated Judicial Retirement System of North Carolina, and Legislative Retirement System are funded by both employee and State, or employer, contributions under G.S. 135-8, 135-68, 135-69, 120-4.19, and 120-4.20; these systems provide for a systematic method of funding of the respective retirement system with employee contributions computed as a set percentage of the employees' salaries, and with systematic employer contributions in accordance with formulas mandated by the retirement statutes, which include calculations by an actuary based on the actuarial valuation of liabilities of the retirement systems. State Employees Ass'n of N.C., Inc. v. State, 154 N.C. App. 207, 573 S.E.2d 525, 2002 N.C. App. LEXIS 1451 (2002).

Local Unit Contribution. — Where a local unit assumes the burden of supplementing State support for the schools, the provision of subsection (b)(3) of this section that the local unit make its contribution and the taxing authority provide the necessary funds is mandatory. Bridges v. City of Charlotte, 221 N.C. 472, 20 S.E.2d 825 (1942), holding no vote necessary to tax to meet deficiency in previously authorized tax.

Penalties Not Required. — Board's practice of waiving penalties under circumstances where employers were not at fault for failing to remit employer contributions to the Retirement System was entirely consistent with the Board's statutory discretion to adopt rules to prevent injustices under G.S. 135-6(f). Accordingly, the Treasurer and the Board were not required by G.S. 135-8(f)(3) to punish those employers whose employer contributions were not deposited in the Retirement System. Stone v. State, 191 N.C. App. 402, 664 S.E.2d 32, 2008 N.C. App. LEXIS 1485 (2008).

§ 135-9. Exemption from garnishment, attachment, etc.

Except for the applications of the provisions of G.S. 110-136, and G.S. 110-136.3 et seq., and in connection with a court-ordered equitable distribution under G.S. 50-20, the right of a person to a pension, or annuity, or a retirement allowance, to the return of contributions, the pension, annuity or retirement allowance itself, any optional benefit or any other right accrued or accruing to any person under the provisions of this Chapter, and the moneys in the various funds created by this Chapter, are exempt from levy and sale, garnishment, attachment, or any other process whatsoever, and shall be unassignable except as in this Chapter specifically otherwise provided. Notwithstanding any provisions to the contrary, any overpayment of benefits to a member in a State-administered retirement system or the former Disability Salary Continuation Plan or the Disability Income Plan of North Carolina may be offset against any retirement allowance, return of contributions or any other right accruing under this Chapter to the same person, the person's estate, or designated beneficiary. (1941, c. 25, s. 9; 1985, c. 402, s. 1; c. 649, s. 5; 1987, c. 738, s. 29(k); 1989, c. 665, s. 1; c. 792, s. 2.5.)

CASE NOTES

The language of this section is clear and unequivocal. A person's rights to state employee retirement benefits are not assignable. Reynolds v. North Carolina State Employees Credit Union, 31 Bankr. 296 (Bankr. E.D.N.C. 1983).

This section and G.S. 50-20(b)(3) do not require entry of a Qualified Domestic Relations Order to assign a retirement plan; therefore, the plain language of a property settlement agreement incorporated into a consent order served to secure ex-wife's twenty percent interest in her ex-husband's state university retirement plan. Patterson ex rel. Jordan v. Patterson, 137 N.C. App. 653, 529 S.E.2d 484, 2000 N.C. App. LEXIS 505 (2000).

G.S. 1C-1601(c) does not preclude the use of this section by a bankruptcy debtor to claim an exemption in state employee retirement benefits. In re Hare, 32 Bankr. 16 (Bankr. E.D.N.C. 1983).

The designation of "retirement" as "other collateral" on loan document was clearly misleading, since the "retirement" account of a state employee is unassignable, and therefore not available as a source of security to a creditor. Petersen v. State Employees Credit Union (In re Kittrell), 115 Bankr. 873 (Bankr. M.D.N.C. 1990).

Credit union deceived borrower by purporting to have enforceable security interest in retirement accounts. Practices and actions of credit union in deceiving borrower into thinking that credit union had a valid, enforceable security interest in his retirement account by inserting the word "retirement" in the "other collateral" block on front of loan documents and having debtor sign documents at the time of making his first loan, which authorized the sending of employee's retirement checks to the credit union and depositing therein and the filing away of these forms and applying them to all loans made thereafter violated public policy of protecting the retirement accounts of teachers and other state employees. Petersen v. State Employees Credit Union (In re Kittrell), 115 Bankr. 873 (Bankr. M.D.N.C. 1990).

§ 135-10. Protection against fraud.

Any person who shall knowingly make any false statement or shall falsify or permit to be falsified any record or records of this Retirement System in any attempt to defraud such System as a result of such act shall be guilty of a Class 1 misdemeanor. Should any change or error in the records result in any member or beneficiary receiving from the Retirement System more or less than he would have been entitled to receive had the records been correct, the Board of Trustees shall correct such error, and as far as practicable, shall adjust the payment in such a manner that the actuarial equivalent of the benefit to which such member or beneficiary was correctly entitled shall be paid. (1941, c. 25, s. 10; 1993, c. 539, s. 973; 1994, Ex. Sess., c. 24, s. 14(c).)

CASE NOTES

Legislative Intent. — This section shows the intent of the General Assembly to allow the courts to require that compensation paid for underpayment of a pension compensation be paid at the actuarial value. Faulkenbury v. Teachers' & State Emps. Retirement Sys., 345 N.C. 683, 483 S.E.2d 422 (1997).

Calculation of Additional Benefit. — The re-calculation of additional benefits owed to retirees did not mandate the use of a mortality factor, where the right to payments was not forfeited upon the death of a retiree but was passed to the retiree's survivors. Faulkenbury v. Teachers' & State Employees' Ret. Sys., 132 N.C. App. 137, 510 S.E.2d 675, 1999 N.C. App. LEXIS 89 (1999), cert. denied, 350 N.C. 379, 536 S.E.2d 620 (1999).

§ 135-10.1. Failure to respond.

If a member fails to respond in any way within 90 days after preliminary option figures and the Form 6-E are mailed, the Form 6 shall be null and void; the retirement system shall not be liable for any benefits due on account of the voided application, and a new application must be filed establishing a subsequent effective date of retirement. If an applicant for disability retirement fails to furnish requested additional medical information within 90 days following such request, the application shall be declared null and void under the same conditions outlined above, unless the applicant is eligible for early or service retirement in which case the application shall be processed accordingly, using the same effective date as would have been used had the application for disability retirement been approved. The Director of the Retirement Systems Division, acting on behalf of the Board of Trustees, may extend the 90-day limitation provided for in this section when a member has suffered incapacitation such that a reasonable person would not have expected the member to be able to complete the required paperwork within the regular deadline, or when an omission by the Retirement Systems Division prevents the member from having sufficient time to meet the regular deadline. (2005-91, s. 4; 2009-66, s. 4(b).)

Effect of Amendments. — Session Laws 2009-66, s. 4(b), effective July 1, 2009, in the first sentence, substituted "the Form 6-E are mailed, the Form 6 shall" for "Form 6-E, Election of Benefits, are mailed, the Form 6, Application for Service, Early, or Disability Retirement, shall", and added the last sentence.

§ 135-11. Application of other pension laws.

Subject to the provisions of Article 2, Chapter 135 of the General Statutes, Volume 17, as amended, no other provisions of law in any other statute which provides wholly or partly at the expense of the State of North Carolina for pensions or retirement benefits for teachers or State employees of the said State, their widows, or other dependents shall apply to members or beneficiaries of the Retirement System established by this Chapter, their widows or other dependents. (1941, c. 25, s. 11; 1955, c. 1155, s. 6.)

§ 135-12. Obligation of maintaining reserves and paying benefits.

The maintenance of annuity reserves and pension reserves as provided for and regular interest creditable to the various funds as provided in G.S. 135-8, and the payment of all pensions, annuities, retirement allowances, refunds and other benefits granted under the provisions of this Chapter, are hereby made obligations of the pension accumulation fund. All income, interest and dividends derived from deposits and investments authorized by this Chapter shall be used for the payment of the said obligations of the said fund. (1941, c. 25, s. 12.)

§ 135-13. Certain laws not repealed; suspension of payments and compulsory retirement.

Nothing in this Chapter shall be construed to repeal or invalidate any of the provisions of Chapter 483 of the Public-Local Laws of 1919, or Chapter 385 of the Public-Local Laws of 1921, as amended, relating to pensions for school teachers in New Hanover County. No payment on account of any benefit granted under the provisions of G.S. 135-5, subsections (a) and (d) inclusive, shall become effective or begin to accrue until the end of one year following the date the System is established nor shall any compulsory retirement be made during such period. (1941, c. 25, s. 13.)

§ 135-14. Pensions of certain former teachers and State employees.

On and after July 1, 1983, special pensions and allowances of certain former teachers and State employees shall be paid out of the Pension Accumulation Fund of the Retirement System, as follows:

(1) Any person who was a teacher or employee, as defined in G.S. 135-1(10) and (25), for 20 or more years, whose separation from service was prior to April 1, 1956, was not due to any dishonorable cause, and who had attained age 65 prior to July 1, 1960, shall upon application be paid an allowance of one hundred seventy-three dollars and twenty-five cents ($173.25) per month.

(2) Any beneficiary who did not qualify for Social Security benefits and had 20 or more years of creditable service and qualified for a minimum eighty-five dollars ($85.00) per month under the provisions of Chapter 1140 of the 1965 Session Laws, shall be paid the allowance in effect on June 30, 1983.

(1987, c. 177, s. 1(a), (b).)

Editor's Note. — Session Laws 1987, c. 177, s. 1(c), made this section effective upon the first day of the calendar month following the State's receipt of a favorable letter of determination or ruling from the Internal Revenue Service, United States Department of Treasury, that the Retirement Systems were qualified trusts under Section 401(a) of the Internal Revenue Code of 1954 as amended. A favorable letter was received prior to the enactment of c. 177.

§ 135-18.7. Internal Revenue Code compliance.

(a) Notwithstanding any other provisions of law to the contrary, compensation for any calendar year after 1988 in which employee or employer contributions are made and for which annual compensation is used for computing any benefit under this Article shall not exceed the higher of two hundred thousand dollars ($200,000) or the amount determined by the Commissioner of Internal Revenue as the limitation for calendar years after 1989; provided the imposition of the limitation shall not reduce a member's benefit below the amount determined as of December 31, 1988.

Effective January 1, 1996, the annual compensation of a member taken into account for determining all benefits provided under this Article shall not exceed one hundred fifty thousand dollars ($150,000), as adjusted pursuant to section 401(a)(17)(B) of the Internal Revenue Code and any regulations issued under the Code. However, with respect to a person who became a member of the Retirement System prior to January 1, 1996, the imposition of this limitation on compensation shall not reduce the amount of compensation which may be taken into account for determining the benefits of that member under this Article below the amount of compensation which would have been recognized under the provisions of this Article in effect on July 1, 1993.

Effective January 1, 2002, the annual compensation of a person, who became a member of the Retirement System on or after January 1, 1996, taken into account for determining all benefits accruing under this Article for any plan year after December 31, 2001, shall not exceed two hundred thousand dollars ($200,000) or the amount otherwise set by the Internal Revenue Code or determined by the Commissioner of Internal Revenue as the limitation for calendar years after 2002.

(b) Notwithstanding any other provisions of law to the contrary, the annual benefit payable on behalf of a member shall, if necessary, be reduced to the extent required by Section 415(b) and with respect to calendar years commencing prior to January 1, 2000, Section 415(e) of the Internal Revenue Code, as adjusted by the Secretary of the Treasury or his delegate pursuant to Section 415(d) of the Code. If a member is a participant under any qualified defined contributions plan that is required to be taken into account for the purposes of the limitation contained in Section 415 of the Internal Revenue Code, the annual benefit payable under this Article shall be reduced to the extent required by Section 415(e) prior to making any reduction under the defined contribution plan provided by the employer. However, with respect to a member who has benefits accrued under this Article but whose benefit had not commenced as of December 31, 1999, the combined plan limitation contained in Section 415(e) of the Internal Revenue Code shall not be applied to such member for calendar years commencing on or after January 1, 2000.

(c) On and after January 1, 1989, the retirement allowance of a member who has terminated employment shall begin no later than the later of April 1 of the calendar year following the calendar year that the member attains 70 ½ years of age or April 1 of the calendar year following the calendar year in which the member terminates employment.

(d) This subsection applies to distributions made on or after January 1, 1993. Notwithstanding any other provision of the Plan to the contrary that would otherwise limit a distributee's election under this Article, a distributee may elect, at the time and in the manner prescribed by the Plan administrator, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover. Provided, an eligible rollover distribution is any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include: any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the distributee or the joint lives (or joint life expectancies) of the distributee and the distributee's designated beneficiary, or for a specified period of 10 years or more; any distribution to the extent such distribution is required under section 401(a)(9) of the Code; and the portion of any distribution that is not includible in gross income (determined without regard to the exclusion for net realized appreciation with respect to employer securities). Effective as of January 1, 2002, and notwithstanding the preceding sentence, a portion of a distribution shall not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions which are not includible in gross income. However, such portion may be transferred only to an individual retirement account or annuity described in Section 408(a) or (b) of the Code, or to a qualified defined contribution plan described in Section 401(a) or 403(a) of the Code that agrees to separately account for amounts so transferred, including separately accounting for the portion of such distribution which is includible in gross income and the portion of such distribution which is not so includible. Provided, an eligible retirement plan is an individual retirement account described in section 408(a) of the Code, an individual retirement annuity described in section 408(b) of the Code, an annuity plan described in section 403(a) of the Code, or a qualified trust described in section 401(a) of the Code, that accepts the distributee's eligible rollover distribution. Effective on and after January 1, 2002, an eligible retirement plan shall also mean an annuity contract described in Section 403(b) of the Code and an eligible plan under Section 457(b) of the Code which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state and which agrees to separately account for amounts transferred into such plan from this Plan. The definition of eligible retirement plan shall also apply in the case of a distribution to surviving spouse, or to a spouse or former spouse who is the alternate payee under a qualified domestic relations order, as defined in Section 414(p) of the Internal Revenue Code, or a court-ordered equitable distribution of marital property, as provided under G.S. 50-30. Provided, a distributee includes an employee or former employee. Provided further, a direct rollover is a payment by the Plan to the eligible retirement plan specified by the distributee. Effective on and after January 1, 2007, notwithstanding any other provision of this subsection, a nonspouse beneficiary of a deceased member may elect, at the time and in the manner prescribed by the administrator of the Board of Trustees of this Retirement System, to directly roll over any portion of the beneficiary's distribution from the Retirement System; however, such rollover shall conform with the provisions of section 402(c)(11) of the Code. (1989, c. 276, s. 3; 1993, c. 531, s. 6; 1995, c. 361, s. 1; 2002-71, s. 6; 2009-66, s. 1(a).)

Effect of Amendments. — Session Laws 2009-66, s. 1(a), effective July 1, 2009, added the last sentence of subsection (d).

§ 135-18.8. Deduction for payments to certain employees' or retirees' associations allowed.

The accumulated contributions, creditable service, and reserves of any member whose service as a member of the Legislative Retirement System or the Consolidated Judicial

Retirement System is terminated other than by retirement or death and who later becomes a member of the Teachers' and State Employees' Retirement System may, upon application of the member, be transferred from the Legislative Retirement System or the Consolidated Judicial Retirement System to the Teachers' and State Employees' Retirement System. In order to effect the transfer of a member's creditable service from the Legislative Retirement System or the Consolidated Judicial Retirement System to the Teachers' and State Employees' Retirement System, the accumulated contributions of each member credited in the annuity savings fund in the Legislative Retirement System or the Consolidated Judicial Retirement System shall be transferred and credited to the annuity savings fund in the Teachers' and State Employees' Retirement System.

Opinion of Attorney General to Mr. J.E. Miller, Director, Local Governmental Employees' Retirement System, 40 N.C.A.G. 620 (1969).

§ 135-21. Federal-State agreement; interstate instrumentalities.

(a) The State agency, with the approval of the Governor, is hereby authorized to enter on behalf of the State into an agreement with the Secretary of Health, Education and Welfare, consistent with the terms and provisions of this Article, for the purpose of extending the benefits of the Federal Old Age and Survivors Insurance System to employees of the State or any political subdivision thereof with respect to services specified in such agreement which constitute "employment" as defined in G.S. 135-20. Such agreement may contain such provisions relating to coverage, benefits, contributions, effective date, modification and termination of the agreement, administration, and other appropriate provisions as the State agency and Secretary of Health, Education and Welfare shall agree upon, but, except as may be otherwise required by or under the Social Security Act as to the services to be covered, such agreement shall provide in effect that —

(1) Benefits will be provided for employees whose services are covered by the agreement (and their dependents and survivors) on the same basis as though such services constituted employment within the meaning of Title II of the Social Security Act.

(2) The State will pay to the Secretary of the Treasury, at such time or times as may be prescribed under the Social Security Act, contributions with respect to wages (as defined in G.S. 135-20), equal to the sum of the taxes which would be imposed by the Federal Insurance Contributions Act if the services covered by the agreement constituted employment within the meaning of that act.

(3) Such agreement shall be effective with respect to services in employment covered by the agreement performed after a date specified therein but shall in no event cover any such services performed prior to January 1, 1951.

(4) All services which constitute employment as defined in G.S. 135-20 and are performed in the employ of the State by employees of the State, shall be covered by the agreement.

(5) All services which constitute employment as defined in G.S. 135-20, are performed in the employ of a political subdivision of the State, and are covered by a plan which is in conformity with the terms of the agreement and has been approved by the State agency under G.S. 135-23, shall be covered by the agreement.

(6) As modified, the agreement shall include all services described in either subdivision (4) or subdivision (5) of this subsection and performed by individuals to whom section 218(c)(3)(C) of the Social Security Act is applicable and shall provide that the service of any such individual shall continue to be covered by the agreement in case he thereafter becomes eligible to be a member of a retirement system; and

(7) As modified, the agreement shall include all services described in either subdivision (4) or subdivision (5) of this subsection and performed by individuals in positions covered by a retirement system with respect to which the Governor has issued a certificate to the Secretary of Health, Education and Welfare pursuant to G.S. 135-29.

(b) Any instrumentality jointly created by this State and any other state or states is hereby authorized, upon the granting of like authority by such other state or states,

(1) To enter into an agreement with the Secretary of Health, Education and Welfare whereby the benefits of the Federal Old Age and Survivors Insurance System shall be extended to employees of such instrumentality,

(2) To require its employees to pay (and for that purpose to deduct from their wages) contributions equal to the amounts which they would be required to pay under G.S. 135-22(a) if they were covered by an agreement made pursuant to subsection (a) of this section, and

(3) To make payments to the Secretary of the Treasury in accordance with such agreement, including payments from its own funds, and otherwise to comply with such agreements.

Such agreement shall, to the extent practicable, be consistent with the terms and provisions of subsection (a) and other provisions of this Article.

(c) Pursuant to section 218(d)(6) of the Social Security Act, the Teachers' and State Employees' Retirement System of North Carolina as established by Article 1 of Chapter 135 of the General Statutes, Volume 17, as amended and as the same may be hereafter amended, shall for the purposes of this Article, be deemed to constitute a single retirement system; and, the North Carolina Local Governmental Employees' Retirement System as established by Article 3 of Chapter 128 of the General Statutes, Volume 16, as amended and as the same may be hereafter amended, shall be deemed to constitute a single retirement system with respect to each political subdivision having positions covered thereby. (1951, c. 562, s. 3; 1953, c. 52; 1955, c. 1154, ss. 5-7, 12.)

§ 135-22. Contributions by State employees.

(a) Every employee of the State whose services are covered by an agreement entered into under G.S. 135-21 shall be required to pay for the period of such coverage, into the contribution fund established by G.S. 135-24, contributions, with respect to wages (as defined in G.S. 135-20), equal to the amount of the employee tax which would be imposed by the Federal Insurance Contributions Act if such services constituted employment within the meaning of that act. Such liability shall arise in consideration of the employee's retention in the service of the State, or his entry upon such service, after the enactment of this Article.

(b) The contribution imposed by this section shall be collected by deducting the amount of the contribution from wages as and when paid, but failure to make such deduction shall not relieve the employee from liability for such contribution.

(c) If more or less than the correct amount of the contribution imposed by this section is paid or deducted with respect to any remuneration, proper adjustments, or refund if adjustment is impracticable, shall be made, without interest, in such manner and at such times as the State agency shall prescribe. (1951, c. 562, s. 3; 1955, c. 1154, s. 8.)

§ 135-23. Plans for coverage of employees of political subdivisions.

(a) Each political subdivision of the State is hereby authorized to submit for approval by the State agency a plan for extending the benefits of Title II of the Social Security Act, in conformity with applicable provisions of such act, to employees of such political subdivisions. Each such plan and any amendment thereof shall be approved by the State agency if it finds that such plan or such plan as amended, is in conformity with such requirements as are provided in regulations of the State agency, except that no such plan shall be approved unless —

(1) It is in conformity with the requirements of the Social Security Act and with the agreement entered into under G.S. 135-21.

(2) It provides that all services which constitute employment as defined in G.S. 135-20 and are performed in the employ of the political subdivision by employees thereof, shall be covered by the plan, except that it may exclude services performed by individuals to whom section 218(c)(3)(C) of the Social Security Act is applicable.

(3) It specifies the source or sources from which the funds necessary to make the payments required by subdivision (1) of subsection (c) and by subsection (d) are expected to be derived and contains reasonable assurance that such sources will be adequate for such purpose.

(4) It provides for such methods of administration of the plan by the political subdivision as are found by the State agency to be necessary for the proper and efficient administration of the plan.

(5) It provides that the political subdivision will make such reports, in such form and containing such information, as the State agency may from time to time require, and comply with such provisions as the State agency or the Secretary of Health, Education and Welfare may from time to time find necessary to assure the correctness and verification of such reports.

(6) It authorizes the State agency to terminate the plan in its entirety, in the discretion of the State agency, if it finds that there has been a failure to comply substantially with any provision contained in such plan, such termination to take effect at the expiration of such notice and on such conditions as may be provided by regulations of the State agency and may be consistent with the provisions of the Social Security Act.

(b) The State agency shall not finally refuse to approve a plan submitted by a political subdivision under subsection (a), and shall not terminate an approved plan, without reasonable notice and opportunity for hearing to the political subdivision affected thereby.

(c)(1) Each political subdivision as to which a plan has been approved under this section shall pay into the contribution fund, with respect to wages (as defined in G.S. 135-20), at such time or times as the State agency may by regulation prescribe, contributions in the amounts and at the rates specified in the applicable agreement entered into by the State agency under G.S. 135-21.

(2) Each political subdivision required to make payments under subdivision (1) of this subsection is authorized, in consideration of the employee's retention in, or entry upon, employment after enactment of this Article, to impose upon each of its employees, as to services which are covered by an approved plan, a contribution with respect to his wages (as defined in G.S. 135-20), not exceeding the amount of the employee tax which would be imposed by the Federal Insurance Contributions Act if such services constituted employment within the meaning of that act, and to deduct the amount of such contribution from his wages as and when paid. Contributions so collected shall be paid into the contribution fund in partial discharge of the liability of such political subdivision or instrumentality under subdivision (1) of this subsection. Failure to deduct such contribution shall not relieve the employee or employer of liability therefor.

(d) Delinquent payments due under subdivision (1) of subsection (c), may, with interest at the rate of six per centum (6%) per annum, be recovered by action in the Superior Court of Wake County against the political subdivision liable therefor or may, at the request of the State agency, be deducted from any other moneys payable to such subdivision by any department or agency of the State. (1951, c. 562, s. 3; 1955, c. 1154, ss. 9, 10, 12.)

§ 135-24. Contribution fund.

(a) There is hereby established a special fund to be known as the contribution fund. Such fund shall consist of and there shall be deposited in such fund:

(1) All contributions, interest, and penalties collected under G.S. 135-22 and 135-23;

(2) All moneys appropriated thereto under this Article;

(3) Any property or securities and earnings thereof acquired through the use of moneys belonging to the fund;

(4) Interest earned upon any moneys in the fund; and

(5) All sums recovered upon the bond of the custodian or otherwise for losses sustained by the fund and all other moneys received for the fund from any other source.

All moneys in the fund shall be mingled and undivided. Subject to the provisions of this Article, the State agency is vested with full power, authority and jurisdiction over the fund, including all moneys and property or securities belonging thereto, and may perform any and all acts whether or not specifically designated, which are necessary to the administration thereof and are consistent with the provisions of this Article.

(b) The contribution fund shall be established and held separate and apart from any other funds or moneys of the State and shall be used and administered exclusively for the purpose of this Article. Withdrawals from such fund shall be made for, and solely for

(1) Payment of amounts required to be paid to the Secretary of the Treasury pursuant to an agreement entered into under G.S. 135-21;

(2) Payment of refunds provided for in G.S. 135-22(c); and

(3) Refunds of overpayments, not otherwise adjustable, made by a political subdivision or instrumentality.

(c) From the contribution fund the custodian of the fund shall pay to the Secretary of the Treasury such amounts and at such time or times as may be directed by the State agency in accordance with any agreement entered into under G.S. 135-21 and the Social Security Act.

(d) The Treasurer of the State shall be ex officio treasurer and custodian of the contribution fund and shall administer such fund in accordance with the provisions of this Article and the directions of the State agency and shall pay all warrants drawn upon it in accordance with the provisions of this section and with such regulations as the State agency may prescribe pursuant thereto.

(e)(1) There are hereby authorized to be appropriated biennially to the contribution fund, in addition to the contributions collected and paid into the contribution fund under G.S. 135-22 and 135-23, to be available for the purposes of G.S. 135-24(b) and (c) until expended, such additional sums as are found to be necessary in order to make the payments to the Secretary of the Treasury which the State is obligated to make pursuant to an agreement entered into under G.S. 135-21.

(2) The State agency shall submit to each regular session of the State legislature, at least 90 days in advance of the beginning of such session, an estimate of the amounts authorized to be appropriated to the contribution fund by subdivision (1) of this subsection for the next appropriation period.

(f) The State agency shall have the authority to promulgate rules and regulations under which the State agency may make a reasonable charge or assessment against any political subdivision whose employees shall be included in any coverage agreement under any plan of coverage of employees as provided by the provisions of this Article. Such charge or assessment shall be determined by the State agency and shall be apportioned among the various political subdivisions of government in a ratable or fair manner, and the funds derived from such charge or assessment shall be used exclusively by the State agency to defray the cost and expense of administering the provisions of this Article. In case of refusal to pay such charge or assessment on the part of any political subdivision as defined in this Article, or in case such charge or assessment remains unpaid for a period of 30 days, the State agency may maintain a suit in the Superior Court of Wake County for the recovery of such charge or assessment. The Superior Court of Wake County is hereby vested with jurisdiction over all such suits or actions. Only such amount shall be assessed against such political subdivision as is necessary to pay its share of the expense of providing supplies, necessary employees and clerks, records and other proper expenses necessary for the administration of this Article by the State agency, including compensation of the State agency for the agency's services. The funds accumulated and derived from such assessments and charges shall be deposited by the State agency in some safe and reliable depository chosen by the State agency, and the State agency shall issue such checks or vouchers as may be necessary to defray the above-mentioned expenses of administration with the right of the representative of any political subdivision to inspect the books and records and inquire into the amounts necessary for such administration. (1951, c. 562, s. 3; 1963, c. 687, s. 6.)

§ 135-25. Rules and regulations.

The State agency shall make and publish such rules and regulations, not inconsistent with the provisions of this Article, as it finds necessary or appropriate to the efficient administration of the functions with which it is charged under this Article. (1951, c. 562, s. 3.)

§ 135-26. Studies and reports.

The State agency shall make studies concerning the problem of old age and survivors insurance protection for employees of the State and local governments and their instrumentalities and concerning the operation of agreements made and plans approved under this Article and shall submit a report to the legislature at the beginning of each regular session, covering the administration and operation of this Article during the preceding biennium, including such recommendations for amendments to this Article as it considers proper. (b) Any member who files such an election shall remain a member of the Retirement System during the time he is in such association employment and does not withdraw his contributions. Such a member shall be entitled to all the rights and benefits of the Retirement System as though remaining in State service on the basis of the funds accumulated for his credit at the time of such transfer plus any additional accruals on account of future contributions made as hereinafter provided. Such former State employee may restore any such account and pay into the annuity savings fund before July 1, 1960, such amounts as would have been paid after transfer to such service, provided that the association makes contributions to the Retirement System on behalf of such former members in accordance with subsection (c) of this section.

(c) Under such rules as the Board of Trustees shall adopt, the association to which the member has been transferred may agree to contribute to the Retirement System on behalf of such member such current service contributions as would have been made by his employer had he remained in State service with actual compensation equal to the remuneration received from such association; provided the member continues to contribute to the Retirement System. Any period of such association employment on account of which contributions are made by both the association and the member as herein provided shall be credited as membership service under the Retirement System.

(d) The governing board of any association or organization listed in subsection (a), in its discretion, may elect on or before July 1, 1983, by an appropriate resolution of said board, to cause the employees of such association or organization so employed prior to July 1, 1983, to become members of the Teachers' and State Employees' Retirement System. Such Retirement System coverage shall be conditioned on such association's or organization's paying all of the employer's contributions or matching funds from funds of the association or organization and on such board's collecting from its employees the employees' contributions at such rates as may be fixed by law and by the regulations of the Board of Trustees of the Retirement System, all of such funds to be paid to the Retirement System and placed in the appropriate funds. Retroactive coverage of the employees of any such association or organization may also be effected to the extent that such board requests; provided, the association or organization shall pay all of the employer's contributions or matching funds necessary for such purposes; and, provided further, such association or organization shall collect from its employees all employees' contributions necessary for such purpose, computed at such rates and in such amount as the Board of Trustees of the Retirement System shall determine, all of such funds to be paid to the Retirement System, together with such interest as may be due, and placed in the appropriate funds. The provisions of this subsection shall be fully applicable to the North Carolina Symphony Society, Inc. and the North Carolina State Art Society, Inc.

(e) Notwithstanding the foregoing, employees of the State Employees' Credit Union who are in service and members of the Retirement System on June 30, 1983, shall, on or before October 1, 1983, make an irrevocable election to do one of the following:

(1) Continue contributing membership service under the same conditions and requirements as are otherwise provided, and have the rights of a member to all benefits and a retirement allowance; or
(2) Receive a return of accumulated contributions with cessation of contributing membership service, under G.S. 135-5(f) and in any event with regular interest regardless of membership service; or
(3) Terminate contributing membership service and be entitled alternatively to the benefits and allowances provided under G.S. 135-3(8) or G.S. 135-5(a).

(f) Notwithstanding the foregoing, employees of the State Employees Association of North Carolina, the employees of the North Carolina Association of Educators, and the employees of the North Carolina School Boards Association who are in service and members of the Retirement System on June 30, 1985, shall, on or before October 1, 1985, make an irrevocable election to exercise one of the three options provided in G.S. 135-27(e). Effect of Amendments. — Session Laws 2008-194, s. 6(a), effective August 8, 2008, inserted "State" in the last sentence of subsection (d).

§ 135-28. Transfer of members to employment covered by the North Carolina Local Governmental Employees' Retirement System.

(a) Any member whose services as a teacher or State employee are terminated for any reason other than retirement or death, who, while his account remains active, becomes employed by an employer participating in the North Carolina Local Governmental Employees' Retirement System or an employer which brings its employees into participation in said System while his account is active, may elect to leave his total accumulated contributions in the Teachers' and State Employees' Retirement System during the period he is in the employment of such employer, or his account remains active in the local system. This subsection shall be effective retroactively as well as prospectively.

(b) Any such member shall retain all the rights, credits and benefits obtaining to him under this Retirement System at the time of such transfer while he is a member of the local system and does not withdraw his contributions hereunder and in addition, he shall be granted membership service credits under this Retirement System on account of the period of his membership in the local system for the purpose of increasing his years of creditable service hereunder in order to meet any service requirements of any retirement benefit under this Retirement System and, if he is a member in service under the local system, he shall be deemed to be a member in service under this Retirement System if so required by such benefit: Provided, however, that in lieu of transfer of funds from one retirement system to another, such member who is eligible for retirement benefits shall file application therefor with each retirement system to the end that each retirement system shall pay appropriate benefits without transfer of funds between the systems.

(c) Any member who became or becomes employed by an employer of the North Carolina Local Governmental Employees' Retirement System as provided in (a) above shall be entitled to waive the provisions of (b) above and to transfer to the local system his credits for membership and prior service in this System provided such member shall request this System to transfer his accumulated contributions, interest and service credits to the local system. If such request is made, in addition to the member's accumulated contributions, interest and service credits, there shall be transferred to the local system the amount of reserve held in this System as a result of previous employer contributions on behalf of the transferring employee. (1953, c. 1050, s. 2; 1961, c. 516, s. 6; 1965, c. 780, s. 1; 1971, c. 117, ss. 16, 18; 1973, c. 241, s. 12.)

§ 135-28.1. Transfer of members to employment covered by the Uniform Judicial Retirement System.

(a) Any member whose service as a teacher or State employee is terminated other than by retirement or death and, who, while still a member of this

Retirement System, becomes a judge participating in the Uniform Judicial Retirement System, may elect to retain his membership in this Retirement System by not withdrawing his accumulated contributions hereunder. Any such member shall retain all the rights, credits and benefits obtaining to him under this Retirement System at the time of such termination of service hereunder while he is a member of the other system and does not withdraw his contributions hereunder.

(b) The provisions of the preceding subsection to the contrary notwithstanding, with respect to each judge or former judge of the district court division of the General Court of Justice who was a member of this Retirement System immediately prior to January 1, 1974, and who becomes a member of the Uniform Judicial Retirement System on or after January 1, 1974, upon his commencement of membership in the other system there shall be paid in a lump sum to his account in the annuity savings fund of the other system the amount of his accumulated contributions under this System that are attributable to contributions made by him hereunder while a judge of said district court division. Upon such payment, the member's accumulated contributions hereunder shall be reduced by the amount of such payment and his period of creditable membership service shall be reduced by the period of service during which such repaid contributions were originally made.

Any member for whom the payment of his accumulated contributions as herein provided reduces the balance of his account in the annuity savings fund to zero and cancels his entire period of creditable service shall no longer be a member of this Retirement System.

In the case of any member who retains his membership in this Retirement System after the payment hereinabove provided and who subsequently becomes eligible for retirement benefits under this Retirement System or whose death results in benefit payments to another beneficiary, the average final compensation used in the computation of the amount of any such benefits shall be computed as of the date of commencement of his membership in the other system on the same basis as if his retirement or death had occurred as of such date of commencement. Moreover, for the sole purpose of increasing his creditable service hereunder in order to meet any applicable service requirements for benefits hereunder, any such member shall be granted membership service credits under this Retirement System on account of (i) the period of membership service cancelled under the first paragraph of this subsection and (ii) the period of his membership in the other system so long as he remains a member hereunder and, if he is a member in service under the other system, he shall be deemed to be a member in service under this Retirement System if so required for any benefit hereunder.

(c) Any member who becomes eligible for benefits under both this Retirement System and the Uniform Judicial Retirement System may file application therefor with each retirement system to the end that each retirement system shall pay appropriate benefits without transfer of funds between the systems except as otherwise provided in subsection (b) above.

(d) The Board of Trustees shall effect such rules as it may deem necessary to administer the provisions of the preceding subsections of this section and to prevent any duplication of service credits or benefits that might otherwise occur.

(e) When any judge of a district court division of the General Court of Justice shall have made application for disability retirement prior to January 1, 1974, while a member of this Retirement System to become effective after January 1, 1974, and such judge died before January 1, 1974, and there was filed with the application for disability retirement a statement by a physician that such judge was permanently and totally disabled, such person shall be deemed to have complied with all provisions of this Retirement System as of the date of application for disability retirement and no action of the medical board shall be necessary. He shall be presumed to have chosen Option 2 as to retirement benefits and survivor's benefits shall commence immediately and shall also be paid retroactively to the first day of the calendar month following such judge's death.

(f) Notwithstanding the provisions of subsections (a), (b), (c), (d), and (e) of this section, the accumulated contributions and creditable service of any member whose service as a teacher or employee has been or is terminated other than by retirement or death and who, while still a member of this Retirement System, became or becomes a member, as defined in G.S. 135-53(11), of the Consolidated Judicial Retirement System for a period of five or more years may, upon application of the member, be transferred from this Retirement System to the Consolidated Judicial Retirement System. In order to effect the transfer of a member's creditable service from the Teachers' and State Employees' Retirement System to the Consolidated Judicial Retirement System, there shall be transferred from the Teachers' and State Employees' Retirement System to the Consolidated Judicial Retirement System the sum of (i) the accumulated contributions of the member credited in the annuity savings fund and (ii) the amount of reserve held in the Teachers' and State Employees' Retirement System as a result of previous contributions by the employer on behalf of the transferring member. Part 1. General Provisions.

§ 135-43. Confidentiality of information and medical records; provider contracts.

(a) Any information as herein described in this section which is in the possession of the Executive Administrator and the Board of Trustees of the

State Health Plan for Teachers and State Employees or its Claims Processor under the Plan or the Predecessor Plan shall be confidential and shall be exempt from the provisions of Chapter 132 of the General Statutes or any other provision requiring information and records held by State agencies to be made public or accessible to the public. This section shall apply to all information concerning individuals, including the fact of coverage or noncoverage, whether or not a claim has been filed, medical information, whether or not a claim has been paid, and any other information or materials concerning a plan participant. Provided, however, such information may be released to the State Auditor, or to the Attorney General, or to the persons designated under G.S. 135-43.3 in furtherance of their statutory duties and responsibilities, or to such persons or organizations as may be designated and approved by the Executive Administrator and Board of Trustees of the Plan, but any information so released shall remain confidential as stated above and any party obtaining such information shall assume the same level of responsibility for maintaining such confidentiality as that of the Executive Administrator and Board of Trustees of the State Health Plan for Teachers and State Employees.

(b) Notwithstanding the provisions of this Article, the Executive Administrator and Board of Trustees of the State Health Plan for Teachers and State Employees may contract with providers of institutional and professional medical care and services to establish preferred provider networks.

The terms of a contract between the Plan and its third party administrator or between the Plan and its pharmacy benefit manager are a public record except that the terms in those contracts that contain trade secrets or proprietary or competitive information are not a public record under Chapter 132 of the General Statutes, and any such proprietary or competitive information and trade secrets contained in the contract shall be redacted by the Plan prior to making it available to the public. This subsection shall not be construed to prevent or restrict the release of any information made not a public record under this subsection to the State Auditor, the Attorney General, the Director of the State Budget, the Plan's Executive Administrator, and the Committee on Employee Hospital and Medical Benefits solely and exclusively for their use in the furtherance of their duties and responsibilities, and to the Department of Health and Human Services solely for the purpose of implementing the transition of NC Health Choice from the Plan to the Department of Health and Human Services. The design, adoption, and implementation of the preferred provider contracts, networks, and optional alternative comprehensive health benefit plans, and programs available under the optional alternative plans, as authorized under G.S. 135-45 are not subject to the requirements of Article 3 of Chapter 143 of the General Statutes. The Executive Administrator and Board of Trustees shall make reports as requested to the President of the Senate, the President Pro Tempore of the Senate, the Speaker of the House of Representatives, and the Committee on Employee Hospital and Medical Benefits.

(c) Allowable payments for services provided by a county or city ambulance service shall be paid directly or shall be co-payable to the county or city ambulance service provider. Editor's Note. — This section was formerly codified as G.S. 135-38. It was recodified as G.S. 135-37.2 by Session Laws 2008-168, s. 1(e), effective July 1, 2008. It has been renumbered as G.S. 135-43.1 at the direction of the Revisor of Statutes.

This section was codified as G.S. 135.38.5A under Part 2A of Article 3A of Chapter 135 by Session Laws 2008-168, s. 2.1, effective July 1, 2008. Session Laws 2008-187, s. 49, amended Session Laws 2008-168, s. 2.1, by substituting "135-38.5A" for "135.38.5A" as the section number. The section was subsequently placed in Part 1 of Article 3A of Chapter 135 and renumbered as G.S. 135-43.2 at the direction of the Revisor of Statutes.

§ 135-43.3. Oversight team.

(a) The Committee on Employee Hospital and Medical Benefits may use employees of the Legislative Services Office and may employ contractual services as approved by the Legislative Services Commission to monitor the Executive Administrator and Board of Trustees, the Claims Processor, and the Comprehensive Major Medical Plan [State Health Plan for Teachers and State Employees]. The Director of the Budget may use employees of the Office of State Budget and Management to monitor the Executive Administrator and Board of Trustees, the Claims Processor, and the Comprehensive Major Medical Plan [State Health Plan for Teachers and State Employees]. Employees authorized by the Legislative Services Commission and the Director of the Budget to provide assistance to the Committee on Employee Hospital and Medical Benefits and to the Director of the Budget shall comprise an oversight team.

Editor's Note. — This section was formerly codified as G.S. 135-39.3. The amendment by Session Laws 2008-168, s. 2(b), failed to indicate the substitution with strike through and underline coding. The bracketed text has been set out at the direction of the Revisor of Statutes.

Effect of Amendments. — Session Laws 2008-168, s. 2(b), effective July 1, 2008, in subsection (a), substituted "Employees authorized by the Legislative Services Commission and the Director of the Budget to provide assistance" for "Such assistance" in the last sentence; and in subsection (b), deleted "Comprehensive Major Medical" preceding "Plan" in the first sentence, and substituted "The oversight team" for "They" in the last sentence.

(4) The State Treasurer; and
(5) The Executive Administrator for the Teachers' and the State Employees' Comprehensive Major Medical Plan [State Health Plan for Teachers and State Employees].

(c) A majority of the members of the Committee then serving shall constitute a quorum.

(d) Each member shall be entitled to one vote on the Committee. Three affirmative votes shall be necessary for a decision by the members at any meeting of the Committee.

(e) The Committee shall keep in convenient form such data as is necessary for actuarial valuation of retired employees' health benefits under accounting standards set forth by the Governmental Accounting Standards Board of the Financial Accounting Foundation. (f) The Committee shall designate either the actuary under contract with the Department of State Treasurer, Retirement Systems Division, or the actuary under contract with the State Health Plan for Teachers and State Employees as the technical adviser to the Committee on matters regarding the actuarial valuation of retired employees' health benefits created by the provisions of this Chapter. Premium rates shall be established for coverages where Medicare is the primary payer of health benefits separate and apart from the rates established for coverages where Medicare is not the primary payer of health benefits. The amount of State funds contributed for optional coverage for employees and retirees on a partially contributory basis shall not be more than the Plan's total noncontributory premium for Employee Only coverage, with the person selecting the coverage paying the balance of the partially contributory premium not paid by the Plan. The amount of State funds contributed shall not exceed the Plan's cost for Employee Only coverage. These separate premium rates shall include rate factors for incurred but unreported claim costs, for the effects of adverse selection from voluntary participation in the Plan, and for any other actuarially determined measures needed to protect the financial integrity of the Plan for the benefit of its served employees, retired employees, and their eligible dependents.

(e) The total amount of premiums due the Plan from charter schools as employing units, including amounts withheld from the compensation of Plan members, that is not remitted to the Plan by the fifteenth day of the month following the due date of remittance shall be assessed interest of one and one-half percent (1 1/2%) of the amount due the Plan, per month or fraction thereof, beginning with the sixteenth day of the month following the due date of the remittance. The interest authorized by this section shall be assessed until the premium payment plus the accrued interest amount is remitted to the Plan. (f) Premium rates established or adjusted pursuant to this section shall not become effective except by an act of the General Assembly. (1981 (Reg. If the Executive Administrator and Board of Trustees decide that the subject matter of the appeal is not a determination subject to external review, then the Executive Administrator and Board of Trustees may make a binding decision on the matter in accordance with procedures established by the Executive Administrator and Board of Trustees. The Executive Administrator and Board of Trustees shall provide a written summary of the decisions made pursuant to this section to all employing units, all health benefit representatives, the oversight team provided for in G.S. 135-43.3, all relevant health care providers affected by a decision, and to any other parties requesting a written summary and approved by the Executive Administrator and Board of Trustees to receive a summary immediately following the issuance of a decision. CASE NOTES

Language in this section that Board of Trustees "may make a binding decision" concerning a dispute between an aggrieved individual and a claims administrator of a medical plan is not an express and unequivocal exemption of the Board from the requirements of the Administrative Procedure Act; instead, the use of the term "binding" in the statute was intended to mean only that the Board's decision would be binding upon the parties absent further review according to law. Vass v. Board of Trustees, 324 N.C. 402, 379 S.E.2d 26 (1989).

Case Commenced Prior to 1986 Governed by Chapter 150A. — A contested case commences when the dispute is presented to the board; therefore, where a contested case was commenced prior to Jan. 1, 1986, the dispute was governed by Chapter 150A and it was error to resolve this dispute according to Chapter 150B. Vass v. Board of Trustees, 108 N.C. App. 251, 423 S.E.2d 796 (1992).

§ 135-44.8. Rules.

The Executive Administrator and Board of Trustees may adopt rules to implement Parts 2, 3, 4, and 5 of this Article. The Executive Administrator and Board of Trustees shall provide to all employing units, all health benefit representatives, the oversight team provided for in G.S. 135-43.3, all relevant health care providers affected by a rule, and to any other persons requesting a written description and approved by the Executive Administrator and Board of Trustees written notice and an opportunity to comment not later than 30 days prior to adopting, amending, or rescinding a rule, unless immediate adoption of the rule without notice is necessary in order to fully effectuate the purpose of the rule. Rules of the Board of Trustees shall remain in effect until amended or repealed by the Executive Administrator and Board of Trustees. The Executive Administrator and Board of Trustees shall provide a written description of the rules adopted under this section to all employing units, all health benefit representatives, the oversight team provided for in G.S. 135-43.3, all relevant health care providers affected by a rule, and to any other persons requesting a written description and approved by the Executive Administrator and Board of Trustees on a timely basis. Rules adopted by the Executive Administrator and Board of Trustees to implement this Article are not subject to Article 2A of Chapter 150B of the General Statutes. (1981 (Reg. Sess., 1982), c. 1398, s. 6; 1985, c. 732, s. 54; 1991, c. 427, s. 7; 1997-278, s. 3; 1997-468, s. 5; 1998-1, s. 4(f); 2001-253, s. 1(r); 2008-168, ss. 1(a), 2(a), (o).)

In developing this prospective payment system, the Plan shall make use of the expertise of the North Carolina Hospital Association, including any advisory committees of member hospitals that the Association may name, and ambulatory surgical facilities in this State. In addition, the Plan shall develop as soon as practicable a medical fee schedule for the payment of professional health care services. The fee schedule shall be developed with the expertise of the North Carolina Medical Society, the North Carolina Academy of Family Physicians, and any other groups of professional medical service providers that the Society may wish to include. Any prospective payment system for hospital outpatient services and the services of ambulatory surgical facilities and a medical fee schedule for the providers of professional medical services shall not be implemented by the Plan before July 1, 2003."

§ 135-45. Undertaking.

(a) The State of North Carolina undertakes to make available a State Health Plan (hereinafter called the "Plan") exclusively for the benefit of eligible employees, eligible retired employees, and certain of their eligible dependents, which will pay benefits in accordance with the terms of this Article. The Plan shall have all the powers and privileges of a corporation and shall be known as the State Health Plan for Teachers and State Employees. The Executive Administrator and Board of Trustees shall carry out their duties and responsibilities as fiduciaries for the Plan. The Plan shall administer one or more group health plans that are comprehensive in coverage and shall provide eligible employees and retired employees coverage on a noncontributory basis under at least one of the group plans with benefits equal to that specified in subsection (g) of this section. The Executive Administrator and Board of Trustees may operate group plans as a preferred provider option, or health maintenance, point-of-service, or other organizational arrangement and may offer the plans to employees and retirees on a noncontributory or partially contributory basis. Plans offered on a partially contributory basis must provide benefits that are additional to that specified in subsection (g) of this section and may not be offered unless approved in an act of the General Assembly.

(b) Individuals eligible for coverage under G.S. 135-45.2 on a fully or partially contributory basis are eligible to participate in any plan authorized under this section.

(c) The State of North Carolina deems it to be in the public interest for North Carolina firefighters, rescue squad workers, and members of the National Guard, and certain of their dependents, who are not eligible for any other type of comprehensive group health insurance or other comprehensive group health benefits, and who have been without any form of group health insurance or other comprehensive group health benefit coverage for at least six consecutive months, to be given the opportunity to participate in the benefits provided by the State Health Plan for Teachers and State Employees. Coverage under the Plan shall be voluntary for eligible firefighters, rescue squad workers, and members of the National Guard who elect participation in the Plan for themselves and their eligible dependents.

(d) The Plan benefits shall be provided under contracts between the Plan and the claims processors selected by the Plan. The Executive Administrator may contract with a pharmacy benefits manager to administer pharmacy benefits under the Plan. OPINIONS OF ATTORNEY GENERAL

Medical Child Support Enforcement Provisions. — The medical child support enforcement provisions of House Bill 1563, 1993 (Reg. Sess. 1994) N.C. Session Laws c. 644, are inapplicable to the North Carolina Teachers' and State Employees' Comprehensive Major Medical Plan (now State Health Plan for Teachers and State Employees) and the governmental entities whose employees and retirees, along with their dependents, are eligible for coverage under the Plan or its HMO option. The Executive Administrator and Board of Trustees may make an exception to the provisions of this subsection when persons subject to this subsection have had a cessation of coverage for a period of five years and have made a full and complete restitution to the Plan for all fraudulent claim amounts. Nothing in this subsection shall be construed to obligate the Executive Administrator and Board of Trustees to make an exception as allowed for under this subsection.

(k) Any employee receiving benefits pursuant to Article 6 of this Chapter when the employee has less than five years of retirement membership service, or an employee on leave without pay due to illness or injury for up to 12 months, is entitled to continued coverage under the Plan for the employee and any eligible dependents by paying one hundred percent (100%) of the cost. § 135-45.6. Benefits not subject to deductible or coinsurance.

(a) Immunizations. — The Plan will pay one hundred percent (100%) of allowable medical charges for immunizations for the prevention of contagious diseases as generally accepted medical practices would dictate when directed by a credentialed provider as determined by the claims processor.

(b) Prescription Drugs. — The Plan's allowable charges for prescription legend drugs to be used outside of a hospital or skilled nursing facility shall be as determined by the Plan's Executive Administrator and Board of Trustees, which determinations are not subject to appeal under Article 3 of Chapter 150B of the General Statutes. Co-payments and other allowable charges or coverage for prescription drugs shall be as follows:

(1) The Plan will pay allowable charges for each outpatient prescription drug less a copayment to be paid by each covered individual equal to the following amounts: pharmacy charges up to ten dollars ($10.00) for each generic prescription, thirty-five dollars ($35.00) for each preferred branded prescription without a generic equivalent, and fifty-five dollars ($55.00) for each nonpreferred branded prescription. For each branded prescription drug with a generic equivalent drug, the member shall pay the generic co-payment plus the difference between the Plan's gross allowed cost for the generic prescription and the Plan's cost for the branded prescription drug.

(2) The Plan shall provide coverage of nonacute specialty medications, excluding cancer medications, under the Plan's pharmacy benefit through a specialty pharmacy vendor under contract with the Plan. The Plan may transfer coverage of specified specialty disease medications covered under the Plan's medical benefit to the contracted specialty pharmacy vendor. Specialty medications are covered biotech medications and other medications designated and classified by the Plan as specialty medications that are significantly more expensive than alternative drugs or therapies. Medications classified by the Plan as specialty medications shall meet all of the following conditions:

a. Have unique uses for the treatment of complex diseases.
b. Require special dosing or administration.
c. Require special handling.
d. Are typically prescribed by a specialist provider.
e. Exceed four hundred dollars ($400.00) cost to the Plan per prescription.

The Plan shall impose a co-payment in the amount of twenty-five percent (25%) of the Plan's gross allowed cost of the specialty drug not to exceed one hundred dollars ($100.00) per prescription per 30-day supply.

(3) The Plan may exclude coverage of drugs that have therapeutic equivalents, as defined by the U.S. Food and Drug Administration, that are available over the counter. Before excluding coverage under this subdivision, the Plan shall consult with the Plan's Pharmacy and Therapeutics Committee.

(4) A Plan member shall pay the lesser of copayments provided under this subsection or a pharmacy's cash price to the general public for a particular prescription. The Plan's pharmacy benefit manager may remove from the pharmacy network any pharmacy that charges an amount in violation of this subdivision. Prescriptions shall be for no more than a 30-day supply for the purposes of the copayments paid by each covered individual. By accepting the copayments and any re-

maining allowable charges provided by this subsection, pharmacies shall not balance bill an individual covered by the Plan. A prescription legend drug is defined as an article the label of which, under the Federal Food, Drug, and Cosmetic Act, is required to bear the legend: "Caution: Federal Law Prohibits Dispensing Without Prescription." Such articles may not be sold to or purchased by the public without a prescription order. Benefits are provided for insulin even though a prescription is not required. The Plan may adopt utilization management procedures for certain drugs, but in no event shall the Plan provide coverage for sexual dysfunction or hair growth drugs or nonmedically necessary drugs used for cosmetic purposes. Any formulary used by the Plan's Executive Administrator and pharmacy benefit manager shall be an open formulary. Plan members shall not be assessed more than two thousand five hundred dollars ($2,500) per person per fiscal year in copayments required by this subsection. The Plan's Pharmacy Benefit Manager, or any pharmacy or vendor participating in the Plan shall charge the Plan for any prescription legend drug dispensed under the Plan's pharmacy benefit based upon the original National Drug Code (NDC) as established by the manufacturer of the prescription legend drug and published by the United States Food and Drug Administration. Editor's Note. — This section was formerly codified as G.S. 135-40.5. It was recodified as G.S. 135-39.18 under Part 3A of Article 3A of Chapter 135 by Session Laws 2008-168, s. 3(j), effective July 1, 2008. It has been renumbered as G.S. 135-45.6 at the direction of the Revisor of Statutes.

For Session Laws 2001-253, s. 1(s), regarding development of a prospective payment system for hospital outpatient services and the services of ambulatory surgical facilities under the Teachers' and State Employees' Comprehensive Major Medical Plan, see note at G.S. 135-44.8.

Session Laws 2001-253, s. 2, provides: "Notwithstanding G.S. 97-26, payment for medical treatment and services rendered to workers' compensation patients by a hospital on or after July 1, 2001, and before August 1, 2001, shall be equal to the payment the hospital would have received for such treatment and services on June 30, 2001."

Session Laws 2003-186, s. 6, provides, in part, that for the purposes of this act, renewal of a health benefit plan is presumed to occur on each anniversary of the date on which coverage was first effective on the person or persons covered by the health benefit plan.

Subsection (e), as amended by Session Laws 2003-186, s. 5(a), effective January 1, 2004, is applicable to all health benefit plans that are delivered, issued for delivery, or renewed on and after that date.

Session Laws 2006-249, s. 1(a), expiring July 1, 2009, provides: "Cost-Saving Initiatives. — Coverage of Over-the-Counter Medications. — Notwithstanding any other provision of law to the contrary, the Executive Administrator and Board of Trustees may authorize coverage for over-the-counter medications as recommended by the Plan's pharmacy and therapeutics committee. In approving for coverage one or more over-the-counter medications, the Executive Administrator and Board of Trustees shall ensure that each recommended over-the-counter medication has been analyzed to ensure medical effectiveness and Plan member safety. The analysis shall also address the financial impact on the Plan. The Executive Administrator and Board of Trustees may impose a co-payment to be paid by each covered individual for each packaged over-the-counter medication. The Executive Administrator and Board of Trustees may adopt policies establishing limits on the amount of coverage available for over-the-counter medications for each covered individual over a 12-month period. Prior to implementing policy and co-payment changes authorized under this section, the Executive Administrator and Board of Trustees shall submit the proposed policies and co-payments to the Committee on Employee Hospital and Medical Benefits for its review."

Session Laws 2006-249, s. 1(b), provides:

"Incentive Programs. — For the purposes of helping Plan members to achieve and maintain a healthy lifestyle without impairing patient care, and to increase cost effectiveness in Plan coverage, the Executive Administrator and Board of Trustees may adopt programs offering incentives to Plan members to encourage changes in member behavior or lifestyle designed to improve member health and promote cost-efficiency in the Plan. Participation in one or more incentive programs is voluntary on the part of the Plan member. Before adopting an incentive program, the Executive Administrator and Board of Trustees shall conduct an impact analysis on the proposed incentive program to determine (i) whether the program is likely to result in significant member satisfaction, (ii) that it will not adversely affect quality of care, and (iii) whether it is likely to result in significant cost savings to the Plan. The impact analysis may be conducted by a committee of the Plan, in conjunction with the Plan's consulting actuary, provided that the Plan's medical director participates in the analysis. An approved incentive plan may provide for a waiver of deductibles, co-payments, and coinsurance required under this Article in order to determine the effectiveness of the incentive program in promoting healthy lifestyles for members and increasing cost-effectiveness to the Plan. The Executive Administrator and Board of Trustees shall, before implementing incentive programs authorized under this section, submit the proposed programs to the Committee on Employee Hospital and Medical Benefits for review."

Session Laws 2007-323, s. 28.22A(n), provides: "If on July 1, 2008, there are State employees or retired employees that are enrolled in the Teachers' and State Employees' Comprehensive Major Medical Plan (indemnity plan) on June 30, 2008, and that have not elected one of the optional PPO benefit plans available under the State Health Plan for Teachers and State Employees, then the Plan shall enroll those employees or retired employees in the Standard PPO Option, or its equivalent, effective July 1, 2008."

Session Laws 2007-323, s. 1.2, provides: "This act shall be known as the 'Current Operations and Capital Improvements Appropriations Act of 2007'."

Session Laws 2007-323, s. 32.3, provides: "Except for statutory changes or other provisions that clearly indicate an intention to have effects beyond the 2007-2009 fiscal biennium, the textual provisions of this act apply only to funds appropriated for, and activities occurring during, the 2007-2009 fiscal biennium."

Session Laws 2007-323, s. 32.5 is a severability clause.

Effect of Amendments. — Session Laws 2007-323, s. 28.22A(a), effective July 1, 2008, repealed subsection (e), related to routine diagnostic examinations.

Session Laws 2008-168, s. 3(j), effective July 1, 2008, redesignated subsections (f) and (g) as subsections (a) and (b), and in present subsection (a), inserted "medical" following "allowable" and substituted "a credentialed provider as determined by the claims processor" for "an attending physician"; in present subsection (b), in the first paragraph, substituted "shall be as" for "are to be" and added "which determinations are not subject to appeal under Article 3 of Chapter 150B of the General Statutes", substituted "all optional alternative plans available under the Plan" for "the Plan's optional programs" in the last sentence of the second paragraph, and substituted "sexual" for "erectile" in the eighth sentence of the third paragraph.

Session Laws 2009-16, s. 2(c), effective July 1, 2009, rewrote subsection (b).

Session Laws 2009-571, s. 3(e), effective October 1, 2009 and applicable to prescription drugs purchased on and after that date, in subdivision (b)(4), deleted the former first sentence which read: "Allowable charges shall not be greater than the lesser of copayments provided under this subsection or a pharmacy's usual and customary charge to the general public for a particular prescription." and added the present first and second sentences; and deleted the former last paragraph of subsection (b) which read: "Co-payments and other allowable charges under this subsection shall be the lesser of the Plan's discounted cost of the drug or the co-payment amount or allowable charge and apply to all optional alternative plans available under the Plan."

§ 135-45.7. Prior approval procedures.

The Executive Administrator and Board of Trustees may establish procedures to require prior medical approval and may implement the procedures after consultation with the Committee on Employee Hospital and Medical Benefits. (2008-168, s. 3(*l*).)

Editor's Note. — This section was codified as G.S. 135-39.19 under Part 3A of Article 3A of Chapter 135 by Session Laws 2008-168, s. 3(*l*), effective July 1, 2008. It has been renumbered as G.S. 135-45.7 at the direction of the Revisor of Statutes.

Session Laws 2008-168, s. 7, made this section effective July 1, 2008.

§ 135-45.8. (See Editor's Note for temporary provision) General limitations and exclusions.

The following shall in no event be considered covered expenses nor will benefits described in G.S. 135-45.6 through G.S. 135-45.11 be payable for:

(1) Charges for any services rendered to a person prior to the date coverage under this Plan becomes effective with respect to such person.

(2) Charges for care in a nursing home, adult care home, convalescent home, or in any other facility or location for custodial or for rest cures.

(3) Charges to the extent paid, or which the individual is entitled to have paid, or to obtain without cost, in accordance with any government laws or regulations except Medicare. If a charge is made to any such person which he or she is legally required to pay, any benefits under this Plan will be computed in accordance with its provisions, taking into account only such charge. "Any government" includes the federal, State, provincial or local government, or any political subdivision thereof, of the United States, Canada or any other country.

(4) Charges for services rendered in connection with any occupational injury or disease arising out of and in the course of employment with any employer, if (i) the employer furnishes, pays for or provides reimbursement for such charges, or (ii) the employer makes a settlement payment for such charges, or (iii) the person incurring such charges waives or fails to assert his or her rights respecting such charges.

(5) Charges for any care, treatment, services or supplies other than those which are certified by a physician who is attending the individual as being required for the medically necessary treatment of the injury or disease and are deemed medically necessary and appropriate for the treatment of the injury or disease by the Executive Administrator and Board of Trustees upon the advice of the Claims Processor. This subdivision shall not be construed, however, to require certification by an attending physician for a service provided by an advanced practice registered nurse acting within the nurse's lawful scope of practice.

(6) Charges for any services rendered as a result of injury or sickness due to an act of war, declared or undeclared, which act shall have occurred after the effective date of a person's coverage under the Plan.

(7) Charges for personal services such as barber services, guest meals, radio and TV rentals, etc.

(8) Charges for any services with respect to which there is no legal obligation to pay. For the purposes of this item, any charge which exceeds the charge that would have been made if a person were not covered under this Plan shall, to the extent of such excess, be treated as a charge for which there is no legal obligation to pay; and any charge made by any person for anything which is normally or customarily furnished by such person without payment from the recipient or user thereof shall also be treated as a charge for which there is no legal obligation to pay.

(9) Charges during a continuous hospital confinement which commenced prior to the effective date of the person's coverage under this Plan.

(10) Charges in excess of either the allowed amount or the reasonable amount, or the fair and reasonable value of the services or supply which gives rise to the expense; provided that in each instance the extent that a particular charge is usual, customary and reasonable or fair and reasonable shall be measured and determined by comparing the charge with charges made for similar things to individuals of similar age, sex, income and medical condition in the locality concerned, and the result of such determination shall constitute the maximum allowable as covered medical expenses unless the Claims Processor finds that considerations of fairness and equity in a particular set of circumstances require that greater or lesser charges be considered as covered medical expenses in that set of circumstances.

(11) Charges for or in connection with any dental work or dental treatment except to the extent that such work or treatment is specifically provided for under the Plan. Excluded is payment for surgical benefits for tooth replacement, such as crowns, bridges or dentures; orthodontic care; filling of teeth; extraction of teeth (whether or not impacted); root canal therapy; removal of root tips from teeth; treatment for tooth decay, inflammation of gingiva, or surgical procedures on diseased gingiva or other periodontal surgery; repositioning soft tissue, reshaping bone, and removal of bony projections from the ridges preparatory to fitting of dentures; removal of cysts incidental to removal of root tips from teeth and extraction of teeth; or other dental procedures involving teeth and their bones or tissue supporting structure.

(12) Charges incurred for any medical observations or diagnostic study when no disease or injury is revealed, unless proof satisfactory to the Claims Processor is furnished that (i) the claim is in order in all other respects, (ii) the covered individual had a definite symptomatic condition of disease or injury other than hypochondria, and (iii) the medical observation and diagnostic studies concerned were not undertaken as a matter of routine physical examination or health checkup.

(13) Charges for routine eye examinations, eyeglasses or other corrective lenses (except for cataract lenses certified as medically necessary for aphakia persons) and hearing aids or examinations for the prescription or fitting thereof.

(14) Charges for cosmetic surgery or treatment except that charges for cosmetic surgery or treatment required for correction of damage caused by accidental injury sustained by the covered individual while coverage under this plan is in force on his or her account or to correct congenital deformities or anomalies shall not be excluded if they otherwise qualify as covered medical expenses. Reconstructive breast surgery following mastectomy, as those terms are defined in G.S. 58-51-62, is not "cosmetic surgery or treatment" for purposes of this section.

(15) Admissions for diagnostic tests or procedures which could be, and generally are, performed on an outpatient basis and inpatient services or supplies which are not consistent with the diagnosis, for which admitted.

(16) Costs denied by the Claims Processor as part of its overall program of claim review and cost containment.

(17) Charges in excess of negotiated rates allowed for preferred providers of institutional and professional medical care and services, when such preferred providers are reasonably available to provide institutional and professional medical care.

(18) If a covered service becomes excluded from coverage under the Plan, the Executive Administrator and Claims Processor may, in the event of exceptional situations creating undue hardships or adverse medical conditions, allow persons enrolled in the Plan to remain covered by the Plan's previous coverage for up to three months after the effective date of the change in coverage, provided the persons so enrolled had been undergoing a continuous plan of specific treatment initiated within three months prior to the effective date of the change in coverage.

(19) Charges for services unless a claim is filed within 18 months from the date of service.

(20) Any service, treatment, facility, equipment, drug, supply, or procedure that is experimental or investigational as defined by the Plan. Clinical trial phases III and IV are covered by the Plan as is clinical trial phase II when approved by the Plan. Regardless of the type of trial phases covered by the Plan, all covered trials must involve the treatment of life-threatening medical conditions, must be clearly superior to available noninvestigational treatment alternatives, and must have clinical and preclinical data that shows the trials will be at least as effective as noninvestigational alternatives. Trials must also involve determinations by treating physicians, relevant scientific data, and opinions of experts in relevant fields of medicine. Covered trials must be approved by the National Institutes of Health, a National Institutes of Health cooperative group or center, the U.S. Food and Drug Administration, the U.S. Department of Defense, or the U.S. Department of Veterans Affairs. The Plan may also cover clinical trials sponsored by other entities. Trials must also be approved by applicable qualified institutional review boards. All covered trials must be conducted in and by facilities and personnel that maintain a high level of expertise because of their training, experience, and volume of patients. To be covered by the Plan, patients participating in clinical trials must meet substantially all protocol requirements of the trials and exercise informed consent in the trials. Only medically necessary costs of health care services involved in treatments provided to patients for the purpose of the trials are covered by the Plan to the extent that such costs are not customarily funded by national agencies, commercial manufacturers, distributors, or other such providers. Clinical trial costs not covered by the Plan include, but are not limited to, the costs of services that are not health care services and costs associated with managing research in the trials. The Plan shall not exclude benefits for covered clinical trials if the proposed treatment is the only appropriate protocol for the condition being treated.

(21) Complications arising from noncovered services.

(22) Charges related to a noncovered service, even if the charges would have been covered if rendered in connection with a covered service.

(23) Charges for services covered by the long-term care benefit provisions of Part 4 of this Article.

(24) Charges disallowed by the Plan's pharmacy benefits manager. (1981 (Reg. Sess., 1982), c. 1398, s. 6; 1983, c. 922, ss. 15, 21.4; 1985 (Reg. Sess., 1986), c. 1020, ss. 16, 20, 21, 25, 26; 1987, c. 282, s. 35; 1991, c. 427, ss. 16, 30, 40; 1993, c. 464, s. 7; 1995, c. 535, s. 29; 1997-456, s. 55.9; 1997-468, s. 6; 1997-512, ss. 4, 13; 1998-212, s. 28.29(c); 2000-141, s. 5; 2007-323, ss. 28.22A(j), (k); 2008-168, ss. 1(a), 3(a), (m), (v); 2009-16, s. 2(d).)

Editor's Note. — This section was formerly codified as G.S. 135-40.7. It was recodified as G.S. 135-39.20 under Part 3A of Article 3A of Chapter 135 by Session Laws 2008-168, s. 3(m), effective July 1, 2008. It has been renumbered as G.S. 135-45.8 at the direction of the Revisor of Statutes.

Session Laws 2007-323, s. 28.22A(j), (k), effective July 1, 2008 and expiring June 30, 2009, added subsection (a) to former G.S. 135-40.7 [now renumbered as this section], which read, "(a) The Plan and optional plans or programs shall not limit the number of visits for covered services for physical therapy, occupational therapy, and speech therapy." Session Laws 2008-168, s. 3(m), effective July 1, 2008 and expiring July 1, 2009, rewrote the section and 2008-168, s. 3(v) repealed Session Laws 2007-323, s. 28.22A(j) and (k). Session Laws 2009-16, s. 5(e), amended the expiration date of Session Laws 2007-323, s. 28.22A(j), (k), making it effective July 1, 2011.

Session Laws 2007-323, s. 28.22A(n), provides: "If on July 1, 2008, there are State employees or retired employees that are enrolled in the Teachers' and State Employees' Comprehensive Major Medical Plan (indemnity plan) on June 30, 2008, and that have not elected one of the optional PPO benefit plans available under the State Health Plan for Teachers and State Employees, then the Plan shall enroll those employees or retired employees in the Standard PPO Option, or its equivalent, effective July 1, 2008."

Session Laws 2007-323, s. 1.2, provides: "This act shall be known as the 'Current Operations and Capital Improvements Appropriations Act of 2007'."

Session Laws 2007-323, s. 32.3, provides: "Except for statutory changes or other provisions that clearly indicate an intention to have effects beyond the 2007-2009 fiscal biennium, the textual provisions of this act apply only to funds appropriated for, and activities occurring during, the 2007-2009 fiscal biennium."

Session Laws 2007-323, s. 32.5 is a severability clause.

Session Laws 2008-168, s. 3(v), provides: "Effective July 1, 2008, the State Health Plan for Teachers and State Employees shall not limit the number of visits for covered services for physical therapy, occupational therapy, and speech therapy. This subsection expires July 1, 2009. Sections 28.22A(j) and (k) of S.L. 2007-323 are repealed." Session Laws 2007-323, s. 28.22A(j) and (k), had inserted a similar provision in former subsection (a) of this section with a June 30, 2009, sunset provision.

Effect of Amendments. — Session Laws 2007-323, s. 28.22A(j), (k), effective July 1, 2008, and expiring June 30, 2009, added subsection (a); and designated the existing provisions as subsection (b).

Session Laws 2008-168, s. 3(m), effective July 1, 2008, rewrote the section.

Session Laws 2009-16, s. 2(d), effective January 1, 2010, inserted "routine eye examinations," in subdivision (13).

CASE NOTES

No Legal Obligation to Pay. — When insurers and employers who were ordered by the Industrial Commission to pay certain amounts to hospitals sought relief under G.S. 135-40.7(8), claiming they had been required to pay amounts for services greater than that which people not covered under the State Teachers' and Employees' Health Plan would have been required to pay, they were not entitled to relief because G.S. 135-40.4 authorized a diagnostic-related grouping system for the reimbursement of hospitals, such as that under which the amounts the employers and insurers were ordered to pay were approved. (1991, c. 427, s. 32; 1993, c. 464, ss. 3(a), 4; 1995, c. 157, s. 2; c. 406, s. 2; 1997-512, s. 14; 1999-186, s. 1; 1999-199, s. 3; 1999-210, s. 8; 1999-351, s. 7; 2001-258, s. 1; 2001-487, s. 40(n); 2003-368, ss. 2, 3; 2004-124, s. 31.28; 2007-323, ss. 28.22(f), (o); 2008-168, ss. 1(a), 3(a), (n); 2009-16, s. 5(d).)

Editor's Note. — This section was formerly codified as G.S. 135-40.7B. It was recodified as G.S. 135-39.21 under Part 3A of Article 3A of Chapter 135 by Session Laws 2008-168, s. 3(n), effective July 1, 2008. It has been renumbered as G.S. 135-45.9 at the direction of the Revisor of Statutes.

The amendment by Session Laws 1999-199, s. 3, added new subdivisions (c1)(1)k and (c1)(2)*l* in the coded bill drafting format. The designation of (c1)(1)k was not changed, and new subdivision (c1)(2)*l* was redesignated (c1)(2)j1, at the direction of the Revisor of Statutes.

Subdivisions (c)(1), (c1)(1)e, and (c1)(2)(e), as amended by Session Laws 2003-368, s. 3, effective January 1, 2004, are applicable to services rendered by psychological associates on and after that date.

Effect of Amendments. — Session Laws 2008-168, s. 3(n), effective July 1, 2008, rewrote the section.

Session Laws 2009-16, s. 5(e), effective April 23, 2009, added "or State psychiatric hospitals accredited by the Joint Commission on the Accreditation of Healthcare Organizations" to the end of subdivisions (b)(1)a. and (b)(2)a.

§ 135-45.10. Persons eligible for Medicare; optional participation in other Medicare products.

(a) Benefits payable for covered expenses under this Plan in G.S. 135-45.6 through G.S. 135-45.10 will be reduced by any benefits payable for the same covered expenses under Medicare, so that Medicare will be the primary carrier except where compliance with federal law specifies otherwise.

(b) For those participants eligible for Medicare, the Plan will be administered on a "carve out" basis. The provisions of the Plan are applied to the charges not paid by Medicare (Parts A & B). In other words, those charges not paid by Medicare would be subject to the deductible and coinsurance of the Plan just as if the charges not paid by Medicare were the total bill.

(c) For those individuals eligible for Part A (at no cost to them), benefits under this program will be reduced by the amounts to which the covered individuals would be entitled to under Parts A and B of Medicare, even if they choose not to enroll for Part B.

(d) Notwithstanding the foregoing provisions of this section or any other provisions of the Plan, the Executive Administrator and Board of Trustees may enter into negotiations with the Centers for Medicare and Medicaid Services, U.S. Department of Health and Human Services, in order to secure a more favorable coordination of the Plan's benefits with those provided by Medicare, including but not limited to, measures by which the Plan would provide Medicare benefits for all of its Medicare-eligible members in return for adequate payments from the federal government in providing such benefits. Should such negotiations result in an agreement favorable to the Plan and its Medicare-eligible members, the Executive Administrator and Board of Trustees may, after consultation with the Committee on Employee Hospital and Medical Benefits, implement such an agreement which shall supersede all other provisions of the Plan to the contrary related to its payment of claims for Medicare-eligible members.

(e) Notwithstanding subsections (a), (b), and (c) of this section, the Plan may offer an optional Medicare Advantage plan to a Medicare eligible Plan member. A Medicare Advantage plan offered by the Plan shall be an insured product offered through a private insurance carrier authorized by the Centers for Medicare and Medicaid Services to offer Medicare Advantage plans. A Medicare Advantage plan offered by the Plan shall not be a self-funded benefit plan underwritten by the State of North Carolina. Prescription drug benefits shall not be included in the benefits offered under a Medicare Advantage insurance product but shall continue to be provided by the Plan as authorized under G.S. 135-45.6.

An eligible Plan member may choose to enroll in a Medicare Advantage plan in lieu of any other benefit coverage plan offered under the Plan to Medicare eligible Plan members. A Medicare eligible Plan member must be enrolled in Medicare Part B to participate in an optional Medicare Advantage plan. A non-Medicare eligible dependent of a Medicare Advantage eligible Plan member may enroll on a fully contributory basis in benefit plans offered under the Plan to non-Medicare eligible Plan members. If an enrolled Plan member decides not to re-enroll in an optional Medicare Advantage plan during the Plan's annual enrollment period, the Plan member may at that time re-enroll in other benefit coverage offered by the Plan in accordance with the provisions of subsections (a), (b), and (c) of this section. (1981 (Reg. Sess., 1982), c. 1398, s. 6; 1985 (Reg. Sess., 1986), c. 1020, s. 18; 1987, c. 857, s. 21; 1989, c. 752, s. 22(o); 2008-168, ss. 1(a), 3(a), (o).)

Editor's Note. — This section was formerly codified as G.S. 135-40.10. It was recodified as G.S. 135-39.22 under Part 3A of Article 3A of Chapter 135 by Session Laws 2008-168, s. 3(o), effective July 1, 2008. It has been renumbered as G.S. 135-45.10 at the direction of the Revisor of Statutes.

Effect of Amendments. — Session Laws 2008-168, s. 3(o), effective July 1, 2008, added "optional participation in other Medicare products" in the section heading; in subsection (a), substituted "G.S. 135-45.6" for "G.S. 135-40.5" and "G.S. 135-45.10" for "G.S. 135-40.9"; in subsection (b), substituted "Plan" for "State's plan" and made a minor stylistic change; substituted "Centers for Medicare and Medicaid Services" for " Health Care Financing Administration" in subsection (d); and added subsection (e).

§ 135-45.11. Cost-savings initiatives and incentive programs authorized.

(a) Cost-Saving Initiatives. — Coverage of Over-the-Counter Medications. — The Executive Administrator and Board of Trustees may authorize coverage for over-the-counter medications as recommended by the Plan's pharmacy and therapeutics committee. In approving for coverage one or more over-the-counter medications, the Executive Administrator and Board of Trustees shall ensure that each recommended over-the-counter medication has been analyzed to ensure medical effectiveness and Plan member safety. The analysis shall also address the financial impact on the Plan. The Executive Administrator and Board of Trustees may impose a co-payment to be paid by each covered individual for each packaged over-the-counter medication. The Executive Administrator and Board of Trustees may adopt policies establishing limits on the amount of coverage available for over-the-counter medications for each covered individual over a 12-month period. Prior to implementing policy and co-payment changes authorized under this section, the Executive Administrator and Board of Trustees shall submit the proposed policies and co-payments to the Committee on Employee Hospital and Medical Benefits for its review.

(b) Incentive Programs. — For the purposes of helping Plan members to achieve and maintain a healthy lifestyle without impairing patient care, and to increase cost effectiveness in Plan coverage, the Executive Administrator and Board of Trustees may adopt programs offering incentives to Plan members to encourage changes in member behavior or lifestyle designed to improve member health and promote cost-efficiency in the Plan. Participation in one or more incentive programs is voluntary on the part of the Plan member. Before adopting an incentive program, the Executive Administrator and Board of Trustees shall conduct an impact analysis on the proposed incentive program to determine (i) whether the program is likely to result in significant member satisfaction, (ii) that it will not adversely affect quality of care, and (iii) whether it is likely to result in significant cost savings to the Plan. The impact analysis may be conducted by a committee of the Plan, in conjunction with the Plan's consulting actuary, provided that the Plan's medical director participates in the analysis. An approved incentive plan may provide for a waiver of deductibles, co-payments, and coinsurance required under this Article in order to determine the effectiveness of the incentive program in promoting the health of members and increasing cost-effectiveness to the Plan. The Executive Administrator and Board of Trustees shall, before implementing incentive programs authorized under this section, submit the proposed programs to the Committee on Employee Hospital and Medical Benefits for review. (2008-168, s. 3(p).)

Editor's Note. — This section was codified as G.S. 135-39.23 under Part 3A of Article 3A of Chapter 135 by Session Laws 2008-168, s. 3(p), effective July 1, 2008. It has been renumbered as G.S. 135-45.11 at the direction of the Revisor of Statutes.

Session Laws 2008-168, s. 7, made this section effective July 1, 2008.

§ 135-45.12. Cessation of coverage.

(a) Coverage under this Plan of an employee and his or her surviving spouse or eligible dependent children or of a retired employee and his or her surviving spouse or eligible dependent children shall cease on the earliest of the following dates:

(1) The last day of the month in which an employee or retired employee dies. Provided such surviving spouse or eligible dependent children were covered under the Plan at the time of death of the former employee or retired employee, or were covered on September 30, 1986, any such surviving spouse or eligible dependent children may then elect to continue coverage under the Plan by submitting written application to the Claims Processor and by paying the cost for such coverage when due at the applicable fees. Such coverage shall cease on the last day of the month in which such surviving spouse or eligible dependent children die, except as provided by this Article.

(2) The last day of the month in which an employee's employment with the State is terminated as provided in subsection (c) of this section.

(3) The last day of the month in which a divorce becomes final.

(4) The last day of the month in which an employee or retired employee requests cancellation of coverage.

(5) The last day of the month in which a covered individual enters active military service.

(6) The last day of the month in which a covered individual is found to have knowingly and willfully made or caused to be made a false statement or false representation of a material fact in a claim for reimbursement of medical services under the Plan. The Executive Administrator and Board of Trustees may make an exception to the provisions of this subdivision when persons subject to this subdivision have had a cessation of coverage for a period of five years and have made a full and complete restitution to the Plan for all fraudulent claim amounts. Nothing in this subdivision shall be construed to obligate the Executive Administrator and Board of Trustees to make an exception as allowed for under this subdivision.

(7) The last day of the month in which an employee who is Medicare-eligible selects Medicare to be the primary payer of medical benefits. Coverage for a Medicare-eligible spouse of an employee shall also cease the last day of the month in which Medicare is selected to be the primary payer of medical benefits for the Medicare-eligible spouse. Such members are eligible to apply for conversion coverage.

(8) The last day of the month in which a covered individual is found to be ineligible for coverage.

(b) Coverage under this Plan as a dependent child ceases when the child ceases to be a dependent child as defined by G.S. 135-45.1 except, coverage may continue under this Plan for a period of not more than 36 months after loss of dependent status on a fully contributory basis provided the dependent child was covered under the Plan at the time of loss of dependent status.

(c) Coverage under the Plan as a surviving dependent child whether covered as a dependent of a surviving spouse, or as an individual member (no living parent), ceases when the child ceases to be a dependent child as defined by G.S. 135-45.1, except coverage may continue under the Plan on a fully contributory basis for a period of not more than 36 months after loss of dependent status.

(d) Termination of employment shall mean termination for any reason, including layoff and leave of absence, except as provided in subdivisions (a)(1) and (2) of this section, but shall not, for purposes of this Plan, include retirement upon which the employee is granted an immediate service or disability pension under and pursuant to a State-supported Retirement System.

(1) In the event of termination for any reason other than death, coverage under the Plan for an employee and his or her eligible spouse or dependent children, provided the eligible spouse or dependent children were covered under the Plan at termination of employment may be continued for a period of not more than 18 months following termination of employment on a fully contributory basis. Employees who were covered under the Plan at termination of employment may be continued for a period of not more than 18 months or 29 months if determined to be disabled under the Social Security Act, Title II, OASDI or Title XVI, SSI.

(2) In the event of approved leave of absence without pay, other than for active duty in the armed forces of the United States, coverage under this Plan for an employee and his or her dependents may be continued during the period of such leave of absence by the employee's paying one hundred percent (100%) of the cost.

(3) If employment is terminated in the second half of a calendar month and the covered individual has made the required contribution for any coverage in the following month, that coverage will be continued to the end of the calendar month following the month in which employment was terminated.

(4) Employees paid for less than 12 months in a year, who are terminated at the end of the work year and who have made contributions for the non-work months, will continue to be covered to the end of the period for which they have made contributions, with the understanding that if they are not employed by another State-covered employer under this Plan at the beginning of the next work year, the employee will refund to the ex-employer the amount of the employer's cost paid for them during the non-paycheck months.

(5) Any employee receiving benefits pursuant to Article 6 of this Chapter when the employee has less than five years of retirement membership service, or an employee on leave of absence without pay due to illness or injury for up to 12 months, is entitled to continued coverage under the Plan for the employee and any eligible dependents by the employee's paying one hundred percent (100%) of the cost.

(e) A legally divorced spouse and any eligible dependent children of a covered employee or retired employee may continue coverage under this Plan for a period of not more than 36 months following the first of the month after a divorce becomes final on a fully contributory basis, provided the former spouse and any eligible dependent children were covered under the Plan at the time a divorce became final.

(f) A legally separated spouse of a covered employee or retired employee may continue coverage under this Plan for a period not to exceed 36 months from the separation date on a fully contributory basis, provided the separated spouse was covered under the Plan at the time of separation and provided the covered employee's or retired employee's actions result in the loss of coverage for the separated spouse. Eligible dependent children may also continue coverage if covered under the Plan at time of separation, provided the employee's or retired employee's actions result in the loss of coverage for the dependent children.

(g) Whenever this section gives a right to continuation coverage, such coverage must be elected within the time allowed by applicable federal law.

(h) Continuation coverage under this Plan shall not be continued past the occurrence of any one of the following events:

(1) The termination of the Plan.
(2) Failure of a Plan member to pay monthly in advance any required premiums.
(3) A person becomes a covered employee or a dependent of a covered employee under any group health plan and that group health plan has no restrictions or limitations on benefits.
(4) A person becomes eligible for Medicare benefits on or after the effective date of the continuation coverage.
(5) The person was determined to be no longer disabled, provided the 18-month coverage was extended to 29 months due to having been determined to be disabled under the Social Security Act, Title II, OASDI or Title XVI, SSI.
(6) The person reaches the maximum applicable continuation period of 18, 29, or 36 months.

(i) Notice requirements concerning continuation coverage shall be developed by the Executive Administrator and Board of Trustees.

(j) The spouse and any eligible dependent children of a covered employee may continue coverage under the Plan on a fully contributory basis for a period not to exceed 36 months from the date the employee becomes eligible for Medicare benefits which results in a loss of coverage under the Plan, provided that the spouse and eligible dependent children were covered under the Plan at the time the employee became eligible for Medicare benefits which results in a loss of coverage under the Plan. Session Laws 2008-187, s. 49.5, was contingent on House Bill 2443, 2007 Regular Session becoming law, which it did. House Bill 2443 was enacted as Session Laws 2008-168.

Session Laws 2009-16, s. 3(f), stated in its prefatory language that "G.S. 135-45.12 is amended by adding the following new subdivision to read: '(8) The last day of the month in which a covered individual is found to be ineligible for coverage.'" The subdivision was added to subsection (a) at the direction of the Revisor of Statutes.

Effect of Amendments. — Session Laws 2008-168, s. 3(q), effective July 1, 2008, substituted "G.S. 135-45.1" for "G.S. 135-40.1(3)" in subsection (b); redesignated subsections (b1) through (j) as present subsections (c) through (i); redesignated subdivisions (d)(3) through (d)(6) as subdivisions (d)(2) through (d)(5); substituted "G.S. 135-45.1" for "G.S. 135-40.1(3)" in present subsection (c); inserted "subdivisions" preceding "(a)(1) and (2)" in present subsection (d); deleted subsection (d) regarding payment of benefit and exception following cessation of coverage; and substituted "within the time allowed by applicable federal law" for "no later than a date set by the Executive Administrator and Board of Trustees" in present subsection (f).

Session Laws 2008-187, s. 49.5, effective August 7, 2008, redesignated the second subsection (d) as subsection (e) and relettered the remaining subsections accordingly.

Session Laws 2009-16, s. 3(f), effective April 23, 2009, added subdivision (a)(8).

§ 135-45.13. Conversion.

(a) Upon a cessation of group coverage under the Plan and/or eligibility for group coverage under the Plan, an employee or dependent shall be entitled to a conversion to nongroup coverage without the necessity of a physical examination. Such conversion coverage shall include hospitalization, surgical, and medical benefits as contained in the major medical and alternative plan conversion provisions of Article 53 of Chapter 58 of the General Statutes. The Executive Administrator and Board of Trustees in their sole discretion shall approve the conversion coverage, which shall be administered by the Claims Processor through an insurance contract arranged by the Claims Processor, or administered as otherwise directed by the Executive Administrator and Board of Trustees. An eligible employee or dependent must apply for conversion coverage within 30 days after termination of group eligibility.

(b) The Executive Administrator and Board of Trustees shall provide for the continuation of conversion privilege exercised under the predecessor plan, on a fully contributory basis. § 135-45.14. Coordination of benefits.

(a) Benefits Subject to This Provision. — All of the benefits provided under this Comprehensive Major Medical Plan.

(b) Definitions. —

(1) "Plan" means any Plan providing benefits or services for or by reason of medical or dental care or treatment, which benefits or services are provided by (i) group, blanket or franchise insured or uninsured coverage, (ii) hospital services prepayment Plan on a group basis, medical service prepayment Plan on a group basis, group practice, or other prepayment coverage on a group basis, (iii) any coverage under labor-management trusteed plans, union welfare plans, employer organization plans, or employee benefit organization plans, and (iv) any coverage under governmental programs except Medicare, or any coverage required or provided by any statute, which coverage is not otherwise excluded from the calculation of benefits under this Plan, but the term "Plan" shall not include any individual policies.

The term "Plan" shall be construed separately with respect to each policy, contract, or other arrangement for benefits or services and separately with respect to that portion of any such policy, contract, or other arrangement which reserves the right to take the benefits or services of other plans into consideration in determining its benefits and that portion which does not.

(2) "Covered services" means any necessary, reasonable and customary item of expense at least a portion of which is covered under at least one of the plans covering the person for whom claim is made. To the extent legally possible, it shall be synonymous with allowable expenses. When a Plan provides benefits in the form of services rather than cash payments, the reasonable cash value of each service

rendered shall be deemed to be both an allowable expense and a benefit paid.

(3) "Claim determination period" means any period of time during which a person covered by this Plan is eligible to receive benefits.

(c) Effect on Benefits. —

(1) This provision shall apply in determining the benefits as to a person covered under this Plan for any claim determination period if, for the covered services incurred as to such a person during such claim determination period, the sum of:

a. The benefits that would be payable under this Plan in the absence of this provision, and

b. The benefits that would be payable under all other plans in the absence therein of provisions of similar purpose of this provision would exceed the usual and customary charges for such covered services.

(2) As to any claim determination period with respect to which this provision is applicable, the benefits that would be payable under this Plan in the absence of this provision for the covered services incurred as to such person during such claim determination period shall be reduced to the extent necessary so that the sum of such reduced benefit and all the benefits payable for such covered services under all other plans, except as provided in Item (3) immediately below, shall not exceed the total of such covered services. Benefits payable under another Plan include the benefits that would have been payable had claim been duly made therefor. In the case of another Plan which does not contain a provision çoordinating its benefits, the benefits of such other Plan shall be determined before the benefits of this Plan. A Plan without a coordination of benefits provision shall be deemed to be the primary carrier within the meaning of this Plan.

(3) If:

a. Another Plan which is involved in Item (2) immediately above and which contains provisions coordinating its benefits with those of this Plan would, according to its rules, determine its benefits after the benefits of this Plan have been determined, and

b. The rules set forth in Item (4) immediately below would require this Plan to determine its benefits before such other Plan, then the benefits of such other plan will be ignored for the purposes of determining the benefits under this Plan.

(4) For the purposes of Item (3) immediately above, the rules establishing the order of benefit determination are:

a. The benefits of a Plan which covers the person on whose covered services claim is based other than as a dependent shall be determined before the benefits of a Plan which covers such person as a dependent;

b. Except as stated in sub-subdivision c of this subdivision when this Plan and another Plan cover the same child as a dependent of different persons called parents:

1. the benefits of the Plan of the parent whose birthday falls earlier in the calendar year are determined before the benefits of the Plan of the parent whose birthday falls later in the calendar year; but

2. if both parents have the same birthday, the benefits of the Plan that has covered a parent for a longer period of time are determined before those of the Plan that has covered the other parent for a shorter period of time; however, if the other Plan has a rule based on the gender of the parent, and if as

a result, the Plans do not agree on the order of benefits, the rule in the other Plan will determine the order of benefits.

c. If two or more Plans cover a person as a dependent child of divorced or separated parents, benefits for the child are determined in this order:
1. first, the Plan of the parent with custody of the child;
2. second, the Plan of the spouse of the parent with custody of the child; and
3. third, the Plan of the parent not having custody of the child.

However, if the specific terms of a court decree state that one of the parents is responsible for the health care expenses of the child, and the entity obligated to pay or provide the benefits of the Plan of that parent has actual knowledge of those terms, the benefits of that Plan are determined first. This paragraph does not apply with respect to any claim determination period or Plan year during which any benefits are actually paid or provided before the entity has actual knowledge.

d. The benefits of a Plan that covers the person as an employee who is neither laid off nor retired (or as that employee's dependent) are determined before those of a Plan that covers that person as a laid-off or retired employee (or as that employee's dependent). If the other Plan does not have this rule, and if, as a result, the Plans do not agree on the order of benefits, this rule is ignored.

e. When rules a and b immediately above do not establish an order of benefit determination, the benefits of a Plan which has covered the person on whose covered services claim is based for the longer period of time shall be determined before the benefits of a Plan which had covered such person for the shorter period of time.

(5) When this provision operates to reduce the total amount of benefits otherwise payable as to a person covered under this Plan during any claim determination period, each benefit that would be payable in the absence of this provision shall be reduced proportionately, and such reduced amount shall be charged against any applicable benefit limit of this Plan.

(d) Medicare Participants' Eligibility. — In the case of employees eligible under the Plan who are also eligible for Medicare benefits, benefits under the Plan will be paid in coordination with Medicare benefits in a manner consistent with federal law.

(e) Right to Receive and Release Necessary Information. — For the purpose of determining the applicability of and implementing the terms of this provision of this Plan or any provision of similar purpose of any other Plan, the Claims Processor may, without the consent of or notice to any person, release to or obtain from any insurance company or other organization or person any information, with respect to any person, which the Claims Processor deems to be necessary for such purposes. Any person claiming benefits under this Plan shall furnish to the Claims Processor such information as may be necessary to implement the provision.

(f) Facility of Payment. — Whenever payments which should have been made under this Plan, in accordance with this provision, have been made under any other plans, the Claims Processor shall have the right, exercisable alone and in its sole discretion, to pay over to any organizations making such other payments any amounts it shall determine to be warranted in order to satisfy the intent of this provision, and amounts to be paid shall be deemed to be benefits paid under this Plan, and, to the extent of such payments, the Claims Processor shall be fully discharged from liability under the Plan.

(g) Right of Recovery. — Whenever payments have been made by the Claims Processor with respect to covered services in a total amount which is, at any time, in excess of the maximum amount of payment necessary at that time to satisfy the intent of this provision, irrespective of to whom paid, the Claims Processor shall have the right to recover such payments, to the extent of such excess, from among one or more of the following, as the Claims Processor shall determine: any persons to or for or with respect to whom such payments were made, any insurance companies, or any other organizations. (1981 (Reg. Sess., 1982), c. 1398, s. 6; 1983, c. 922, s. 18; 1985 (Reg. Sess., 1986), c. 1020, ss. 20, 30; 1989, c. 770, s. 35; 2008-168, ss. 1(a), 3(a), (s).)

Editor's Note. — This section was formerly codified as G.S. 135-40.13. It was recodified as G.S. 135-39.26 under Part 3A of Article 3A of Chapter 135 by Session Laws 2008-168, s. 3(s), effective July 1, 2008. It has been renumbered as G.S. 135-45.14 at the direction of the Revisor of Statutes.

§ 135-45.15. Liability of third person; right of subrogation; right of first recovery.

(a) The Plan shall have the right of subrogation upon all of the Plan member's right to recover from a liable third party for payment made under the Plan, for all medical expenses, including provider, hospital, surgical, or prescription drug expenses, to the extent those payments are related to an injury caused by a liable third party. The Plan member shall do nothing to prejudice these rights. The Plan has the right to first recovery on any amounts so recovered, whether by the Plan or the Plan member, and whether recovered by litigation, arbitration, mediation, settlement, or otherwise. Notwithstanding any other provision of law to the contrary, the recovery limitation set forth in G.S. 28A-18-2 shall not apply to the Plan's right of subrogation of Plan members.

(b) If the Plan is precluded from exercising its right of subrogation, it may exercise its rights of recovery pursuant to G.S. 135-40.13(g). If the Plan recovers damages from a liable third party in excess of the claims paid, any excess will be paid to the member, less a proportionate share of the costs of collection.

(c) In the event a Plan member recovers any amounts from a liable third party to which the Plan is entitled under this section, the Plan may recover the amounts directly from the Plan member. The Plan has a lien, for not more than the value of claims paid related to the liability of the third party, on any damages subsequently recovered against the liable third party. If the Plan member fails to pursue the remedy against a liable third party, the Plan is subrogated to the rights of the Plan member and is entitled to enforce liability in the Plan's own name or in the name of the Plan member for the amount paid by the Plan.

(d) In no event shall the Plan's lien exceed fifty percent (50%) of the total damages recovered by the Plan member, exclusive of the Plan member's reasonable costs of collection as determined by the Plan in the Plan's sole discretion. The decision by the Plan as to the reasonable cost of collection is conclusive and is not a "final agency decision" for purposes of a contested case under Chapter 150B of the General Statutes. Notice of the Plan's lien or right to recovery shall be presumed when a Plan member is represented by an attorney, and the attorney shall disburse proceeds pursuant to this section. Part 4. Long-Term Care Benefits.

§ 135-46. Undertaking.

(a) The State of North Carolina undertakes to make available an optional program of long-term care benefits for the benefit of its qualified employees, retired employees and their dependents which will pay benefits in accordance with the terms hereof. Retired employees of the Local Governmental Employees' Retirement System pursuant to Article 3 of Chapter 128 of the General Statutes and their dependents are also eligible to be qualified for the benefits provided by this Part.

(b) The long-term care benefits provided by this Part shall be made available through the State Health Plan for Teachers and State Employees pursuant to Article 2 and 3A of this Chapter (hereinafter called the "Plan") and administered by the Plan's Executive Administrator and Board of Trustees. In administering the benefits provided by this Part, the Executive Administrator and Board of Trustees shall have the same type of powers and duties that are provided under Part 3 of this Article for hospital and medical benefits. The benefits provided by this Part may be offered by the Plan on a self-insured basis, in which case a third-party claims processor shall be chosen through competitive bids, or through a contract of insurance, in which case a carrier licensed to do business in North Carolina shall be selected on a competitive bid basis in accordance with State law.

(c) The benefits authorized by this Part are available only to qualified employees and retired employees who voluntarily elect to provide such benefits for themselves and their qualified dependents. Payroll deductions shall be available from employee salary and disability benefit payments and from retired employee retirement benefit payments for fully contributory premium amounts.

(d) The Executive Administrator and Board of Trustees of the Plan shall insure insofar as possible that the long-term care benefits provided by this Part shall be tax-qualified under federal law. (1997-468, s. 7; 2007-323, s. 28.22A(o); 2007-345, s. 12; 2008-168, ss. 1(a), 4(a)-(c).)

§ 135-46.1. Long-term care benefits.

Long-term care benefits provided by this Part are subject to elimination periods, coinsurance provisions, and other limitations separate and apart from those provided for in Part 3 of this Article. No limitation on out-of-pocket expenses are provided for the benefits covered by this section. Long-term care benefits are as follows:

(1) Nursing Home Benefits. — The Plan will pay a fixed amount of the reasonable and customary daily charges allowed for nursing facilities providing skilled nursing care and intermediate nursing care up to a maximum amount per day for each day after a fixed number of consecutive days for each nursing home stay. Such daily charges shall be inclusive of semiprivate room and board; skilled and semiskilled nursing services; routine laboratory tests and examinations; physical, occupational, and speech therapy; respiratory and other gas therapy; and drugs, injections, biologicals, fluids, solutions, dietary aids and supplements, and other routine medical supplies and equipment. Readmission to a nursing home within 180 days, exclusive of hospital stays, for the same or related cause or causes shall be considered a single nursing home stay for the purposes of this section. Benefits payable under this subdivision are contingent upon compliance with the following conditions and will, in no instance, be paid under this section without compliance with each of the following conditions:

a. Confinement to a nursing home is medically appropriate due to an illness, disease, or injury upon recommendation of an admitting physician other than a proprietor, employee, or agent of the nursing home;

b. Confinement to a nursing home is for any overnight stay for which a charge for a day's stay is due and payable; and

c. Prior to confinement, the admitting physician secures approval certification from the Plan for confinement.

As used in this section, a nursing home is a facility or a part of a facility which is (i) operated under State law and which is qualified as a skilled nursing or intermediate nursing facility under Medicare; or is (ii) a facility meeting the requirements for licensure under Chapter 131E of the General Statutes.

(2) Custodial Benefits. — The Plan will pay a fixed percentage of the fixed amount of reasonable and customary daily charges allowed by the Plan in subdivision (1) of this section for assisted living facilities, for adult day care facilities, and for home care agencies up to a maximum amount per day for each day after a fixed number of consecutive days that such custodial care is provided. Benefits payable under this subdivision are contingent upon compliance with the following conditions and will, in no instance, be paid under this subdivision without compliance with each of the following conditions:

a. Use of such custodial benefits is medically appropriate in a treatment plan established and certified initially and at least once every six months by an attending physician or other allied health professionals other than a proprietor, employee, or agent of one or more of the aforementioned facilities and agencies;

b. Confinement to a nursing home would be medically appropriate without custodial care proposed to be rendered by one or more of the aforementioned facilities or agencies; and

c. Prior to use of such custodial benefits, an attending physician or other allied health professional secures approval from the Plan for the use of the benefits.

As used in this section, an assisted living facility is a facility which (i) is operated under State law to provide residential care for the aged or disabled whose principal need is a home which provides personal care appropriate to their age or disability; or (ii) meets the requirements for licensure under Chapter 131D of the General Statutes. As used in this section, an adult care facility is a facility which (i) is operated under State law to provide group care for the aged and disabled in a setting away from their residence on a less than 24-hour basis when such aged or disabled would otherwise be in need of full-time personal care away from their residence; or (ii) meets the requirements for certification under Chapter 131D of the General Statutes. As used in this section, a home care agency is a residential care agency which is (i) operated under State law and which is qualified as a home health care agency under Medicare; or (ii) an agency meeting the requirements for licensure as a home care agency under Chapter 131E of the General Statutes.

(3) Other Benefits. — Upon prior approval of the Plan, other care, services, supplies, and equipment may be used as more cost-effective alternatives to the benefits provided by this section when directed by an attending physician.

(4) The Executive Administrator and Board of Trustees of the Plan shall establish the payment percentages, maximum daily payment rates, benefit periods, elimination periods, and maximum lifetime benefits payable for each covered individual for the nursing home and custodial benefits provided by this section. The Executive Administrator and Board of Trustees shall provide for inflationary increases in the maximum daily payment rates and the maximum lifetime benefits payable for each covered individual.

(5) The Executive Administrator and Board of Trustees of the Plan shall provide a bed reservation benefit whenever Plan members are hospitalized during a stay in a nursing home or an assisted living facility.

(6) The Executive Administrator and Board of Trustees of the Plan shall provide for a waiver of premiums involving minimum lengths of stay in a nursing home or an assisted living facility. In addition, the Executive Administrator and Board of Trustees shall allow coverage to be reinstated upon failure to pay premiums, provided certain grace periods are not exceeded and retroactive premium payments are made.

CASE NOTES

Retiree Not Entitled to Tax-Free Pension. — Retiree was not entitled to a tax free pension because he withdrew his contributions to the Consolidated Judicial Retirement System and the Teachers' and State Employees Retirement System and left public employment before August 12, 1989, and thus he was not vested on that date; although the retiree later returned to public employment, became vested, and repaid the money he had previously withdrawn, when read together, G.S. 135-4 and G.S. 135-5 made clear that a member who left state service and withdrew contributions in the retirement system had no rights to any benefits within the system except for the right to repay previously withdrawn contributions as provided in G.S. 135-4. The repayment served only to increase the retiree's years of service creditable. Cashwell v. Dep't of State Treasurer, Ret. Sys. Div., — N.C. App. —, 675 S.E.2d 73, 2009 N.C. App. LEXIS 452 (2009).

§ 135-56. Creditable service.

(a) Subject to such rules and regulations as the Board of Trustees shall adopt with regard to the verification of a judge's prior service, the prior service of a judge shall consist of his service rendered prior to January 1, 1974, as a justice of the Supreme Court, judge of the Court of Appeals, judge of the superior court, judge of the district court division of the General Court of

Justice, as administrative officer of the courts, or as a solicitor or district attorney.

(b) When membership ceases as a result of a member's withdrawal of his accumulated contributions, the prior service and previous membership service of the member shall no longer be considered to be creditable service; provided, however, that if a member whose creditable service has been cancelled in accordance with this subsection subsequently returns to membership for a period of five years, he may thereafter repay in a lump sum the amount withdrawn plus regular interest thereon from the date of withdrawal through the date of repayment and thereby increase his creditable service by the amount of creditable service lost when he withdrew his accumulated contributions.

(c) On and after January 1, 1984, the creditable service of a member who was a member of the former Uniform Solicitorial or Uniform Clerks of Superior Court Retirement Systems at the time of merger of those Systems into this Consolidated Judicial Retirement System and whose accumulated contributions are transferred from those Systems to this System, includes service that was creditable in the Uniform Solicitorial and Uniform Clerks of Superior Court Retirement Systems; and membership service with those Retirement Systems is membership service with this Retirement System.

(d) Any member may purchase creditable service for service as a judge, district attorney, or clerk of superior court, when not otherwise provided for in this section, and as a judge of any lawfully constituted court of this State inferior to the superior court, not to include service as a magistrate, justice of the peace or mayor's court judge. The member, after the transfer of any accumulated contributions from the Teachers' and State Employees' Retirement System or Local Governmental Employees' Retirement System, shall pay an amount equal to the full cost of the service credits calculated on the basis of the assumptions used for purposes of the actuarial valuation of the System's liabilities, taking into account the additional retirement allowance arising on account of the additional service credit commencing at the earliest age at which the member could retire with an unreduced retirement allowance as determined by the Board of Trustees upon the advice of the consulting actuary. Notwithstanding the foregoing provisions of this subsection that provide for the purchase of service credits, the terms "full cost", "full liability", and "full actuarial cost" include assumed annual post-retirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service allowance.

(e) Any member may purchase creditable service for service as a member of the General Assembly not otherwise creditable under this section, provided the service is not credited in the Legislative Retirement Fund nor the Legislative Retirement System, and further provided the member pays a lump sum amount equal to the full cost of the additional service credits calculated on the basis of the assumptions used for the purposes of the actuarial valuation of the System's liabilities, taking into account the additional retirement allowance arising on account of the additional service credits commencing at the earliest age at which a member could retire on an unreduced retirement allowance as determined by the Board of Trustees upon the advice of the consulting actuary, plus an administrative fee to be set by the Board of Trustees. Notwithstanding the foregoing provisions of this subsection that provide for the purchase of service credits, the terms "full cost", "full liability", and "full actuarial cost" include assumed annual post-retirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service allowance.

(f) The creditable service of a member who was a member of the Local Governmental Employees' Retirement System, the Teachers' and State Employees' Retirement System, or the Legislative Retirement System and whose accumulated contributions and reserves are transferred from that System to this System, includes service that was creditable in the Local Governmental Employees' Retirement System, the Teachers' and State Employees' Retirement System, or the Legislative Retirement System, and membership service with those Retirement Systems is membership service with this Retirement System.

(g) If a member who has not vested in this System on July 1, 2007, is convicted of an offense listed in G.S. 135-75.1 for acts committed after July 1, 2007, then that member shall forfeit all benefits under this System. If a member who has vested in this System on July 1, 2007, is convicted of an offense listed in G.S. 135-75.1 for acts committed after July 1, 2007, then that member is not entitled to any creditable service that accrued after July 1, 2007. No member shall forfeit any benefit or creditable service earned from a position not as a justice, judge, district attorney, or clerk of superior court.

(h) On and after July 1, 2007, the creditable service of a member who was a public defender and a member of the Teachers' and State Employees' Retirement System at the time of transfer of membership from the previous system to this System shall include service as a public defender that was creditable in the previous system immediately prior to July 1, 2007. The accumulated contributions, creditable service, and reserves, if any, of a member as a public defender shall be transferred from the previous system to this System in the same manner as prescribed under G.S. 135-28.1 as it pertained to judges of the district court division of the General Court of Justice.

(i) On and after July 1, 2008, the creditable service of a member who is the Director of Indigent Defense Services and a member of the Teachers' and State Employees' Retirement System at the time of transfer of membership from the previous system to this System shall include service as the Director of Indigent Defense Services beginning July 1, 2004, that was creditable in the previous system immediately prior to July 1, 2008. The accumulated contributions, creditable service, and reserves, if any, of a member as the Director of Indigent Defense Services beginning July 1, 2004, shall be transferred from the previous system to this System in the same manner as prescribed under G.S. 135-28.1 as it pertained to judges of the district court division of the General Court of Justice. (1973, c. 640, s. 1; 1977, c. 936; 1983 (Reg. Sess., 1984), c. 1031, ss. 14, 15; 1985, c. 649, s. 1; 1989, c. 255, s. 21(a); 1999-237, s. 28.24(c); 2003-284, s. 30.18(f); 2007-179, s. 4(b); 2007-323, s. 28.21B(h); 2008-107, s. 26.24(h).)

Editor's Note. — Session Laws 2008-107, s. 1.2, provides: "This act shall be known as 'The Current Operations and Capital Improvements Appropriations Act of 2008'."

§ 135-56.01. Reciprocity of creditable service with other State-administered retirement systems.

(a) Only for the purpose of determining eligibility for benefits accruing under this Article, creditable service standing to the credit of a member of the Legislative Retirement System, Teachers' and State Employees' Retirement System, or the Local Governmental Employees' Retirement System shall be added to the creditable service standing to the credit of a member of this System; provided, that in the event a person is a retired member of any of the foregoing retirement systems, such creditable service standing to the credit of the retired member prior to retirement shall be likewise counted. In no instance shall service credits maintained in the aforementioned retirement systems be added to the creditable service in this System for application of this System's benefit accrual rate in computing a service retirement benefit unless specifically authorized by this Article.

(b) A person who was a former member of this System and who has forfeited his creditable service in this System by receiving a return of contributions and who has creditable service in the Legislative Retirement System, Teachers' and State Employees' Retirement System, or the Local Government Employees' Retirement System may count such creditable service for the purpose of restoring the creditable service forfeited in this System under the terms and conditions as set forth in this Article and reestablish membership in this System.

(c) Creditable service under this section shall not be counted twice for the same period of time whether earned as a member, purchased, or granted as prior service credits. (1989 (Reg. Sess., 1990), c. 1066, s. 35(d); 1997-456, s. 27.)

Editor's Note. — Former G.S. 135-56A was recodified as this section pursuant to S.L. 1997-456, s. 27 which authorized the Revisor of Statutes to renumber or reletter sections and parts of sections having a number or letter designation that is incompatible with the General Assembly's computer database.

§ **135-56.1:** Repealed by Session Laws 1983 (Regular Session, 1984), c. 1031, s. 16.

§ 135-56.2. Creditable service for other employment.

Any member may purchase creditable service for service as a State teacher or employee, as defined under G.S. 135-1(10) and (25), and for service as an employee of local government, as defined under G.S. 128-21(10). A member, upon the completion of 10 years of membership service, may also purchase creditable service for periods of federal employment, provided that the member is not receiving any retirement benefits resulting from this federal employment, and provided that the member is not vested in the particular federal retirement system to which the member may have belonged while a federal employee. The member, after the transfer of any accumulated contributions from the Teachers' and State Employees' Retirement System or Local Governmental Employees' Retirement System, shall pay an amount equal to the full cost of the service credits calculated on the basis of the assumptions used for purposes of the actuarial valuation of the Retirement System's liabilities, taking into account the additional retirement allowance arising on account of the additional service credits commencing at the earliest age at which the member could retire with an unreduced retirement allowance as determined by the Board of Trustees upon the advice of the consulting actuary, plus an administrative fee as set by the Board of Trustees. As an alternative to transferring any accumulated contributions from the Teachers' and State Employees' Retirement System or the Local Governmental Employees' Retirement System to the Consolidated Judicial Retirement System, a member may irrevocably elect to transfer these contributions to the Supplemental Retirement Income Plan of North Carolina as determined by the Plan's Board of Trustees and the Department of State Treasurer in accordance with the provisions of G.S. 135-94(a)(4). Notwithstanding the foregoing provisions of this section that provide for the purchase of service credits, the terms "full cost", "full liability", and "full actuarial cost" include assumed annual post-retirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service allowance. (1983 (Reg. Sess., 1984), c. 1041; 1985, c. 348, s. 1; c. 749, s. 2; 1989, c. 255, s. 21(b).)

§ 135-56.3. Repayments and Purchases.

(a) Purchase of Service Credits Through Rollover Contributions From Certain Other Plans. — Notwithstanding any other provision of this Article, and without regard to any limitations on contributions otherwise set forth in this Article, a member, who is eligible to restore or purchase membership or creditable service pursuant to the provisions of this Article, may, subject to such rules and regulations established by the Board of Trustees, purchase such service credits through rollover contributions to the Annuity Savings Fund from (i) an annuity contract described in Section 403(b) of the Internal Revenue Code, (ii) an eligible plan under Section 457(b) of the Internal Revenue Code which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state, (iii) an individual retirement account or annuity described in Section 408(a) or 408(b) of the Internal Revenue Code that is eligible to be rolled over and would otherwise be includible in gross income, or (iv) a qualified plan described in Section 401(a) or 403(a) of the Internal Revenue Code. Notwithstanding the foregoing, the Retirement System shall not accept any amount as a rollover contribution unless such amount is eligible to be rolled over to a qualified trust in accordance with applicable law and the member provides evidence satisfactory to the Retirement System that such amount qualifies for rollover treatment. Unless received by the Retirement System in the form of a direct rollover, the rollover contribution must be paid to the Retirement System on or before the 60th day after the date it was received by the member.

Purchase of Service Credits Through Plan-to-Plan Transfers. — Notwithstanding any other provision of this Article, and without regard to any limitations on contributions otherwise set forth in this Article, a member, who is eligible to restore or purchase membership or creditable service pursuant to the provisions of this Article, may, subject to such rules and regulations established by the Board of Trustees, purchase such service credits through a direct transfer to the Annuity Savings Fund of funds from (i) an annuity contract described in Section 403(b) of the Internal Revenue Code or (ii) an eligible plan under Section 457(b) of the Code which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state.

(b) Purchase of Service Credits Through Plan-to-Plan Transfers. — Notwithstanding any other provision of this Article, and without regard to any limitations on contributions otherwise set forth in this Article, a member, who is eligible to restore or purchase membership or creditable service pursuant to the provisions of this Article, may, subject to such rules and regulations established by the Board of Trustees, purchase such service credits through a direct transfer to the Annuity Savings Fund of funds from (i) the Supplemental Retirement Income Plans A, B, or C of North Carolina or (ii) any other defined contribution plan qualified under Section 401(a) of the Internal Revenue Code which is maintained by the State of North Carolina, a political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state. (2002-71, s. 7.)

Editor's Note. — Session Laws 2002-71, s. 9, provides, in part, that s. 7 of the act becomes effective January 1, 2003, except that G.S. 135-56.3(b), as enacted by s. 7, becomes effective the later of January 1, 2003, or the date upon which the Department of State Treasurer receives a ruling from the Internal Revenue Service approving the direct transfers provided for in that subsection. The Revisor of Statutes is informed that a favorable letter of determination has been received.

(b) Any member who is a justice or judge of the General Court of Justice shall be automatically retired as of the first day of the calendar month coinciding with or next following the later of January 1, 1974, or his attainment of his seventy-second birthday; provided, however, that no judge who is a member on January 1, 1974, shall be forced to retire under the provisions of this subsection at an earlier date than the last day that he is permitted to remain in office under the provisions of G.S. 7A-4.20.

(c) Any member who terminates service on or after January 1, 1974, having accumulated five or more years of creditable service may retire under the provisions of subsection (a) above, provided that he shall not have withdrawn his accumulated contributions prior to the effective date of his retirement, and the requirement of subsection (a) that the member be in service shall not apply.

(d) Any member who was in service October 8, 1981, who had attained 50 years of age, may retire upon electronic submission or written application to the board of trustees setting forth at what time, as of the first day of a calendar month, not less than one day nor more than 120 days subsequent to the execution and filing thereof, he desires to be retired. (1973, c. 640, s. 1; 1981, c. 378, s. 6; 1983, c. 761, s. 230; 1987, c. 513, s. 1; 1991 (Reg. Sess., 1992), c. 873, s. 2; 2007-431, s. 4; 2009-66, ss. 3(e), 12(i), (j).)

(1) The member's sixty-fifth birthday or

(2) The date the member would have completed 24 years of creditable service if he had been in membership service from his retirement date until such date.

For the sole purpose of determining whether a member has completed the required 24 years of creditable service referred to in this subsection (b) or the date on which he would have completed such period of creditable service if he had remained in membership service, in the case of a member of the Teachers' and State Employees' Retirement System who became a member of this Retirement System under circumstances described in G.S. 135-28.1, and who at the time of his retirement hereunder is in service and has retained his membership in the Teachers' and State Employees' Retirement System as provided for in G.S. 135-28.1, his creditable service shall be taken as the sum of his creditable service hereunder plus the amount of creditable service remaining to his credit in such other system as provided for in G.S. 135-28.1.

(c) The foregoing subsections of this section to the contrary notwithstanding, in no event will the retirement allowance payable at any time to a retired member who was a member of a previous system immediately prior to January 1, 1974, prior to any reduction of such allowance in accordance with G.S. 135-61, be less than the retirement allowance to which he would have been entitled under the terms of such previous system if this Article had not been enacted.

CASE NOTES

Differential in percentages used to calculate retirement benefits does not violate the equal protection clause of U.S. Const., Amend. XIV. The objectives sought by the legislature to be obtained from the present retirement system are valid, and the method chosen is reasonably calculated to achieve that end. Gentry v. Uniform Judicial Retirement Sys., 378 F. Supp. 1 (M.D.N.C. 1974).

Applied in Shepherd v. Consolidated Judicial Retirement Sys., 89 N.C. App. 560, 366 S.E.2d 604 (1988).

§ 135-59. Disability retirement.

(a) Upon application by or on behalf of the member, any member in service who has completed five or more years of creditable service and who has not attained his sixty-fifth birthday may be retired by the Board of Trustees, on the first day of any calendar month, not less than one day nor more than 120 days next following the date of filing such application, on a disability retirement allowance; provided, that the medical board, after a medical examination of such member, shall certify that such member is mentally or physically incapacitated for the further performance of duty, that such incapacity was incurred at the time of active employment and has been continuous thereafter, that such incapacity is likely to be permanent, and that such member should be retired; and, provided further, that if a member is removed by the Supreme Court for mental or physical incapacity under the provisions of G.S. 7A-376, no action is required by the medical board under this section and, provided further, the medical board shall determine if the member is able to engage in gainful employment and, if so, the member shall still be retired and the disability retirement allowance as a result thereof shall be reduced as in G.S. 135-60(d). Provided further, that the medical board shall not certify any member as disabled who:

(1) Applies for disability retirement based upon a mental or physical incapacity which existed when the member first established membership in the system; or

(2) Is in receipt of any payments on account of the same disability which existed when the member first established membership in the system.

The Board of Trustees shall require each employee upon enrolling in the Retirement System to provide information on the membership application concerning any mental or physical incapacities existing at the time the member enrolls.

Notwithstanding the foregoing to the contrary, any beneficiary who commenced retirement with an early or service retirement benefit has the right, within three years of this retirement, to convert to an allowance with disability retirement benefits without modification of any election of optional allowance previously made; provided, the beneficiary presents clear and convincing evidence that the beneficiary would have met all applicable requirements for disability retirement benefits while still in service as a member. The allowance on account of disability retirement benefits to the beneficiary shall be retroactive to the effective date of early or service retirement.

(b) Notwithstanding the foregoing, the surviving spouse of a deceased member who has met all other requirements for disability retirement benefits, except whose death occurred before the first day of the calendar month in which the member's disability retirement allowance was due and payable, and who was the designated beneficiary for a return of accumulated contributions and the final compensation death benefit as provided in G.S. 135-63, shall be paid in lieu of the return of accumulated contributions and the final compensation death benefit a monthly allowance equal to a reduced retirement allowance provided by a fifty percent (50%) joint and survivorship option, plus the allowance payable to a former member's surviving spouse, in the manner prescribed under G.S. 135-64 as though the former member had commenced retirement the first day of the month following his death. (1973, c. 640, s. 1; 1981, c. 689, s. 3; c. 940, s. 2; 1985, c. 479, ss. 192(b), 194; 1987, c. 513, s. 1; 2009-66, s. 3(f).)

Effect of Amendments. — Session Laws 2009-66, s. 3(f), effective July 1, 2009, substituted "120 days" for "90 days" in the first sentence of the introductory paragraph of subsection (a).

§ 135-60. Disability retirement benefits.

(a) Upon retirement for disability in accordance with G.S. 135-59, a member shall receive a disability retirement allowance computed and payable as provided for service retirement in G.S. 135-58(a2) except that the member's creditable service shall be taken as the creditable service he would have had had he continued in service to the earliest date he could have retired on an unreduced service retirement allowance as a member in the same division of the General Court of Justice in which he was serving on his disability retirement date.

(b) Once each year during the first five years following retirement of a member on a disability retirement allowance, and once in every three-year period thereafter, the Board of Trustees may, and upon his application shall, require any disability beneficiary who has not yet attained his sixtieth birthday to undergo a medical examination, such examination to be made at the place of residence of the beneficiary or other place mutually agreed upon, by a physician or physicians designated by the Board of Trustees. Should any disability beneficiary who has not yet attained his sixtieth birthday refuse to submit to at least one medical examination in any such year by a physician or physicians designated by the Board of Trustees, his allowance may be discontinued until his withdrawal of such refusal, and should his refusal continue for one year, it shall be assumed that he is no longer disabled.

(c) Should the medical board certify to the Board of Trustees that a disability beneficiary prior to his sixty-fifth birthday has recovered to the extent that he would not satisfy the requirements for disability retirement if he were an active member of the Retirement System, or if his disability shall be assumed to have terminated in accordance with subsection (b) above, his disability retirement allowance shall thereupon cease, he shall be restored as a member of the Retirement System, and the period during which he was in receipt of a disability retirement allowance shall not be included in his creditable service.

(d) The Board of Trustees shall determine whether a disability beneficiary is engaged in or is able to engage in a gainful occupation paying more than the difference, as hereinafter indexed, between his disability retirement allowance and the gross compensation earned as an employee during the 12 consecutive months in the final 48 months of service prior to retirement producing the highest gross compensation excluding any compensation received on account of termination. If the disability beneficiary is earning or is able to earn more than the difference, the portion of his disability retirement allowance not provided by his contributions shall be reduced to an amount which, together with the portion of the disability retirement allowance provided by his contributions and the amount earnable by him shall equal the amount of his gross compensation prior to retirement. This difference shall be increased on January 1 of each year by the ratio of the Consumer Price Index to the Index one year earlier, calculated to the nearest tenth of one percent (1⁄10th of 1%). Should the earning capacity of the disability beneficiary later change, the portion of his disability retirement allowance not provided by his contributions may be further modified. In lieu of the reductions on account of a disability beneficiary earning more than the aforesaid difference, he may elect to convert his disability retirement allowance to a service retirement allowance calculated on the basis of his final compensation and creditable service at the time of disability retirement and his age at the time of conversion to service retirement. This election is irrevocable. (1973, c. 640, s. 1; 1981, c. 975, s. 4; c. 980, s. 5; 1983 (Reg. Sess., 1984), c. 1031, s. 19; 1999-237, s. 28.24(g).)

§ 135-61. Election of optional allowance.

Any member who retires under the provisions of this Article shall have the right to elect to have his allowance payable under any one of the optional forms provided for in G.S. 135-5(g), subject to the conditions therein contained, in lieu of the allowance that would otherwise be payable. (1973, c. 640, s. 1.)

§ 135-62. Return of accumulated contributions.

(a) Should a member cease membership service otherwise than by death or retirement under the provisions of this Article, he shall, upon submission of an application, be paid, not earlier than 60 days from the date of termination of service, his contributions and, if he has attained at least five years of membership service or if termination of his membership service is involuntary as certified by the employer, the accumulated regular interest thereon, provided that he has not in the meantime returned to service as a judge. Upon payment of such accumulated contributions his membership in the Retirement System shall cease and, if he thereafter again becomes a member, no credit shall be allowed for any service previously rendered, except as otherwise provided in G.S. 135-56(b). Any such payment of a member's accumulated contributions shall be in full and complete discharge of any rights in or to any benefits otherwise payable under this Article.

(b) Repealed by Session Laws 1993, c. 531, s. 7. (1973, c. 640, s. 1; 1981, c. 672, s. 4; 1983, c. 467; 1983 (Reg. Sess., 1984), c. 1031, s. 20; 1993, c. 531, s. 7.)

CASE NOTES

Recovery of Contributions Following Removal for Cause. — Loss of retirement benefits as the result of the removal of a judge from office for cause other than mental or physical incapacity does not mean that the judge forfeits his right to recover the contributions which he paid into the fund. In re Peoples, 296 N.C. 109, 250 S.E.2d 890 (1978), cert. denied, 442 U.S. 929, 99 S. Ct. 2859, 61 L. Ed. 2d 297 (1979).

§ 135-63. Benefits on death before retirement.

(a) Upon receipt of proof, satisfactory to the Board of Trustees, of the death of a member in service, there shall be paid in a lump sum to such person as the member shall have nominated by electronic submission prior to completing 10 years of service in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person is living at the time of the member's death, otherwise to the member's legal representatives, a death benefit equal to the sum of (i) the member's accumulated contributions, plus (ii) the member's final compensation; provided, however, that if the member has attained his fiftieth birthday with at least five years of membership service at his date of death, and if the designated recipient of the death benefits is the member's spouse who survives him, and if the spouse so elects, then the lump-sum death benefit provided for herein shall consist only of a payment equal to the member's final compensation and there shall be paid to the surviving spouse an annual retirement allowance, payable monthly, which shall commence on the first day of the calendar month coinciding with or next following the death of the member and shall be continued on the first day of each month thereafter until the remarriage or death of the spouse. The amount of any such retirement allowance shall be equal to one half of the amount of the retirement allowance to which the member would have been entitled had he retired under the provisions of G.S. 135-57(a) on the first day of the calendar month coinciding with or next following his date of death, reduced by two percent (2%) thereof for each full year, if any, by which the age of the member at his date of death exceeds that of his spouse. If the retirement allowance to the spouse shall terminate on the remarriage or death of the spouse before the total of the retirement allowance payments made equals the amount of the member's accumulated contributions at date of death, the excess of such accumulated contributions over the total of the retirement allowances paid to the spouse shall be paid in a lump sum to such person as the member shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person is living at the time such payment falls due, otherwise to the former member's legal representatives.

Effect of Amendments. — Session Laws 2008-107, s. 26.23(b), effective July 1, 2008, added subsection (cc).

§ 135-66. Administration; management of funds.

The State Treasurer shall be the custodian of the assets of this Retirement System and shall invest them in accordance with the provisions of G.S. 147-69.2 and 147-69.3. (1973, c. 640, s. 1; 1979, c. 467, s. 18.)

§ 135-67. Assets of Retirement System.

(a) All of the assets of the Retirement System shall be credited according to the purpose for which they are held to one of two funds, namely, the annuity savings fund and the pension accumulation fund.

(b) The annuity savings fund shall be the fund to which all members' contributions, and regular interest allowances thereon as provided for in G.S. 135-7(b), shall be credited. From this fund shall be paid the accumulated contributions of a member in accordance with G.S. 135-62, or 135-63.

(c) Upon the retirement of a member, his accumulated contributions shall be transferred from the annuity savings fund to the pension accumulation fund. In the event that a retired former member should subsequently again become a member of the Retirement System as provided for in G.S. 135-60(c) or 135-71, any excess of his accumulated contributions at his date of retirement over the sum of the retirement allowance payments received by him since his date of retirement shall be transferred from the pension accumulation fund to the annuity savings fund and shall be credited to his individual account in the annuity savings fund.

(d) The pension accumulation fund shall be the fund in which shall be accumulated contributions by the State and amounts transferred from the annuity savings fund in accordance with subsection (c) above, and to which all income from the invested assets of the Retirement System shall be credited. From this fund shall be paid retirement allowances and any other benefits provided for under this Article except payments of accumulated contributions as provided in subsection (b) above.

(e) The regular interest allowance on the members' accumulated contributions provided for in G.S. 135-7(b) shall be transferred each year from the pension accumulation fund to the annuity savings fund. (1973, c. 640, s. 1.)

§ 135-68. Contributions by the members.

(a) Each member shall contribute by payroll deduction for each pay period for which he receives compensation six percent (6%) of his compensation for such period.

(b) Anything within this Article to the contrary notwithstanding, the State, pursuant to the provisions of section 414(h)(2) of the Internal Revenue Code of 1954 as amended, shall pick up and pay the contributions which would be payable by the members under subsection (a) of this section with respect to the services of such members rendered after the effective date of this subsection.

The members' contributions picked up by the State shall be designated for all purposes of the Retirement System as member contributions, except for the determination of tax upon a distribution from the System. These contributions shall be credited to the annuity savings fund and accumulated within the fund in a member's account which shall be separately established for the purpose of accounting for picked-up contributions.

Member contributions picked up by the State shall be payable from the same source of funds used for the payment of compensation to a member. A deduction shall be made from a member's compensation equal to the amount of his contributions picked up by the State. This deduction, however, shall not reduce a member's compensation as defined in subdivision (5) of G.S. 135-53. Picked up contributions shall be transmitted to the Retirement System monthly for the preceding month by means of a warrant drawn by the State payable to the Retirement System and shall be accompanied by a schedule of the picked-up contributions on such forms as may be prescribed. CASE NOTES

Funding. — Teachers' and State Employees' Retirement System of North Carolina, Consolidated Judicial Retirement System of North Carolina, and Legislative Retirement System are funded by both employee and State, or employer, contributions under G.S. 135-8, 135-68, 135-69, 120-4.19, and 120-4.20; these systems provide for a systematic method of funding of the respective retirement system with employee contributions computed as a set percentage of the employees' salaries, and with systematic employer contributions in accordance with formulas mandated by the retirement statutes, which include calculations by an actuary based on the actuarial valuation of liabilities of the retirement systems. State Employees Ass'n of N.C., Inc. v. State, 154 N.C. App. 207, 573 S.E.2d 525, 2002 N.C. App. LEXIS 1451 (2002).

§ 135-69. Contributions by the State.

(a) The State shall contribute annually an amount equal to the sum of the "normal contribution" and the "accrued liability contribution."

(b) The normal contribution for any period shall be determined as a percentage, equal to the normal contribution rate, of the total compensation of the members for such period. The normal contribution rate shall be determined as the percentage represented by the ratio of (i) the annual normal cost to provide the benefits of the Retirement System, computed in accordance with recognized actuarial principles on the basis of methods and assumptions approved by the Board of Trustees, in excess of the part thereof provided by the members' contributions, to (ii) the total annual compensation of the members of the Retirement System.

(c) The accrued liability contribution for any period shall be determined as a percentage, equal to the accrued liability contribution rate, of the total compensation of the members for such period. The accrued liability contribution rate shall be determined as the percentage represented by the ratio of (i) the level annual contribution necessary to amortize the unfunded accrued liability over a period of 40 years, computed in accordance with recognized actuarial principles on the basis of methods and assumptions approved by the Board of Trustees, to (ii) the total annual compensation of the members of the Retirement System.

(d) The unfunded accrued liability as of any date shall be determined, in accordance with recognized actuarial principles on the basis of methods and assumptions approved by the Board of Trustees, as the excess of (i) the then present value of the benefits to be provided under the Retirement System in the future over (ii) the sum of the assets of the Retirement System then currently on hand in the annuity savings fund and the pension accumulation fund, plus the then present value of the stipulated contributions to be made in the future by the members, plus the then present value of the normal contributions expected to be made in the future by the State.

(e) The normal contribution rate and the accrued liability contribution rate shall be determined after each annual valuation of the Retirement System and shall remain in effect until a new valuation is made.

(f) The annual contributions by the State for any year shall be at least sufficient, when combined with the amount held in the pension accumulation fund at the start of the year, to provide the retirement allowances and other benefits payable out of the fund during the year then current. (1973, c. 640, s. 1.)

CASE NOTES

State Employees Ass'n of N.C., Inc. v. State, 154 N.C. App. 207, 573 S.E.2d 525, 2002 N.C. App. LEXIS 1451 (2002).

§ 135-70. Transfer of members to another system.

(a) Any member whose membership service is terminated other than by retirement or death and, who, while still a member of this Retirement System becomes a member of either the Teachers' and State Employees' Retirement System or the North Carolina Local Governmental Employees' Retirement System, may elect to retain his membership in this Retirement System by not withdrawing his accumulated contributions hereunder. Any such member shall retain all the rights, credits and benefits obtaining to him under this Retirement System at the time of such termination of service while he is a member of such other system and does not withdraw his contributions hereunder.

(a1) The accumulated contributions and creditable service of any member whose service as a member of this Retirement System has been or is terminated other than by retirement or death and who, while still a member of this Retirement System, became or becomes a member, as defined in G.S. 135-1(13), of the Teachers' and State Employees' Retirement System for a period of five or more years may, upon application of the member, be transferred from this Retirement System to the Teachers' and State Employees' Retirement System. In order to effect the transfer of a member's creditable service from this Retirement System to the Teachers' and State Employees' Retirement System, there shall be transferred from this Retirement System to the Teachers' and State Employees' Retirement System the sum of (i) the accumulated contributions of the member credited in the annuity savings fund and (ii) the amount of reserve held in this Retirement System as a result of previous contributions by the employer on behalf of the transferring member.

(b) Any member who becomes eligible for benefits under more than one system may file application therefor with each retirement system to the end that each retirement system shall pay appropriate benefits without transfer of funds between the systems.

(c) The Board of Trustees shall effect such rules as it may deem necessary to administer the provisions of the preceding subsections of this section and to prevent any duplication of service credits or benefits that might otherwise occur. (1973, c. 640, s. 1; 1983 (Reg. Sess., 1984), c. 1031, s. 21; 2003-284, s. 30.18(d).)

§ 135-70.1. Transfer of members from the Local Governmental Employees' Retirement System, the Teachers' and State Employees' Retirement System, or the Legislative Retirement System.

(a) The accumulated contributions, creditable service, and reserves, if any, of a former teacher or employee; as defined in G.S. 135-1(25), 135-1(10), and 128-21(10), respectively, or a former member of the General Assembly who is a member of the Consolidated Judicial Retirement System for a period of five or more years may, upon application of the member, be transferred from the Local Governmental Employees' Retirement System, the Teachers' and State Employees' Retirement System, or the Legislative Retirement System to the Consolidated Judicial Retirement System. The accumulated contributions, creditable service, and reserves of any member whose service as a teacher or employee or member of the General Assembly is terminated other than by retirement or death and who becomes a member of the Consolidated Judicial Retirement System may, upon application of the member, be transferred from the Local Governmental Employees' Retirement System, the Teachers' and State Employees' Retirement System, or the Legislative Retirement System to the Consolidated Judicial Retirement System. In order to effect the transfer of a member's creditable service from the Local Governmental Retirement System, the Teachers' and State Employees' Retirement System, or the Legislative Retirement System, to the Consolidated Judicial Retirement System, the accumulated contributions of each member credited in the annuity savings fund in the Local Governmental Employees' Retirement System, the Teachers' and State Employees' Retirement System, or the Legislative Retirement System shall be transferred and credited to the annuity savings fund in the Consolidated Judicial Retirement System.

(b) The Board of Trustees shall effect such rules as it may deem necessary to administer the preceding subsection and to prevent any duplication of service credits or benefits that might otherwise occur. (1999-237, s. 28.24(h); 2003-284, s. 30.18(e); 2005-276, s. 29.30A(h); 2005-345, s. 42.)

Editor's Note. — As enacted by 1999-237, s. 28.24(h), this section was numbered G.S. 135-70A. This section was renumbered as G.S. 135-70.1 at the direction of the Revisor of Statutes.

Session Laws 2005-345, s. 42, repealed Session Laws 2005-276, s. 29.30A(h), which had proposed to amend this section by adding a subsection (a1) concerning the transfer of accumulated contributions, etc., of Utilities Commissioners.

Session Laws 2008-107, s. 26.24(i), provides: "Notwithstanding the provisions of G.S. 135-28.1, G.S. 135-70.1, or any other law, any member covered by this section shall not be eligible to transfer any remaining creditable service from the Teachers' and State Employees' Retirement System to the Consolidated Judicial Retirement System until the member has contributed to the Consolidated Judicial System for a period of five years beginning July 1, 2008."

Session Laws 2008-107, s. 1.2, provides: "This act shall be known as 'The Current Operations and Capital Improvements Appropriations Act of 2008'."

Session Laws 2008-107, s. 30.3, provides: "Except for statutory changes or other provisions that clearly indicate an intention to have effects beyond the 2008-2009 fiscal year, the textual provisions of this act apply only to funds appropriated for, and activities occurring during, the 2008-2009 fiscal year."

Session Laws 2008-107, s. 30.5 is a severability clause.

§ 135-71. Return to membership of retired former member.

(a) In the event that a retired former member should at any time return to membership service, his retirement allowance shall thereupon cease and he shall be restored as a member of the Retirement System.

(b) Upon his subsequent retirement, he shall be paid a retirement allowance determined as follows:

(1) For a member who earns at least three years' membership service after restoration to service, the retirement allowance shall be computed on the basis of his compensation and service before and after the period of prior retirement without restrictions; provided, that if the prior allowance was based on a social security leveling payment option, the allowance shall be adjusted actuarially for the difference between the amount received under the optional payment and what would have been paid if the retirement allowance had been paid without optional modification.

(2) For a member who does not earn three years' membership service after restoration to service, the retirement allowance shall be equal to the sum of the retirement allowance to which he would have been entitled had he not been restored to service, without modification of the election of an optional allowance previously made, and the retirement allowance that results from service earned since being restored to service; provided, that if the prior retirement allowance was based on a social security leveling payment option, the prior allowance shall be adjusted actuarially for the difference between the amount that would have been paid for each month had the payment not been suspended and what would have been paid if the retirement allowance had been paid without optional modification.

(3) Subdivision (2) of this section shall apply only to restored members whose initial retirement lasted for more than four calendar months. For restored members whose initial retirement lasted for four or fewer calendar months, subdivision (1) shall apply.

(c) Notwithstanding any other provision in this Chapter, the retirement allowance of a justice or judge shall not be affected by the compensation received as an emergency justice or judge.

(d) Notwithstanding the provisions of G.S. 135-70.1 to the contrary, a retired former member and/or beneficiary of the Teachers' and State Employees' Retirement System as defined in G.S. 135-1(6), whose retirement allowance from this System and/or from the Teachers' and State Employees' Retirement System ceases upon a return to membership service under this System, shall be permitted to transfer the accumulated contributions, creditable service, and reserves, if any, from the Teachers' and State Employees' Retirement System to this System on the same basis as provided for members of other retirement systems under G.S. 135-70.1, if the member attains five or more years of total membership service in this System, and completes at least three years of membership service subsequent to the member's return to membership service. (1973, c. 640, s. 1; 1983 (Reg. Sess., 1984), c. 1031, s. 22; c. 1106, s. 3; 1987, c. 738, s. 39(b); 2005-276, s. 29.30A(i).)

§ 135-72: Repealed by Session Laws 1999-237, s. 28.25, effective July 1, 1999.

§ 135-73. Termination or partial termination; discontinuance of contributions.

In the event of the termination or partial termination of the Retirement System or in the event of complete discontinuance of contributions under the Retirement System, the rights of all affected members to benefits accrued to the date of such termination, partial termination, or discontinuance, to the extent funded as of such date, or the amounts credited to the members' accounts, shall be nonforfeitable and fully vested. (1987, c. 177, s. 1(a), (b).)

Editor's Note. — Session Laws 1987, c. 177, s. 1(c), made this section effective upon the first day of the calendar month following the State's receipt of a favorable letter of determination or ruling from the Internal Revenue Service, United States Department of Treasury, that the Retirement Systems were qualified trusts under Section 401(a) of the Internal Revenue Code of 1954 as amended. A favorable letter was received prior to the enactment of c. 177.

§ 135-74. Internal Revenue Code compliance.

(a) Notwithstanding any other provisions of law to the contrary, compensation for any calendar year after 1988 in which employee or employer contributions are made and for which annual compensation is used for computing any benefit under this Article shall not exceed the higher of two hundred thousand dollars ($200,000) or the amount determined by the Commissioner of Internal Revenue as the limitation for calendar years after 1989; provided the imposition of the limitation shall not reduce a member's benefit below the amount determined as of December 31, 1988.

Effective January 1, 1996, the annual compensation of a member taken into account for determining all benefits provided under this Article shall not exceed one hundred fifty thousand dollars ($150,000), as adjusted pursuant to section 401(a)(17)(B) of the Internal Revenue Code and any regulations issued under the Code. However, with respect to a person who became a member of the Retirement System prior to January 1, 1996, the imposition of this limitation on compensation shall not reduce the amount of compensation which may be taken into account for determining the benefits of that member under this Article below the amount of compensation which would have been recognized under the provisions of this Article in effect on July 1, 1993.

Effective January 1, 2002, the annual compensation of a person, who became a member of the Retirement System on or after January 1, 1996, taken into account for determining all benefits accruing under this Article for any plan year after December 31, 2001, shall not exceed two hundred thousand dollars ($200,000) or the amount otherwise set by the Internal Revenue Code or determined by the Commissioner of Internal Revenue as the limitation for calendar years after 2002.

(b) Notwithstanding any other provisions of law to the contrary, the annual benefit payable on behalf of a member shall, if necessary, be reduced to the extent required by Section 415(b) and with respect to calendar years commencing prior to January 1, 2000, Section 415(e) of the Internal Revenue Code, as adjusted by the Secretary of the Treasury or his delegate pursuant to Section 415(d) of the Code. If a member is a participant under any qualified defined contributions plan that is required to be taken into account for the purposes of the limitation contained in Section 415 of the Internal Revenue Code, the annual benefit payable under this Article shall be reduced to the extent required by Section 415(e) prior to making any reduction under the defined contribution plan provided by the employer. However, with respect to a member who has benefits accrued under this Article but whose benefit had not commenced as of December 31, 1999, the combined plan limitation contained in Section 415(e) of the Internal Revenue Code shall not be applied to such member for calendar years commencing on or after January 1, 2000.

(c) On and after January 1, 1989, the retirement allowance of a member who has terminated employment shall begin no later than the later of April 1 of the calendar year following the calendar year that the member attains 70 1/2 years of age or April 1 of the calendar year following the calendar year in which the member terminates employment.

(d) This subsection applies to distributions made on or after January 1, 1993. Notwithstanding any other provision of the Plan to the contrary that would otherwise limit a distributee's election under this Article, a distributee may elect, at the time and in the manner prescribed by the Plan administrator, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover. Provided, an eligible rollover distribution is any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include: any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the distributee or the joint lives (or joint life expectancies) of the distributee and the distributee's designated beneficiary, or for a specified period of 10 years or more; any distribution to the extent such distribution is required under section 401(a)(9) of the Code; and the portion of any distribution that is not includible in gross income (determined without regard to the exclusion for net realized appreciation with respect to employer securities). Effective as of January 1, 2002, and notwithstanding the preceding sentence, a portion of a distribution shall not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions which are not includible in gross income. However, such portion may be transferred only to an individual retirement account or annuity described in Section 408(a) or (b) of the Code, or to a qualified defined contribution plan described in Section 401(a) or 403(a) of the Code that agrees to separately account for amounts so transferred, including separately accounting for the portion of such distribution which is includible in gross income and the portion of such distribution which is not so includible. Provided, an eligible retirement plan is an individual retirement account described in section 408(a) of the Code, an individual retirement annuity described in section 408(b) of the Code, an annuity plan described in section 403(a) of the Code, or a qualified trust described in section 401(a) of the Code, that accepts the distributee's eligible rollover distribution. Effective on and after January 1, 2002, an eligible retirement plan shall also mean an annuity contract described in Section 403(b) of the Code and an eligible plan under Section 457(b) of the Code which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state and which agrees to separately account for amounts transferred into such plan from this Plan. The definition of eligible retirement plan shall also apply in the case of a distribution to surviving spouse, or to a spouse or former spouse who is the alternate payee under a qualified domestic relations order, as defined in Section 414(p) of the Internal Revenue Code, or a court-ordered equitable distribution of marital property, as provided under G.S. 50-30. Provided, a distributee includes an employee or former employee. Provided further, a direct rollover is a payment by the Plan to the eligible retirement plan specified by the distributee. Effective on and after January 1, 2007, notwithstanding any other provision of this subsection, a nonspouse beneficiary of a deceased member may elect, at the time and in the manner prescribed by the administrator of the Board of Trustees of this Retirement System, to directly roll over any portion of the beneficiary's distribution from the Retirement System; however, such rollover shall conform with the provisions of section 402(c)(11) of the Code. (1989, c. 276, s. 4; 1993, c. 531, s. 8; 1995, c. 361, s. 2; 2002-71, s. 8; 2009-66, s. 1(b).)

Effect of Amendments. — Session Laws 2009-66, s. 1(b), effective July 1, 2009, added the last sentence of subsection (d).

§ 135-75. Deduction for payments to certain employees' or retirees' associations allowed.

Any beneficiary who is a member of a domiciled employees' or retirees' association that has at least 2,000 members, the majority of whom are active or retired employees of the State or public school employees, may authorize, in writing, the periodic deduction from the beneficiary's retirement benefits a designated lump sum to be paid to the employees' or retirees' association. The authorization shall remain in effect until revoked by the beneficiary. A plan of deductions pursuant to this section shall become void if the employees' or retirees' association engages in collective bargaining with the State, any political subdivision of the State, or any local school administrative unit. (2002-126, s. 6.4(e).)

§ 135-75.1. Forfeiture of retirement benefits for certain felonies.

(a) Except as provided in G.S. 135-56(g), the Board of Trustees shall not pay any retirement benefits or allowances, except for a return of member contributions plus interest, to any member who is convicted of any felony under the federal laws listed in subsection (b) of this section or the laws of this State listed in subsection (c) of this section if all of the following apply:

(1) The federal or State offense is committed while serving as a justice, judge, district attorney, or clerk of superior court.

(2) The conduct on which the federal or State offense is based is directly related to the member's service as a justice, judge, district attorney, or clerk of superior court.

(b) The federal offenses covered by this section are as follows:

Session Laws 2003-284, s. 30.20(j), effective July 1, 2003, and applicable only to persons who are not vested in the disability plan in question on July 1, 2003, substituted "physical or cognitive limitations that prevent working as determined by the Department of State Treasurer and the Board of Trustees"; for "mental or physical incapacity for the further performance of duty of a participant or beneficiary" in subdivision (6).

Session Laws 2003-284, s. 49.5, is a severability clause.

Subdivision (6), as amended by Session Laws 2004-78, s. 1, is effective retroactively from and after July 1, 2003.

§ 135-102. Administration.

(a) The provisions of this Article shall be administered by the Department of State Treasurer and the Board of Trustees of the Teachers' and State Employees' Retirement System and all expenses in connection with the administration of the Plan, except for expenses incurred by and properly charged to the employer, shall be charged against and paid from the trust fund as created and provided in this Article.

(b) The Plan shall have the power and privileges of a corporation and under the name of Disability Income Plan of North Carolina shall all of its business be transacted, all of its funds invested and all of its cash, securities and other property be held.

(c) The Department of State Treasurer and the Board of Trustees shall have the full power and authority to adopt rules for the administration of the Plan not inconsistent with the provisions of this Article. The Department of State Treasurer and the Board of Trustees may appoint those agents, contractors, and employees as they deem advisable to carry out the terms and conditions of the Plan.

(d) The Department of State Treasurer and the Board of Trustees shall designate a Medical Board to be composed of not fewer than three nor more than five physicians not eligible for benefits under the Plan. Other physicians, medical clinics, institutions or agencies may be employed to conduct such medical examinations and tests necessary to provide the Medical Board with clinical evidence as may be needed to determine eligibility for benefits under the Plan. The Medical Board shall investigate the results of medical examinations, clinical evidence, all essential statements and certifications by and on behalf of applicants for benefits and shall report in writing to the Board of Trustees the conclusions and recommendations upon all matters referred to it.

(e) The Department of State Treasurer and the Board of Trustees may provide the benefits according to the terms and conditions of the Plan as provided in this Article either by purchasing a contract or contracts with any insurance company licensed to do business in this State or by establishing a separate trust fund qualified under Section 501(c)(9) of the Internal Revenue Code of 1986. (1987, c. 738, s. 29(q).)

§ 135-103. Eligible participants.

(a) The eligible participants of the Disability Income Plan shall consist of:

(1) All teachers and employees in service and members of the Teachers' and State Employees' Retirement System or participants of the Optional Retirement Program on January 1, 1988.

(2) All persons who become teachers and employees or re-enter service as teachers or employees and are in service and members of the Teachers' and State Employees' Retirement System or participants of the Optional Retirement Program after January 1, 1988.

(b) The participation of any person in the Disability Income Plan shall cease upon:

(1) The termination of the participant's employment as a teacher or State employee, or

(2) The participant's retirement under the provisions of the Teachers' and Employees' Retirement System or the Optional Retirement Program, or

(3) The participant's becoming a beneficiary under the Plan, or

(4) The participant's death. (1987, c. 738, s. 29(q).)

CASE NOTES

Applied in Williams v. North Carolina Dep't of Economic & Community Dev., 119 N.C. App. 535, 458 S.E.2d 750 (1995).

§ 135-104. Salary continuation.

(a) A participant shall receive no benefits from the Plan for a period of 60 continuous calendar days from the onset of disability determined as the last actual day of service, the day of the disabling event if the disabling event occurred on a day other than a normal workday, or the day succeeding at least 365 calendar days after service as a teacher or employee, whichever is later. These 60 continuous calendar days may be considered the waiting period before benefits are payable from the Plan. During this waiting period, a participant may be paid such continuation of salary as provided by an employer through the use of sick leave, vacation leave or any other salary continuation. Any such continuation of salary as provided by an employer shall not include any period a participant or beneficiary is in receipt of Workers' Compensation benefits.

(b) During the waiting period a participant may return to service for trial rehabilitation for periods of not greater than five continuous days of service. Such return to service will not cause a new waiting period to begin but shall extend the waiting period by the number of days of service. (1987, c. 738, s. 29(q); 1989, c. 717, s. 9; 1991 (Reg. Sess., 1992), c. 779, s. 2.)

CASE NOTES

Salary Continuation. — Because claimant had submitted an application for long-term disability and requested that he remain on the payroll until his accrued leave was exhausted, his request was sufficient exercise of his right to take salary continuation as a form of long-term disability payments, and because claimant was disabled prior to his termination, the trial court correctly ordered that claimant be compensated for the additional annual leave he would have accrued had he stayed on salary continuation through the end of his accrued annual leave. Williams v. North Carolina Dep't of Economic & Community Dev., 119 N.C. App. 535, 458 S.E.2d 750 (1995).

§ 135-105. Short-term disability benefits.

(a) Any participant who becomes disabled and is no longer able to perform his usual occupation may, after at least 365 calendar days succeeding his date of initial employment as a teacher or employee and at least one year of contributing membership service, receive a benefit commencing on the first day succeeding the waiting period; provided that the participant's employer and attending physician shall certify that such participant is mentally or physically incapacitated for the further performance of duty, that such incapacity was incurred at the time of active employment and has been continuous thereafter; provided further that the requirement for one year of contributing membership service must have been earned within 36 calendar months immediately preceding the date of disability and further, salary continuation used during the period as provided in G.S. 135-104 shall count toward the aforementioned one year requirement. As to the requirement that a participant applying for short term disability benefits have at least one year of contributing membership service within the 36 calendar months immediately preceding the date of disability, a participant who would have qualified for a benefit under this section but for service in the uniformed services shall not be denied a benefit under this section because of that interruption for military service provided all other requirements of this section are met.

Notwithstanding the requirement that the incapacity was incurred at the time of active employment, any participant who becomes disabled while on an employer approved leave of absence and who is eligible for and in receipt of temporary total benefits under The North Carolina Workers' Compensation Act, Article 1 of Chapter 97 of the General Statutes, will be eligible for all benefits provided under this Article.

(b) The benefits as provided for in subsection (a) of this section shall commence on the first day following the waiting period and shall be payable for a period of 365 days as long as the participant continues to meet the definition of disability. However, a disabled participant may elect to receive any salary continuation as provided in G.S. 135-104 in lieu of short-term disability benefits; provided further, such election shall not extend the 365 days duration of short-term payments. An election to receive any salary continuation for any part of a given day shall be in lieu of any short-term benefit otherwise payable for that day, provided further, any lump-sum payout for vacation leave shall be treated as if the beneficiary or participant had exhausted the leave and shall be in lieu of any short-term benefit otherwise payable.

(c) The monthly benefit as provided in subsection (a) of this section shall be equal to fifty percent (50%) of 1/12th of the annual base rate of compensation last payable to the participant prior to the beginning of the short-term benefit period as may be adjusted for percentage increases as provided under G.S. 135-108 plus fifty percent (50%) of 1⁄12th of the annual longevity payment to which the participant would be eligible, to a maximum of three thousand dollars ($3,000) per month reduced by monthly payments for Workers' Compensation to which the participant may be entitled. The monthly benefit shall be further reduced by the amount of any payments from the federal Veterans Administration, any other federal agency, or any payments made under the provisions of G.S. 127A-108, to which the participant or beneficiary may be entitled on account of the same disability. Provided, that should a participant have earnings in an amount greater than the short-term benefit, the amount of the short-term benefit shall be reduced on a dollar-for-dollar basis by the amount that exceeds the short-term benefit.

(d) The provisions of this section shall be administered by the employer and further, the benefits during the first six months of the short-term disability period shall be the full responsibility of and paid by the employer; Provided, further, that upon the completion of the initial six months of the short-term disability period, the employer will continue to be responsible for the short-term benefits to the participant, however, such employer shall notify the Plan, at the conclusion of the short-term disability period or upon termination of short-term disability benefits, if earlier, of the amount of short-term benefits paid and the Plan shall reimburse the employer the amounts so paid.

(e) During the short-term disability period, a beneficiary may return to service for trial rehabilitation for periods of not greater than 40 continuous days of service. Such return will not cause the beneficiary to become a participant and will not require a new waiting period or short-term disability period to commence unless a different incapacity occurs. The period of rehabilitative employment shall not extend the period of the short-term disability benefits.

(f) A participant or beneficiary of short-term disability benefits or his legal representative or any person deemed by the Board of Trustees to represent the participant or beneficiary, or the employer of the participant or beneficiary, may request the Board of Trustees to have the Medical Board make a determination of eligibility for the short-term disability benefits as provided in this section or to make a preliminary determination of eligibility for the long-term disability benefits as provided in G.S. 135-106. A preliminary determination of eligibility for long-term disability benefits shall not preclude the requirement that the Medical Board make a determination of eligibility for long-term disability benefits.

(g) The Board of Trustees may extend the short-term disability benefits of a beneficiary beyond the benefit period of 365 days for an additional period of not more than 365 days; provided the Medical Board determines that the beneficiary's disability is temporary and likely to end within the extended period of short-term disability benefits. During the extended period of short-term disability benefits, payment of benefits shall be made by the Plan directly to the beneficiary. (1987, c. 738, s. 29(q); 1989, c. 717, s. 10; 1989 (Reg. Sess., 1990), c. 1032, s. 1; 1991 (Reg. Sess., 1992), c. 779, s. 3; 1993 (Reg. Sess., 1994), c. 769, s. 7.30(t); 2003-284, s. 30.20(k); 2004-78, s. 2; 2007-325, s. 1.)

Editor's Note. — Session Laws 2003-284, s. 1.2, provides: "This act shall be known as the 'Current Operations and Capital Improvements Appropriations Act of 2003'."

Session Laws 2003-284, s. 30.20(k), effective July 1, 2003, and applicable only to persons who are not vested in the disability plan in question on July 1, 2003, in subsection (a), substituted "unable to perform the duties of the participants's job or any other available jobs with the State" for "no longer able to perform his usual occupation," and substituted "cannot perform the duties of the participant's job or any other jobs available with the State" for "is mentally or physically incapacitated for the further performance of duty."

Session Laws 2003-284, s. 49.5, is a severability clause.

Subsection (a), as amended by Session Laws 2004-78, s. 2, is effective retroactively from and after July 1, 2003.

§ 135-106. Long-term disability benefits.

(a) Upon the application of a beneficiary or participant or of his legal representative or any person deemed by the Board of Trustees to represent the participant or beneficiary, any beneficiary or participant who has had five or more years of membership service may receive long-term disability benefits from the Plan upon approval by the Board of Trustees, commencing on the first day succeeding the conclusion of the short-term disability period provided for in G.S. 135-105, provided the beneficiary or participant makes application for such benefit within 180 days after the short-term disability period ceases, after salary continuation payments cease, or after monthly payments for Workers' Compensation cease, whichever is later; Provided, that the beneficiary or participant withdraws from active service by terminating employment as a teacher or State employee; Provided, that the Medical Board shall certify that such beneficiary or participant is mentally or physically incapacitated for the further performance of duty, that such incapacity was incurred at the time of active employment and has been continuous thereafter, and that such incapacity is likely to be permanent; Provided further that the Medical Board shall not certify any beneficiary or participant as disabled who is in receipt of any payments on account of the same incapacity which existed when the beneficiary first established membership in the Retirement System. The Board of Trustees may extend this 180-day filing requirement upon receipt of clear and convincing evidence that application was delayed through no fault of the disabled beneficiary or participant and was delayed due to the employers' miscalculation of the end of the 180-day filing period. However, in no instance shall the filing period be extended beyond an additional 180 days.

The Board of Trustees may require each beneficiary who becomes eligible to receive a long-term disability benefit to have an annual medical review or examination for the first five years and thereafter once every three years after the commencement of benefits under this section. However, the Board of Trustees may require more frequent examinations and upon the advice of the Medical Board shall determine which cases require such examination. Should any beneficiary refuse to submit to any examination required by this subsection or by the Medical Board, his long-term disability benefit shall be suspended until he submits to an examination, and should his refusal last for one year, his benefit may be terminated by the Board of Trustees. If the Medical Board finds that a beneficiary is no longer mentally or physically incapacitated for the further performance of duty, the Medical Board shall so certify this finding to the Board of Trustees, and the Board of Trustees may terminate the beneficiary's long-term disability benefits effective on the last day of the month in which the Medical Board certifies that the beneficiary is no longer disabled.

As to the requirement of five years of membership service, any participant or beneficiary who does not have five years of membership service within the 96 calendar months prior to conclusion of the short-term disability period or cessation of salary continuation payments, whichever is later, shall not be eligible for long-term disability benefits.

Notwithstanding the requirement that the incapacity was incurred at the time of active employment, any participant who becomes disabled while on an employer approved leave of absence and who is eligible for and in receipt of temporary total benefits under The North Carolina Workers' Compensation Act, Article 1 of Chapter 97 of the General Statutes, will be eligible for all benefits provided under this Article.

(b) After the commencement of benefits under this section, the benefits payable under the terms of this section during the first 36 months of the long-term disability period shall be equal to sixty-five percent (65%) of 1/12th of the annual base rate of compensation last payable to the participant or beneficiary prior to the beginning of the short-term disability period as may be adjusted for percentage increases as provided under G.S. 135-108, plus sixty-five percent (65%) of 1/12th of the annual longevity payment to which the participant or beneficiary would be eligible, to a maximum of three thousand nine hundred dollars ($3,900) per month reduced by any primary Social Security disability benefits and by monthly payments for Workers' Compensation to which the participant or beneficiary may be entitled. The monthly benefit shall be further reduced by the amount of any monthly payments from the federal Department of Veterans Affairs, any other federal agency or any payments made under the provisions of G.S. 127A-108, to which the participant or beneficiary may be entitled on account of the same disability. Provided, in any event, the benefit payable shall be no less than ten dollars ($10.00) a month. However, a disabled participant may elect to receive any salary continuation as provided in G.S. 135-104 in lieu of long-term disability benefits; provided such election shall not extend the first 36 consecutive calendar months of the long-term disability period. An election to receive any salary continuation for any part of any given day shall be in lieu of any long-term benefit payable for that day, provided further, any lump-sum payout for vacation leave shall be treated as if the beneficiary or participant had exhausted the leave and shall be in lieu of any long-term benefit otherwise payable. Provided that, in any event, a beneficiary's benefit shall be reduced during the first 36 months of the long-term disability period by an amount, as determined by the Board of Trustees, equal to a primary Social Security retirement benefit to which the beneficiary might be entitled.

After 36 months of long-term disability, no further benefits are payable under the terms of this section unless the member has been approved and is in receipt of primary Social Security disability benefits. In that case the benefits payable shall be equal to sixty-five percent (65%) of 1/12th of the annual base rate of compensation last payable to the participant or beneficiary prior to the beginning of the short-term disability period as may be adjusted for percentage increases as provided under G.S. 135-108, plus sixty-five percent (65%) of 1/12th of the annual longevity payment to which the participant or beneficiary would be eligible, to a maximum of three thousand nine hundred dollars ($3,900) per month reduced by the primary Social Security disability benefits and by monthly payments for Workers' Compensation to which the participant or beneficiary may be entitled. The monthly benefit shall be further reduced by the amount of any monthly payments from the federal Department of Veterans Affairs, for payments from any other federal agency, or for any payments made under the provisions of G.S. 127A-108, to which the participant or beneficiary may be entitled on account of the same disability. Provided, in any event, the benefit payable shall be no less than ten dollars ($10.00) a month.

Notwithstanding the foregoing, the long-term disability benefit is payable so long as the beneficiary is disabled and is in receipt of a primary Social Security disability benefit until the earliest date at which the beneficiary is eligible for an unreduced service retirement allowance from the Retirement System, at which time the beneficiary would receive a retirement allowance calculated on the basis of the beneficiary's average final compensation at the time of disability as adjusted to reflect compensation increases subsequent to the time of disability and the creditable service accumulated by the beneficiary, including creditable service while in receipt of benefits under the Plan. In the event the beneficiary has not been approved and is not in receipt of a primary Social Security disability benefit, the long-term disability benefit shall cease after the first 36 months of the long-term disability period. However, a beneficiary shall be entitled to a restoration of the long-term disability benefit in the event the Social Security Administration grants a retroactive approval for primary Social Security disability benefits with a benefit effective date within the first 36 months of the long-term disability period. In such event, the long-term disability benefit shall be restored retroactively to the date of cessation.

(c) Notwithstanding the foregoing, a beneficiary in receipt of long-term disability benefits who has earnings during the long-term disability period shall have his long-term disability benefit reduced when the sum of the net long-term disability benefit and the earnings equals one hundred percent (100%) of monthly compensation adjusted as provided under G.S. 135-108. The net long-term benefit shall mean the long-term benefit amount payable as calculated under (b) above, after the reduction for Social Security benefits and Workers' Compensation benefits to which the beneficiary might be entitled, and after the reduction for any monthly payments from the federal Department of Veterans Affairs, for payments from any other federal agency, or for any payments made under the provisions of G.S. 127A-108, to which the participant or beneficiary may be entitled on account of the same disability. The net long-term disability benefit shall be reduced dollar-for-dollar for the amount of earnings in excess of the one hundred percent (100%) monthly limit. Any beneficiary exceeding the earnings limitations shall notify the Plan by the fifth of the month succeeding the month in which the earnings were received of the amount of earnings in excess of the limitations herein provided. Failure to report excess earnings may result in a suspension or termination of benefits as determined by the Board of Trustees.

(c1) During the long-term disability period, a beneficiary may return to service for trial rehabilitation for periods of not greater than 36 months of continuous service. Such return will not cause the beneficiary to become a participant and will not require a new waiting period or short-term disability period to commence regardless of whether the beneficiary is unable to continue in service due to the same incapacity or a different incapacity.

A beneficiary who, during a period of trial rehabilitation, is unable to continue in service may be entitled to a restoration of the long-term disability benefit provided that the Medical Board certifies that the beneficiary is disabled in accordance with the laws in effect at the time of the Board's original approval for long-term disability benefits, either due to the same or a different incapacity, notwithstanding the requirement the incapacity has been continuous. In the event that the Medical Board determines that the long-term disability benefit should be restored, the restored benefit should be calculated in accordance with G.S. 135-106(b); should include any post-disability benefit adjustments as provided by G.S. 135-108; and shall continue as long as the beneficiary remains disabled until the beneficiary has received a total of 36 long-term disability payments. Continuation of long-term disability benefit payments beyond 36 total payments shall be dependent upon approval for primary Social Security disability benefits as required by G.S. 135-106(b).

A beneficiary who returns to service for a period of trial rehabilitation and who has continued in service for greater than 36 continuous months shall again become a participant, and any subsequent incapacity shall be treated as a new incapacity causing a new waiting period to begin. Such a beneficiary may be entitled to additional long-term disability benefits on account of the new incapacity provided the beneficiary meets all other requirements notwithstanding the requirement of five years of membership service within the 96 calendar months prior to becoming disabled or the cessation of continuous salary continuation payments.

(d) Notwithstanding the foregoing, a participant or beneficiary who has applied for and been approved by the Medical Board for long-term disability benefits may make an irrevocable election, within 90 days from the date of notification of such approval, and prior to receipt of any long-term disability benefit payments, to forfeit all pending and accrued rights to the long-term disability benefit including any ancillary benefits and retire on an early service retirement allowance or receive a return of accumulated contributions from the Retirement System. Session Laws 2003-284, s. 30.20(*l*), effective July 1, 2003, and applicable only to persons who are not vested in the disability plan in question on July 1, 2003, in subsection (a), substituted "unable to perform any occupation for which the beneficiary or participant is reasonably qualified for by training or experience" for "mentally or physically incapacitated for the further performance of duty"; and in the second paragraph, substituted "unable to perform any occupation for which the beneficiary or participant is reasonably qualified for by training or experience, the Department of State Treasurer" for "mentally or physically incapacitated for the further performance of duty, the Medical Board shall so certify this finding to the Board of Trustees."

Session Laws 2003-284, s. 49.5, is a severability clause.

Subsection (a), as amended by Session Laws 2004-78, s. 3, is effective retroactively from and after July 1, 2003.

Session Laws 2004-78, s. 4, as amended by Session Laws 2005-276, s. 29.30B, and as amended by Session Laws 2006-74, s. 4, effective August 1, 2007, and applicable only to persons not vested in the disability plan in question on that date, substituted "unable to perform any occupation or employment commensurate to the beneficiary's or participant's education, training, or experience, which is available in the same commuting area for State employees or within the same local school administrative unit for school personnel, without an adverse impact on the beneficiary's or participant's career status, and in which the beneficiary or participant can be expected to earn not less than sixty-five percent (65%) of that beneficiary's or participant's predisability earnings" for "mentally or physically incapacitated for the further performance of duty" in the first paragraph in subsection (a).

Session Laws 2007-325, s. 2, which amended this section, was effective August 1, 2007, and applicable only to those persons who have less than five years of membership service as of July 31, 2007.

CASE NOTES

"Primary". — "Primary" as used in subsection (b) refers to benefits directly received by the disabled person as opposed to "secondary" benefits, which are derivative benefits that may be paid to a disabled worker's spouse, children, or family under certain circumstances. Willoughby v. Board of Trustees, 121 N.C. App. 444, 466 S.E.2d 285 (1996).

"Entitle". — "Entitle" has acquired no technical meaning, and therefore "entitle" must be given its ordinary meaning. Willoughby v. Board of Trustees, 121 N.C. App. 444, 466 S.E.2d 285 (1996).

Offset for Insurance Benefits Under Social Security. — Under G.S. 135-106(b), the amount of the offset should be the net insurance benefits under the Social Security Administration (SSA) after deduction of attorney's fees and costs associated with obtaining the disability insurance benefits from the SSA. Willoughby v. Board of Trustees, 121 N.C. App. 444, 466 S.E.2d 285 (1996).

Entitlement to Attorney Fees. — Since former employee's attorney has a right superior as against employee to the attorney's fee and since attorney must claim her fee directly from the Social Security Administration (SSA), employee was not entitled within the meaning of G.S. 135-106(b) to the amount statutorily reserved for the attorney's fee. Willoughby v. Board of Trustees, 121 N.C. App. 444, 466 S.E.2d 285 (1996).

Salary Continuation as a Form of Long-Term Disability. — Because claimant had submitted an application for long-term disability and requested that he remain on the payroll until his accrued leave was exhausted, his request was sufficient exercise of his right to take salary continuation as a form of long-term disability payments, and because claimant was disabled prior to his termination, the trial court correctly ordered that claimant be compensated for the additional annual leave he would have accrued had he stayed on salary continuation through the end of his accrued annual leave. Williams v. North Carolina Dep't of Economic & Community Dev., 119 N.C. App. 535, 458 S.E.2d 750 (1995).

§ 135-107. Optional Retirement Program.

Any participant of the Optional Retirement Program who becomes a beneficiary under the Plan shall be eligible to receive long-term disability benefits so long as the beneficiary is disabled and is in receipt of a primary Social Security disability benefit until the time the beneficiary would first qualify for an unreduced service retirement benefit had the beneficiary elected to be a member of the Teachers' and State Employees' Retirement System, and shall receive no service accruals as otherwise provided members of the Retirement System under the provisions of G.S. 135-4(y). In the event a beneficiary who was a participant in the Optional Retirement Program has not been approved and is not in receipt of a primary Social Security disability benefit, the long-term disability benefit shall cease after the first 36 months of the long-term disability period. However, a beneficiary shall be entitled to a restoration of the long-term disability benefit in the event the Social Security Administration grants a retroactive approval for primary Social Security disability benefits with a benefit effective date within the first 36 months of the long-term disability period. In such event, the long-term disability benefit shall be restored retroactively to the date of cessation. (1987, c. 738, s. 29(q); 2007-325, s. 3.)

Editor's Note. — Session Laws 2007-325, s. 3, which amended this section, was effective August 1, 2007, and applicable only to those persons who have less than five years of membership service as of July 31, 2007.

§ 135-108. Post disability benefit adjustments.

The compensation upon which the short-term or long-term disability benefit is calculated under the provisions of G.S. 135-105(c) or G.S. 135-106(b) may be increased by any permanent across-the-board salary increase granted to employees of the State by the General Assembly and the benefits payable to beneficiaries shall be recalculated based upon the increased compensation, reduced by any percentage increase in Social Security benefits granted by the Social Security Administration times the amount used in the reduction of benefits for primary Social Security disability or retirement benefit as provided in G.S. 135-106(b). The provisions of this section shall be subject to future acts of the General Assembly. (1987, c. 738, s. 29(q); 2001-424, s. 32.32A.)

§ 135-109. Reports of earnings.

The Department of State Treasurer and Board of Trustees shall require each beneficiary to annually provide a statement of the beneficiary's income received as compensation for services, including fees, commissions, or similar items, income received from business, and benefits received from the Social Security Administration, the federal Veterans Administration, any other federal agency, under the North Carolina Workers' Compensation Act, or under the provisions of G.S. 127A-108. The benefit payable to a beneficiary who does not or refuses to provide the information requested within 60 days after such request shall not be paid a benefit until the information so requested is provided, and should such refusal or failure to provide such information continue for 240 days after such request the right of a beneficiary to a benefit under the Article may be terminated. (1987, c. 738, s. 29(q); 2003-359, s. 23.)

§ 135-110. Funding and management of funds.

(a) A trust fund is hereby created to which all receipts, transfers, appropriations, contributions, investment earnings and other income belonging to the Plan shall be deposited, and from which all benefits, expenses, and other charges against the Plan shall be disbursed. The Board of Trustees shall be the trustee of the funds created by this Article.

(b) The Board of Trustees shall on the basis of such economic and demographic assumptions duly adopted, determine and adopt a uniform percentage of compensation as is defined in Article 1 of this Chapter which would be sufficient to fund the benefits payable under this Article on a term cost method basis as recommended by an actuary engaged by the Board of Trustees. Such uniform percentage of compensation shall not be inconsistent with acts of the General Assembly as may be thereafter adopted.

(c) Each employer shall contribute monthly to the Plan an amount determined by applying the uniform percentage of compensation adopted by the Board of Trustees multiplied by the compensation of teachers and employees reportable to the Retirement System or the Optional Retirement Program. Such monthly contribution shall be paid by the employer from the same source of funds from which the compensation of teachers and employees are paid.

(d) The State Treasurer shall be the custodian of the funds and shall invest the assets of the fund in accordance with the provisions of G.S. 147-69.2 and G.S. 147-69.3. (1987, c. 738, s. 29(q).)

§ 135-111. Applicability of other pension laws.

Subject to the provisions of this Article, the provisions of G.S. 135-9, entitled "Exemption from taxes, garnishment, attachment, etc."; G.S. 135-10, entitled "Protection against fraud"; G.S. 135-10.1, entitled "Failure to Respond"; and G.S. 135-17, entitled "Facility of payment" shall be applicable to this Article and to benefits paid pursuant to the provisions of this Article. § 135-112. Transition provisions.

(a) Any participant in service as of the date of ratification of this Article and who becomes disabled after one year of membership service will be eligible for all benefits provided under this Article notwithstanding the requirement of five years' membership service to receive the long-term benefit; provided, however, any beneficiary who receives benefits as a result of this transition provision before completing five years of membership service shall receive lifetime benefits in lieu of service accruals under the Retirement System as otherwise provided in G.S. 135-4(y).

(b) All benefit recipients under the former Disability Salary Continuation Plan provided for in G.S. 135-34 and the rules adopted thereto shall become beneficiaries under this Plan under the same provisions and conditions including the benefit amounts payable as were provided under the former Disability Salary Continuation Plan. Any benefit recipient under the former Disability Salary Continuation Plan who returns to service on or after January 1, 1988, who subsequently becomes disabled due to the same disabling condition within 90 days after restoration to service shall not become a participant of the Disability Income Plan but shall be entitled to a restoration of the disability benefit under the same provisions and conditions, including the benefit amounts payable, as were provided under the former Disability Salary Continuation Plan, and shall be entitled to make application for disability retirement benefits under the Retirement System under the same provisions and conditions as were provided members whose service terminated prior to January 1, 1988.

(c) Any person who retired on a disability retirement allowance from the Teachers' and State Employees' Retirement System prior to the effective date of this Article shall be entitled to apply for and receive any benefits that would have otherwise been provided under the Disability Salary Continuation Plan provided for in G.S. 135-34 and shall become beneficiaries under this Plan, under the same provisions and conditions, including the benefit amounts payable, as were provided under the former Disability Salary Continuation Plan. The benefits provided in this Article as applicable to a participant who is not a beneficiary under the provisions of this Article shall not be considered as a part of an employment contract, either written or implied, and the General Assembly reserves the right at any time and from time to time to modify, amend in whole or in part or repeal the provisions of this Article. (1987, c. 738, s. 29(q).)

§ 135-114. Reciprocity of membership service with the Legislative Retirement System and the Consolidated Judicial Retirement System.

Only for the purpose of determining eligibility for benefits accruing under this Article, membership service standing to the credit of a member of the Legislative Retirement System or the Consolidated Judicial Retirement System shall be added to the membership service standing to the credit of a member of the Teachers' and State Employees' Retirement System. However, in the event that a participant or beneficiary is a retired member of the Legislative Retirement System or the Consolidated Judicial Retirement System whose retirement benefit was suspended upon entrance into membership in the Teachers' and State Employees' Retirement System, such membership service standing to the credit of the retired member prior to retirement shall be likewise counted.
